(c) In addition to the powers conferred upon the Governor by this chapter, a state of emergency may be proclaimed by emergency order of the Governor upon a finding that an emergency or disaster has occurred or that such occurrence or threat of that occurrence is imminent. The state of emergency shall continue until the Governor finds that the threat or danger has passed or the emergency or disaster has been dealt with to the extent that conditions necessitating a state of emergency no longer exist and terminates the state of emergency by subsequent order. No state of emergency can continue for more than 30 days without being renewed by the Governor. If conservation measures are ordered without a state of emergency, a hearing shall be held within 60 days upon 7 days' notice. Notice of the hearing shall be published at least 7 days before the hearing in no less than 2 Delaware newspapers of general circulation. A waiver from a Level 2 Driving Restriction may be granted when a significant safety, health or business necessity is shown for issuing such a waiver. The Secretary of the Department of Safety and Homeland Security shall promulgate rules and regulations necessary to carry out the provisions of this subsection. An employer or entity which has not been granted a waiver shall not terminate, reprimand, discipline, or in any way commit any adverse employment action against an employee who, as a result of the activation of the a Level 2 Driving Restriction, fails or refuses to report to work during the pendency of the driving restriction. § 3136 Isolation and quarantine during public health emergency.

The following isolation and quarantine procedures shall be in effect during a state of emergency:

(1) *General authority.* — The public safety authority may exercise, for such period as the state of emergency exists, the following emergency powers over persons:

- a. To establish and maintain places of isolation and quarantine;
- b. To isolate and quarantine individuals subject to the procedures enumerated in this section; and
- c. To require isolation or quarantine of any person by the least restrictive means necessary to protect the public health, subject to the other provisions of this section. All reasonable means shall be taken to prevent the transmission of infection among the isolated or quarantined individuals.

(2) *Standard for quarantine or isolation.* — a. Persons shall be isolated or quarantined if it is determined by clear and convincing evidence that the person to be isolated or quarantined poses a significant risk of transmitting a disease to others with serious consequences. A person's refusal to accept medical examination, vaccination or treatment pursuant to §§ 3135 and 3137 of this title shall constitute prima facie evidence that said person should be quarantined or isolated.

b. Isolation or quarantine of any person shall be terminated when such person no longer poses a significant risk of transmitting a disease to others with serious consequences.

(3) *Character of isolation and quarantine area.* — a. To the extent possible, the premises in which persons are isolated or quarantined shall be maintained in safe and hygienic manners designed to minimize the likelihood of further transmission of infection or other harm to persons subject to isolation or quarantine. Adequate food, clothing, medication and other necessities and competent medical care shall be provided.

b. Isolated individuals must be confined separately from quarantined individuals.

c. The health status of isolated and quarantined individuals must be monitored regularly to determine if their status should change. If a quarantined individual subsequently becomes infected or is reasonably believed to have become infected with a contagious or possibly contagious disease, the individual must promptly be moved to isolation.

(4) *Control of quarantine and isolation area.* — a. A person subject to isolation or quarantine shall obey the public safety authority's rules and orders, shall not go beyond the isolation or quarantine premises, and shall not put himself or herself in contact with any person not subject to isolation or quarantine other than a physician or other health care provider, public health authority, or person authorized to enter isolation or quarantine premises by the public safety authority. Any person entering isolation or quarantine premises may be isolated or quarantined.

b. No person, other than a person authorized by the public safety authority, shall enter isolation or quarantine premises. If by reason of an unauthorized entry into an isolation or quarantine premises, the person poses a danger to public health, that person may be subject to isolation or quarantine pursuant to the provisions of this section.

(5) *Procedures for isolation and quarantine.* — The following procedures shall protect the due process rights of individuals:

a. The public safety authority shall petition the Superior Court for an order authorizing the isolation or quarantine of an individual or groups of individuals.

b. A petition pursuant to paragraph (5)a. of this section shall specify the following:

1. The identity of the individual or group of individuals subject to isolation or quarantine;
2. The premises subject to isolation or quarantine;
3. The date and time at which the public safety authority request isolation or quarantine to commence;
4. The suspected contagious disease, if known;
5. A statement of compliance with the conditions and principles for isolation and quarantine; and

6. A statement of the basis upon which isolation or quarantine is justified.

7. A statement of what effort, if any, has been made to give notice of the hearing to the individual or group of individuals to be isolated or quarantined, or the reason supporting the claim that notice should not be required.

