§ 121. General powers of the Department of Education.

(a) The Department shall exercise general control and supervision over the public schools of the State, including:

1. Developing and executing the educational policies and laws of the State and promoting public sentiment in support of public education;

2. Consulting, advising and cooperating with the boards of education and superintendents of reorganized school districts, and other officers, principals, teachers and interested citizens in matters relating to education and to the conduct of schools;

3. Appointing, through the Secretary, by execution of a written contract for a term of not less than 1 year nor more than 5 years, of additional officers necessary for administering and developing the policies, rules and regulations of the Department. As used in this section, the term “additional officers” shall be defined as the team leaders and directors authorized by § 1321(a) of this title and any certificated professional employees assigned to the office of the Secretary whose positions are not covered in § 103(a)(2) of this title. The Secretary may elect not to renew the contract of any additional officer upon its expiration. However, in such a case the Secretary shall notify the officer in writing by certified mail, return receipt requested, at least 4 months prior to the expiration date of the existing contract that the Secretary does not intend to renew the contract, thereby providing official notice that the services of the officer are to be terminated. Failure to notify an additional officer covered by this subsection in writing by the required date shall result in an automatic extension of the existing contract for a period of 1 year from its expiration date;

4. Hiring, through the Secretary, by execution of a written contract for a term of not less than 1 year and not more than 5 years, of certificated professional employees, other than those persons described in paragraph (a)(3) of this section and § 103(a)(2) of this title, necessary for carrying out the policies, rules and regulations of the Department. For the purposes of this subsection, the term “certificated professional employees” includes education associates, education specialists, field agents, technicians and other employees holding positions of similar rank. The Secretary may elect not to renew the contract of a certificated professional employee upon its expiration. However, in such a case, the Secretary shall notify the employee in writing by certified mail, return receipt requested, at least 4 months prior to the expiration date of the existing contract that the Secretary does not intend to renew the contract, thereby providing official notice that the services of the employee are to be terminated. Failure to notify a person covered under this subsection in writing by the required date shall result in an automatic extension of the existing contract for a period of 1 year from its expiration date. The written notification shall indicate that just cause exists for the Secretary’s proposed action. For the purposes of this subsection, “just cause” shall be defined as including, but not limited to, reduction in force, inefficiency, or unsatisfactory performance of duties. Any employee notified of the Secretary’s intention not to renew for reasons other than a reduction in force may request a formal hearing before a hearing officer appointed by the Secretary of the Department of Human Resources within 15 calendar days from the date that notice of the Secretary’s intention not to renew is sent by certified mail. In making a determination to dismiss or to impose a lesser disciplinary action, the Secretary shall assess and take into account any
mitigating or extenuating circumstances as well as the employee’s work history. Any employee dismissed pursuant to this subsection may request a formal hearing before a hearing officer appointed by the Secretary of the Department of Human Resources within 15 calendar days from the date that notice is sent by certified mail or the date of receipt of the written notification of dismissal from the Secretary if hand-delivered, whichever is applicable. In the event that an employee timely requests a hearing, the Department of Human Resources shall convene a hearing no earlier than 10 days nor later than 90 days after receipt of the request for a hearing, unless both parties agree to a different schedule. The employee shall have the opportunity to present information in the employee’s own defense and may have legal counsel at the hearing;

(6) Hiring, through the Secretary, any clerical assistants and other noncertificated employees necessary to provide support in carrying out the policies, rules and regulations of the Department or the State Board, or both. Such employee shall be subject to dismissal or other disciplinary action imposed by the Secretary only for just cause. For the purposes of this subsection, “just cause” includes, but is not limited to, reduction in force, inefficiency, unsatisfactory performance of duties, misconduct, immorality, incompetency, and wilful neglect of duty;

In making a determination to dismiss or to impose a lesser disciplinary action pursuant to this subsection, the Secretary shall assess and take into account any mitigating or extenuating circumstances as well as the employee’s work history. Any employee dismissed pursuant to this subsection may request a formal hearing before a hearing officer appointed by the Secretary of the Department of Human Resources within 15 calendar days from the date that notice is sent by certified mail or the date of receipt of the written notification of dismissal from the Secretary if hand-delivered, whichever is applicable. In the event that an employee timely requests a hearing, the Department of Human Resources shall convene a hearing no earlier than 10 days nor later than 90 days after receipt of the request for a hearing, unless both parties agree to a different schedule. The employee shall have the opportunity to present information in the employee’s own defense and may have legal counsel at the hearing;

(7) Granting to any person employed by the Department pursuant to this section who is called to the service or voluntarily enters the Armed Forces of the United States or the National Guard of the State, when in continuous active service, a leave of absence which shall cover the period of voluntary service, not to exceed 3 years, or the term of service to which the person has been called until that term of service is terminated; and upon the completion of the leave of absence, reinstating such person in the position which the person held at the time that the leave of absence was granted, if such person has received a certificate of satisfactory completion of service;

(8) Appointing persons to replace employees on leaves of absence for active military service, as described in paragraph (a)(7) of this section, but such appointments shall be only for the period covered by said leaves of absence;

(9) Requiring boards of education of reorganized school districts to submit reports covering student achievement, discipline, expenditures, business methods, accounts, registration, attendance, and any other matter it finds necessary and advisable consistent with the State’s policy, as reflected in §§ 122(d), (e) and 124A(f) of this title, to avoid duplicative or unnecessarily burdensome reporting obligations; and receiving and examining such reports and, through its staff, examining and giving advice on expenditures, business methods, and accounts of boards of education of reorganized school districts;

(11) Causing the provisions of this title to be carried into effect, so as to provide a general and efficient system of public schools throughout the State;

(12) Deciding, without expense to the parties concerned, certain types of controversies and disputes involving the administration of the public school system. The specific types of such controversies and disputes appropriate for Department resolution and the procedures for the resolution of such controversies and disputes shall be established by rules and regulation proposed by the Secretary subject to approval by the State Board. Hearing examiners or panels, including panels of the State Board of Education, may be appointed to hear such controversies and disputes;

(13) Obtaining witnesses and documents through subpoena, administering oaths, examining under oath, and causing such examinations to be reduced to writing, when necessary to enforce any provision of this title. The Secretary and the State Board of Education, and any hearing examiner or panel duly appointed by either, may exercise the provisions of this subsection;

(14) Entering into contracts with states bordering on the State, or with agencies, political subdivisions or school districts of such states, for the establishment and operation of joint educational facilities wherever it is found by the Department that such joint facilities would be of greater educational value to the citizens of the State than separate facilities. Tuition payments required by such contracts shall be paid from funds specifically appropriated in the annual budget for this purpose, from educational contingency funds, or from both. For purposes of this paragraph, “supportive instruction” means an alternative educational program provided in a home, hospital, or other setting for students temporarily unable to attend their school of enrollment on a full-time basis due to sudden illness, injury, accident, episodic flare up of a chronic condition, or other basis authorized by the Department of Education through regulation;

(25) Providing for the governance of any longitudinal data system or database, and governing the collection, use, maintenance, disclosure and sharing of educational records and the information contained therein. Rules and regulations promulgated pursuant to this subparagraph shall be developed in consultation and cooperation with the P-20 Council and Interagency Resource Management Committee (IRMC) and with the consent of the State Board of Education and shall comply with state and federal privacy and confidentiality laws, including, without limitation, the Family Educational Rights and Privacy Act [20 U.S.C. § 1232g], the Protection of Pupil Rights Amendment [20 U.S.C. § 1232h] and the Individuals with Disabilities Education Act [20 U.S.C. § 1401 et seq.] each as amended from time to time;

(26) Establishing, for purposes of student discipline, uniform definitions for student conduct which may result in alternative placement or expulsion, uniform due process procedures for alternative placement meetings and expulsion hearings, and uniform procedures for processing Attorney General’s reports. Such regulations shall apply to all districts and charter schools. This paragraph shall not be interpreted to restrict the ability of district and charter schools to determine which student conduct shall result in expulsion or an alternative placement;

(27) a. Implementing a 1-time fee of no more than $100 for all applicants for an educator’s first license in Delaware; provided, however, that the fee shall be reimbursed for any applicant who becomes employed as an educator in a Delaware public school. All monies collected pursuant to this paragraph shall be deposited in the General Fund, with the exception of $90,000, which shall be retained annually by the Department in a special fund to be established for the sole purpose of reimbursing educators. Rules and regulations promulgated pursuant to this paragraph shall be subject to approval by the State Board of Education;

b. An applicant who meets the performance assessment requirement in subchapter II of Chapter 12 of this title and becomes employed in a Delaware public school will be reimbursed no less than $100. The reimbursements may be provided from funds collected under paragraph (b)(27) of this section; and

(28) Developing a process for districts and charter schools to annually identify any enrolled student who is a “military-connected youth.” For purposes of this section, a “military-connected youth” means having an immediate family member, including a parent, stepparent, sibling or any other person residing in the same household, who is on active duty in; serving in the reserve component; or recently retired from a “branch of the United States armed forces.” For purposes of this section, “branch of the United States armed forces” means:

a. United States Army;
b. United States Air Force;
c. United States Marine Corps;
d. United States Navy;
e. National Guard;
f. United States Coast Guard;
g. National Oceanic and Atmospheric Administration; or
h. United States Public Health Service.

The identification of a “military-connected youth” shall not be used for purposes of determining school achievement, growth, or performance. Provided further, the identification of a “military-connected youth” is not a public record under Delaware’s Freedom of Information Act (Chapter 100 of Title 29) or any other law and shall not be made public by any person, except as permitted under the provisions of the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. § 1232g. Rules and regulations on this subject shall be proposed by the Secretary subject to approval by the State Board of Education.

(c) The Department shall implement rules and regulations promulgated and adopted by the Professional Standards Board and State Board of Education pursuant to § 1203 of this title governing qualifications, licensure, and certification of educators in all public schools of this State.

(d) The Department of Education shall perform and issue a written educational impact analysis of any new proposed regulation and of any regulation that is proposed to be continued pursuant to the review required by subsection (e) of this section. Such educational impact analysis shall address the following criteria:

1. Whether the proposed regulation or the regulation sought to be continued is justified because it will help improve student achievement as measured against state achievement standards;

2. Whether the proposed regulation or the regulation sought to be continued is justified because it will help ensure that all students receive an equitable education, that their health and safety are adequately protected and that their legal rights are respected;

3. Whether the proposed regulation or the regulation sought to be continued preserves the necessary authority and flexibility of
decision makers at the local board and school level and does not place unnecessary reporting or administrative requirements or mandates upon them;

(4) Whether the proposed regulation or the regulation sought to be continued places decision making authority and accountability for addressing the subject to be regulated in the same entity;

(5) Whether the proposed regulation or the regulation sought to be continued is consistent with and not an impediment to the implementation of other state educational policies, in particular to state educational policies addressing achievement in the core academic subjects of mathematics, science, language arts and social studies;

(6) Whether there is a less burdensome method for addressing the purpose of the proposed regulation or the regulation sought to be continued; and

(7) The cost to the state and local school boards of compliance with the proposed regulation or the regulation sought to be continued.

(e) For the purpose of ensuring that all regulations are current, that unnecessary or unduly burdensome regulations are repealed or modified, and that more frequent comment from affected constituencies may be obtained, the Department of Education shall establish a process whereby each of its regulations in existence as of January 1, 1997, shall be subjected to review and readoption within the 4 years succeeding such date. Such review and readoption, or modification or repeal, shall be preceded by publication pursuant to Chapter 101 of Title 29. Any such regulation that the Department of Education readopts or readopts in modified form shall be accompanied by an educational impact analysis as required by subsection (d) of this section. Any regulation adopted by the Department of Education subsequent to January 1, 1997, shall be made effective for no more than 5 years and shall be subject to the review and readoption process set forth in this subsection.

(f) For the purpose of ensuring that state regulations do not impede innovation or the improvement of student achievement, the Department of Education in conformity with subsection (g) of this section may, upon application by a local board of education established pursuant to a provision of this title, waive any rule or regulation where:

1. Such a waiver would further the accomplishment of state educational policies, particularly those state educational policies addressing student achievement in the core academic subjects of mathematics, science, language arts and social studies;

2. Such a waiver would not impose undue administrative burdens upon the State or harm the State’s ability to ensure that public funds are properly expended and that applicable state and federal laws are followed; and

3. The purpose of the regulation or rule to be waived can be satisfied in a less burdensome or different manner than through compliance with the rule or regulation.

The school board of the district making such waiver request shall give notice of the consideration by notices posted in at least 10 public places in the district and on the door of every school in the district at least 20 days prior to the public meeting of the board of education at which the waiver request will be presented and discussed. The public shall be provided an opportunity to present comments concerning the waiver to be requested at a meeting of the local board following posting and preceding its formal adoption.

(g) For the purposes of ensuring that state regulations do not impede innovation or the improvement of student achievement, the local board may propose, upon application of a duly established school-based committee pursuant to a provision of this title or a school principal of a school without such a committee who demonstrates significant faculty support for the waiver application, that any state rule or regulation, subject to exemption in § 505 of this title be waived where it makes written findings that: (i) such a waiver would further the accomplishment of state and local educational policies, particularly those policies addressing student achievement in the core academic subjects of mathematics, science, language arts and social studies; (ii) such a waiver would not impose undue administrative burden upon the State or harm the State’s ability to ensure that public funds are properly expended and that applicable state and federal laws are followed; and (iii) the purpose of the regulation or rule to be waived can be satisfied in a less burdensome or different manner than through compliance with the rule or regulation. The board of education of the district in which the waiver is requested shall give notice of the receipt of such waiver request as follows:

1. By notices posted in at least 10 public places in the district and on the door of every school in the district at least 20 days prior to the public meeting of the board at which the proposed waiver request will be presented and discussed. The public shall be provided an opportunity to present comments concerning the requested waiver at a meeting of the local board following posting and prior to its formal proposal; and

2. The board of education shall transmit its written findings pursuant to subsection (g) of this section supporting the proposed waiver to the Department of Education within 5 days thereafter. Within 20 days thereof, the Department of Education may schedule, upon 20 days public notice, a hearing to consider whether to approve the proposed waiver. Absent the scheduling of such a hearing within such time period, the proposed waiver shall be considered approved by the Department of Education and shall then become effective, subject to State Board denial pursuant to this subsection. If the Department of Education schedules a hearing to consider a proposed waiver, it shall issue its decision within 30 days of the hearing. The State Board shall be advised of any waiver of a regulation it must promulgate or approve, and may deny such waiver by action taken within 30 days or by the next regularly scheduled meeting, whichever is earlier, of the waiver’s approval by the Department.

(h) (1) Except as otherwise required by law, mandated by federal authority, or as determined by the Secretary to be an emergency situation requiring immediate action to protect public health or safety, no new or amended rule, regulation, or administrative procedure adopted by the Department which has a direct financial impact for the local school district, any school within a local school district or

§ 124A. Education Profile reports [For application of this section, see 80 Del. Laws, c. 25, §2].

(a) On or before August 15, 2003, and on or before August 1 of each subsequent year, the Department of Education shall issue Delaware Public Education Profiles on all Delaware public schools, including charter schools, reorganized and vocational-technical school districts, and the State (hereinafter in this section referred to as “Education Profiles”). Such Education Profiles shall report on the state of Delaware’s public education system and the progress toward achieving the educational goals established by the General Assembly, State, and the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. § 6301 et seq.

(b) The purpose of the Education Profiles shall be to monitor progress and trends toward the achievement of the State’s educational goals, to provide parents and citizens with information they can use to make good choices for their children and to hold the public educational system accountable for its performance and cost-effective use of public funds. The Education Profiles shall be in a user-friendly form that permits educationally meaningful comparisons among schools and school districts, based on accurate, reliable and normalized data. The Education Profiles shall compare data for all Delaware public schools, including charter schools, school districts, and the state to national, regional and statewide data where informative and practicable to do so.

(c) The Education Profiles shall contain, but need not be limited to, information such as the following to be reported on a state, district and school-specific basis:

2. Information pertaining to school, and/or district, and state accountability;
3. Information pertaining to school safety and discipline and student attendance and truancy;
4. Information pertaining to school district administrator-student ratios, school teacher-student ratios and other staffing ratios;
5. Information pertaining to pupil and staff population demographics;
6. Information pertaining to school district revenues, expenditures, tax rates and wealth;
7. Information pertaining to school curricular offerings;
8. Information pertaining to parent and community involvement in the school and school district;
§ 127. Driver education instruction in nonpublic high schools.

(9) Information pertaining to the school district or school supplied by the school district or school to include in the Education Profile pertaining to the criteria specified in this subsection;

(10) Information pertaining to the role of the Title IX Coordinator, which shall include their contact information; and

(11) Such other information as the Department, after consultation with the State Board, finds will serve the purposes set forth in subsection (b) of this section.

(d) With the goal of encouraging the replication of effective educational policies and practices, the Education Profiles shall also highlight examples of exemplary programs, successful teaching, school climate or disciplinary strategies and other developments that may be of value in improving the performance of Delaware’s students and public schools.

(e) The Department shall require public school districts to file district reports containing the data necessary to prepare the Education Profiles and shall prescribe a uniform format for such district reports. To the extent that the information required for the district reports must be filed by districts with the State pursuant to a separate section of this Code or Department regulation, the Department shall not require a duplicative report.

(f) The Education Profiles will be published, subject to an annual appropriation in the annual state budget act, at the expense of the State. Said profiles will be printed by the Department of Education in sufficient quantity and supplied to local school districts in sufficient quantity for distribution to district staff, parents and the community at large.

(g) The Department of Education with the consent of the State Board of Education shall promulgate rules and regulations to implement the provisions of this section.

(70 Del. Laws, c. 458, § 1; 71 Del. Laws, c. 180, § 9; 73 Del. Laws, c. 65, § 13; 74 Del. Laws, c. 28, § 1; 80 Del. Laws, c. 25, § 1.)

§ 126. Leases with the federal government.

The Department may enter into contracts with the government of the United States of America or its agencies for the leasing to the Department of machinery, tools, equipment, land, buildings or other items to be used in the school system of this State. The contracts so entered into may be for such terms not exceeding 20 years and on such conditions as the Department may deem advisable. The Department may sublease to reorganized school districts of the State the items so leased for such terms and on such conditions as the Department may deem advisable.

§ 127. Driver education instruction in nonpublic high schools.

The Department of Education shall, subject to the approval of the State Board of Education, make rules and regulations concerning instruction in driver education in nonpublic high schools. Such rules and regulations must include all of the following provisions:

(1) The qualification of teachers for driver education in nonpublic high schools must be the same as the qualification for teachers in the public high schools.

(2) The ratio of teachers to pupils for assignment of driver education teachers in nonpublic high schools must be based upon 1 teacher for each 125 tenth grade pupils enrolled in the nonpublic high school or 1/5 of a teacher assignment for each full 25 tenth grade pupils. Tenth grade pupils who are enrolled in the nonpublic high school but who are not residents of this State are excluded from this ratio.

(3) General supervision for the program of instruction in driver education in nonpublic high schools is under the jurisdiction of the Department of Education, but the Department may assign general supervision to a local public reorganized school district.

(4) Assignment of teachers to nonpublic high schools is by authority of the Department of Education and the Department may require from the nonpublic high schools a statement of certified enrollment on a date and in a form as the Department may require.

(5) Salary for teachers in nonpublic high schools, if paid from funds of this State, must be in accord with the regularly adopted salary schedules under Chapter 13 of this title. The salary must be divided by the appropriate factor specified in § 1305(b) of this title to account for supplements normally provided by local school districts. In addition to the calculation under this paragraph (5), teachers and administrators qualifying for professional development clusters in accordance with § 1305(k) of this title must receive an additional amount equal to the approved cluster percentage multiplied by the base salary amount defined in § 1305(b) of this title. This calculation may not be increased for 11- or 12-month employment. The percentage may be applied only to the base 10-month salary for 10-, 11-, and 12-month employees. In accordance with § 1305(o) of this title, the cluster percentage is capped at 15%.

(6) For the purposes of administration and supervision, the teachers of driver education in nonpublic high schools are assigned to the Department of Education.

(7) Funds for the payment of the salary due to teachers of driver education in nonpublic high schools must be appropriated to the Department of Education.

(8) A teacher of driver education may be assigned to several nonpublic high schools, or to both nonpublic and public high schools, in accord with the ratio for assignment under this section.
(9) Pupils must demonstrate knowledge related to traffic stops by a law-enforcement officer as required under § 2713(e) of Title 21.

§ 128-130. Responsibility for property of former Educational Television Board; educational television; Public Educational Broadcasting Authority.

§ 131. Public school enrollees' immunization program; exemptions.
   (a) The Department shall from time to time, with advice from the Division of Public Health, adopt and promulgate rules and regulations to establish an immunization program to protect pupils enrolled in public schools from certain diseases. Such rules and regulations shall include at least the following:
      (1) The designation of a basic series of immunizations to be administered according to these rules;
      (2) The requirement that all persons enrolling in the public schools at any age or level as authorized by this title shall have:

         c. Presented written documentation of any claim of prior immunization in the form of a statement from the immunizing physician or agency or such other form as may from time to time be approved by regulation of the Department;
      (3) Provision that persons seeking to be enrollees of the public school who have not been immunized or do not meet the requirements for immunization within the time prescribed shall be denied further attendance in the public schools;
      (4) Provision for written notification of the parent, or legal guardian of an enrollee, of a pending exclusion;
      (5) Provision for exemption from any or all of the immunization program prescribed for a particular enrollee upon a written statement from a physician, i.e., medical doctor or doctor of osteopathy, stating that the enrollee should not receive the prescribed immunization or immunizations required in the basic series because of the reasonable certainty of a reaction detrimental to that person. The asserted cause of medical exemption may be subject to review and approval by the Division of Public Health. A history of clinical illness of measels or rubella shall not be accepted as cause for exemption. The parents or legal guardian of a child medically exempt from the immunization program shall be informed by schools of the provisions within paragraph (a)(7) of this section;
      (6) Provision for exemption from the immunization program for an enrollee whose parents or legal guardian, because of individual religious beliefs, reject the concept of immunization. Such a request for exemption shall be supported by the affidavit herein set forth:

Subchapter III

State Public Education Assessment and Accountability System

§ 151. State assessment system; rules and regulations.

(a) The Department shall adopt rules and regulations consistent with the laws of this State governing the statewide assessment of student achievement and the assessment of the educational attainments of the Delaware public school system. The Secretary shall consult with the State Board and representatives of the local school districts in designing and implementing the assessment program required under this section. The assessment program shall be designed and operated to provide the General Assembly, the Governor, the Secretary, the State Board of Education, educational administrators, teachers, parents and the public with timely and accurate information on student achievement and educational attainments.

(b) The Department shall administer both accountability and growth assessments of student achievement for students in grades 3 through 8, provided that additional grades may be added by the Department.

(c) The assessments referred to in subsection (b) of this section shall measure achievement in English language arts and mathematics for students in a minimum of grades 3 through 8 and high school, provided additional grades may be added by the Department. Science and social studies shall be assessed for students at least once in the elementary grades, at least once in the middle grades, and at least once in high school.