c. *Ex parte orders.* — Before isolating or quarantining a person, the public safety authority shall obtain a written order, which may be an ex parte order, from the Superior Court authorizing such action. An order, which may be an ex parte order, shall be requested as part of a petition filed in compliance with paragraphs (5)a. and b. of this section. The Court shall grant an order, which may be an ex parte order, upon finding by clear and convincing evidence that isolation or quarantine is warranted pursuant to the provisions of this subchapter. A copy of the authorizing order shall be given to the person ordered to be isolated or quarantined, along with notification that the person has a right to a hearing under paragraph (5)e. of this section.

d. *Temporary quarantine or isolation pending filing of a petition.* — Notwithstanding the preceding paragraphs, the public safety authority may isolate or quarantine a person without first obtaining a written order, which may be an ex parte order, from the Court if a physician determines that any delay in the isolation or quarantine of the person would pose an immediate and severe danger to the public health. Following such isolation or quarantine, the public health authority shall file a petition pursuant to paragraphs (5)a. through c. of this section within 24 hours. In addition, if the public safety authority exercises its powers under this paragraph (5), it must provide a written directive to the individuals or groups under temporary quarantine or isolation indicating the identities of the individuals or groups subject to the directive, the premises subject to isolation or quarantine, the date and time that the directive commences, the suspected contagious disease (if known), and a copy of § 3138 of this title.

e. *Speedy hearing.* — The Court shall grant a hearing within 72 hours of the filing of a petition when an individual has been isolated or quarantined pursuant to paragraph (5)c. or d. of this section.

f. *Consolidation of claims.* — The Court may order consolidation of individual claims into a group of claims where:

1. The number of individuals involved or to be affected is so large as to render individual participation impractical;
2. There are questions of law or fact common to the individual claims or rights to be determined;
3. The group claims or rights to be determined are typical of the affected individuals' claims or rights; and
4. The entire group will be adequately represented in the consolidation, giving due regard to the rights of affected individuals.

(6) *Relief for isolated and quarantined persons.* — a. On or after 10 days following a hearing as is provided for in paragraph (5)e. of this section, a person isolated or quarantined pursuant to the provisions of this section may request in writing a Court hearing to contest his or her continued isolation or quarantine. The hearing shall be held within 72 hours of receipt of such request, excluding Saturdays, Sundays and legal holidays. A request for a hearing shall not alter the order of isolation or quarantine. At the hearing, the public safety authority must show by clear and convincing evidence that continuation of the isolation or quarantine is warranted because the person poses a significant risk of transmitting a disease to others with serious consequences.

b. A person isolated or quarantined pursuant to the provisions of this section may request a hearing in the Superior Court for remedies regarding his or her treatment and the terms and conditions of such quarantine or isolation. Upon receiving a request for either type of hearing described in this paragraph, the Court shall fix a date for a hearing. The hearing shall take place within 10 days of the receipt of the request by the Court. The request for a hearing shall not alter the order of isolation or quarantine.

c. If upon a hearing, the Court finds that the isolation or quarantine of the individual is not warranted under the provisions of this section, then the person shall be immediately released from isolation or quarantine. If the Court finds that the isolation or quarantine of the individual is not in compliance with the provisions of paragraph (3) of this section, the Court may then fashion remedies appropriate to the circumstances of the state of public health emergency and in keeping with the provisions of this section.

d. No person shall be permanently terminated from employment by a Delaware employer as a result of being isolated or quarantined pursuant to this section. However, this paragraph shall not apply to a person who has been quarantined as a result of refusing to comply with an examination, treatment or vaccination program, nor shall it apply to a person whose conduct caused the state of emergency that necessitated the isolation or quarantine.

(7) *Additional due process protections.* — a. A record of proceedings before the Court shall be made and retained for at least 3 years.

b. The petitioner shall have the right to be represented by counsel or other lawful representative, and the State shall provide counsel to indigent persons against whom proceedings are initiated pursuant to this subchapter.

c. The manner in which the request for a hearing is filed and acted upon will be in accordance with the existing laws and rules of the Superior Court or any such rules that are developed by the Court for use during a state of emergency, provided that hearings should be held by any means that will allow all necessary persons to participate in the event that a public health emergency makes personal appearances impractical.

(73 Del. Laws, c. 355, § 13; 70 Del. Laws, c. 186, § 1.)

b. A vaccine to be administered must not be such as is reasonably likely to lead to serious harm to the affected individual.

c. To prevent the spread of contagious or possibly contagious disease, the public safety authority may isolate or quarantine, subject to § 3136 of this title, persons who are unable or unwilling for reasons of health, religion or conscience to undergo vaccination pursuant to this section.

(73 Del. Laws, c. 355, § 13.)

§ 3138 Collection of laboratory specimens; performance of tests during public health emergency.

During a state of emergency, the public health authority may, for such period as the state of emergency exists, collect specimens and perform tests on any person or animal, living or deceased, and acquire any previously collected specimens or test results that are reasonable and necessary for emergency response.

(1) All specimens shall be clearly marked.

(2) Specimen collection, handling, storage and transport to the testing site shall be performed in a manner that will reasonably preclude specimen contamination or adulteration and provide for the safe collection, storage, handling and transport of such specimen.

(3) Any person authorized to collect specimens or perform tests shall use chain of custody procedures to ensure proper record keeping, handling, labeling and identification of specimens to be tested. This requirement applies to all specimens, including specimens collected using on-site testing kits.

(4) Recognizing that during a state of public health emergency, any specimen collected or test performed may be evidence in a criminal investigation, any business, facility or agency authorized to collect specimens or perform tests shall provide such support as is reasonable and necessary to aid in a relevant criminal investigation.

(5) To prevent the spread of contagious or possibly contagious disease, the public health authority may isolate or quarantine, subject to § 3136 of this title, persons who are unable or unwilling for reasons of health, religion or conscience to undergo specimen collection or testing pursuant to this section.

(2) To appoint and prescribe the duties of such out-of-state emergency health care providers as may be reasonable and necessary for emergency response.

a. The appointment of out-of-state emergency health care providers pursuant to this section may be for a limited or unlimited time, but shall not exceed the termination of the state of emergency. The public health authority may terminate the out-of-state appointments at any time or for any reason provided that any such termination will not jeopardize the health, safety and welfare of the people of this State.

b. § 3201 Preamble.

The purpose of this chapter is to create a system of intrastate mutual aid between participating political subdivisions and fire, rescue and emergency medical service provider organizations in the State of Delaware (hereinafter referred to as “system”). Each participant of this system recognizes that emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential for the protection of lives and property and for best use of available assets both public and private. The system shall provide for mutual assistance among the participating political subdivisions and fire, rescue and emergency medical service provider organizations in the prevention of, response to, and recovery from, any disaster that results in a formal state of emergency in a participating political subdivision, subject to that participating political subdivisions criteria for declaration. If the State of Delaware declares a state of emergency that covers the jurisdictional territory of a political subdivision for purposes of this chapter, a state of emergency has been declared by that political subdivision for purposes of this chapter. The system shall provide for mutual cooperation among the participating political subdivisions and fire, rescue and emergency medical service provider organizations in conducting disaster-related exercises, testing or other training activities outside actual declared emergency periods. This chapter provides no immunity, rights or privileges for any individual responding to a state of emergency that is not requested and/or authorized to respond by a participating political subdivision or fire, rescue, or emergency medical service provider organization. Participating political subdivision and fire, rescue, and emergency service provider organizations will be ensured, to the fullest extent possible, eligibility for state and federal disaster funding.

(75 Del. Laws, c. 182, § 1.)

§ 3202 Delaware Mutual Aid Committee.

The Director of the Delaware Emergency Management Agency shall chair the committee. The committee may prepare an annual report on the condition and effectiveness of mutual aid in the State of Delaware, make recommendations for correcting any deficiencies, and submit that report to the Delaware General Assembly. Members of the committee shall serve a 2-year term and shall be appointed by the Governor of the State of Delaware.

(b) The membership of the committee shall consist of:

A political subdivision or fire, rescue or emergency medical service provider organization within the State of Delaware may elect not to participate or to later withdraw from the system upon enacting an appropriate resolution by its governing body declaring that it elects not to participate in the statewide mutual aid system; and providing a copy of the resolution to the Director of the Delaware Emergency Management Agency. This chapter does not preclude participating political subdivisions and fire, rescue and emergency medical service provider organizations from entering into supplementary agreements with another political subdivision or fire, rescue, or emergency medical service provider organizations and does not affect any other agreement to which a political subdivision or fire, rescue or emergency medical service provider organization may currently be a party to, or decide to be a part to.

INTERSTATE CIVIL DEFENSE AND DISASTER COMPACT

§ 3301 Ratification and text.

The General Assembly of this State ratifies a compact on behalf of the State with any other state legally joining therein in the form substantially as follows:

INTERSTATE CIVIL DEFENSE AND DISASTER COMPACT

The contracting states solemnly agree:

Article I. The purpose of this compact is to provide mutual aid among the states in meeting any emergency or disaster from enemy attack or other cause (natural or otherwise) including sabotage and subversive acts and direct attacks by bombs, shellfire and atomic, radiological, chemical, bacteriological means and other weapons. The prompt, full and effective utilization of the resources of the respective states, including such resources as may be available from the United States government or any other source, are essential to the safety, care and welfare of the people thereof in the event of enemy action or other emergency, and any other resources, including personnel, equipment or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the civil defense agencies or similar bodies of the states that are parties hereto. The directors of civil defense of all party states shall constitute a committee to formulate plans and take all necessary steps for the implementation of this compact.