(d) The assessments required in subsections (b) and (c) of this section shall measure:
   (1) Student performance as required by any federal mandate; and
   (2) For grades 3 through 8, the academic progress of individual students.

(e) Notwithstanding any law or regulation to the contrary, matriculation and academic promotion requirements imposed by § 153 of this title shall be based upon the student’s assessment results received on assessments referred to in subsections (b) and (c) of this section.

(f) The Department shall establish alternate assessments for children with disabilities who cannot participate in the statewide assessment of student achievement even with appropriate accommodations and modifications. Alternate assessments must be developed and used in the statewide assessment beginning not later than the 2010-2011 school year. Each local school district, through the individual student’s Individualized Education Program Team or 504 Team, shall determine what assessment the student will take, as well as the student’s matriculation or promotion status and necessary remedial activities if the student’s performance on the assessment is below standard, and if the statewide assessment is administered, what accommodations and/or modifications will be utilized. However, no student shall be denied the opportunity to take the state assessments administered pursuant to subsections (b) and (c) of this section.

(g) For kindergarten through second grade, all school districts are required to follow the state standards, to assess the progress of students toward meeting those standards, and to report such progress to parents.

(h) The Department shall adopt rules and regulations to implement a common statewide readiness tool that will review a child’s readiness for learning when they enter kindergarten. The readiness tool shall serve as the basis for an objective readiness review conducted by the child’s teacher or other members of the child’s school team. The readiness tool shall review, but not be limited to, the following 5 domains:
   (1) Language and literacy development;
   (2) Cognition and general knowledge;
   (3) Approaches toward learning;
   (4) Physical well-being and motor development; and
   (5) Approaches toward learning;
§ 153. Matriculation and academic promotion requirements.

(i) Implementation of the tool delineated in subsection (h) of this section above shall be phased in with the first identified kindergarten classes completing the readiness review in fall 2012. Thereafter the implementation of the readiness reviews shall be phased in with additional kindergarten classes participating in fall 2013 and fall 2014, with statewide implementation no later than fall 2015. The readiness reviews shall be completed within 30 school days of the start of school. A kindergarten student shall be required to be reviewed for readiness once during the student’s enrollment in kindergarten. The Department regulations promulgated pursuant to this section shall address any exceptions to the requirement for implementation of the readiness tool for all students, based on factors such as a student’s late enrollment in kindergarten.

(j) Notwithstanding any other language in this title, a student who has been formally classified as having 1 of the following 4 conditions, and whose parent, IEP team, and school district superintendent or charter school leader believe will not produce valid results on either the standard or alternate assessment despite accommodations and adjustments, shall receive his or her alternate assessment through consideration of work samples, projects and portfolios, which facilitate authentic and direct gauges of student performance with respect to both relevant state standards and the student’s IEP (a “portfolio assessment”). The definition of each of the following 4 conditions shall be the same that is in effect on July 15, 2014, in §§ 922 and 925 of this title of the Delaware Administrative Code [14 DE Admin. Code §§ 922 and 925):

1. Moderate intellectual disability;
2. Severe intellectual disability;
3. Autism, accompanied by intellectual functioning equivalent to moderate or severe intellectual disability;
4. Multiple disabilities, accompanied by intellectual functioning equivalent to moderate or severe intellectual disability.

The parents of a student classified as having 1 of these 4 conditions shall be informed of their child’s rights under this section, but no IEP team, school or school district shall advocate that parents exercise those rights. Only a student’s parents may initiate a portfolio assessment request under this section, and when such a request is made, the student’s IEP team and school district superintendent or charter school leader shall make their determinations regarding the portfolio assessment within 60 days of said request. The Department of Education shall promulgate regulations establishing a procedure for the design and evaluation of portfolio assessments requested under this subsection and for further reviews of individual schools and/or school districts that request an unusual number of portfolio assessments. The Department of Education shall also promulgate regulations providing for a method of measuring academic progress by students receiving a portfolio assessment under this section, which: (i) shall provide objective criteria by which student progress can be planned and measured; (ii) shall be developed in consultation with the Governor’s Advisory Council on Exceptional Citizens; and (iii) shall satisfy the requirements of 20 U.S.C. §§ 1412, 6311, and any other applicable federal laws or regulations. Students who are granted a portfolio assessment under this subsection shall be included in the participation rate calculation for schools and school districts. Nothing in this subsection shall be construed to limit the authority of the Department to approve exemptions from assessments for students not covered by this subsection.

(k) Rules and regulations pursuant to this subchapter shall be proposed by the Secretary subject to approval by the State Board of Education.

§ 152. State high school diploma requirements [For application of this section, see 81 Del. Laws, c. 229, § 2].

(a) The Department of Education shall award a regular “State of Delaware High School Diploma” to a student graduating from a Delaware public high school.

(b) The Department shall award diplomas under subsection (a) of this section to students who:

1. Successfully complete the prescribed course requirements established by the State, or the district or charter school, if district or charter school credit requirements are higher than those of the State; and
2. Achieve proficient levels of performance, relative to the State high school content standards, on the assessments administered pursuant to § 151(b) and (c) of this title in conjunction with other academic indicators as defined by Department regulations.

(c) A high school student who fails to achieve a proficient level of performance on the assessments pursuant to this section may retake the assessments each succeeding year they continue in high school. This subsection shall not apply to students taking the alternative assessment pursuant to § 151(f) of this title.

(d) The Department shall award a State of Delaware — Diploma of Alternate Achievement Standards to a student who has met the requirements of the student’s Individualized Education Program but will not complete the high school graduation course credit requirements established by the State, district, or charter school for a regular “State of Delaware High School Diploma” under subsection (a) of this section.

(e) The Department, with the consent of the State Board of Education, shall promulgate rules and regulations to implement this section.

§ 153. Matriculation and academic promotion requirements.
The Department shall identify 4 levels of individual student performance relative to the state content standards on the assessments administered pursuant to § 151(b) and (c) of this title to fulfill the following 3 important functions:

1. Determine the level or levels of individual performance sufficient to demonstrate a proficient level of performance relative to the state content standards;
2. Determine the level or levels of individual performance sufficient to demonstrate superior and proficient performance meriting recognition for outstanding and standards-level achievement pursuant to subsection (c) of this section; and
3. Determine the level or levels of individual performance inadequate to demonstrate a proficient level of performance relative to the state content standards and which warrant requiring students performing at such levels to participate in academic improvement activities as specified in subsection (d) of this section.

(b) The Department may approve other individual student indicators that may be used to determine a student’s performance relative to the state content standards. Such indicators shall:

1. Provide a measure of individual student performance relative to the state content standards; and
2. Include performance on district-administered assessments pursuant to subsection (e) of this section, performance on end-of-course assessments, student classroom work products, or classroom grades supported by evidence of student work that demonstrates a student’s performance level pursuant to subsection (a) of this section.

(c) The Department, by regulation, shall establish a program to recognize superior and proficient student performance on the assessments administered pursuant to § 151(b) and (c) of this title. Such a program for superior and proficient performance shall include: the award of certificates and plaques and the endorsement of student transcripts. The program shall also include the award of funds which may be used by students who demonstrate superior performance to defray the costs of post-secondary education. Scholarships awarded pursuant to this program shall be known as the Michael C. Ferguson Achievement Awards and shall be administered by the Delaware Higher Education Office. Such evidence shall only be used if the student has not demonstrated a proficient level of performance on the reading assessment after at least 1 retake of the state assessment at a grade level; or
   c. The student has previously been retained for 2 years because of academic performance.
   d. Notwithstanding the requirements of paragraphs (d)(2)a. and (d)(2)b. of this section, a student may advance to the next grade level without attending summer school if an academic review committee composed of educators from the student’s district or charter

c. The student has previously been retained for 2 years because of academic performance.

(4) An eighth grade student whose performance on the math portion of the assessments administered pursuant to § 151(b) and (c) of this title is Well Below the Standard, Level I on the statewide assessment, shall not advance to the next grade unless:

(5) With respect to a student whose performance continues to be deficient after completion of the retention year, the Department may not require that the student’s district retain the student at grade level for another year, but shall require that the district develop an individual improvement plan pursuant to Department regulations. The Department regulations must require that each individual improvement plan identify a specific course of study for the student and the academic improvement activities the student must undertake in order to improve the student’s ability to a proficient level. Academic improvement activities may include mandatory participation in summer school, extra instruction and mentoring programs.

(6) For a student whose performance on the statewide assessment pursuant to § 151(b) and (c) of this title at grade 6 or 7 in mathematics or grade 4, 6 or 7 in reading whose score assessment does not meet a proficient level of performance relative to the state content standards, the local school district shall, in consultation with the student’s parent or parents or guardian, develop an individual improvement plan (which may include but is not limited to summer school, before and/or after school instruction, Saturday school and/or tutoring) to remediate those areas of weakness demonstrated by the assessment. To the extent the statewide assessment is not available, local school districts shall strive to use other means to identify students deemed in danger of failing to reach a proficient level of performance relative to the state content standards on assessments administered pursuant to § 151(b) and (c) of this title and shall develop individual improvement plans for those students to remediate identified areas of weakness.

(7) The Department may require school districts to undertake academic improvement activities with respect to students whose performance is inadequate to demonstrate a proficient level of performance relative to the state content standards on an assessment pursuant to § 151(b) and (c) of this title. Such activities may include extra instruction or mentoring programs.

(8) Any academic review committee established pursuant to this subsection shall include at least 1 teacher from the grade level to which the student may be promoted.

Any alternative assessment shall be equally rigorous, valid and reliable as the assessments administered pursuant to § 151(b) and (c) of this title. Approval of any alternative assessment by the Department shall require the joint approval of the Secretary and the State Board of Education who shall issue written findings supporting the Department’s decision to approve an alternative assessment. Any district that receives such approval shall provide such continuing evidence of the alternative assessment’s reliability and validity as the Secretary and State Board of Education shall require to ensure compliance with this subchapter.

(f) School districts may require any student to participate in academic improvement activities specified for the student by the district in accordance with the Department rules and regulations promulgated pursuant to this section or in accordance with the district’s own policies. A student who refuses to comply with a district requirement for participation in academic improvement activities shall be subject to the same disciplinary actions as for other acts of absenteeism or truancy.

(g) Those students administered alternate assessments pursuant to § 151(f) of this title shall not be subject to the provisions of subsection (d) of this section.

(a) An effectively functioning Department of Education should serve as a critical support structure for the entire Public Education system. In order to meet this challenge, the Department shall fully implement its leadership and service missions by committing itself to high standards of quality assurance and quality management practices. In order to ensure that the Department will remain focused on the principles of continuous quality improvement and client service and that it will do so in accordance with recognized national and/or international standards, the Secretary shall commission an independent entity to conduct and publish an annual customer satisfaction report to determine the level of satisfaction among education constituencies dependent on Department of Education services and policies. Such survey shall seek the views of local school boards, school administrators, teachers, parent organizations, the business community and other relevant constituencies. To further improve the performance of the Department of Education, the Secretary shall pursue the active involvement of the business community in reviewing management practices in the Department, such as the Department’s success in deregulation, the quality of Department’s strategic plan and the Department’s success in meeting its strategic objectives, and the quality and cost-effectiveness of the technical assistance provided by the Department to local school districts. 2. The number of those students still enrolled at the close of the school year who receive a high school diploma and the type of diploma received;
3. The number of those students still enrolled at the close of the school year who complete twelfth grade, but do not receive a high school diploma;
4. The number of those students who, by the close of the school year, have dropped out of school; and
5. The number of those students who, by the close of the school year, transferred to other schools.

(d) Each year the Secretary shall conduct a graduate follow-up study of students who completed the twelfth grade during the preceding school year to determine the educational and employment status of each student. The survey shall request information regarding the postsecondary education enrollment status and the employment status of students and shall, at a minimum, include the following questions:

1. a. Is the student presently enrolled in a postsecondary educational institution of any type?
   b. Is the student enrolled full-time or part-time?
   c. What is the student’s major area of study?
   d. What is the name of the institution in which the student is enrolled?
2. a. Is the student presently employed?
   b. Is the student employed full-time or part-time?
   c. The name and address of the student’s employer?
   d. In what industry is the student employed?
   e. What position does the student hold?
   f. What is the student’s hourly/weekly/annual salary?
3. What is the student’s perception of the value of that student’s own secondary education in terms of preparation for postsecondary education or employment?

(e) For the purpose of performing a comparative longitudinal analysis of the information collected for an annual educational outcome report, the Secretary shall compile similar information about students who graduated in 1998 and 1999, and shall use the 1998 information as the basis for all comparisons. The goal of educational outcome accountability is to decrease the 2.9% 1998 Delaware public school dropout rate for grade 12, as published in the Department of Education report entitled Delaware Dropouts, 1997-1998 Summary Statistics,

B. Exit exams. — States shall accept:

   (1) Exit or end-of-course exams required for graduation from the sending state; or

   (2) National norm-referenced achievement tests; or

   (3) Alternative testing, in lieu of testing requirements for graduation in the receiving state. (4) Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state’s legislature, and each of the member states.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorney’s fees.

The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

(C) The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.
(D) The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

(C) The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

(76 Del. Laws, c. 327, § 1.)

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state’s intent to withdraw within 60 days of its receipt thereof.

(4) The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(5) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

(B) Dissolution of compact. — (1) This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to 1 member state.

(2) Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

(76 Del. Laws, c. 327, § 1.)

4. The physical or mental condition of the parent or legal guardian which prevents necessary care and supervision of the child;
5. The loss or uninhabitability of the student’s home as the result of a natural disaster; or
6. Other circumstances as deemed appropriate by the school district;

c. The child is not currently subject to an expulsion from school (as set forth in § 4130 of this title) or suspended from school for conduct that could lead to expulsion;

d. The child’s residency with the caregiver is not for the purpose of:

   4. Taking advantage of special services or programs offered at a particular school; or

The Caregivers School Authorization must include the following:
   1. The name and date of birth of the child;
   2. The name, address and date of birth of the caregiver;
   3. The names of the child’s mother, father, legal custodian or guardian;

   8. The notarized and dated signatures of the caregiver, parents, legal custodians or guardians, including a sworn statement of the accuracy of the information provided and confirming that the caregiver and other signatories are aware of the penalties for falsely completing the Authorization. If after a reasonable effort the caregiver is unable to locate the parents, then as an alternative to including the parents’ signatures, the Authorization shall include a statement of reasonable efforts made to locate the parents;
   9. If available, any custody order in effect regarding the child. The order shall be submitted as an attachment to the Caregivers School Authorization and shall include only that portion of the order indicating to whom custody is granted.

If the documentation required to verify the information in the Caregivers School Authorization cannot be obtained by the caregiver, then the schools shall permit the child to enroll provided that a custody or guardianship petition that is date stamped to indicate that it has been filed with Family Court is provided within 10 business days of enrollment. Additional time for submission of the date stamped petition may be provided as deemed appropriate by the individual district. The petition shall permit enrollment until the end of the school year or until such time as the court enters a decision disposing of the custody or guardianship petition, whichever first occurs;

2. A relative caregiver is an adult who by blood, marriage or adoption is the child’s great grandparent, grandparent, stepgrandparent, great aunt, aunt, steaunt, great uncle, uncle, stepuncle, steaunt, brother, sister, stepbrother, stepsister, half brother, half sister, niece, nephew, first cousin or first cousin once removed but who does not have legal custody or legal guardianship of the student.

3. A caregiver who completes and submits a Caregivers School Authorization form to register a child in that caregiver’s care for school is authorized and agrees to act in the place of the parent or parents with respect to the child’s education decisions (including but not limited to special education decisions) and the person the school contacts regarding truancy, discipline and school-based medical care. Once a Caregivers School Authorization is submitted and approved, school districts are no longer responsible, for so long as the Authorization is valid, for communicating with the parent, custodian or guardian who has signed the Authorization or is listed as unable to be found.

4. A Caregivers School Authorization that complies with the requirements of this section shall be honored by any school in any school district. The school districts shall determine whether a particular Caregivers School Authorization complies with the requirements of this section. A caregiver may appeal the school district’s decision to the local board of education of the school district. Any school district that reasonably and in good faith relies on a Caregivers School Authorization has no obligation to make any further inquiry or investigation.

5. Persons who knowingly make false statements in the Caregivers School Authorization shall be subject to a minimum civil penalty of $1000 and maximum of the average annual per student expenditure and may be required to reimburse the school district tuition costs. Further, such persons may be subject to criminal prosecution pursuant to § 1233 of Title 11. The justices of the peace shall have jurisdiction in these cases.

   (3) The school identified for the next grade level in the same school district where the child in the custody of DSCYF is enrolled.

(b) (1) A child in the custody of DSCYF under Chapter 25 of Title 13 must remain in the child’s school of origin, unless a determination is made that it is not in the child’s best interest to attend such school.
   (2) If it is determined that it is not in the best interest of a child to remain in the child’s school of origin, the child must immediately be enrolled in the child’s school of residence based on the current address of the DSCYF custody placement, even if the records or other documents normally required for enrollment are not produced. The school in which the child is enrolled shall immediately contact the child’s school of origin to obtain relevant academic and other records.
   (3) The determination of a child’s best interest under this subsection must, at a minimum, be made by a representative of DSCYF, a representative of the child’s school of origin, and a representative of the child’s school of residence based on the address of the DSCYF custody placement at the time of the determination.
   (c) (1) If a child leaves the custody of DSCYF, the child must remain in the school in which the child is enrolled through the remainder of the academic year, unless a determination is made that it is not in the child’s best interest.

§ 203. Special programs.

The Department with the approval of the State Board of Education and the school board of any local reorganized school district, either separately or jointly, may establish special programs for children who are in need of education not provided for in regular classes or schools. Such special programs may include, but are not limited to, bilingual programs, programs for persons who are truant or insubordinate or programs for pregnant students.

§ 204. Kindergartens and playgrounds and other schools.

§ 205. Vocational-technical centers, or schools.

The Department of Education with the approval of the State Board of Education may establish such vocational-technical centers, or schools as in its judgment will promote the educational interests of the State.

§ 206. Braille literacy rights and education.

(a) In developing the individualized written education program for each student who is blind the presumption shall be that proficiency in Braille reading and writing is essential for each student to achieve satisfactory educational progress. The assessment required for each student shall include a Braille skills inventory, including a statement of strengths and weaknesses. Braille instruction and its use are not
mandated by this section if, in the course of developing the student’s individualized educational program, all members of the team concur that the student’s visual impairment does not affect reading and writing performance commensurate with ability. Nothing in this section requires exclusive use of Braille if other special education services are appropriate to the student’s needs. The provision of other appropriate services shall not preclude Braille use or instruction.

(b) Instruction in Braille reading and writing shall be sufficient to enable each student who is blind to communicate effectively and efficiently with the same proficiency expected of the student’s peers of comparable ability and grade level. The student’s individualized educational plan shall specify:

1. The results obtained from the inventory required in subsection (a) of this section;
2. How Braille will be implemented as the primary mode for learning through integration with other classroom activities;
3. The date on which Braille instruction will commence;
4. The length of the period of instruction and the frequency and duration of each instructional session;
5. The level of competency in Braille reading and writing to be achieved by the end of the period, and the objective assessment measures to be used; and
6. The evidence used to determine that the student’s ability to read and write effectively without special education services will not be impaired if a decision has been made under subsection (a) of this section that Braille instruction or use is not required for the student.

(c) Each publisher of textbooks purchased by Delaware School Districts must, in addition to granting copyright permission for transcription into Braille, large print or tape for visually impaired students as already established by law, must furnish to the Division for the Visually Impaired, a print copy, and when requested, with computer diskettes in the American Standard Code for Information Interchange (ASCII) from which Braille versions of the texts can be produced. The print copy is also required since the accompanying graphics must be reproduced by hand, and some subject matter, such as mathematics must still be hand transcribed.

(d) As part of the certification process, all newly certified teachers of the visually impaired, after enactment of this section shall be required to demonstrate competence in reading and writing Braille. The Department of Education which certifies teachers shall require proof of a passing score on the Library of Congress Braille Competency Test (when it is completed and validated), or any comparable, nationally recognized validated test. Until that time, the Department of Education will continue to certify teachers of the visually impaired through its existing standards. All newly hired teacher aides will be required to achieve certification as Braille transcribers through the Library of Congress within 2 years of employment.

(e) In order to meet the instructional needs of students who are blind, the Division for the Visually Impaired shall hire an itinerant teacher of the visually impaired for every 28 students (or major fraction thereof) who are registered and receiving instruction from the Agency. At least 2 of these teacher units shall be 12-month employees in order to insure competent Braille instruction during the summer months.

These recordings shall remain available on the website for at least 1 year after their posting on the website. These recordings are not official board minutes, but are a means to enhance communication to the public and to state legislators. The requirements of this section do not apply to board executive sessions, or workshops and retreats where no voting will take place.

(c) The Committee shall not be compensated but shall be reimbursed for reasonable and necessary travel expenses incurred in connection with the performance of its official duties. Funding for the research and analysis required by this section shall also be provided by the Department of Education.

(d) The Committee shall review and analyze current public school feeder patterns, current resource allocations among the districts, current populations of children residing in the City of Wilmington attending public schools, and population projections for children residing in the City of Wilmington likely to attend public schools in the future.

(e) Based on the information and analysis, the Committee shall submit recommendations to the Mayor of the City of Wilmington and the City Council by January 3, 2001, concerning the creation of a Wilmington School District, neighborhood schools within the current district configurations, or neighborhood schools under some alternative district configuration. Prior to submitting the recommendations, the Committee shall hold at least 5 public hearings to take testimony and questions from members of the public and other interested stakeholders.

(72 Del. Laws, c. 287, § 2.)

Notwithstanding the above, the Plan may assign students to schools based on factors other than geographic distance and natural neighborhood boundaries if a substantial hardship to a school or school district, student or a student’s family exists; provided, that no student shall be assigned to any school on the basis of race and school assignments shall be made without regard to the racial composition of the schools. Districts may consider as part of their neighborhood school plans, interdistrict school assignments for individual schools, with the concurrence of other districts, to the extent such assignments further the purposes of this subchapter.

(b) Neighborhood School Plans shall consist of the following grade configurations:

1. A lower-level school, or elementary school, consisting of either grades K-5 or grades K-6;
2. A middle-level school, or junior high school, consisting of either grade 6 or 7 to grade 8 or 9; or
3. An upper-level school, or high school, consisting of either grades 9-12 or grades 10-12.

If a district has only 2 school configurations, the plan may contain any combination of grade levels. To the extent a district concludes
that an alternative configuration would better accomplish the goals of this subchapter, the district may present an alternative neighborhood school plan in addition to the plan based on the above configurations.

(c) Each district shall hold at least 5 public hearings concerning their proposed plan prior to submission to the State Board of Education.

(d) The school board of each district shall submit its plan to the State Board of Education by November 15, 2001, for its review and approval. If approved, the State Board of Education shall notify the Director of the Office of Management and Budget and Controller General who shall, subject to an annual appropriation, release to the district a 1-time payment of $1.25 million from the General Fund for transition costs incurred by the district in implementing the plan. If the State Board of Education does not approve the plan, it shall notify the district in writing, identify the reasons why the plan was not approved, and require the district to resubmit the plan within 60 days of the notice of denial. If the district fails to resubmit the plan in accordance with this subchapter within 60 days, the State Board of Education shall refer the matter to the Attorney General’s Office to bring an action in a court of competent jurisdiction to compel compliance with this subsection.

(e) Each district shall implement its Neighborhood School Plan within 18 months of receiving payment of 1-time transition costs pursuant to subsection (c) of this section.

(f) A citizen with standing may bring a private cause of action in a court of competent jurisdiction to enforce the requirements of this section.

(g) Nothing in this section is intended to deny or interfere with a student attending a special education program, an alternative school or a charter school, or electing to attend a school through the enrollment choice program.

(h) Notwithstanding any requirement of this subchapter, no district shall be required to submit or implement any Neighborhood School Plan, for grades 6-12 if the district shall, for the 2002-2003 school year, enroll 40% or more of its students through the School District Enrollment Choice Program (“Choice Program”) established in Chapter 4 of this title. For any district not meeting this test in the 2002-2003 school year, that district may qualify for this exemption by demonstrating that it has enrolled 40% of its students through the Choice Program in the immediately preceding school year.

(c) Notice of all meetings of the Board shall be given in the manner prescribed by law.

(d) Board meetings and hearings shall be open to the public in accordance with the provisions of Chapter 100 of Title 29.

(e) Minutes of all meetings shall be recorded and copies shall be maintained by the Association at the offices of the Department of Education. At any hearing in which evidence is presented, a record from which a verbatim transcript can be prepared shall be made and the expense of preparing any transcript shall be incurred by the person requesting the transcript.

(f) Board decisions in cases involving requests for waivers will be released in writing within 20 days from the date of hearing.

(73 Del. Laws, c. 374, § 3.)

§ 309. Secretary; powers and duties.

The Association shall be a unit of the Department of Education. The Secretary of Education shall promulgate any rules and regulations necessary to the establishing of the Association as such a unit.

(73 Del. Laws, c. 374, § 3.)

§ 310. Payment of expenses; deposits of receipt.

A special fund is hereby created and shall be known as the “Secondary Interscholastic Athletic Fund.” The expenses of the Association shall be paid from this special fund. Any appropriations made to the Department by the General Assembly for the Association shall be allocated to this fund. The Association shall be authorized to receive state appropriations, federal moneys, membership dues, tournament revenues, fees, fines, official dues, merchandising and licensing revenue, and interest. The Association is authorized to establish special fund accounts for the purposes of tracking revenue, and these accounts shall be interest bearing and not subject to reversion. The Association is exempt from the state bid law. The Association shall not operate any accounts outside of the state accounting system and the fund shall be interest bearing. Funds shall be utilized to support the activities and operations of Delaware interscholastic athletics. During the fiscal year, the expenditure of funds from the Delaware Interscholastic Athletic Fund will be in accordance with the Division of Accounting budget and accounting procedures.

§ 312. Appeals of decisions by the Association.

The Association shall decide on all controversies involving the rules and regulations, including any waiver thereof, adopted pursuant to this chapter, and any waiver of the ineligibility in § 410(a) of this title. Any party to such a controversy may appeal to the state Board by setting forth such grievance in a petition which shall be served upon the Executive Director of the Association by certified or registered mail within 30 days after receiving notice of the decision. The state Board shall provide by rules and regulations for adequate procedures for the hearing of any such appeal and shall decide the controversy. All such appeals shall be on the record, and the state Board shall overturn the Association’s decision only if it decides that the Association’s decision was not supported by substantial evidence or was arbitrary or capricious. The decision of the state Board shall be final and not subject to further appeal.

Chapter 4
SCHOOL DISTRICT ENROLLMENT CHOICE PROGRAM

§ 401. Establishment; statement of purpose.

(a) There is hereby established an enrollment choice program within the public school system of this State.

(b) In establishing this program, it is the goal of the General Assembly to increase access to educational opportunity for all children throughout the State regardless of where they may live. It is therefore the intent of the General Assembly that this chapter be construed broadly to maximize parental choice in obtaining access to educational opportunities for their children.

(c) For the school year commencing July 1, 1996, and each succeeding school year, a parent residing within this State may enroll that parent’s child in a public school in any school district in the manner provided in this chapter.

(d) The forms prescribed and policies adopted pursuant to this chapter shall be available on the websites of the school districts and the Department of Education.

(70 Del. Laws, c. 180, § 3; 70 Del. Laws, c. 186, § 1; 79 Del. Laws, c. 35, § 1.)

§ 402. Definitions.

For the purposes of this chapter, the following terms shall have the following meanings:

(1) “District of residence” shall mean any reorganized school district in which the parent of a student resides.

(2) “Good cause” means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child's parent’s marital status, a change caused by a guardianship proceeding, placement of a child in foster care, adoption, participation by a child in a foreign exchange program, a reported, recorded, and substantiated instance of “bullying” against their child as defined in § 4161 of this title, or participation by a child in a substance abuse or mental health treatment program, or a set of circumstances consistent with this definition of “good cause.”

(3) “Parent” shall mean parent, relative caregiver pursuant to § 202(f) of this title or legal guardian of the person of the child.

(4) “Receiving district” shall mean any reorganized school district other than the district of residence in which a student seeks to enroll. Where the district of residence includes more than one school or more than one program within any school providing instruction at a given grade level, and a parent of a child entering such grade level applies to enroll that parent’s child in a public school program within the district of residence other than the program in which the child would normally be enrolled based on the child’s place of residence, the district of residence shall also be considered to be the receiving district for all purposes of this chapter, except for the purposes of § 408 of this title.

(5) “Receiving local education agency” shall mean any public authority legally constituted by the State as an administrative agency to provide control of and direction for kindergarten through twelfth grade public educational institutions, other than the school district of residence, which administers any school or program in which a student seeks to enroll, including any receiving district. Where the local education agency is the school district of residence that includes more than one school or more than one program within any school providing instruction at a given grade level, and a parent of a child entering such grade level applies to enroll that parent’s child in a public school program within the district of residence other than the program in which the child would normally be enrolled based on the child’s place of residence, the district of residence shall also be considered to be the receiving local education agency for all purposes of this chapter, except for the purposes of § 408 of this title. Notwithstanding § 505 of this title, the term “receiving local education agency” shall include charter schools.

(6) “Working days” shall mean working days as determined by a local education agency’s administrative calendar.

§ 403. Pupil application; withdrawal.

(a) Any parent of a school age child may apply to enroll that parent’s own child in a school or program in a receiving local education agency by submitting a written application, on a standard form provided by the Department of Education, to the Department of Education or to the receiving local education agency and to the district of residence on or after the first Monday in November and on or before the second Wednesday in January for enrollment during the following school year, except that a parent may apply to a receiving local education agency until the first day of the school year for enrollment in a kindergarten program during that school year. The Department of Education shall distribute applications to the appropriate receiving local education agency no later than 10 working days after the application deadlines set forth in this subsection. Receiving districts may require the submission of information beyond that contained in the standard form provided that it requires the submission of the same information by the parents of children residing in the attendance zone for the school. Notwithstanding the requirements of this subsection, charter schools, vocational-technical school districts, and magnet
schools may accept applications submitted after the second Wednesday in January to fill remaining availability.

(b) If a parent of a school age child fails to file an application by the deadline established in subsection (a) of this section, and good cause exists for the failure to meet the deadline, the receiving local education agency and the district of residence shall accept and consider the application in the same manner as if the deadline had been met.

(c) The parent of a school age child may withdraw the application at any time prior to action on the application by the board of the receiving local education agency by giving written notice to the boards of the receiving local education agency and the district of residence.

(d) The parent shall indicate on the standard form the schools and programs to which the parent is applying on behalf of his or her child, as well as the parent’s order of preference of the schools or programs.

§ 404. Receiving district and local education agency procedures.

(a) Within 10 working days after an application deadline, the receiving district shall transmit a notice to the district of residence that it has received the application.

(b) The board of the receiving local education agency shall take action no later than the last day of February of the school year preceding enrollment to approve or disapprove an application for admission to a program in grades 1 through 12, and no later than June 15 of the school year preceding enrollment to approve or disapprove an application for admission to a kindergarten program. Charter schools, vocational-technical school districts, and magnet schools may act on applications accepted in accordance with the provisions of § 403(a) of this title to fill remaining availability.

(c) With respect to any application filed in accordance with the provisions of § 403(b) of this title, the board of the receiving local education agency shall take action to approve or disapprove the application no later than 45 days after receipt thereof, unless the application is received prior to a lottery conducted as outlined in a local education agency’s enrollment policy in the case of over-enrollment.

(d) The board of the receiving local education agency shall transmit a notice of the board’s action to the parent of the child, and to the board of the district of residence within 5 working days after board action.

(e) The parent who applied for the child shall notify the board of the receiving local education agency in writing no later than the third Friday in March, whether an offer is accepted or rejected.

(f) No later than November 30 of each year, the board of each receiving district shall transmit to the Department of Education notice of the capacity of each school in the receiving district for the following academic year and the projected enrollment for the following academic year. The capacity and projected enrollment figures may be revised until January 30. For the purposes of this subsection, “capacity” shall have the same meaning as set forth in § 405(d) of this title, and “projected enrollment” shall mean the total number of returning students and new attendance zone students the receiving district anticipates will enroll for the following academic year.

(g) No later than October 31 of each year, each receiving district shall hold at least 1 public information session about choice opportunities available in schools and programs in that district for the coming academic year.

(70 Del. Laws, c. 180, § 3; 70 Del. Laws, c. 387, § 2; 79 Del. Laws, c. 35, § 4; 79 Del. Laws, c. 267, § 3.)

§ 405. Criteria for approval or disapproval.

(a) Each receiving local education agency shall adopt and make available a policy regarding the order in which applications for enrollment pursuant to this chapter shall be considered and the criteria by which such applications shall be evaluated.

(b) Prior to the applicable application deadline established in § 403(a) of this title, each receiving district shall adopt and make available a policy establishing criteria for acceptance or rejection of applications and setting priorities for acceptances consistent with this section. Such criteria shall be reasonably related to the nature of the program or school for which the application is submitted and may not differ from the criteria used for acceptance or rejection of applications submitted by parents of children residing in the attendance zone of the school, if applicable, except that a district shall give priority to the following categories of students in the order listed:

1. First, to returning students who continue to meet the requirements for the program or school, including students graduating from 1 school to another within a single program;
2. Second, to students who meet the requirements for the program or school and who seek to attend based upon the residence of the student’s parent within the designated feeder pattern, if any, for the school; and
3. Third, to the siblings of students already enrolled in the school who will be returning to the school for the following academic year, provided that any siblings seeking priority under this paragraph meet the requirements for the program or school. Priority may be given to siblings of students who live in the district over siblings of students who do not live in the district.

In addition to the above, a receiving district may next give priority to students who have designated the program or school as a first, second, or third choice; to students who live within the district; and to children of school employees; as long as they otherwise meet the criteria of the program or school. After a receiving district has admitted all qualifying students consistent with the criteria in this subsection, the receiving district shall use a lottery process to admit additional students and generate a ranked waiting list. The Department may verify the randomness of the lottery process.

(c) Each receiving local education agency shall accept applications, in a manner consistent with the policy adopted pursuant to this
subsection, until there is a lack of capacity in each school and program. Students who meet the receiving local education agency’s criteria for acceptance in the policy but who are not selected due to a lack of capacity in the school or program shall be placed on a ranked waiting list maintained by the receiving local education agency until the first day of the receiving local education agency’s school year for which they applied.

(d) Consistent with subsection (b) of this section, a receiving local education agency may disapprove an application because of lack of capacity in a particular program or school. For purposes of this section, “capacity” means the maximum number of students that a program or school can contain as determined solely by considerations of physical space, physical resources, and class size for each grade level. For the purposes of this section, “lack of capacity” means that the school or program calculates projected enrollment for the following academic year to be at least 85% of its capacity.

(e) A district which is subject to a court-ordered desegregation plan may approve and disapprove applications in accordance with § 406(a) of this title.

(a) If approval of all of the applications for transfer into or out of a district would result in the district being out of compliance with any applicable court-ordered desegregation plan, the district shall establish the number of majority and minority group pupils who may transfer into or out of the district.

(b) Any action by the board of the district of residence to disapprove the application pursuant to this section shall be taken no later than March 15 of the school year preceding enrollment.

(c) The board of the district of residence shall transmit a notice of the board’s action pursuant to this section to the parent within 5 working days after board action.

(70 Del. Laws, c. 180, § 3.)

§ 407. Duration of enrollment in receiving district.

(a) (1) A pupil accepted for enrollment in a school or program pursuant to this chapter shall be entitled to remain enrolled therein until graduation from the school or completion of the program provided that the pupil continues to meet the requirements for such school or program, provided however, that upon the concurrence of the boards of both the district of residence and the receiving district, a pupil’s right to remain enrolled may be terminated prior to graduation from or completion of the program where such termination is based upon the pupil’s

a. Failure to continue to comply with the receiving district’s requirements for attending school or class, or
b. Multiple violations of, or one or more serious violations of, the receiving district’s student code of conduct.

(2) A pupil accepted for enrollment in a school or program pursuant to this chapter shall remain enrolled therein for a minimum of 2 years unless, during that 2-year period,

a. A pupil graduates from the school or completes the program;
b. The pupil’s parent or parents cease to be residents of the pupil’s original district of residence;
c. At the conclusion of any academic year during such 2-year period, the pupil ceases to meet the academic requirements for such school or program;
d. If daycare was indicated on the relevant choice application as a reason for seeking enrollment, or if daycare was a reason for granting priority to consideration of or granting of the relevant choice application, or the provider of daycare services to the pupil ceases doing business or relocates to a location so distant from the original location as to render the original combination of daycare and choice enrollment no longer reasonably practicable for the pupil or the parent or parents of such pupil; or
e. The board of the district of residence, the board of the receiving district, and the parent or parents of the pupil agree for any reason to terminate such enrollment;
f. The provisions of paragraphs (a)(2)a. through (a)(2)e. of this section shall apply unless the receiving district, at its sole discretion, agrees to maintain a child in a choice placement. Due to the unique educational and developmental needs of primary age children, on a case by case basis, districts may grant exceptions to allow students in grades kindergarten through grade 3 to remain in school choice even if they fail to meet required educational standards;
g. The pupil’s parents or guardians wish to terminate the agreement due to a reported, recorded, and substantiated instance of “bullying” against their child as defined in § 4161 of this title.

(b) Notwithstanding the provisions of subsection (a) of this section, a parent may apply to terminate that parent’s own child’s enrollment in the receiving district prior to the expiration of the minimum period established in subsection (a) of this section by submitting a written application, on a form provided by the Department of Education, to the child’s then-existing district of enrollment no later than December 1 for enrollment during the following school year.

(c) If a parent of a child fails to file an application by the deadline of December 1 and good cause exists for the failure to meet the deadline, the child’s then-existing district of enrollment shall accept and consider the application in the same manner as if the deadline had been met.

(d) The parent of a child may withdraw the application at any time prior to action on the application by the board of the child’s then-
existing district of enrollment.

(e) Within 10 working days of receiving an application to withdraw, the child’s then-existing district of enrollment shall transmit a notice to the district of residence that it has received the application.

(f) The board of the child’s then-existing district of enrollment shall take action to approve or disapprove the application no later than December 15 of the school year preceding enrollment.

(g) The board of the receiving district shall transmit a notice of the board’s action to the parent of the child and to the board of the district of residence within 5 working days after board action.

(h) The action of a board in a child’s then-existing district of enrollment to accept an application to terminate enrollment pursuant to this section shall be final; however, nothing in this subsection shall prohibit a board in its sole discretion from conditioning its approval of termination pursuant to this section upon acceptance of the child into another district or program pursuant to an application submitted in accordance with chapter.

(i) Unless accepted for enrollment in a school or program in another district pursuant to this chapter, a child whose enrollment in a receiving district concludes or terminates pursuant to this section shall automatically be re-enrolled in the child’s district of residence for the ensuing school year. Any such student shall be enrolled by the district of residence according to the feeder pattern in which the child’s parent resides unless, pursuant to the provisions of § 405(b) of this title, all available space has been filled by returning students, in which case the student shall apply and be considered for enrollment in any other school in the district of residence in which there is space available in accordance with the provisions of this chapter.

§ 408. State and local education funding.

(a) A pupil enrolled in a receiving district pursuant to this chapter shall be included in the unit count of the receiving district for all purposes relating to the allocation of all state and federal education funding and shall not be included in the unit count of the district of residence for any such purposes.

(b) If a parent of a pupil enrolled outside the district of residence pursuant to this chapter moves during the school year to a district different from either the district of residence or the receiving district, the child’s first district of residence shall continue to be responsible for payments to the receiving district for the balance of the school year pursuant to subsection (e) of this section. The child’s new district of residence shall be responsible for all such payments during succeeding years, and such payments shall be calculated as the lower local cost per pupil, as defined in subsection (d) of this section, of the new district of residence and the receiving district.

(c) The Department of Education shall annually calculate the local cost per pupil expended by each school district for each type of pupil for the school year immediately preceding and shall annually certify each district’s local cost per pupil expenditure by September 1 of each year.

(d) Local cost per pupil as used in this section shall be calculated as follows:

\[
\text{Number of Pupils per Unit} = \frac{\text{Total Operating Expenditure in Preceding Fiscal Year}}{\text{Total Division I Units minus Special School Units}}
\]

Where:

- Total local Operating Expenditure in Preceding FY = Sum of all expenditures from local sources minus local expenditures for tuition minus local expenditures for debt service minus local expenditures for Minor Capital Improvement minus local cafeteria expenditures minus any other local expenditures deemed by the Secretary of Education to be inappropriate for inclusion for the purpose of this chapter.
- Division I Units for each District or Special School = Division I Units certified by the Department of Education as of September 30 of each year
- Pupils per Unit = Number of Pupils required for one particular unit of funding as specified in § 1703 of this title

(e) The district of residence shall, except as provided for in subsection (h) of this section, pay to the receiving district the lower local cost per pupil expenditure of the 2 districts, adjusted by an inflation factor specified annually in the annual appropriations act, such payment to be made by November 30 of each year. In the case of a district of residence that has a higher local cost per pupil than the receiving district, the district of residence shall pay in to a special fund to be known as the “School Choice Fund,” the difference per pupil between their local cost per pupil expenditure and that of the receiving district. The Department of Education shall establish and administer the School Choice Fund as an appropriated special fund account. Deposits by districts of residence to this account shall also be completed by November 30 of each school year.

(f) Once all payments have been made pursuant to subsections (b) and (e) of this section, the full amount in the “School Choice Fund” account shall be allocated to all receiving districts that had a local cost per pupil, as defined in subsection (d) of this section, that was higher than the district of residence for pupils choosing to attend schools in districts other than their district of residence. These funds shall be
provided in a pro-rata fashion so that the gap that exists in a receiving district between the local per pupil cost in the receiving district and the amount paid by the district of residence is closed by an equal percentage in each receiving district.

(g) Once all payments have been made pursuant to subsections (b), (e) and (f) of this section, the State, from the annual appropriations made for Division III Equalization and/or that portion of the Growth and Upgrade Contingency that represents actual Division III Equalization unit growth, will provide funding to all receiving districts that had a local cost per pupil, as defined in subsection (d) of this section, that was higher than the district of residence of pupils who choose to attend school in said receiving districts. This funding will be provided to each such receiving district so that the gap that exists in such receiving district between the local per pupil expenditures in the receiving district and the amount paid by the district of residence is closed by an equal percentage in each receiving district to the extent that the actual appropriations allow.

(h) Any pupil, who because of educational need, requires services that are appropriately financed pursuant to the provisions of Chapter 6 of this title, either at the outset or subsequent to a decision to enroll in a public school other than a school in the pupil’s district of residence, shall remain the financial responsibility of the district of residence. The amount of the financial obligation shall be determined in accordance with the provisions of Chapter 6 of this title.

(i) Any payment received by a local school district pursuant to this section may be used for current operations, local share of minor capital improvements, local debt service payments or to make tuition payments.

(j) In the event of any mid-year termination of a pupil’s enrollment under this chapter, nothing contained in this section shall prevent the district of residence and the receiving district from entering into an agreement providing for the pro ration of student funding between or among the district of residence, the receiving district, a successor district of residence and/or a successor receiving district.

§ 409. Transportation.

(a) The parent of any child enrolled in a district other than the district of residence, or enrolled in a school within the district of residence other than the school in which the child would normally be enrolled based upon the residence of the child’s parent or parents, shall be responsible for transporting the child without reimbursement to and from a point on a regular bus route of the receiving district.

(b) A child in grades 6 through 12 may use an annual student bus pass under § 2901(e) of this title.

(70 Del. Laws, c. 180, § 3; 70 Del. Laws, c. 186, § 1; 71 Del. Laws, c. 132, § 369; 71 Del. Laws, c. 180, § 22; 76 Del. Laws, c. 280, § 404; 82 Del. Laws, c. 188, § 1.)

§ 410. Interscholastic sports.

(a) A student enrolled in grades 10 through 12, inclusive, in a receiving local education agency shall not be eligible to participate in interscholastic athletic contests or competitions during the first year of enrollment in any receiving local education agency if the student was enrolled in a different receiving local education agency during the preceding school year unless the interscholastic sport in which the student wishes to participate is not offered in the receiving local education agency in which the student was enrolled in the previous school year.

(b) The Board of Directors of the Delaware Interscholastic Athletic Association may waive the ineligibility in subsection (a) of this section if the Board of Directors determine, in accordance with its rules and regulations, that the standards for granting a waiver have been met.

(c) A waiver of subsection (a) of this section is not required for a student who transfers to and enrolls in grades 10 through 12 in a receiving local education agency that is a charter school:

1. In the charter school’s first year of operation; or
2. In the charter school’s first year of serving grades 10, 11, or 12.

(70 Del. Laws, c. 180, § 3; 81 Del. Laws, c. 72, § 2.)

§ 411. Pupils suspended, expelled, or truant in district of residence.

If a child for whom an application has been submitted pursuant to this chapter has been suspended or expelled, or has been absent from school without a valid excuse for more than 15 school days during a school year, in the district of residence, the board of the receiving district may, in its sole discretion, refuse to consider the application or refuse to approve the application, or refuse to enroll the child in the receiving district until the child has been reinstated in the district of residence, provided, however that nothing in this section shall be construed to enlarge upon the authority of any district to accept for re-enrollment any student who has been expelled from a school district in this State, as such authority is limited by the provisions of § 4130 of this title. “Valid excuse” shall have the same meaning as in § 2721 of this title.