Article II. It shall be the duty of each party state to formulate civil defense plans and programs for application within such state. There shall be frequent consultation between the representatives of the states and with the United States government and the free exchange of information and plans, including inventories of any materials and equipment available for civil defense. In carrying out such civil defense plans and programs the party states shall so far as possible provide and follow uniform standards, practices and rules and regulations including:

- (a) Insignia, arm bands and any other distinctive articles to designate and distinguish the different civil defense services;
- (b) Blackouts and practice blackouts, air raid drills, mobilization of civil defense forces and other tests and exercises;
- (c) Warnings and signals for drills or attacks and the mechanical devices to be used in connection therewith;
- (d) The effective screening or extinguishing of all lights and lighting devices and appliances;
- (e) Shutting off water mains, gas mains, electric power connections and the suspension of all other utility services;
- (f) All materials or equipment used or to be used for civil defense purposes in order to assure that such materials and equipment will be easily and freely interchangeable when used in or by any other party state; and
- (g) The conduct of civilians and the movement and cessation of movement of pedestrians and vehicular traffic, prior, during and subsequent to drills or attacks.

Article III. Any party state requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state. Each party state shall extend to the civil defense forces of any other party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, privileges and immunities as if they were performing their duties in the state in which normally employed or rendering services. Civil defense forces will continue under the command and control of their regular leaders but the organizational units will come under the operational control of the civil defense authorities of the state receiving assistance.

Article IV. Whenever any person holds a license, certificate or other permit issued by any state evidencing the meeting of qualifications for professional, mechanical or other skills, such person may render aid involving such skill in any party state to meet an emergency or disaster and such state shall give due recognition to such license, certificate or other permit as if issued in the state in which aid is rendered.

Article V. No party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith.

Article VI. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that appropriate among other states party hereto, this instrument contains elements of a broad base common to all states and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or states. Such supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, equipment and supplies.

Article VII. Each party state shall provide for the payment of compensation and death benefits to injured members of the civil defense forces of that state and the representatives of deceased members of such forces in case such members sustain injuries or are killed while

rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

Article VIII. Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment answering a request for aid and for the cost incurred in connection with such requests; provided, that any aiding party state may assume in whole or in part such loss, damage, expense or other cost or may loan such equipment or donate such services to the receiving party state without charge or cost; and provided further that any two or more party states may enter into supplementary agreements establishing a different allocation of costs as among those states. The United States government may relieve the party state receiving aid from any liability and reimburse the party state supplying civil defense forces for the compensation paid to, and the transportation, subsistence and maintenance expenses of, such forces during the time of the rendition of such aid or assistance outside the state and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment or facilities so utilized or consumed.

Article IX. Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time to time between representatives of the party states and the various local civil defense areas thereof. Such plans shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies and all other relevant factors. Such plans shall provide that the party state receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care and like items. Such expenditures shall be reimbursed by the party state of which the evacuees are residents or by the United States government under plans approved by it. After the termination of the emergency or disaster, the party state of which the evacuees are resident shall assume the responsibility for the ultimate support or repatriation of such evacuees.

Article X. This compact shall be available to any state, territory or possession of the United States and the District of Columbia. The term "state" may also include any neighboring foreign country or province or state thereof.

Article XI. The committee established pursuant to Article I of this compact may request the civil defense agency of the United States government to act as an informational and coordinating body under this compact, and representatives of such agency of the United States government may attend meetings of such committee.

Article XII. This compact shall become operative immediately upon its ratification by any state as between it and any other state or states so ratifying and shall be subject to approval by Congress unless prior congressional approval has been given. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the civil defense agency and other appropriate agencies of the United States government.

Article XIII. This compact shall continue in force and remain binding on each party state until the legislature or the governor of such party state takes action to withdraw therefrom. Such action shall not be effective until 30 days after notice thereof has been sent by the governor of the party state desiring to withdraw to the governors of all other party states.

Article XIV. This compact shall be construed to effectuate the purposes stated in Article I hereof. If any provision of this compact is declared unconstitutional or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected thereby.

EMERGENCY MANAGEMENT ASSISTANCE COMPACT

§ 3401 Ratification and text.