(70 Del. Laws, c. 180, § 3; 79 Del. Laws, c. 35, § 6.)

§ 412. Credits; graduation.

A pupil who has been enrolled in a receiving district and who has met that district’s graduation requirements shall be granted a diploma by that district. That district shall accept credits toward graduation requirements that were awarded by another district.

(70 Del. Laws, c. 180, § 3.)

§ 413. Discipline not affected.

Page 51
Nothing in this chapter shall be deemed to affect or alter district policies with regard to disciplining students, including suspensions or expulsions.

(70 Del. Laws, c. 180, § 3.)

§ 414. Intra-district choice.

Where the district of residence includes more than one school or more than one program within any school providing instruction at a given grade level, a parent of a child entering such grade level may apply to enroll that parent’s own child in any public school program within the district of residence other than the program in which the child would normally be enrolled based on the child’s place of residence in the manner provided in this chapter, and in such cases, the district of residence shall also be considered to be the receiving district for all purposes of this chapter, except that the provisions of § 408 of this title shall not apply to any such applications or changes in enrollment.

(70 Del. Laws, c. 180, § 3; 70 Del. Laws, c. 186, § 1.)
§ 501. Legislative intent.

The purpose of this chapter is to create an alternative to traditional public schools operated by school districts and improve public education overall by establishing a system of independent “charter” schools throughout the State.

To that end, this chapter offers members of the community a charter to organize and run independent public schools, free of most state and school district rules and regulations governing public education, as long as they meet the requirements of this chapter, and particularly the obligation to meet measurable standards of student performance. Schools established under this chapter shall be known as “charter schools.”

This chapter is intended to improve student learning; encourage the use of different and innovative or proven school environments and teaching and learning methods; provide parents and students with measures of improved school and student performance and greater opportunities in choosing public schools within and outside their school districts; and to provide for a well-educated community.

There shall be no limit to the number of charter schools that may be established in the State; provided, however, that no more than 5 such schools may be established to operate in the 1996-1997 school year, and that no more than 5 additional charter schools may be established to operate in the 1997-1998 school year, and that no more than 5 additional charter schools may be established to operate in the 1998-1999 school years. If for any school year more charters are awarded than are permitted to operate by this section, the Department of Education shall hold a lottery to decide which charters are permitted to operate in such school year and charter applicants who lose such lottery shall be given a right of refusal for a charter for the subsequent school year.

This legislation is intended to encourage any person, university, college, or nonreligious, non-home-based, nonsectarian entity that can meet the requirements of this chapter to form a charter school. No private or religiously affiliated school may apply to become a charter school.

(70 Del. Laws, c. 179, § 2.)

§ 503. Legal status.

A charter school is a public school including 2 or more of grade kindergarten through 12 managed by a board of directors, which operates independently of any school board, under a charter granted for an initial period of 4 school years of operation and renewable every 5 school years thereafter by a public school district or the State Department of Education (hereinafter in this chapter, “Department”) with the approval of the State Board of Education (hereinafter in this chapter, “State Board”), pursuant to this chapter. For purposes of this chapter as it relates to the management of a charter school, the board of directors of a charter school shall be a public body subject to the requirements of Chapter 100 of Title 29 and shall have the same standing and authority as a Reorganized School District Board of Education, except the power to tax.

§ 504. Corporate status.

(a) A charter school shall be organized and managed under the Delaware General Corporation Law.

(b) The board of directors of a charter school shall be deemed public agents authorized by a public school district or the Department with the approval of the State Board to control the charter school. No person shall serve as a member of a charter school board of directors who is an elected member of a local school board of education.

(c) A charter school shall be considered a public school for all purposes.

(d) A charter school may sue or be sued to the same extent and on the same conditions as a public school district, and its employees, directors and officers shall enjoy the same immunities as employees, directors and officers of public school districts and other public schools. The approving authority of a charter school shall have no liability for the actions or inaction of a charter school.

§ 504A. Powers.

Consistent with its charter and the provisions of its certificate of incorporation, bylaws or membership agreements, the board of directors of a charter school or schools shall, as to each charter that the board holds, have the power to:

(1) Manage the implementation of its approved education program;
(2) Determine its own budget and operating procedures;
(3) Acquire and convey interests in real property, subject to rules and regulations established by the Department with the approval of the State Board with respect to real property acquired by charter schools using state funds;
(4) Incur debt;
(5) Accept gifts;
(6) Contract with any school district, or any other public school or private nonsectarian, nonreligious entity also empowered to enter into contracts, for any and all real property, equipment, goods, supplies and services; provided, that a school district must make unused buildings or space (defined as space no longer needed, permanently or temporarily, for non-charter school purposes) buildings or space in buildings available to a charter school, and shall bargain in good faith over the cost of rent, services and maintenance related to such space; provided further, that a charter school may, with the approval of the Secretary and the State Board for the sole purpose of determining compliance with this proviso, contract with a sectarian or religious college or university incorporated in the State and operating a program or programs for teacher education within the State empowered to enter into contracts for such property and services, so long as the property contracted for is used in a nonreligious and nonsectarian manner and the services contracted for are provided in a nonreligious and nonsectarian manner and are of a nonreligious and nonsectarian type. A charter school’s continued use of school district space shall be subject to review at least on a 5-year basis, and may be terminated by the district with 1 year’s notice, if the district’s non-charter school capacity requirements warrant. Charter schools shall have preference over state agencies for purposes of § 1057(b) of this title except that nothing in this section shall require the displacement of any tenant either during the term of its current lease or any renewal thereof;
(7) Hire, manage, and terminate any school employee in accordance with the terms of its personnel policies or any collective bargaining agreement it negotiates with its employees;
(8) Establish reasonable academic and disciplinary standards specifically related to the missions, goals and educational objectives for the charter school as set forth in its charter for students to continue enrollment in the charter school; provided, however, that an expulsion from a charter school shall have the same effect for the purposes of § 4130 of this title as expulsion from a school district. Charter schools may refer students to the alternative programs operated pursuant to the provision of Chapter 16 of this title subject to the following conditions:
   a. A student may only be referred to a program which serves that student’s district of residence and only if there is space available in such program to serve the student;
   b. The student otherwise meets eligibility criteria for students who may be enrolled in such program; and
   c. The student’s district of residence and the charter school in which the student is enrolled agree to a proration of student funding between or among the charter school and the school district in which the student resides, in which case the district of residence shall become liable for any cost associated with the placement of the student in the alternative program;
(9) Establish an application and admissions process which shall enable the charter school to provide the local districts in which its students reside with a preliminary roster of its students for the subsequent school year on or before May 1 of each year. Each charter school shall make the timetable for its application and admissions process identical to any such timetable set forth by this Code for the operation of a public school choice program.

§ 505. Exemptions; rules and regulations.

(a) Except as otherwise specified in this chapter and title, a charter school is exempt from all provisions of this title except the provisions of Chapter 31 of this title, and all regulations of any board of education of a reorganized school district, although a charter school may elect to comply with 1 or more such provisions.
(b) The Department of Education shall have the authority to promulgate rules and regulations that would further define the application, approval criteria and processes.

(70 Del. Laws, c. 179, § 2; 72 Del. Laws, c. 118, § 1; 73 Del. Laws, c. 164, § 6; 73 Del. Laws, c. 313, § 3.)

§ 506. Restrictions.

(a) A charter school may not do any of the following:
   (1) Charge tuition, except in accordance with Chapter 6 of this title, or collect fees not permitted to be assessed by other school districts.
   (2) Be home-based nor engage in any sectarian or religious practices in its educational program, admissions policies, employment policies or operations.
   (3) Restrict student admissions except:
      a. By age and grade;
      b. By lottery in the case of over-enrollment;
      c. By gender in the case of a same-gender school, except that there may not be more than 1 same-gender school for each gender operating simultaneously, and any same-gender charter school authorized prior to June 30, 2014, may have their charter renewed and
continue to operate. Any subsequent same-gender charter school that seeks to operate in the State shall make its application to the Department of Education and the State Board of Education.

d. --g. [Repealed.]

(4) Discriminate against any student in the admissions process because of race, creed, color, sex (except in the case of a same-gender school), handicap, or national origin, or because the student’s school district of residence has a per student local expenditure lower than another student seeking admission. For the purposes of this subsection:

a. “Protective hairstyle” includes braids, locks, and twists.

b. “Race” includes traits historically associated with race, including hair texture and a protective hairstyle.

(5) Be formed to circumvent a court-ordered desegregation plan.

(b) Preferences in student admissions may be given to:

(1) Siblings of students currently enrolled at the school;

(2) Students attending an existing public school converted to charter status. Parents of students at a school converted to charter status shall be provided with a plan the district will use to address the educational needs of students who will not be attending the charter school;

(3) Students enrolling in a new (nonconverted) charter school may be given preference under the following circumstances as long as the school has described its preferences in the school’s charter:

a. Students residing within a 5-mile radius of the school;

b. Students residing within the regular school district in which the school is located;

c. Students who have a specific interest in the school’s teaching methods, philosophy, or educational focus;

d. Students who are at risk of academic failure;

e. Children of persons employed on a permanent basis for at least 30.0 hours per week during the school year by the charter school.

(4) Children of a school’s founders, so long as they constitute no more than 5% of the school’s total student population. For the purposes of this paragraph “founder” shall not include anyone whose sole significant contribution to the school was monetary, but otherwise shall be determined by the founding Board of Directors subject to Department of Education regulations.

(c) (1) On or before April 1 of each school year, a charter school shall have enrolled, at a minimum, 80% of its total authorized number of students, and the administrator of each charter school shall, pursuant to the requirements below, provide a written certification of that enrollment to the Department of Education and to the superintendent of each public school district in which 1 or more of the charter school’s students reside.

(2) The certification from the charter school’s administrator shall contain an updated roster of students who are enrolled at the charter school, together with their home address and district of residence.

(3) A charter school shall obtain a written confirmation, signed by a parent or guardian of each student in that student’s initial year of attendance at the charter school, that the student will remain in the charter school for at least 1 school year. That confirmation shall include a statement reading:

“I understand that my child is required to remain in this charter school, in the absence of any condition constituting good cause, for at least 1 school year”

and shall be kept on file at the school and made available for inspection to Department of Education officials or representatives from the public school district in which the student resides. After a student’s initial year of enrollment, it shall be presumed for school district planning purposes only that the student will continue to attend the charter school until completion of the school’s highest grade level and no further written confirmation need be obtained by the charter school.

(d) A pupil accepted for enrollment in a charter school pursuant to this chapter shall remain enrolled therein for a minimum of 1 year unless, during that 1-year period, good cause exists for the failure to meet this requirement. For purposes of this section only, “good cause” shall be defined as a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in the marital status of the child’s parents, a change caused by a guardianship proceeding, placement of a child in foster care, adoption, participation by a child in a foreign exchange program, participation by a child in a substance abuse or mental health treatment program, a reported, recorded and substantiated instance of “bullying” against their child as defined in § 4161 of this title, mutual agreement by the board of directors of the charter school, the board of the receiving district and the parent or parents or guardian of such child to the termination of such enrollment, or a set of circumstances consistent with this definition of “good cause.”

(e) If at any time during any fiscal year of its existence, a charter school knows or reasonably should know that it has or will become unable to pay in full its projected expenses as they fall due, the school shall immediately so advise the Department of Education and its authorizer, and shall provide the Department with all financial information relating to revenues and expenses of the school necessary for the Department to determine the extent and cause of any potential operating deficit. If a charter school should fail to provide the notice to the Department of Education and authorizer required by this subsection or shall fail to cooperate with the Department in the production of financial information pursuant to this subsection, the authorizer shall subject the school’s charter to formal review pursuant to the provisions of § 515 of this title in order to determine whether grounds exist to take remedial measures.

(f) If a child would qualify for a no- or low-cost breakfast or lunch under a federal national school breakfast or lunch program, beginning in the 2014-2015 school year, the charter school shall provide breakfast and lunch to the child at no or low cost to the child’s family.
Charter schools shall not consider whether a child would qualify for no- or low-cost breakfast or lunch under a federal national school breakfast or lunch program when making enrollment decisions.

§ 507. Labor relations.

(a) A public school may only be converted to a charter school by approval of the board of the school district in which it is located and that the charter application received the approval of over 50% of the teachers and over 50% of the parents residing in the attendance area of the school with a child or children under the age of 18 years, who, after 30 days prior written notice to all teachers and parents eligible to vote, attend a public meeting held for the specific purpose of voting on the proposed conversion; provided, however, that such approval shall not be required where a district school board converts a choice school or program with a specific career or academic subject matter focus already approved as of the effective date of this chapter to a charter school with the same focus. The employees of a school converted to a charter school who are not employed by the charter school shall be accorded the rights available to them under the provisions of their collective bargaining agreement and shall, to the extent permissible under their collective bargaining agreement, be given preference in filling positions in the school district.

(b) The employees of a school converted to charter status and who are employed by the charter school shall not be part of any bargaining unit which represented employees of the school while it was still part of the school district. Employees of charter schools shall have the same right to organize and bargain collectively as employees of other public schools. A bargaining unit shall not be deemed inappropriate under Chapter 40 of this title, simply because said unit is comprised of professional and non-professional positions within a charter school. A teacher may be a member of a bargaining unit and serve as a director of a charter school provided; however, that any teacher who is a director of a charter school shall recuse himself or herself from any board meeting, discussion or decision relating to the bargaining unit of which such teacher is a member.

(c) Labor relations between the charter school and its employees shall be governed by Chapter 40 of this title, and a charter school and its employees may agree through the collective bargaining process to abide by other provisions of this title or Code. Except as otherwise provided in this section, all teachers working in charter schools shall hold an appropriate teaching certificate and license. Notwithstanding the foregoing, for any school year with respect to which there is no “qualified alternative certification,” as hereinafter defined, in effect, a charter school may, where it deems it beneficial to the success of its educational program, hire teachers that are not fully certified and licensed so long as such teachers have at least a bachelor’s degree in the content area in which they are teaching and comprise no more than 35 percent of the teachers at the school. If teaching 1 or primarily 1 specific content area, a teacher shall have a bachelor’s degree in that content area.

For purposes of this section, a “qualified alternative certification program” shall be one which aligns with all requirements as specified in §§ 1260-1264 of this title [§ 1264 of this title has been repealed] and pursuant regulations.

(1)-(6) [Repealed.]

(d) At their request, teachers employed by any school district in the State, but not teachers employed by another charter school, shall be granted a 1-year leave of absence to teach in a charter school during the charter school’s first year of operation only or such leave as is provided in the collective bargaining agreement of the school district. At the end of that period, they shall be allowed to return to the school district with the same level of seniority as when they left to take the leave of absence, provided that they have not been terminated for cause while at the charter school, that they have given the school district notice of their intent to return on or before the April 15 preceding the school year in which they intend to return, and according to the provisions of their collective bargaining agreement in effect in the school district. This level of seniority shall also be used for determination of their tenure in accordance with Chapter 14 of this title. Notwithstanding any of the foregoing to the contrary, teachers who, prior to June 20, 2002, were granted a leave of absence to teach in a charter school shall be permitted to complete the full period of leave then granted. Effective March 15, 2002, and each succeeding year thereafter, teachers desiring to return to the local school district on a valid leave of absence shall notify such district of that teacher’s own intent in writing no later than March 15 of any year for the succeeding school year.

(e) A charter school may choose to be covered by the state retirement system established by Chapter 55 of Title 29 or choose another retirement system in lieu of the state retirement system. If the charter school chooses a retirement system other than the state retirement system, a memorandum of understanding must be executed as required by § 512(9) of this title.

(f) Effective March 1, 2002, and each succeeding year thereafter, charter school boards that desire to dispense with the services of any teacher on leave from a Delaware public school district shall give notice in writing to such teacher on or before March 1 of any year of its intent to terminate said teacher’s services at the end of such school year.

§ 508. Responsibility for student transportation.

(a) The charter school may request to have the school district where the charter school is located transport students residing in that district, at fair cost, to and from the charter school on the same basis offered to other students attending schools operated by the district, or
to receive from the State a payment equal to 70% of the average cost per student of transportation within the vocational district in which the charter school is located and become responsible for the transportation of those students to and from the charter school.

(b) If a charter school utilizes a contractor for student transportation, the charter school may do any of the following:

1. Publicly bid the transportation routes, either alone or with other local education agencies.

2. Negotiate a contract for 1 or more years for contractor payment for school transportation up to the maximum rate under subsection (a) of this section.

   a. If a transportation contract includes a fuel adjustment provision, the charter school is responsible for increased payments to the contractor.

   b. If a transportation contract is for multiple years, all of the following apply:

      1. Funding for the contract is guaranteed by state funds for the first year of the contract.

      2. Funding for each year after the first year of the contract is a local commitment until the allocation under subsection (a) of this section is determined for that year.

(c) A charter school may choose to offer annual student bus passes under § 2901(c) of this title.

(d) Notwithstanding any provisions under this section, a student at a charter school shall receive such transportation assistance as is made available to students pursuant to a public school choice program established by this Code provided that such student otherwise meets the eligibility requirements for such assistance.

(e) If a charter school chooses to transport students itself, the charter school shall do so in accordance with all public school transportation safety regulations.

(f) Local school districts and charter schools shall cooperate to ensure that the implementation of this chapter does not result in inefficient use of state appropriations for public school transportation and the State Board shall exercise its authority to approve bus routes so as to avoid such waste.

§ 509. School financing.

(a) Charter schools shall be eligible for public funds under procedures established by this section. Notwithstanding that this Code may establish procedures for the funding of a public school choice program and that such program may include charter schools among those schools which students may choose, funding for charter schools shall be as provided in this section.

(b) A charter school shall receive a payment with respect to each of its students equal to:

1. From the State on or before December 31, the funding equivalent to the Division I staffing, including fractional funding of partial units, excluding funding for a Superintendent, Division II — All Other Costs and Energy funding, minor capital improvements and school building maintenance funded generated by the annual student unit count conducted on September 30 of each year in accordance with Department of Education regulations. Minor capital improvements shall be funded in the same manner as the Vocational Technical School Districts. In the case of Division III — Equalization, a charter school shall receive from the State an amount that is determined by weighting the Division III per unit values that would have been generated by its students had they been counted in their district of residence. In addition, a charter school shall receive a prorated portion of any other funds appropriated to the Department of Education that are intended to be allocated on a student, employee or school state share. For the purposes of calculating such funding, each charter school student shall be counted in a separately reported unit count of the charter school, and not counted for any purposes in the student’s district of residence. For any partially funded unit generated at a charter school, the charter school is free to negotiate the use of such unit with the chartering district, and other public school districts, in order to purchase central custodial, administrative, clerical, direct teaching or educationally related services. If such an agreement is not negotiated, a payment based on the average State cost per unit shall be payable to both the charter school and the district issuing the charter, provided that the sum of both fractions justifies an additional unit. The State shall advance 75% of the anticipated funding pursuant to this subsection at the beginning of each fiscal year, provided that the charter school has provided the Department of Education with a preliminary roster of its students on or before May 1 of such year, and does not maintain the status of formal review or probation. The status of formal review or probation shall prompt the Department of Education to advance a level of funding appropriate to pending administrative action. A final roster shall be due September 30. Notwithstanding the above, a charter school in its first year of operation shall receive 50% of the anticipated funding pursuant to this subsection at the beginning of the fiscal year, provided that the charter school has provided the Department of Education with a preliminary roster of its students on or before May 1 of such year. The charter school shall receive an additional 25% of the funding due pursuant to this subsection on October 1 of its first year in operation and shall receive the remaining 25% on February 1 of its first year in operation, provided that the school has completed and posted the required standardized financial report forms and the Department has reviewed those forms and determined that the school’s finances will not at that time lead the Department to submit the school for formal review pursuant to § 515 of this title. A determination that the school will be submitted for formal review shall prompt the Department of Education to advance a level of funding appropriate to pending administrative action. The percentage of funding to be provided to charter schools on July 1 and October 1 pursuant to the above may be increased in the Secretary’s discretion.

2. From the school districts in which its students reside on or before December 31 of each year, the local cost per student (regular or special education, as the case may be), net of transportation expenses provided for pursuant to § 508 of this title. The school districts in
which its students reside shall advance at least 35% of the anticipated funding pursuant to this subsection at the beginning of each fiscal year provided that the charter school has provided the school districts of residence with a preliminary roster of its students on or before May 1 of such year. This advance may be paid from Division III — Equalization funds if the district’s prior fiscal year current expense local funds balance was 20% or less pursuant to § 1507 of this title. A final roster shall be due September 30. In the event of the failure of a school district to make timely payments to a charter school as required in this paragraph, the Department of Education shall have the authority to direct transfer of such funds from future State funding allocations after the school district receives reasonable notice and an opportunity to be heard, as set forth in the rules and regulations established by the Department.

(c) If a parent or legal guardian of a student enrolled outside the district pursuant to this chapter moves during the school year to a district different from the district in which that parent’s or legal guardian’s child resided at the time of the annual unit count, the child’s first district of residence shall continue to be responsible for payments to the charter school for the balance of the school year pursuant to paragraph (b)(2) of this section. The child’s new district of residence shall be responsible for all such payments during succeeding years.

(d) The Department of Education shall annually calculate the local cost per student expended by each school district for each type of student for the year immediately preceding based on the formula set forth in subsection (e) of this section, adjusted by a factor necessary to fund the charter school on a basis reasonably equivalent to the current year local cost per student, which factor shall be established in the annual Appropriations Act. The Department shall annually certify each local district’s local cost per student expenditure by September 1 of each year.

(e) Local cost per student as used in this section shall be calculated as follows:

<table>
<thead>
<tr>
<th>Total Operating Expenditure in Preceding Fiscal Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Division I Units minus Special School Units</td>
</tr>
<tr>
<td>Number of Pupils per Unit</td>
</tr>
</tbody>
</table>

Where:

\[
\text{Total local Operating Expenditure in Preceding FY} = \text{Sum of all expenditures from local sources minus local expenditures for tuition minus local expenditures for debt service minus local expenditures for Minor Capital Improvement minus local cafeteria expenditures minus any other local expenditures deemed by the Secretary of Education to be inappropriate for inclusion for the purpose of this chapter.}
\]

\[
\text{Division I Units for each District or Special School} = \text{Division I Units certified by the Department of Education as of September 30 of each year}
\]

\[
\text{Pupils per Unit} = \text{Number of Pupils required for one particular unit of funding as specified in § 1703 of this title}
\]

(f) For any student, who because of educational need requires services that are appropriately financed pursuant to the provisions of Chapter 6 of this title, either at the outset or subsequent to a decision to enroll in a charter school, the student’s district of residence shall remain financially responsible for such student and the charter school shall receive from such district a payment determined in accordance with the provisions of Chapter 6 of this title.

(g) Any payment received by a charter school pursuant to this section may be used for current operations, minor capital improvements, debt service payments or tuition payments.