The General Assembly of this State ratifies the following compact made and entered into by and between participating member states legally joining therein in the form substantially as follows:

EMERGENCY MANAGEMENT ASSISTANCE COMPACT

ARTICLE I PURPOSE AND AUTHORITIES

This compact is made and entered into by and between the participating member states which enacted this compact (hereinafter the "Party States"). For the purposes of this agreement, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia and all U.S. territorial possessions.

The purpose of this compact is to provide for mutual assistance between the Party States entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state(s), whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resource shortages, community disorders, insurgency, or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of giving and receiving of aid by Party States or subdivisions of Party States during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

ARTICLE II GENERAL IMPLEMENTATION

Each Party State entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each Party State further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the Party States, including any resources on hand or available from the Federal Government or any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster declared by a Party State, shall be the underlying principle on which all articles of this compact shall be understood. On behalf of the governor of each Party State participating in the compact, the legally designated state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

ARTICLE III PARTY STATE RESPONSIBILITIES

(a) It shall be the responsibility of each Party State to formulate procedural plans and programs for interstate cooperation in the performance of responsibilities listed in this article. In formulating such plans, and in carrying them out, the Party State, insofar as practical shall:

(i) Review individual state hazard analyses and, to the extent reasonably possible, determine all those potential emergencies the Party State might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, civil emergency aspects of resource shortages, community disorders, insurgency, or enemy attack.

(ii) Review Party States' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency.

(iii) Develop interstate procedures to fill identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans.

(iv) Assist in warning communities adjacent to or crossing the state boundaries.

(v) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material.

(vi) Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness.

(vii) Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

(b) The authorized representative of a Party State may request assistance of another Party State by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within 30 days of the verbal

request. Requests shall provide the following information:

- (i) A description of the emergency service function for which assistance is needed, such as but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.
 - (ii) The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time they will be needed.
 - (iii) The specific place and time for staging of the assisting party's response and a point of contact at that location.
- (c) There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the Party States with affected jurisdictions and the United States Government, with free exchange of information, plans, and resource records relating to the emergency capabilities.

ARTICLE IV LIMITATIONS

Any Party State requested to render mutual aid or conduct exercises in training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protections for such state.

Each Party State shall afford to the emergency forces of any Party State, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of the Party State that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect or loaned resources remain in the receiving state(s), whichever is longer.

ARTICLE V LICENSES AND PERMITS

Whenever any person holds a license, certificate, or other permit issued by any Party State evidencing the meeting of qualifications of professional, mechanical, or other skill, and when such assistance is requested by the receiving Party State, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the governor of the requesting state may prescribe by executive order or otherwise.

ARTICLE VI LIABILITY

Officers or employees of a Party State rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes; and no Party State or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include wilful misconduct, gross negligence, or recklessness.

ARTICLE VII SUPPLEMENTARY AGREEMENTS

In as much as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states.

Supplementary agreements may comprehend, but shall not be limited to, provision for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

ARTICLE VIII COMPENSATION

Each Party State shall provide for the payment of compensation and death benefits to injured members of the emergency forces of the state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

ARTICLE IX REIMBURSEMENT

Any Party State rendering aid in another state pursuant to this compact shall be reimbursed by the Party State receiving such aid for any loss or damage or expense incurred in the operation of any equipment and the provisions of any service in answering a request for aid and for the costs incurred in connection with such requests; provided, that any aiding Party State may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving Party State without charge or cost; and provided further, that any two or more Party States may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses shall not be reimbursable under this provision.

ARTICLE X EVACUATION

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the Party State and the emergency management/services directors of the various jurisdictions where any type of incident requiring evacuation might occur. Such plans shall be

put into effect by request of the state from which evacuees might come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the proving of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the Party State receiving evacuees and the Party State from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the Party State from which the evacuees come. After the termination of the emergency or disaster, the Party State from which the evacuees come shall assume the responsibility for the ultimate support or repatriation or such evacuees.

ARTICLE XI IMPLEMENTATION

A. This compact shall become operative immediately upon its enactment into law by any two (2) states; thereafter, this compact shall become effective as to any other state upon its enactment by such state.

B. Any Party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 30 days after the governor of the withdrawing state has given notice in writing of such withdrawal of the governors of all other Party States. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

C. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the Party States and with the Federal Emergency Management Agency and other appropriate agencies of the United States Government.

ARTICLE XII VALIDITY

This Act shall be construed to effectuate the purposes stated in Article I hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this Act and the applicability thereof to other persons and circumstances shall not be affected thereby.

ARTICLE XIII ADDITIONAL PROVISIONS

Nothing in this compact shall authorize or permit the use of military force by the National Guard of a state at any place outside that state in any emergency for which the President is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18, United States Code.