(h) The Department of Education, in consultation with the Office of Management and Budget, shall annually publish a list of vacant and unused buildings and vacant and unused portions of buildings that are owned by this State or by school districts in this State and that may be suitable for the operation of a charter school. The Department of Education, in consultation with the Office of Management and Budget, shall make the list available to applicants for charter schools and to existing charter schools. The list shall include the address of each building, a short description of the building and the name of the owner of the building.

(i) In return for the receipt by a charter school of state funds allocated directly to the school for extra time, professional development, driver education or disciplinary programs, the school shall provide such programs.

(j) If after September 30, a pupil ceases to be enrolled in a charter school and is thereafter enrolled in a reorganized school district for the balance of the fiscal year, nothing contained in this section shall prevent a charter school which has received any funding for the student and the school district in which the student is subsequently enrolled from entering into an agreement providing for the proration of student funding between or among the charter school and the school district in which the student is subsequently enrolled. Funding in any subsequent fiscal year shall be as otherwise provided in this Code.

(k) A charter school shall display on its website all financial reporting documents as specified in § 513 of this title.

(l) Charter schools shall have the same access to conduit bond financing as any other nonprofit organization, and no state or local government unit may impose any condition or restriction on a charter school’s approval solely because the applicant is a public charter school. It is the further intent that a charter school shall apply for conduit funding to issuers within the State unless more favorable terms may be found elsewhere.

(m) The Department of Education shall administer a performance fund for charter schools, to be known as the “Charter School
Performance Fund.” The Department of Education shall establish threshold eligibility requirements for applicants desiring to apply for funding, which shall include but not be limited to a proven track record of success, as measured by a performance framework established by the charter school’s authorizer or comparable measures as defined by the Department. The Department of Education shall also establish criteria to evaluate applications for funding, which shall include but not be limited to the availability of supplemental funding from nonstate sources at a ratio to be determined by the Department. The Department of Education shall prioritize those applications from applicants that have:

1. Developed high-quality plans for start-up or expansion; or
2. Serve high-need students, as defined by the Department.

The Fund shall be subject to appropriation and shall not exceed $5 million annually.

§ 510. State assistance.

(a) The Department of Education shall distribute information announcing the availability of the charter school program, explaining the powers and responsibilities of a charter school contained in this chapter, and describing the application process to each school district and public post-secondary educational institution, and through press releases to each major newspaper in the State.

(b) The Department of Education shall provide technical assistance to potential charter school applicants upon request.

(c) The Department of Education shall provide technical and other forms of assistance to charter schools on the same basis as to school districts.

(d) The Department of Education shall, in concert with the approving authority and the applicant, apply for available federal or foundation grants providing funding for the planning and start-up of charter schools and the Department of Education shall administer such funds as may be appropriated by the General Assembly for the purpose of assisting in the planning and start-up of charter schools.

(70 Del. Laws, c. 179, § 2; 71 Del. Laws, c. 180, § 27.)

§ 511. Approval procedure [For application of this section to the City of Wilmington, see 80 Del. Laws, c. 17, § 2].

(a) An approved charter school application, together with such conditions imposed pursuant to subsection (l) of this section, shall be the basis for a charter granted to the charter school by the approving authority pursuant to this chapter and shall be governed by the terms of this chapter. Upon approval of a charter school application, the Department of Education shall present applicants seeking a charter from the state with a charter contract (“Charter Contract”) that clearly defines the respective roles, powers, and responsibilities of the school and the approving authority and incorporates the provisions of the performance agreement entered into between the charter school and its approving authority pursuant to 14 DE Admin. Code § 275. Other approving authorities may choose to present applications they approve with such a Charter Contract. Where a Charter Contract is utilized, both the school and the approving authority shall execute the Charter Contract. Notwithstanding anything in this chapter to the contrary, the initial term of a newly approved charter shall expire at the end of the fifth fiscal year following the fiscal year in which the charter was initially approved, and any subsequent charter renewal term shall expire at the end of each successive fifth fiscal year thereafter unless extended pursuant to § 514A(b) of this title. If an approved charter is modified to delay the initial opening of the school, then the expiration date of the initial term of the charter shall be adjusted accordingly, to ensure that the charter has 4 years of instructional operation prior to its charter expiration.

(b) (1) Charters shall be modified by the same procedure and based on the same criteria as they are approved. When the approving authority is the Department of Education, minor modifications to a charter that are requested by the charter school only may be approved by the Secretary, subject to rules and regulations established by the Department with the approval of the State Board. Modifications associated with the provision of student transportation services as a result of changes to the Annual Appropriations Act to § 508 of this title shall be considered a minor modification.

2. A request for modification to increase a charter school’s total authorized enrollment by more than 15% shall be considered a major modification, regardless of whether the additional students will attend school at the current location or at a separate location.

3. In addition to meeting the approval criteria established in § 512 of this title, an authorizer considering an application for a new charter school or for a modification as described in paragraph (b)(2) of this section in which the increased enrollment will occur less than 18 months from the date of application (an “expansion”), shall also consider the potential positive and negative impact of the proposed new school or expansion on the schools and the community from which the charter school’s new students will likely be drawn. In reviewing the impact, the authorizer shall consider all information furnished to it during the application process and may exercise its reasonable discretion in determining whether the proposed new school or expansion is contrary to the best interests of the community to be served, including both those students likely to attend the charter school and those students likely to attend traditional public schools in the community.

4. Information regarding impact, as defined by regulations established by the Department with the approval of the State Board no later than October 31, 2014, shall be considered in conjunction with the factors in § 512 of this title but shall not alone provide the basis for disapproval of an application for a new charter application or an expansion. The information regarding impact may, however, be among the bases for disapproval of an application or expansion if at least 1 criteria in § 512 of this title is also deemed not satisfied by
the approving authority to meet the criteria set forth in § 512 of this title and complying with the approval process in this section, it may consider on a public website maintained by the approving authority, and during this public notice period shall accept electronically application. The approving authority shall, in advance of the 15-day public notice period, post any and all charter applications under charter application. At least 1 such hearing shall be held prior to the issuance of the accountability committee’s final report on each new charter school application. The accountability committee’s report to the local school board shall address the approval criteria set forth in § 512 of this title. The committee shall meet with the applicant in the course of its investigation and provide the applicant the opportunity to assess applicant capacity, allow it to clarify information provided in the application, and gather additional information. The information gained in the interview process may be among the factors considered by the approving authority in approving or denying an application.

(f) Potential charter school applicants may engage in discussions with a potential approving authority before submitting an application for approval to establish a charter school.

(g) (1) Except as noted in paragraph (g)(2) of this section, new charter school applications shall be submitted to an approving authority between November 1 and December 31 for schools to be established and prepared to admit students on or after the second August 1 thereafter.

(2) Applications by a highly successful charter school operator as described in subsection (p) of this section shall be submitted to an approving authority between November 1 and December 31 for schools to be established and prepared to admit students on or after the August 1 thereafter. The application submission dates in this subsection may be amended by agreement of the authorizer and the applicant if necessary to allow the applicant to serve students who would otherwise be displaced due to the closure of an existing charter school.

(3) Applications to renew a charter shall be submitted to the approving authority on or before September 30 of the year immediately preceding the calendar year in which the school’s current charter term will expire.

(4) Charter school applications which propose the conversion of an existing public school, or a part thereof to charter school status must be submitted to an approving authority on or before October 30 if the application proposes that the newly converted charter school is to be established and prepared to admit students for the next ensuing school year.

(5) If the date for submitting an application or commencing the school’s instructional program shall fall on a weekend or state holiday, the time for such shall be continued to the first working day thereafter.

(h) Any local school board may limit the number of new charter school applications it will consider in any year or the number of charters it will grant, but within 20 working days after December 31 must hold a public meeting to decide whether or not to consider it. A local school board shall not be required to accept any new charter school applications for a charter school unless, by September 1 of each year the school board shall affirmatively vote to accept such applications.

(i) If an approving authority decides to consider a charter application, the approving authority must rule on whether to approve the application at a public meeting within 90 working days after December 31.

(j) Within 5 days of deciding to consider an application, the approving authority shall form an accountability committee to review the charter school application. The accountability committee’s report to the local school board shall address the approval criteria set forth in § 512 of this title. The committee shall meet with the applicant in the course of its investigation and provide the applicant the opportunity to review and comment on the committee’s report 15 days before it is issued to the approving authority. The committee’s final report shall be provided to the applicant and be made available to the public.

(k) After giving 15 days’ public notice, the approving authority shall hold public hearings to assist in its decision whether to approve a charter application. At least 1 such hearing shall be held prior to the issuance of the accountability committee’s final report on each new application. The approving authority shall, in advance of the 15-day public notice period, post any and all charter applications under consideration on a public website maintained by the approving authority, and during this public notice period shall accept electronically submitted and written comments from the public.

(l) Subject to any limitations imposed by the approving authority pursuant to subsection (h) of this section, if the application is found by the approving authority to meet the criteria set forth in § 512 of this title and complying with the approval process in this section, it may approve the application subject to such conditions as the approving authority, in its sole discretion, may deem appropriate to ensure the
§ 512. Approval criteria.

(a) If an application is made to the Department or a local board as an approving authority and the charter application is not approved, such decision shall be final and not subject to judicial review.

(b) All applications for a charter shall contain an affirmative representation by the applicant that no later than June 15 immediately preceding the authorized opening date of the school, the applicant shall secure a certificate of occupancy, either temporary or final, for the premises in which the school is to be located, provided that any temporary certificate of occupancy must permit occupancy at the premises by school staff and students for school purposes. If the charter is approved and the charter holder subsequently fail to obtain the necessary certificate of occupancy as required by this section, the opening of the school shall be delayed by 1 year from the date previously authorized by the approving authority and the charter shall be placed on probation subject to the terms and conditions imposed by the Department of Education with the consent of the State Board of Education. No waivers are available for this requirement.

(c) A local school board that approves an application for a charter school may do so only on the condition that the charter school is located in and provides all educational and related services, with the exception of transportation services and other K-12 noninstructional services and activities, within the boundaries of the approving local school board’s district lines. Once approved, the charter school may not subsequently change its location from the school district specified in its originally approved charter.

(d) “Highly successful charter school operator” means an entity that currently operates or whose principals currently operate 1 or more highly successful charter schools showing sustained high levels of student growth and achievement and sustained fiscal stewardship, as further defined by Department regulation. Notwithstanding the provisions of this chapter, for purposes of this definition the phrase “charter school” shall include public schools operated under a charter regardless of whether the schools are located or organized in Delaware. A highly successful charter school operator may be authorized to operate a charter school in the timeframe provided by paragraph (g)(2) of this section including when an application is submitted for the purpose of operating a charter school at the site of and serving students currently attending a charter school whose charter has been revoked, has not been renewed, or whose charter is on formal review and whose board has agreed to abandon their charter.

(e) The charter school application shall include a disclosure of any ownership or financial interest in the charter school, including but not limited to the building and real property to be used in the operation of the charter school, by the charter school founders and the board of directors of the proposed charter school. If the building and real property to be used in operation of the charter school are not known at the time of application, disclosures pertaining to those interests shall be made once the building and real property to be used in operation of the charter school become known. In addition, the board of directors of the charter school shall have a continuing duty to disclose such interests to the approving authority pursuant to this chapter during the terms of any charter. The charter school and the Department shall promptly disclose the information required by this subsection to any member of the public upon request.

(f) Charter school board members and founders shall be required to complete the criminal background checks in the same manner as persons seeking employment with a public school pursuant to § 309 of Title 31. In addition, the authorizer shall complete a check of the Child Protection Registry established by § 921 of Title 16 for charter school founders and board members. The results of said background and Child Protection Registry checks shall be provided to the authorizer for review as part of the application process and on an ongoing basis if new board members are seated or current board members are convicted of a crime or placed on the Child Protection Registry. Any person convicted of a felony offense or of any crime against a child in this State or any other jurisdiction shall not be permitted to serve as a founder or member of a charter school board of directors. No individual shall be permitted to serve as a charter school founder or board member if the individual would not be permitted to be employed in a public school pursuant to § 309 of Title 31 regarding the Child Protection Registry. Other crimes may be considered disqualifying, in the discretion of the authorizer. The State Bureau of Identification may release any subsequent criminal history to the authorizer. Individuals currently serving as board members of a charter school must complete a criminal background check and the Department shall complete a Child Protection Registry check for such members on or before February 1, 2012.

(g) The founder or board member shall be provided with a copy of all information forwarded to the authorizer pursuant to subsection (r) of this section. Information obtained under subsection (r) of this section is confidential and may only be disclosed to the chief officer and 1 additional person in each authorizing body.

(h) Costs associated with obtaining criminal history information and child protection registry checks shall be paid by the applicant.

§ 512. Approval criteria.

Subject to the process prescribed in § 511 of this title, charter school applications shall be in the form established by the approving authority and shall be approved if, after the exercise of due diligence and good faith, the approving authority finds that the proposed charter demonstrates that:
(1) The individuals and entities submitting the application are experienced and qualified to start and operate a charter school, and to implement the school’s proposed educational program. Certified teachers, parents and members of the community in which the school is to be located must be involved in the development of the proposed charter school. At the time at which the school commences its instructional program and at all times thereafter, the board of directors must include a teacher from at least 1 of the charter schools operated by the board and at least 1 parent of a student enrolled in a charter school operated by the board;

(2) The chosen form of organization, identified in the articles of incorporation and by-laws, or the membership agreement, conforms with the Delaware General Corporation Law;

(3) The mission statement, goals and educational objectives are consistent with the description of legislative intent set forth in § 501 of this title and the restrictions on charter school operations set forth in § 506 in this title;

(4) The school has set goals for student performance and will utilize satisfactory indicators to determine whether its students meet or exceed such goals and the academic standards set by the State. The indicators shall include the assessments required for students in other public schools, although the charter school may adopt additional performance standards or assessment requirements, and shall include timelines for the achievement of student performance goals and the assessment of such performance;

(5) The school proposes a satisfactory plan for evaluating student performance and procedures for taking corrective action in the event that student performance at the charter school falls below such standards which are reasonably likely to succeed;

(6) The school’s educational program, including curriculum and instructional strategies, has the potential to improve student performance; and must be aligned to meet the Delaware Content Standards and state program requirements, and in the case of a charter high school, state graduation requirements. High school programs must provide driver education. The educational program at all charter schools must include the provision by the school of extra instructional time for at-risk students, summer school and other services required to be provided by school districts pursuant to the provisions of § 153 of this title. A previously approved charter school may continue to operate in compliance with the terms of its current approval, but its charter shall not be renewed unless the school shall submit an application for renewal in full compliance with the requirements of this subsection;

(7) The school’s educational program sets forth appropriate strategies to be employed to accommodate the needs of at-risk students and those needing special education services;

(8) The plan for the school is economically viable, based on a review of the school’s proposed budget of projected revenues and expenditures for the first 3 years, the plan for starting the school, and the major contracts planned for equipment and services, leases, improvements, purchases of real property and insurance, and enrollment of no less than 200 students at full enrollment and no less than 100 students during the first 2 years of operation or for a school with an enrollment preference to primarily serve special needs students;

(9) The school’s financial and administrative operations meet or exceed the same standards, procedures and requirements as a school district. If a charter school proposes to operate outside the State’s pension and/or benefits systems, a specific memorandum of understanding shall be developed and executed by the charter school, the approving authority, the Director of the Office of Management and Budget, the Controller General and the Secretary of Finance to assure that the State’s fiduciary duties and interests in the proper use of appropriated funds and as a benefits and pension trustee are fulfilled and protected, the State’s financial reporting requirements are satisfied, and the interests of charter school employees are protected. All charter schools shall operate within the State’s official financial management system and be subject to all of the same policies and procedures which govern other agencies operating within such system;

(10) The assessment of the school’s potential legal liability, and the types and limits of insurance coverage the school plans to obtain, are adequate;

(11) The procedures the school plans to follow to discipline students and ensure its students’ adherence to school attendance requirements comply with state and federal law;

(12) The procedures the school plans to follow to assure the health and safety of students, employees and guests of the school while they are on school property are adequate and that the charter school will comply with applicable provisions of local, state and federal law, including the provisions of Chapter 85 of Title 11;

(13) The school shall have a satisfactory plan for timely transferring student data and records to the Department of Education;

(14) The school’s board of directors shall annually certify to the Department, on a form to be provided by the Department, that prior to the payment of any fees or other sums to any management company employed by the board, the board will insure that sufficient revenues of the school are devoted to adequately support the school’s proposed educational program. Such form of certification may require documentation of all actual or proposed expenditures by the school. Failure to provide sufficient funds to adequately support the school’s proposed education program shall be grounds for revocation of the school’s charter;

(15) The school shall have a satisfactory plan to ensure the effectiveness of its board of trustees, including governance trainings conducted for any new board members and at a minimum of once every 3 years; and

(16) The school shall have a satisfactory plan for procedures it will follow in the case of the closure or dissolution of the school, including a plan to set aside sufficient funds to cover the salaries owed to those employees who are paid over a 12-month period. For a new applicant granted under this chapter, the application shall include a reasonable plan to establish sufficient available balances pursuant to § 516(1) of this title.

§ 513. Reporting and oversight.

(a) On or before December 1, each charter school shall produce an annual report for the school year ending the previous June, which shall include all of the following:

1. An explanation of the school’s progress in meeting overall student performance goals and standards.
2. An explanation of the innovation occurring at the charter school, including but not limited to the areas of curriculum development, instruction, student culture and discipline, community and parental involvement, teacher and staff development, school operations and management, and extracurricular and after-school programming.
3. A copy of the school’s annual financial audit report, as required under subsection (d) of this section, and a copy of the school’s standardized financial report setting forth by appropriate categories the school’s revenues and expenditures and assets and liabilities.
4. In the case of a single gender school, an explanation of the efforts made by the school to further advance its students’ education and a quantitative analysis of its efforts and results in recruiting and retaining economically-disadvantaged students, regardless of race.

(b) Notwithstanding subsection (a) of this section, each charter school seeking renewal of its charter shall produce the annual report described in subsection (a) of this section on or before October 1 of the final year of its current charter term. The approving authority may, in its discretion and for good cause shown, elect to accept an annual report submitted subsequent to this deadline.

(c) To ensure that annual reports under this section provide parents and approving authorities with clear and comparable information about the performance of charter schools, the Department of Education shall prescribe a uniform format for such reports, and the standardized financial report required to be included in such reports, which may be supplemented by requirements set by the approving authority for schools it has chartered.

(d) (1) Unless subject to an audit by the Auditor of Accounts under paragraph (d)(2) of this section, the board of directors of each charter school shall contract to have an audit of the business and financial transactions, records, and accounts after July 1 for the prior fiscal year. The results of the audit shall be shared by October 1 with the Department of Education, the Auditor of Accounts, the Division of Accounting, and the citizen budget oversight committee established under § 1508 of this title.

(2) The Auditor of Accounts shall conduct or contract for an audit of the charter school’s business and financial transactions, records, and accounts after July 1 for the prior fiscal year in the event the charter school has any of the following:
   a. A financial audit opinion with any of the following in any of the prior fiscal years under the current charter term:
      1. Material exceptions.
      2. A going concern disclosure in the notes or in an explanatory paragraph related thereto.
      3. A finding of material weakness on either internal control or compliance. For purposes of this paragraph, “material weakness” means a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company’s annual or interim financial statements will not be prevented or detected on a timely basis.
   b. Has failed to maintain a current status with Internal Revenue Service Form 990 filings, if said filings are required of that charter school.
   c. Has existed for a total of fewer than 5 years under its current and prior charter terms.

(3) If, however, a financial audit opinion of paragraph (d)(2)a. of this section is not the required annual audit and is, instead, performed at the request of the board of directors of its own volition and then provided to the Auditor of Accounts, then that financial audit opinion shall not form the basis for the Auditor of Accounts conducting or contracting the audit under paragraph (d)(2) of this section.

(e) The contract required by paragraph (d)(1) of this section must be publicly bid no less than every 5 years and must provide for all of the following:

1. That the auditor shall, at all times during the term of the contract, hold a valid certified public accountant permit to practice license in Delaware.
2. That the auditor shall be peer-reviewed by the American Institute of Certified Public Accountants (AICPA) at least every 3 years, and the most recent review shall have been completed with an unqualified opinion.
3. That the audit shall meet the requirements and standards of generally-accepted government auditing standards.
4. That the audit required by subsection (d) of this section shall include any additional specific audit procedures which have been established in advance by the charter school or the State Auditor, or both, and which apply to the specific charter school or which the State Auditor has established for all school districts and charter schools.

(f) A charter school shall display on its website the annual report including financial statement and audit required by this subsection. A charter school shall also display on its website all standardized financial report forms for the current fiscal year and the final monthly standardized financial report forms for the 5 prior fiscal years of operation. Charter schools that are required to file Internal Revenue Service Form 990 shall post the current and prior year Form 990 on the website as well.

(g) The annual report shall be submitted to the approving authority, the Department and the State Board. Employees of the school and parents of students attending the school shall receive a copy free of charge, upon request. The reports shall be public records pursuant to Chapter 100 of Title 29.
§ 514A. Renewals and nonrenewals.

(a) Four years after a charter school has commenced its instructional program pursuant to this chapter and not later than every 5 years thereafter, the approving authority shall, upon notice to the charter school, review the performance of the charter school to determine its compliance with its charter and its satisfaction of the criteria set forth in this title for the purposes of renewal or nonrenewal.

(b) A charter school may be renewed for successive 5-year terms of duration. An approving authority may grant renewal with specific conditions for necessary improvements to a charter school. Where a charter school has demonstrated an outstanding record of performance, an approving authority may grant it a renewal term of 10 years. Any charter school receiving such an extended renewal term shall, at the midpoint of the 10-year charter, be subject to an annual performance and program evaluation that includes academic, financial and operations data that looks back to all of the years of the charter up to that point. If, upon this evaluation, the approving authority determines that the charter school’s level of performance is deficient by renewal standards, the approving authority may initiate the formal renewal and nonrenewal process set forth below.

(c) No later than April 30, the approving authority shall issue a charter school renewal report and charter renewal application guidance to any charter school whose charter will expire the following year. The renewal report shall summarize the charter school’s performance record to date, based on the data required by 79 Del. Laws, c. 51 and the charter contract, and shall provide notice of any weaknesses or concerns perceived by the approving authority concerning the charter school that may jeopardize its position in seeking renewal if not timely rectified. The charter school shall have 10 working days to respond to the renewal report and submit any corrections or clarifications for the report.

(d) The renewal process shall, at a minimum, provide an opportunity for the charter school to:

(1) Present additional evidence, beyond the data contained in the renewal report, supporting its case for charter renewal;

(2) Describe improvements undertaken or planned for the school; and

(3) Detail the school’s plans for the next charter term.

(e) The renewal application guidance shall include the criteria that will guide the approving authority’s renewal decisions. Renewal determinations by the Department of Education shall be based on its performance framework, the terms set forth in the Charter Contract, and shall take account of the school’s performance agreement with the approving authority, consistent with 14 DE Admin. Code § 275, and with 79 Del. Laws, c. 51. Other approving authorities may choose to adopt the criteria utilized by the Department of Education. Each approving authority shall develop a rubric based on its criteria for evaluating renewal applications and shall provide this rubric to applicants as part of the renewal application guidance. The approving authority shall publish the renewal application guidance on its website and make it available in written form upon request.

(f) No later than September 30, the governing board of a charter school seeking renewal shall submit a renewal application to the approving authority pursuant to the renewal application guidance issued by the approving authority. The approving authority shall decide upon the renewal application no later than 60 working days after the filing of the renewal application.

(g) In making charter renewal decisions, every approving authority shall:

(1) Ground its decisions in evidence of the school’s performance over the term of the charter contract in accordance with the performance agreement set forth in the charter contract;
§ 515. Oversight and revocation process.

(a) The approving authority shall be responsible for oversight of the charter schools it approves.

(b) In addition to the review required by § 514A(a) of this title, the approving authority may notify a charter school of potential violations of its charter and submit the charter to formal review to determine whether the charter school is violating the terms of its charter and whether to order remedial measures pursuant to subsection (f) of this section.

(c) The approving authority shall issue its decision within 60 working days of giving the charter school notice. An accountability committee appointed by the approving authority shall conduct the initial review pursuant to subsection (b) of this section. The accountability committee’s reports to the approving authority shall address the relevant criteria set forth in §§ 512 and 516 of this title. The committee shall meet with the applicant in the course of its investigation and provide the applicant the opportunity to review and comment on the committee’s initial report 15 days before it is issued to the approving authority. The committee’s final report shall be provided to the applicant, the approving authority, and made available to the public.

(d) If the accountability committee’s report presents probable grounds for remedial measures, the approving authority shall hold public hearings to assist in its decision whether the criteria set forth for remedial action in § 516 of this title have been satisfied, after giving the charter school 15 days’ notice. The school shall be given the opportunity to respond to the accountability committee’s final report at the hearing. Members of the public shall be given the opportunity to comment at the hearing.

(e) If the accountability committee’s report asserts that the school has complied with its charter and the criteria set forth in § 512 of this title, the approving authority shall approve or disapprove the final report’s conclusion at a public meeting after giving the charter school 15 days’ notice. If the approving authority disapproves the report, it shall identify the reasons for that decision with particularity. Thereafter, the approving authority shall hold a hearing, within 30 days, to assist in its decision of the appropriate remedy pursuant to subsection (f) of this section.

(f) If the approving authority determines that the criteria for remedial action set forth in § 516 of this title have been satisfied, it may revoke the charter and manage the school directly until alternative arrangements can be made for students at the school or place the school on a probationary status subject to terms determined by the approving authority which are directly relevant to the violation or violations.

(g) If a local school district which is an approving authority decides to revoke the school’s charter or place the school on probationary status, the applicant may file for arbitration in writing with the American Arbitration Association in Philadelphia within 20 days of the local board’s decision stating the reasons why it believes the local board decision was in error. A copy of said filing shall be provided simultaneously with the approving authority. The parties shall select an arbitrator in accordance with the American Arbitration Association’s procedure for voluntary labor disputes, provided, however, that such arbitration shall occur in this State. The arbitrator’s fees and costs shall be borne equally by the parties. The arbitrator shall convene a hearing and determine whether the local board’s decision was in error. The arbitrator shall have 30 days to render a decision following the close of the hearing. The arbitrator’s decision shall be final and binding upon the parties.

(h) If the approving authority is the Department and it decides to revoke the school’s charter or place the school on probationary status, its decision shall be final and not subject to arbitration or judicial review.

(i) Prior to any charter school closure decision, an approving authority shall have developed and shall utilize a charter school closure protocol to ensure timely notification to parents and employees, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of 79 Del. Laws, c. 51 and other applicable laws. The protocol shall specify tasks, timelines, and responsible parties, including delineating the respective duties of the school and the approving authority. In the event of a charter school closure for any reason, the approving authority shall oversee and work with the closing school to ensure a smooth and orderly closure and transition for students, parents and employees, as guided by the closure protocol.

(j) In the event of a charter school closure for any reason, all cash and cash equivalents held by or available to the school shall be distributed first to satisfy outstanding payroll obligations for employees of the school, then to the remaining creditors of the school. Remaining State General Fund appropriations for that school year shall be returned to each district in an amount proportionate to the number of students received by each district. Additional remaining State General Fund appropriations shall be returned to the general revenue fund through the State Treasury. Remaining funds received from local school districts shall be returned to each of the districts in an amount proportionate to the number of students from each district. Any remaining funds and assets will be managed by the charter, as appropriate. In the event that a charter school files for bankruptcy, the distribution of all assets will be managed by the Bankruptcy Court or otherwise in accordance with bankruptcy laws. Nothing herein shall be construed in any way to impair or preempt a lien or security interest on any asset owned by a charter school or to prevent the school from paying the costs required to close or dissolve.

(k) In the event that all state and local funds due to a charter school are paid timely as required by § 509 of this title, a charter school authorized to operate in the State must by December 31 of that fiscal year maintain an available balance sufficient to pay the minimum costs necessary to provide students with the minimum annual instructional hours required by the Department of Education during the remainder of that fiscal year as reasonably projected by the charter school. Such costs include, but are not limited to, all employee compensation required to attain the minimum annual instructional hours during the remainder of that fiscal year. Such costs also include all...
fixed and variable nonpayroll expenditures incurred through the final month of that school year. A school’s failure to maintain sufficient available funds by December 31 of its third year of operation shall be deemed a material violation of its charter. (70 Del. Laws, c. 179, § 2; 70 Del. Laws, c. 186, § 1; 71 Del. Laws, c. 180, § 31; 73 Del. Laws, c. 164, §§ 22, 26; 74 Del. Laws, c. 360, § 4; 79 Del. Laws, c. 51, § 9; 79 Del. Laws, c. 321, § 1.)

§ 516. Revocation criteria.

Approved charters shall be subject to revocation or probation, after the exercise of due diligence and good faith, only for the following reasons:

(1) The school, or its representatives, has committed a material fraud on the approving authority or misappropriated federal, state or local funds; or

(2) The school fails to comply with its charter or to satisfy, in its operation of the school, the criteria set forth in § 512 of this title. (70 Del. Laws, c. 179, § 2.)

§ 517. Charter transfer to different authorizer.

Transfer of a charter, and of oversight of that public charter school, from 1 authorizer to another before the expiration of the charter term shall require a petition by the public charter school or its authorizer to the new authorizer. A petition to transfer is considered a major modification and will follow the same timelines and hearing process as a major modification. (78 Del. Laws, c. 187, § 10.)

§ 518. Oversight and revocation for multiple charter holders.

For purposes of §§ 515 and 516 of this title, each charter held by a common board of directors shall be treated separately and individually. (78 Del. Laws, c. 187, § 11.)
§ 601. Definitions.

For the purpose of this chapter the following terms shall have the following meanings:

1. "Receiving district" shall mean any reorganized school district which enrolls in its schools any pupil who is not a resident of such “receiving district.”

2. "Residence". — A pupil shall be considered a resident of the reorganized school district based on meeting the residency qualifications established by § 202 of this title.

3. "Sending district" shall mean any reorganized school district which sends to the schools of a “receiving district” any pupil who is not a resident of such “receiving district.”

§ 602. Method of computation and payment of tuition charges for nonresident pupils.

(a) Except in the cases provided for in § 603(c) of this title, no pupil shall be transferred from 1 school district to another school district without the written approval of the school board of both the sending and receiving districts. A reorganized school district receiving any pupil who is a resident of another reorganized school district shall collect a tuition charge for the nonresident pupil; provided however, that the tuition charge may be waived if such waiver is granted by the board of education of both the sending and receiving districts. Such tuition charge shall be paid by the school board of the reorganized school district in which the pupil is a resident from the proceeds of a local tax which shall be levied for this specific purpose.

(b) In determining the tuition to be charged, the receiving district shall compute the tuition by adding such receiving district’s share of educational related expenses as allowed by Department of Education regulations. The sum so obtained shall be divided by the total number of pupils in the authorized program and grades and attending all public schools in the receiving district as of September 30 of the current school year. The cost for the current year may be estimated cost and shall include an amount, added or subtracted from the estimate, which amount will represent the difference between the estimated and the actual costs of the tuition charges for the same purpose in the previous year. The resulting figure shall represent the amount of tuition charge per pupil in the current year. In Fiscal Year 1970 or later, the receiving district may include tuition charges for the previous year and the current year.

(c) The bill for tuition charges shall be verified by the Secretary of Education within 20 days after receipt of such bill. No bill for tuition charges shall be paid until such time as it has been certified by the Secretary of Education as being true and correct.

(d) For each pupil attending a public school of another district as of September 30, the receiving district shall bill the sending district and the sending district shall pay the tuition charges per pupil on or before January 1 of the fiscal year in which the bill is submitted to the sending district for payment. In the case of pupils attending the public schools of the receiving district for less than a full term, the tuition charge shall be prorated by reference to the period of time during which such pupils actually attended the receiving district’s schools, provided that attendance for any month shall be counted as a full month of attendance.

(e) Any reorganized school district sending pupils to the schools of another district shall levy and collect a tax to pay any tuition charges to the receiving district, and such tuition shall be collected by local taxation within the sending district according to the provisions of taxation as set forth in Chapter 19 of this title, except that no referendum shall be required. The sending district shall estimate the amount of, determine the rate for and levy the tax upon the estimate at the time that regular tax levies are announced to the appropriate taxing authorities, and the levy shall be adjusted annually to correct errors in the estimate as provided for in subsection (b) of this section.

§ 603. Exceptions and claims.

(a) This chapter shall not apply when the payment or acceptance of such tuition charge is contrary to any educational program involving the use of federal matching funds which prohibits the payment or acceptance of such tuition.

(b) Section 602(a) and (b) of this title shall not apply to children with disabilities as defined in Chapter 31 of this title. Such children shall be subject to § 604(a) and (b) of this title.

(c) When a student has transferred to a new district pursuant to the voluntary transfer provisions, the sending district shall immediately upon request of the receiving district transfer the student’s records to the receiving district.

§ 604. Special programs.

(a) Any pupil is counted in the preschool, intensive or complex unit and attends school in a program operated by a district other than that in which the pupil resides, by an agency of the Department of Education or is in an approved private placement pursuant to § 3124 of this title, the receiving district or the Department of Education shall collect a tuition charge for the nonresident pupil, provided for attendance has been granted by the sending district. Such tuition charge shall be paid by the school board of the reorganized school district in which the pupil resides or by an agency of the State Department of Education, the receiving district or the State Department of Education shall compute the tuition by adding such receiving district’s share of educational related expenses as allowed by the Department of Education regulations. The sum so obtained shall be divided by the total number of pupils in the special program as of September 30 of the current school year. The resulting figure shall represent the amount of the “tuition charge” per pupil.

(b) If a charge is made by any reorganized school district for tuition for the inmates of any of homes or institutions who are in attendance in such district’s schools, the officers of the homes or institutions shall submit to the school board a sworn statement setting forth the names, ages and school district liable for tuition of all children who desire to attend public schools in the district, and who are inmates thereof as of September 30 of each year, together with a blank acknowledging or disclaiming residence signed by the secretary of the reorganized school district in which the home or institution declares the legal residence of the children to be. If the sending district does not return the said blank within 30 days from the time it was mailed, the Secretary of Education shall compute the amount of “tuition charge” for such inmate from the proceeds of a local tax levied for this specific purpose, except that in the case of a district assigned by the Department with the approval of the State Board of Education to administer a school or program for children with disabilities, or special programs approved by the Department of Education for persons without disabilities such as programs for bilingual students or programs for pregnant students, the district so assigned shall be both the sending and receiving district in regard to that school or program and is authorized to collect tuition charges accordingly.

(d) Section 602(c)-(e) of this title shall apply to this section.

§ 605. Inmates of children’s homes or institutions.

(a) The school board of any reorganized school district in which there is located any orphan’s, home, home for the friendless, children’s home, other institutions for the care of orphans or other children or any institution to which children are assigned by any court for any reason, may, at the discretion of such board permit any children who are inmates of such homes or institutions but not legal residents in such district to attend the public schools in said district, and the district of residence shall be liable for the tuition of such pupils.

§ 701. Authority of teachers and administrators to control the disruptive behavior of students.

(a) As used in this chapter:
   (1) “Department” means the Department of Education.
   (2) “Disruptive behavior” means conduct that is so unruly, disruptive, or abusive that it seriously interferes with a school teacher’s or school administrator’s ability to communicate with the students in a classroom, with a student’s ability to learn, or with the operation of a school or a school-sponsored activity.
   (3) “Racial subgroup” means the racial and ethnic subgroups of students as defined under the Elementary and Secondary Education Act of 1965, 20 U.S.C. § 6301 et seq., as amended, which includes African American or Black, American Indian or Alaska Native, Asian American, Native Hawaiian or other Pacific Islander, Hispanic or Latino, White or Caucasian, and Multi-Racial.
   (4) “School” means a traditional public school, vocational technical school, or charter school.
   (5) “Subgroup” means as subgroup is defined under the Elementary and Secondary Education Act of 1965, 20 U.S.C. § 6301 et seq., as amended, which includes racial subgroups, economically disadvantaged students, children with disabilities, and English learners.
   (b) While a student is entrusted in their care or supervision, public school teachers, and administrators have the same authority to control the behavior of the student and to discipline or punish the student as a parent, custodian, guardian, or other person similarly responsible for the care and supervision of the student except as provided in §§ 702 and 4112F of this title. The authority includes removing a student from a classroom or school-sponsored activity.
   (c) When a teacher removes a student from a classroom or school-sponsored activity in an effort to control the student’s disruptive behavior, an on-site school administrator may, upon a written showing of good cause, override the teacher’s decision to remove the student from the classroom or school-sponsored activity. Before overriding a teacher’s decision, the administrator shall strongly presume that the teacher’s decision to remove the student was reasonable and necessary under the circumstances.
   (d) When a student is removed from a classroom or school-sponsored activity or is disciplined or punished pursuant to this section, the principal or the principal’s designee shall afford the student appropriate due process as required by the federal and State constitutions.
   (e) When a student is removed from a classroom or school-sponsored activity, the principal or the principal’s designee and the removing teacher shall determine if and when a student may be readmitted to the classroom or school-sponsored activity. If the teacher and principal or principal’s designee cannot agree, the superintendent or the superintendent’s designee shall make the determination.
   (f) When a teacher or school administrator removes a student from a classroom or school-sponsored activity or disciplines or punishes a student, a rebuttable presumption exists that the teacher or administrator acted reasonably, in good faith, and in accordance with State or local board of education policy. The burden of overcoming the presumption shall be upon the student.
   (g) Each local board of education shall establish, adopt, publish, and distribute to students in the district and their parents or guardians policy or standards that are consistent with the regulations developed under § 122(b)(26) of this title and include all of the following:
      (1) Specify the general circumstances under which a student may be removed from a classroom or school-sponsored activity, consistent with a teacher’s and administrator’s ultimate authority to determine disruptive behavior and to remove a student from a classroom or school-sponsored activity.
      (2) Provide an explanation or examples of “disruptive behavior” set forth in paragraph (a)(2) of this section.
   (h) A district shall not establish or adopt a policy or standards that prohibit the removal of a student from a classroom or school-sponsored activity.
   (i) No teacher who purports to have acted pursuant to the teacher’s rights established by this chapter shall be found liable for civil damages arising from that action unless that teacher’s conduct shocks the conscience.

§ 702. Corporal punishment.

(a) “Corporal punishment” means the intentional infliction of physical pain which is used as a means of discipline. “Corporal punishment” includes, but is not limited to, paddling and slapping, when used as a means of discipline.
   (b) No public school teacher, administrator, official employee or agent of the School Board may subject a student enrolled in the school district to corporal punishment.
   (c) Subsection (b) of this section does not prohibit a public school teacher, administrator, official employee or agent of a school board from:
      (1) Using reasonable and necessary force to quell a disturbance, including but not limited to a physical altercation, or prevent an act
that threatens imminent bodily harm to any person;

(2) Using reasonable and necessary force to obtain possession of a weapon, or other dangerous object within a student’s control;
(3) Using reasonable and necessary force for the purpose of self-defense or the defense of others under §§ 464 and 465 of Title 11;
(4) Using reasonable and necessary force for the protection of property under § 466 of Title 11;
(5) Using reasonable and necessary force to prevent a student from imminently inflicting bodily harm on that student’s own self;
(6) Using reasonable and necessary force to protect the bodily safety of others; or
(7) Using incidental or minor physical contact necessary to maintain order and control.

d) In determining whether or not a person was acting within the exceptions in subsection (c) of this section, deference shall be given to reasonable, good faith judgments made by the teacher, administrator, official employee or agent.

e) Nothing in this section shall prohibit, permit or otherwise affect any action taken by the teacher, administrator, official employee or agent of the School Board with regard to a person who is not a student enrolled in the school district.

(f) For purposes of this section, the term “reasonable and necessary” shall be interpreted in conformity with applicable limitations established by § 4112F of this title.

(74 Del. Laws, c. 17, § 4; 70 Del. Laws, c. 186, § 1; 79 Del. Laws, c. 54, § 1.)

§ 703. Student discipline report; school discipline improvement plan.

(a) The Department shall compile and release an annual report on student discipline in all schools as follows:

(1) The analysis must be based on data, as permitted under the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g, collected over the 3 most recent consecutive school years.
(2) The report must be posted on the Department’s website no later than October 30.
(3) The report shall include both statewide totals and individual school data, for each of the school years in the report, on the issuance of out-of-school suspensions, expulsions, alternative school assignments, and in-school suspensions, disaggregated by race, ethnicity, gender, grade level, limited English proficiency, incident type, discipline duration, and if the student is identified as having a disability.
(4) The report must identify, for each school year in the report, schools that meet any of the following thresholds:
   a. Calculations under this subsection should exclude subgroups that contain fewer than 15 students.
   b. A school with an out-of-school suspension rate for all students or any 1 subgroup that exceeds any of the following:
      1. A rate of 20 suspensions per 100 students for the 2018 through 2019 school year.
      2. A rate of 15 suspensions per 100 students for the 2019 through 2020 school year and each school year thereafter.
   c. A school for which the out-of-school suspension gap between the lowest-suspended racial subgroup and the highest suspended racial subgroup, or the suspension gap between students with disabilities and students without disabilities, exceeds any of the following:
      1. Twenty percent for the 2018 through 2019 school year.
      2. Fifteen percent for the 2019 through 2020 school year.
      3. Ten percent for the 2020 through 2021 school year and each school year thereafter.
(b) If a school is identified as meeting a threshold under paragraph (a)(4) of this section for 3 consecutive school years, the Department shall notify the school of this status by December 1 and the school must do all of the following:

(1) Review its discipline policies, practices, and data.
(2) If a school has already implemented restorative justice practices, the school must review the interventions being used to assure research-based quality, scope of training provided, and follow-up support to assure proper implementation. Restorative justice practices program improvements should be made based on this review.
(3) Submit a plan to the Department that identifies the strategies the school will implement beginning in the following school year to reduce the use of exclusionary disciplinary practices or disproportionate use of exclusionary disciplinary practices with racial subgroups or students with disabilities, or both.
   a. The plan may be part of their school improvement plan.
   b. The plan must be developed with input from students, parents, educators, administrators, and community stakeholders to incorporate strategies to promote fairness and equity in discipline.
   c. The plan may increase or improve professional development opportunities for educators, administrators, and staff. Components of such professional development may include 1 or more of the following:
      1. Restorative practices.
      2. Trauma informed care.
      3. Implicit bias awareness.
      5. Classroom management.
      6. Other appropriate programming.
   d. The plan must be approved at either a public local school board meeting or a charter school’s public board of directors meeting.
   e. The school must submit the plan to the Department and post the plan on the school’s internet website no later than the beginning of the following school year.
f. The school shall submit to the Department an annual progress report describing the implementation of the plan and post the progress report on the school’s internet website no later than October 30. The school may cease submitting a progress report when the school does not meet a threshold under paragraph (a)(4) of this section for 3 consecutive years.

(c) The Department may promulgate regulations necessary to implement and enforce this section. The Department must consult with school administrators, parents, educators, and other stakeholders in developing regulations under this section.

SCHOOL SHARED DECISION-MAKING

§ 801. Definitions.

As used in this chapter,

(1) “School community” shall mean a community comprised of the stakeholders responsible for providing and structuring a child’s education; specifically, the board of education at the district level, certified and noncertified school employees, parents, community members and, as appropriate, students.

(2) “Shared decision-making” shall mean an inclusive, representative decision-making process in which members of the school community at the school and district levels participate as equals. Shared decision-making may occur at all levels of a school system.

(3) “Structured conversations and activities” shall mean ongoing opportunities for representatives of the entire school community, as defined herein, to collectively and collaboratively explore and become knowledgeable about the processes, systems and governance structures commonly associated with shared decision-making; to identify the skills, knowledge and attitudes which promote successful shared decision-making; to review the research related to the successes and shortcomings of shared decision-making in educational settings; and to determine the readiness and commitment of the various groups within the school community to proceed with shared decision-making as a means to achieve the goal of improved teaching and student learning and improved school safety and discipline.

The use of professional facilitators to conduct such conversations is advisable and the Department of Education and local districts shall collaborate with other educational stakeholder groups to make such facilitators available at reasonable costs to districts and schools for such purposes.

(70 Del. Laws, c. 457, § 1; 71 Del. Laws, c. 180, § 38.)

§ 802. Shared decision-making at the school district level.

(a) Each board of education shall initiate with other representatives of the school community initial structured conversations and activities concerning the utilization of shared decision-making by April 1, 1998, using such funds as are appropriated for this specific purpose in the annual appropriations act and as specified under § 807(a) of this title.

(b) The local board of education shall facilitate the selection of a district shared decision-making advisory committee (“District Advisory Committee”) through an inclusive process that reflects the diversity within the school community.

Representatives of employee groups recognized under Chapter 40 of this title shall be selected by the relevant exclusive representative in a manner of the exclusive representative’s choosing. Employees not organized under Chapter 40 of this title shall select their representatives from the membership of their employee groups. For student (where appropriate), parent and community groups, the local board of education shall coordinate the selection of representatives with organizations for each of these groups where they exist.

(c) The structured conversations and activities of the District Advisory Committee shall result in a Report and Recommendation to the local board, through a decision-making process it developed to produce as much agreement as practicable, that:

(1) They wish to pursue shared decision-making further by developing a district transition plan to implement shared decision-making as a means of pursuing school improvement in the district, identifying the process they recommend for establishing a district transition plan, and determining the composition and roles and responsibilities of the “District Transition Team” to develop the district transition plan; or

(2) They recommend that the district not explore shared decision-making further.

(d) Each representative of a stakeholder group who participates in the structured conversations and activities of the District Advisory Committee pursuant to subsection (b) of this section shall sign the Report and Recommendation pursuant to subsection (c) of this section. Each such representative shall also indicate that they have made a good faith effort to communicate with their stakeholder group so as to ensure that the views of the membership of their stakeholder group were reflected in the Report and Recommendation.

(e) If the school community agrees to pursue shared decision-making further, the school board shall, after due consideration of the Report and Recommendation of the District Advisory Committee, officially vote to endorse the concept of shared decision-making, the process for establishing a district transition plan, the composition of the District Transition Team (whose membership shall be selected in accordance with the procedures set forth in subsection (b) of this section); and the roles and responsibilities delegated to the District Transition Team. If the board has concerns with a recommendation by the District Advisory Committee, it shall remand that recommendation to the District Advisory Committee for its proposed resolution of the concerns. The resolution shall be presented to and endorsed by the board before the board applies for a district transition planning grant.

(f) The Department of Education shall provide local school boards with assistance, guidance and strategies to initiate and plan the implementation of these structured conversations and activities.

(70 Del. Laws, c. 457, § 1; 71 Del. Laws, c. 180, § 38.)
§ 803. District transition plans and grants.

(a) After the local board has endorsed the district transition planning process pursuant to § 802(c) of this title, the board shall initiate the district transition plan by applying for a transition planning grant as authorized in the annual state appropriations act or through the Department of Education’s allocation of federal funds.

(b) The Department of Education with the approval of the State Board of Education shall adopt guidelines for the approval of district transition grants, based upon the recommendations of a State Board advisory committee comprised of representatives of the school community, and shall promulgate such guidelines by January 1, 1997, so that districts may consider them during their activities pursuant to § 802 of this title and this section. The guidelines shall require, but not be limited to specifying, that the district demonstrate that the district has:

1. Conducted structured conversations and activities to make the transition to shared decision-making as evidenced by local board action and the Report and Recommendation of the District Advisory Committee signed by representatives of school community as specified in § 802(d) of this title;
2. Established a District Transition Team;
3. Established a working procedure for the District Transition Team to reach decisions and resolve conflicts;
4. Validated significant support from members of the school community;
5. Established plans for communicating the results of the district transition plan to the broader school community for information and critical review;
6. Specified within its district transition plan its policy for supporting such activities from its local budget, including the school improvement planning process set forth in § 806 of this title, and specifically identified funds to be made available to school committees for their use, such as funds for professional development and classroom materials; and
7. Described how the various stakeholder groups will formally express their opinion regarding the district transition plan prior to its adoption by the local board of education.

(c) The Department of Education shall provide local school boards and District Transition Teams with assistance, guidance and strategies to initiate, develop and formally adopt their district transition plans.

(d) The local board of education, following public review and comments, shall be responsible for the final form and formal adoption of the district transition plan.

(e) A local board’s decision not to adopt a District Transition Plan for shared-decision-making shall not limit the authority of a school principal who demonstrates significant faculty support to submit a waiver request to the local board pursuant to a provision of this title or to develop a school improvement plan; provided, however, that this subsection shall not deprive the local board of its authority to disapprove a waiver request or a school improvement plan pursuant to its authority under § 1049 of this title.

(70 Del. Laws, c. 457, § 1; 71 Del. Laws, c. 180, §§ 38-40.)

§ 804. Shared decision-making at the school level.

(a) Any school in a school district which has adopted a district transition plan as specified in § 803(d) of this title shall establish a school-level shared decision-making advisory committee (“School Advisory Committee”). Such school may also submit a written request to the Department of Education, via its local board of education, in order to receive funds to conduct structured conversations and activities among the school community to decide whether or not to apply to the Department of Education for a school-level shared decision-making transition grant as specified in § 807(d) of this title and as provided for in the annual appropriations act.

(b) The principal shall facilitate the selection of representatives on the School Advisory Committee through an inclusive process as established in the District Transition Plan that has the goal of ensuring a fair selection process for the representatives of constituencies within the school community such as parents, community members, teachers, administrators, other employees and students (where appropriate) which reflects the diversity within the school community. Such process shall ensure that the members of the various constituencies select their respective representatives.

(c) The structured conversations and activities, as defined in this title, shall result in a decision, accompanied by an explanatory report and recommendation, by the School Advisory Committee, through a process it developed to produce as much agreement as practicable, that:

1. They wish to pursue share decision-making further by developing a school transition plan to implement shared decision-making for educational improvement in the school; or
2. They choose not to explore shared decision-making further.

(d) If the School Advisory Committee decides to proceed with shared decision-making, the structured conversations and activities shall result in the development of a process to establish a school transition plan, to determine the composition of the “School Transition Team” and to develop the roles and responsibilities delegated to the School Transition Team. The School Transition Team representatives shall be selected through the same process established by subsection (b) of this section for their respective constituency groups. The decision as to these issues shall be reflected in the Report and Recommendation pursuant to subsection (c) of this section or in a supplemental Report and Recommendation, signed in accordance with subsection (e) of this section.

(e) Each representative of a stakeholder group who participates in the structured conversation and activities of the School Advisory
Committee pursuant to subsection (b) of this section shall sign the Report and Recommendation pursuant to subsection (c) of this section and any supplemental Report and Recommendation pursuant to subsection (d) of this section. Each such representative shall also indicate that the representative has made a good faith effort to communicate with the representative’s stakeholder group so as to ensure that the views of the membership of the representative’s stakeholder group were reflected in the Report and Recommendation.

(f) The Department of Education and the relevant local district administration shall provide schools with assistance, guidance and strategies to initiate and plan the implementation of these structured conversations and activities.

(70 Del. Laws, c. 457, § 1; 70 Del. Laws, c. 186, § 1; 71 Del. Laws, c. 180, §§ 38, 41.)

§ 805. School transition plans and grants.

(a) A school community which chooses to begin transition to shared decision-making, as defined herein, may apply to the Department of Education via the local board of education for a school transition grant. The State shall provide funding for such grants as authorized in § 807(d) and (e) of this title.

(b) The Department of Education with the approval of the State Board of Education shall adopt guidelines for the approval of school transition grants, based upon the recommendations of an advisory committee comprised of representatives of the school community, and promulgate such guidelines by January 1, 1997. The guidelines shall require, but not be limited to, specifying that the school demonstrates that the school has:

(1) Conducted structured conversations and activities and has agreed to make the transition to shared decision-making as evidenced by the Report and Recommendation signed by representatives of the School Advisory Committee as specified in § 804(c)-(e) of this title;

(2) Established a School Transition Team;

(6) Established plans for communicating the results of the school improvement plan to the broader school community for information and critical review; and

(7) Described how the various stakeholder groups will formally express their opinion regarding the school transition plan prior to its adoption by the local board of education.

(c) The Department of Education and the relevant local district administration shall provide school transition teams with assistance, guidance and strategies to initiate, develop and formally adopt their transition plans.

(d) The local board of education, following public review and comments, shall adopt the school transition plan unless evidence demonstrates that the school’s transition plan is inconsistent with specific provisions of the adopted district transition plan and such disapproval shall extend only to such inconsistent provisions of the school transition plan.

(70 Del. Laws, c. 457, § 1; 71 Del. Laws, c. 180, §§ 38, 42.)

§ 806. School improvement plans.

(a) A school, which has an approved shared decision-making transition plan as specified in § 805 of this title, may apply to the Department of Education for a school improvement implementation grant. Such grants shall be awarded at the beginning of the fiscal year. A school with an approved application shall be eligible for such grant for the following 3 years as provided in the annual Appropriations Act. Subsequent applications may be made only after the review and evaluation of the school improvement plan required by § 808 of this title is completed and the results of such are included in the school’s application. The Department of Education with the approval of the State Board of Education shall adopt guidelines for the approval of school improvements grants to be awarded beginning Fiscal Year 1999, based upon the recommendations of an advisory committee comprised of representatives of the school community, and promulgate such guidelines by January 1, 1998. The guidelines shall require that the school demonstrate that its school improvement plan has the following components:

(1) Comprehensive school improvement goals tied to state and local academic performance standards and strategies to achieve these and other goals identified by the school, including staff development and parental involvement;

(2) A description of the rationale for the proposed governance structure, stating how and why the governance process should improve decision-making and support continuous improvement in teaching and student learning;

(3) Review by the broader school community with agreement that the school improvement plan is consistent with the school district plan and evidence that the local board of education has formally adopted the school’s improvement plan;

(4) A proposed budget that explains the use of resources allocated to the school to support strategies for achieving the school improvement goals;

(5) The structural changes or procedures for providing the necessary time and skill-building to support shared decision-making and continuous improvement in teaching and student learning;

(6) The assessment and evaluation process that the school will use to measure its progress toward achieving its stated goals;
§ 807. District and school grants supporting shared decision-making.

(a) The amount of appropriations to fund the grants specified in this chapter shall be as determined by the annual Appropriations Act. The Department may allocate available federal funds to fund the grants specified in this chapter. School districts and schools shall not be required to provide a local match to these funds but shall be required in the process established by § 803 of this title to consider and incorporate in their district transition plan the appropriate level of local budget support for such purposes.

(b) Each school district shall be entitled to receive a grant to conduct structured conversations and activities and to design a shared decision-making transition plan. This grant may be used over a period set forth in the annual Appropriations Act. Upon written request to the Department of Education on or before April 1, 1998, a district may use and be awarded up to one third of its grant to conduct its required structured conversations and activities.

(c) Districts meeting the requirements for approval of a transition grant as specified by § 803(a) and (b) of this title and the guidelines developed by the Department of Education with the approval of the State Board of Education for such grants may be awarded the balance of their grants for development of a district transition plan; provided, that no such funding shall be available for award after June 30, 1998, and that any application for such funding shall be made to the Department on or before May 1, 1998.

(d) Each school in a district which has adopted a district transition plan for shared decision-making, as specified in § 803(d) of this title, shall be entitled to receive a grant to conduct structured conversations and activities and to develop a school transition plan which incorporates shared decision-making. The amount of such grants shall be established in the annual Appropriations Act or by allocation of available federal funds. Such grants shall be made available starting July 1, 1997, and shall not be available for award after June 30, 2000. Any application for such a grant shall be made on or before May 1, 2000. The grants awarded may be used over a period set forth in such act or determined by the Department in the case of federal funds. The local boards of such schools shall not reduce the funds otherwise allocated to such schools as a result of such grants or otherwise use such grants to supplant local board expenditures. A school may use and be awarded up to 1/3 of its grant to conduct structured conversations and activities.

(e) Schools meeting the requirements for approval of a transition grant as specified by § 805(a) and (b) of this title and the guidelines developed by the Department of Education with the approval of the State Board of Education for such grants may, if they comply with the deadline set forth in subsection (d) of this section, be awarded the balance of their grants for development of the school’s transition plan.

(f) Upon the adoption of its school transition plan by the local board of education and upon its subsequent approval every 3 years pursuant to § 808 of this title, a school shall be eligible to be awarded annually a school improvement grant to implement its school improvement plan through the application process set forth in § 806(a) of this title. The amount and duration of such grants shall be established by the annual Appropriations Act. The local boards of such schools shall not reduce the funds otherwise allocated to such schools as a result of such grants or otherwise use such grants to supplant local board expenditures.

(g) School committees for school discipline and climate, formed pursuant to Chapter 16 of this title, shall be authorized to continue to receive incentive grants, as provided in Chapter 16 of this title and authorized in the annual state Appropriations Act, until such time as a school transition plan, as defined in § 806 of this title, specifies an alternative governance structure to assume the authority and responsibilities specified in Chapter 16 of this title. Such school improvement plan shall be presented to the Department of Education as evidence upon application for such incentive grants.

(70 Del. Laws, c. 457, § 1; 71 Del. Laws, c. 180, § 43.)

§ 808. Review of district and school plans.

District transition plans and school improvement plans shall be reviewed and evaluated at least every 3 years or more frequently upon a schedule specified within the school’s or district’s plan to measure continuous progress in achieving the goals specified in the plan. Such review and evaluation shall include the school community. The results of such review and evaluation will be reported in the annual school district and school profiles as specified in this title.

(70 Del. Laws, c. 457, § 1.)
§ 1001. Purpose.

(a) The purpose of this subchapter is to continue the statewide process of reorganization of school districts begun under the School District Reorganization Act of 1968; to preserve the historic concept of semiautonomous locally controlled school districts throughout the State; to provide a procedure for the effective and orderly reorganization of certain existing school districts in Delaware; and to provide a framework of a governance system for such reorganized districts.

(b) It is the further purpose and intent of the General Assembly to establish policy, procedures, standards and criteria under which the State Board of Education is authorized to determine and establish an appropriate reorganized school district or school districts and to implement the reorganization thereof. Any plan or rules and regulations duly adopted in accordance with this subchapter and § 1028(k) of this title by the State Board of Education for its implementation of such a plan shall be binding upon the parties involved in accordance with § 122(a) of this title.

If consolidation is by referendum, every person qualified to vote under § 1077 of this title may vote, and §§ 1078, 1079 and 1085 of this title shall apply to such referendums.

If consolidation is by referendum, the school board for the consolidated school district shall be responsible for preparing and maintaining the list of taxable property and capitations for each of the respective school districts in accordance with paragraph (d)(1) of this section, as each was constituted prior to consolidation and at the time the obligations evidenced by bonds were issued and shall continue to levy the taxes to pay for the principal and interest on the bonded indebtedness of each such school district, and the receiver of taxes and county treasurer or their successors shall deposit such tax monies in the approved manner provided elsewhere in this title for the account of the consolidated district. Any dispute which may arise because of the refusal of any school board to permit the use of any school property under its jurisdiction to any organization or group of citizens shall be reviewed by appeal, in writing, to the State Board of Education.

Any group of citizens permitted to use school property shall be responsible for any damages done to such property over and above the ordinary wear. The extent of such damage shall be determined by the school board having control over such property.

Any school board which permits the use of public school property for any use other than for public school use shall not be liable in tort for any damages by reason of negligence in the construction or maintenance of such property.

(1) Any school board may refuse to permit the use of any school property under its jurisdiction for any purpose which, in its discretion, would tend to interfere with the program of the public schools or would not be in harmony with the purposes of public education in such matters as character building, the development of unprejudiced social attitudes and the training of pupils for responsible citizenship. Any dispute which may arise because of the refusal of any school board to permit the use of any school property under its jurisdiction to any organization or group of citizens shall be reviewed by appeal, in writing, to the State Board of Education.

§ 1057. Sale or lease of property; disposition of proceeds.

(a) When any real property, title to which is held by a reorganized school district, is no longer needed for school purposes, it may be sold by the school district subject to the following:

(1) The board of education of the school district shall receive documented recommendations from the superintendent of schools of the district showing why the property is no longer needed for school district purposes;

(2) The board shall take action to consider such recommendations;

(3) The board shall release the recommendations for public review and shall announce by 10 days’ notice in a news release to print and electronic media covering the district the time and place of a public hearing on the recommendation to dispose of the property in question;

(4) The board shall conduct the public hearing as announced;

(5) The board shall within 60 days of said hearing take action to accept, reject or modify the recommendation and proceed according to the terms of the recommendation in its current status. If the recommendation was rejected, no further action is required pending any future recommendation;

(6) Except for property acquired or constructed with 100% state funds upon affirmative decision to sell a property the board shall retain the services of 1 or more licensed real estate brokers or realtors who are not associated with any member of the board of education of that district and who shall determine a minimum price at which the property is to be offered for sale. In the event the property was acquired or constructed with 100% state funding, then this paragraph shall not apply;

(7) The property for sale shall be offered to other state agencies at the price determined in paragraph (6) of this subsection. Such offer to other state agencies shall be made through the Director of the Office of Management and Budget who shall confirm with the Department of Education. Together, they shall approve a purchase or release the district to proceed with another sale within 30 days of the offer by the board of education to the Director of the Office of Management and Budget;

(8) A state agency may negotiate to the extent feasible and practical to assume the state share in such property by transfer of the debt service obligation to the account of that agency without payment of cash for that share of the price set;

(9) If no other agency of state government declares its intent to purchase the property, the Board of Education shall proceed to offer said property to the local government in whose jurisdiction the property is located. Such an offer shall be made to the chief elected official of that local government. If the offer is not accepted within 30 days, the Board may proceed to sell the property on the open market;

(10) A public hearing for the sale of the property on the open market must be advertised at least once a week for 2 consecutive weeks in a newspaper published or circulated in each county of the State. Any proposal to purchase the property shall be delivered to the office...
of the Executive Secretary of the Board, or to such other place as shall be specified in the advertisement, no later than 5:00 p.m. on the last working day preceding the day fixed for the hearing, and the Board shall not consider any proposal submitted subsequent to that time. The Board shall act upon the proposals no sooner than 7 days and no more than 14 days following the hearing, during which period residents of the district may review the proposals at the office of the district during regular business hours and submit comments on the proposals. The Board shall consider such comments in acting upon the proposals. In its discretion, the Board may reject all proposals or accept a proposal subject to such modifications, except as to price, as the Board determines are appropriate;

11) A sale on the open market may be conducted by the board and administrative staff of the district or through a licensed realtor or agency who is not associated with the appraiser or any member of the board of education of that district. Any final contract for such sale shall be approved within a period of 60 days by the Director of the Office of Management and Budget, who shall confer with the Department of Education. Approval will not be withheld unless the contract is found by the Director to be unreasonable, in which event the Director shall disapprove the sale and make specific written findings for such disapproval;

12) When an offer to purchase the property at a price not less than fixed pursuant to paragraph (6) of this subsection is accepted by the board, the Facilities Management of the Office of Management and Budget shall direct that an appraisal be prepared by 2 independent appraisers licensed in Delaware who are from different firms. The amount of this confirmatory appraisal will be the average of the 2 appraisals. Any offer to purchase the property, including offers from state agencies or local governments, at a price not less than that fixed pursuant to paragraph (a)(6) of this section may be accepted by the board provided that the purchase price specified in the offer is either not less than the amount established by the confirmatory appraisal or is amended to increase to the amount established by the confirmatory appraisal;

13) The rights of bond holders shall not be jeopardized through such sale. This section shall be construed so as not to impair the rights of any bondholder, and all bonds outstanding shall remain in full force and effect according to the terms thereof;

14) No sales agreement shall be entered into until it can be demonstrated that the purchaser of the property will use the property for purposes authorized according to the zoning requirements, if any, for the area in which the property is located. If any modification of zoning requirements is necessary, those modifications must be certified to by the appropriate zoning authority prior to the conclusion of the sale;

15) a. The proceeds of sale of school district property financed, in whole or in part, with the proceeds of bonds issued by the State shall be paid to the State less costs incurred in selling the property after such costs have been met or provision for their payment has been made. The proceeds of sale attributable to the State financing of the property shall be deposited in the School Bond Reversion Account of the State in an amount that bears the same proportion to total net sale proceeds as the State’s contribution to meet the cost of the property bears to the total cost of the property.

b. The remaining proceeds shall be deposited in a special fund of the State for the benefit of the selling school district. The money in those special funds shall be invested by and subject to the guidelines established by the Cash Management Policy Board separate and apart from other money invested by the Board. Interest earned, but not profit realized, from the investment of such proceeds shall be paid by the State Treasurer, not less than once nor more than 4 times in each fiscal year of the State, to the school district for which the proceeds are held, for any lawful school purpose, or reinvested pursuant to a written request to the State Treasurer from the school board for such school district. If the school board directs the reinvestment of the interest earnings, they shall become part of the corpus of such special fund.

c. The corpus of the special funds shall, at the direction of the appropriate school board, be applied to retire bonds issued by the school district or to meet the school district’s local share of construction required by any school construction bond authorization act, as defined in Chapter 75 of Title 29, as amended.

d. Notwithstanding any other provisions of the above subparagraphs, when it can be documented that all or a part of the property was a gift to a reorganized school district, or its antecedent, the portion of the residual representing the gift shall be assigned to the school district to be used in conformance with paragraphs (a)(15)b. and c. of this section. That portion not identifiable as a gift shall be distributed and deposited in conformance with paragraphs (a)(15)a. and b. of this section.

(b) (1) Notwithstanding § 1056 of this title, when any real property or part thereof of any reorganized school district is not then deemed necessary for school purposes, temporarily or permanently, the board of education of the district may lease such property or part thereof to any person or organization. The leasing person or organization may be required to pay a rental or fee to be determined by the board and to assume sole responsibility for the complete maintenance and preservation of the property, including compliance with all applicable building and housing codes, so that there will be no cost or obligation to the school district for the continued ownership of such property.

2) a. Any funds raised from rent or charges collected by the school district during any lease term of 10 years or less shall be retained by the school district to be used as local funds for any permissible educational purpose. Any funds raised from rent or charges collected by the school district during any lease term of more than 10 years shall be applied to the costs of maintaining and operating the leased property, if any, with the balance to be turned over to the State Treasurer to be assigned to the State and the school district according to paragraph (a)(15) of this section.

b. Notwithstanding paragraph (b)(2)a. of this section, in the event that there is any outstanding, unpaid, bonded indebtedness held by the State with respect to the building or grounds leased by a local district in accordance with this section, or any identifiable portion thereof, a prorated portion of the lease proceeds in excess of the cost of custodial salaries and utilities associated with the
lease shall be turned over to the State Treasurer during any period of the lease that the bonded indebtedness held by the State remains outstanding and unpaid. The amount of such excess lease revenues payable to the State shall be equal to the lesser of:

1. The actual debt service payable by the State during any period covered by the lease; or
2. The amount of the excess revenues generated by the lease during any period that the bonded indebtedness held by the State remains outstanding and unpaid, multiplied by a fraction equal to the State share in the major capital project or projects for which the outstanding, unpaid, bonded indebtedness was originally issued.

In the event that the outstanding, unpaid, bonded indebtedness relates only to an identifiable portion of the leased facility, the amount payable to the State Treasurer shall be the amount calculated in accordance with the preceding sentence, multiplied by a fraction, the numerator of which shall be the gross square footage of the identifiable portion of the leased facility which is included in the lease and the denominator of which shall be the gross square footage of the entire identifiable portion of the leased facility to which the outstanding, unpaid, bonded indebtedness relates.

3) Before leasing such property or part thereof to any person or organization for any period in excess of 12 months, and before renewing any existing lease where the original term was for 12 months or less but the original term or terms together with the proposed renewal period or periods will exceed 12 months:
   a. The school district board of education shall first offer to lease the property to state agencies. If, as a result of the public hearing, sufficient objections to the use of the property by a state agency have been raised, then the school district board of education may refuse to lease to a state agency.
   b. If no agency of state government declares an intent to lease the property within 30 days of the offer, or if the lease by a requesting state agency is denied, the school district board of education shall offer to lease the property to the local government in whose jurisdiction the property is located. If, as a result of the public hearing, sufficient objections to the use of the property by the local government have been raised, then the school district board of education may refuse to lease to the local government.
   c. If such local government does not declare an intent to lease the property within 30 days of the offer, or if the lease by a requesting local government is denied, the school district board of education may proceed either to offer to lease the property on the open market or enter into an agreement with a lessee, the terms of which are supported by an independent appraisal. If, as a result of the public hearing, sufficient objections to the use of the property by such third-party lessee have been raised, then the school district board of education may refuse leasing to such third party lessee.

4) No lease of property pursuant to this subsection shall be negotiated until the school district board of education has complied with the procedures set forth in paragraphs (a)(1) through (5) of this section.

5) No lease of property pursuant to this subsection shall be entered into unless the proposed use of the property is compatible with the characteristics of the neighborhood in which the property is located.

6) Should a school district contract with any person or organization to lease a classroom building during the regular school year, and specifically during normal operating hours, the State shall not be obligated to build or construct any additional space that may be needed by the school district as a result of entering into such lease.

7) No sales agreement, lease or donation of real property described within this section shall be negotiated when such property contains or is an integral part of recreational facilities, such as athletic fields or playgrounds, unless and until the board has made specific findings with respect to such facilities after discussion thereof in public forum as described in paragraph (a)(3) of this section. In the event the property was acquired or constructed with 100% state funding, this subsection shall not apply. Assignment of funds to bond payment shall occur according to the priority schedule in paragraph (a)(15) of this section.

8) Any purchases, leases or donations not finalized as of April 8, 1982, shall be subject to all the terms and conditions described herein.

9) Notwithstanding any provision of subsection (a), (b), (c) or (d) of this section, any real property:

(b) Person or persons with other business within the building in which a polling place for a public school election is located may pass through the polling place area or by the room in which the polling place is located so as not to interfere with the conduct of the election. Such person or persons shall not loiter within 50 feet of the polling place, talk to any person or persons waiting to vote, promote any candidate or side to an issue, or in any other manner interfere with voters or disrupt the polling place. The inspector shall have the duty to caution the challengers concerning the foregoing and, if a challenger persists in objectionable behavior, the challenger may be ejected by the inspector. Nothing in this subsection shall prevent the substitution of another challenger for 1 who has been ejected.
(e) If an inspector wilfully ejects a challenger without cause, that inspector shall be deemed to have knowingly and wilfully violated that inspector’s own official duty.

(f) Anyone legally within the polling place may challenge any voter for identity, address or bribery. The inspector and both judges shall hear each challenge immediately and before the person so challenged enters a voting machine. The Governor shall designate 1 voting educator member to serve, at the pleasure of the Governor, as chair of the Standards Board. The members of the Standards Board shall elect a vice chair. A member who misses 3 consecutive meetings without cause is presumed to have resigned from the Standards Board. A member of the Standards Board serves until that member’s successor is appointed or until the member resigns. A member appointed to fill a vacancy serves for the remainder of the term of the member whom that member replaced. A Standards Board member is eligible for reappointment. If a disciplinary proceeding is initiated against a board member, the member may not participate in Standards Board business until the charge is adjudicated or the matter is otherwise concluded.

(c) With respect to appointments pursuant to subsection (a) of this section, the designated organization or person shall provide the Governor with a list of potential appointees 60 days prior to the expiration of a term or within 30 days after a vacancy of any term. The Governor may require that a specific number of potential appointees, up to 20, be included on any list submitted. The Governor may reject all potential appointees on the list and request up to 4 additional lists at the Governor’s discretion. If the designated organization does not submit a list to the Governor as provided in this subsection, then the Governor shall submit the Governor’s own appointments for any vacancy.

(d) The Standards Board shall have the following standing committees in the following subject areas:

1. Licensure and Certification Criteria; and

2. Professional Development and Associated Compensation.

A standing committee must consist of at least 1 member of the Standards Board and other persons as may be mutually agreeable to the chair of the Standards Board and the Secretary.

(e) The majority of the voting members of the Standards Board shall appoint an executive director of the Standards Board. The executive
Director must have been a resident of Delaware for a minimum of 1 year immediately prior to the executive director’s appointment and must have at least 10 years’ experience as a professional educator in a public school system, with at least 5 years as a classroom teacher. The executive director acts as secretary to the Standards Board and receives compensation commensurate with the Department salary schedule. The executive director shall serve at the pleasure of the majority of the voting members of the Standards Board. The executive director is excluded from “classified service” and “state service” as defined in Chapter 59 of Title 29. The Department shall provide the Standards Board with access to Department personnel who are reasonably necessary to carry out the duties of the Standards Board.

(f) The Standards Board may create any committees that it deems necessary, provided that a committee created under this subsection does not overlap or otherwise make recommendations in the subject areas governed by the standing committees designated in subsection (d) of this section; and, further provided, that, prior to creating any such committee, the Standards Board shall first specify the tasks to be addressed by the committee and the time in which the committee is to complete those tasks. The chair of the Standards Board may appoint members of the Standards Board to such committees. The Standards Board may, by mutual agreement between its chair and the Secretary, appoint educators, parents, citizens and members of the business community to a committee created under this subsection.

(g) A majority of the current members of the Standards Board constitutes a quorum. No motion or resolution of the Standards Board may be adopted without the concurrence of the majority of the members of the Board plus at least 1 additional affirmative vote.

(h) A member of the Standards Board is entitled to receive $50 per meeting not to exceed $600 annually, and to be reimbursed for reasonable and necessary expenses incurred in connection with the performance of official duties. The Standards Board may hold 1 meeting per month during normal school hours, but any additional meetings in the same month shall not be held during normal school hours.

The provisions of subchapter III of Chapter 58, Title 29 shall not apply to members of the Standards Board who are employed by a public school district. Any Standards Board member employed by a public school district will be released from that member’s normal duty for the purpose of attending any regular monthly meeting of the Board which is scheduled during normal school hours as provided in this section, and such member shall receive that member’s normal salary from the member’s employer pursuant to the provisions of Chapter 13 of this title and any applicable collective bargaining agreement. Subject to the availability of appropriated funds, the Standards Board shall reimburse the member’s employing school district for such costs as the school district may incur in order to obtain the services of a substitute teacher to take the place of any teacher member of the Standards Board who is granted release time pursuant to this section. A member of the Standards Board who is granted release time pursuant to this section shall have that member’s compensation, as provided in the first paragraph in this section, proportionally reduced so that such member is not compensated twice for the time spent in meeting.

(i) Upon the request of the Secretary for advice or recommendations on matters within the purview of the Standards Board, the Standards Board shall respond to the request within a time frame that is mutually agreed upon between the Secretary and the chair of the Standards Board.

(j) The initial 15 voting members of the Standards Board must be appointed no later than 90 days after the enactment of this act.

(k) The Standards Board is subject to the provisions of the Administrative Procedures Act (Chapter 101 of Title 29).

1. One year of teaching experience consisting of a minimum of 91 days of long-term teaching experience in 1 assignment, except that this paragraph (a)(1) does not apply to applicants seeking an initial license to teach in a core content area. (b) [Repealed.]

(c) (1) If an initial licensee intends to apply for a continuing license, the licensee shall, before the expiration of that initial license, complete professional development and mentoring activities required by rules and regulations promulgated and adopted under this chapter. (2) The Department shall create a committee of stakeholders, including teachers, principals, local education agency administrators, representatives of institutions of higher education, representatives of the Delaware State Education Association (DSEA), representatives of the Delaware Association of School Administrators (DASA), and national experts, to gather input and make recommendations on a revised Comprehensive Induction Program that focuses on reinforcing all of the following:

An applicant issued an initial license under this subsection must complete all requirements under subsection (c) of this section. For purposes of this subsection, “educator” means a person licensed in another jurisdiction to engage in the practice of instruction, administration, or other related professional support services in public schools or a person who was an educator as defined in § 1202 of this title and previously held a valid Delaware license that has since expired.

(e) An initial license must not be renewed. It may, however, be extended under § 1216 of this title.

(g) [Repealed.]

(h) Notwithstanding subsections (a) and (c) of this section, the Department shall issue an initial license to an applicant who meets the criteria for meritorious new teacher candidate designation adopted under § 1203 of this title. § 1211. Tier Two — Continuing licensure.

(a) A continuing license is valid for 5 years unless extended under § 1216 of this title or revoked.

(b) Upon application, the Department shall issue a continuing license to an educator holding an initial license if the educator has successfully completed the requirements of § 1210 of this title and has not received more than 1 unsatisfactory annual evaluation, as defined by a State of Delaware approved educator evaluation system, during the period of initial licensure.

(a) Pursuant to rules and regulations promulgated and adopted pursuant to this chapter, the Department may deny an applicant’s application for a license for failure to meet the qualifications for a license. The Department may further deny a license to an applicant who otherwise meets the requirements of this subchapter for any of the causes enumerated in § 1218(a) and (b) of this title.

(b) The Department shall not take action to deny a license under this section without providing the applicant with written notice of the reasons for denial and with an opportunity for a full and fair hearing before the Standards Board.

(c) In any hearing before the Standards Board to challenge action taken under this section, the Standards Board shall have the power to administer oaths, order the taking of depositions, issue subpoenas, and compel attendance of witnesses and the production of books, accounts, papers, records, documents, and testimony.

(d) The burden of proof in a license denial action is on the applicant to show by a preponderance of the evidence that the applicant should not be denied a license because that applicant meets the qualifications for licensure pursuant to the applicable laws and regulations.

(2) The chief school officer or head of school, on behalf of the local board of education or charter school board of directors, shall report to the Secretary the name and last known address of any license holder employed by the district or charter school who it knows to have been arrested or indicted by a grand jury for a violent felony as defined in § 4201(c) of Title 11 or for any crime against a child constituting a felony.

(3) A license holder whose license has been suspended pursuant to this subsection may request an expedited hearing before the Standards Board within 20 calendar days from the date the notice of the Secretary’s decision to temporarily suspend the license holder’s license was mailed. In the event that the license holder requests an expedited hearing in a timely manner, the Standards Board shall convene a hearing within 90 days of the receipt of such a request.

(4) If the license holder pleads guilty or nolo contendere with respect to, or is convicted of, a violent felony as defined in § 4201(c) of Title 11 or any crime against a child constituting a felony, the Secretary shall proceed with revocation under subsection (b) of this section.

(5) If the license holder is found not guilty of the underlying criminal charges, a nolle prosequi is entered on the record by the State, or the charges are otherwise dismissed by the court, the license holder may file a written request for license reinstatement, including documentation of the final status of the judicial proceeding, and their license shall be reinstated. If the license expired during the period of suspension, the holder of the former license may reapply for the same tier license that was suspended, but shall meet the license requirements that are in effect at the time of the application for license.

(6) An order of suspension under this subsection shall remain in effect until the final order of the Secretary or the Standards Board becomes effective.

(d) The Secretary may take an action under subsection (a), (b), or (c) of this section on the basis of substantially comparable conduct occurring in a jurisdiction outside this state or occurring before a person applies for or receives any license.

(e) Any license holder who has pled guilty or nolo contendere to, or has been convicted of, a crime in a court of law which would constitute grounds for revocation, suspension or limitation of license under subsection (a) or (b) of this section or has been arrested or indicted by a grand jury for a violent felony as defined in § 4201(c) of Title 11 or any crime against a child constituting a felony, shall notify the Secretary of such action in writing within 20 days of such conviction, arrest or indictment, whether or not a sentence has been imposed. (f) Any license holder who has surrendered an educator license or any professional license or certificate or who has had such a license or certificate revoked, suspended, or limited in any jurisdiction or by any agency shall notify the Secretary of such action in writing within 30 days of such action. Failure to do so shall be grounds on which the Secretary may limit, suspend, or revoke the holder’s license.

employment with that district or charter school after the local board of education or charter school board of directors provides to the license holder notice of intent to terminate for misconduct that constitutes grounds for revocation or suspension under subsection (a), (b), or (c) of this section. Such report shall be made within 15 days of the dismissal, resignation, retirement or other separation from employment and is required notwithstanding any termination agreement to the contrary that the local board of education or charter school board of directors may enter into with the license holder. The reasons for the license holder’s dismissal, resignation, retirement or other separation from employment with the district or charter school shall also be provided along with all evidence that was reviewed by or is in the possession of the district or charter school relating to the dismissal, resignation, retirement, or other separation from employment. The Department shall give written notice to any license holder of any notification received under this subsection to the license holder’s last known address. Such notification shall be made within 15 days of receipt of the district or charter school’s report to the Department of misconduct under this subsection. The obligation to report also applies when a chief school officer or head of school acquires relevant information after a license holder’s dismissal, resignation, retirement, or other separation from employment. Failure to make such reports shall be grounds on which the Secretary may limit, suspend, or revoke the chief school officer’s or head of school’s license. All information obtained from the chief school officer or head of school shall be confidential and shall not be considered public records under Delaware’s Freedom of Information Act (Chapter 100 of Title 29). If after having received notice of intent to terminate for misconduct in office or immorality, a license holder requests and prevails at a hearing, there is no required report to the Department.

(b) The Secretary may investigate any information received about a person that reasonably appears to be the basis for action under subsections (a) through (c) of this section. All information obtained during an investigation is confidential and shall not be considered public records under Delaware’s Freedom of Information Act (Chapter 100 of Title 29). The Secretary shall review the results of each investigation and shall determine whether the results warrant initiating action under subsection (a), (b), or (c) of this section. All final orders issued by either the Secretary or the Professional Standards Board under this section are public documents pursuant to § 10002 of Title 29.

(i) Whenever the basis of for action under subsection (a) or (b) of this section is a guilty plea, nolo contendere with respect to, or a conviction of a crime, a copy of the record of the plea, nolo contendere or conviction certified by the clerk of the court entering the plea, nolo contendere or conviction shall be conclusive evidence thereof.

(j) The Secretary may enter a consent agreement with a person against whom action is being taken under subsection (a), (b), or (c) of this section.

(k) No action shall be taken against a person under subsection (a) or (b) of this section without providing the person with written notice of the charges and with an opportunity for a full and fair hearing before the Standards Board. Notice shall be personally delivered or sent by certified mail to the person’s last known address. The license holder shall have 30 calendar days from the date the notice of the charges was mailed to make a written request for a hearing. Unless otherwise provided for in this section, the burden of proof in a license disciplinary action shall be on the agency taking official action to establish by preponderance of the evidence that the license holder has engaged in misconduct as defined by subsections (a) and (b) of this section or otherwise has failed to comply with the applicable laws and regulations relating to the retention of the license. At the conclusion of any such hearing, the Professional Standards Board shall issue a final order finding the facts as determined by the hearing and revoking, suspending, or limiting the license or certificate, if appropriate. If no written request for a hearing is received by the Standards Board, the license holder’s license shall be deemed to be revoked, suspended, or limited in the manner set forth in the notice, and the holder shall be so notified.

(l) A license may be suspended for a period of time not to exceed 5 years. The license may be reinstated by the Secretary, upon written request, with verification that all requirements for license renewal have been satisfied. If the license expired during the period of suspension, the holder of the former license may reapply for the same tier license that was suspended but shall meet the license requirements that are in effect at the time of the application for the license.

(m) If any of the causes listed in subsection (a) or (b) of this section are determined, the Secretary or the Standards Board after a hearing, may put limitations on a license that may include but is not limited to:

(o) An individual whose license has been revoked under subsection (a) of this section may petition the Secretary for reinstatement of the license not sooner than 5 years from the date of revocation. The individual shall submit to the Secretary a written petition showing credible evidence, by affidavit or otherwise, of the factors set forth in paragraph (o)(1) of this section.

§ 1218A. Temporary suspension pending hearing

(a) In the event of a complaint concerning the activity of a person licensed or certified that presents a clear and immediate danger to the health, safety, or welfare of students, the Secretary may temporarily suspend the person's license or certificate, pending a hearing. An order temporarily suspending a license or certificate under this section may not be issued unless the person or the person's attorney received at least 72 hours' written or oral notice before the temporary suspension so that the person or the person's attorney can file a written response to the proposed suspension. The decision as to whether to issue the temporary order of suspension will be decided on the written submissions. An order of temporary suspension pending a hearing may remain in effect for no longer than 60 days from the date of the issuance of the order unless the temporarily suspended person requests a continuance of the hearing date. If the temporarily suspended person requests a continuance, the order of temporary suspension remains in effect until the hearing convenes and a decision is rendered. A former license holder is entitled to a full and fair hearing before the Standards Board to challenge a denial of reinstatement pursuant to this subsection.

(b) A person whose license or certificate has been temporarily suspended pursuant to this section must be notified of the temporary suspension immediately and in writing. Notification consists of a description of the complaint and the order of temporary suspension pending a hearing personally served upon the person or sent by certified mail, return receipt requested, to the person's last known address.

(c) A person whose license or certificate has been temporarily suspended pursuant to this section may request an expedited hearing. The Professional Standards Board shall schedule the hearing on an expedited basis, provided that the Board receives the request within 10 calendar days from the date on which the person received notification of the decision to temporarily suspend the person's license or certificate.

(d) As soon as possible after the issuance of an order temporarily suspending a person's license or certificate pending a hearing, the Board shall appoint a hearing examiner. After notice to the person pursuant to subsection (b) of this section, the hearing examiner shall convene within 60 days of the date of the issuance of the order of temporary suspension to consider the evidence regarding the matters alleged in the complaint. If the person requests in a timely manner an expedited hearing, the hearing examiner shall convene within 15 days of the receipt of the request by the Board. The hearing examiner shall render a decision within 20 days of the hearing.

(e) In addition to making findings of fact, the hearing examiner shall also determine whether the facts found constitute a clear and immediate danger to the health, safety, or welfare of students. If the hearing examiner determines that the facts found constitute a clear and immediate danger to the health, safety, or welfare of students, the order of temporary suspension must remain in effect until the Board deliberates and reaches conclusions of law based upon the findings of fact made by the hearing examiner. An order of temporary suspension may not remain in effect for longer than 60 days from the date of the decision rendered by the hearing examiner unless the suspended person requests an extension of the order pending a final decision of the Board. Upon the final decision of the Board, an order of temporary suspension is vacated as a matter of law and is replaced by the disciplinary action, if any, ordered by the Board.

§ 1218B. Nondisciplinary letter of concern

(a) If the Secretary determines after the investigation that a violation of this chapter or of regulations enacted pursuant to this chapter which warrants formal disciplinary action has not occurred, but that an act or omission of the person is a matter of concern and that the person's practice may be improved if the person is made aware of the concern, the Secretary may issue a nondisciplinary, confidential letter.

§ 1219. Disclosure.

Pursuant to the rules and regulations promulgated and adopted under this chapter, the Department shall require each applicant for a license under this chapter to disclose that applicant’s own criminal conviction history. Failure to disclose a criminal conviction history pursuant to this section is grounds for denial of a license under § 1217 of this title, revocation of a license under § 1218 of this title, and/or criminal prosecution under subchapter VI (Criminal Background Check for Public School Related Employment) of Chapter 85 of Title 11 until April 7, 2016, and effective on April 7, 2016, subchapter I of Chapter 3 of Title 31.

An educator holding a continuing license pursuant to § 1211 of this title or an advanced license pursuant to § 1213 of this title must receive a Delaware Performance Appraisal System II (DPAS II) evaluation at least every 2 academic years. For purposes of this subsection only, the term “educator” shall also include specialists who practice in Delaware public schools, whether or not they are licensed and certified by the Department. The evaluation must be consistent with the Delaware Professional Teaching Standards and the Delaware Administrators’ Standards, and must otherwise be in accordance with the criteria and requirements of this section.

(b) The Department, with the consent of the State Board of Education, shall promulgate rules and regulations to administer the Delaware Performance Appraisal System II (DPAS II). The DPAS II must include an overall rating and a student-improvement component rating, and must identify what constitutes satisfactory performance and unsatisfactory performance on the overall evaluation and on each component of the evaluation. For the purposes of § 1273 of this title, DPAS II must also include a definition of “pattern of ineffective teaching” and define “pattern of ineffective administration” as it relates to unsatisfactory performance on the overall DPAS II evaluation.

(c) (1) DPAS II must have no more than 5 components and must have a strong focus on student improvement, with 1 component dedicated exclusively to student improvement. All components must be weighted equally beginning in the 2017-18 academic year.

his or her current cohort of students. If the teacher and administrator do not agree, the administrator’s decision is final. Each “Part II” goal shall be based upon a measure that has been approved by the Department. Measures may be created by a local education agency but must be approved by the Department prior to use. The administrator shall assess the progress toward goals, regardless of whether the teacher has satisfied the requirements of § 1403(a) of this title, is on a directed professional growth plan, or has a satisfactory rating on his or her most recent performance evaluation.

(3) Notwithstanding any other provision of law, rule or regulation to the contrary, grades 3 through 8 and high school state assessments required under § 151 of this title shall not be required as a measure of student growth as part of a teacher’s evaluation.

(4) The measure of student improvement must take into consideration student absence, student mobility, student chronic noncompliance with school rules, chronic failure by parents to abide by the Parents’ Declaration of Responsibilities under § 157 of this title, and other factors that may adversely affect the evaluation. b. Any narrative language related to recommendations or commendations on the educator’s performance. Recommendations on performance may not result in a formal improvement plan.

(4) The only forms that an educator must complete under this subsection are the following:

a. The goal setting form.

b. A verification form, created by the Department, to ensure that the educator’s observation and feedback cycle has been completed.

(5) Evidence collected and feedback provided during observations under this subsection may not be used for either of the following:

An educator holding a continuing license pursuant to § 1211 of this title or an advanced license pursuant to § 1213 of this title must receive a Delaware Performance Appraisal System II (DPAS II) evaluation at least every 2 academic years. For purposes of this subchapter only, the term “educator” shall also include specialists who practice in Delaware public schools, whether or not they are licensed and certified by the Department. The evaluation must be consistent with the Delaware Professional Teaching Standards and the Delaware Administrators’ Standards, and must otherwise be in accordance with the criteria and requirements of this section.

(b) The Department, with the consent of the State Board of Education, shall promulgate rules and regulations to administer the Delaware Performance Appraisal System II (DPAS II). The DPAS II must include an overall rating and a student-improvement component rating, and must identify what constitutes satisfactory performance and unsatisfactory performance on the overall evaluation and on each component of the evaluation. assessments for students. With regard to Part B goals, the measures must be selected from a list of the standardized measures approved by the Department.

(3) The measure of student improvement must take into consideration student absence, student mobility, student chronic noncompliance with school rules, chronic failure by parents to abide by the Parents’ Declaration of Responsibilities under § 157 of this title, and other factors that may adversely affect the evaluation. If a student has missed more than 15% of the class time, the student’s performance shall only be used with the agreement of the teacher under this chapter.

(d) A local school district may develop and implement other assessment tools that measure annual student improvement, including assessments in other content areas. Assessment tools developed and implemented pursuant to this subsection must be approved by the Secretary and must be funded with local funds.

(e) Nothing in this section prevents a local school district from administering other evaluations in addition to the Delaware Performance Appraisal System II, provided that administration of additional evaluations is reported to the Department.

(f) A local school district, vocational-technical school district or charter school may make application to the Department for a waiver of the provisions of the DPAS II evaluation system, which shall be granted, subject to the provisions of rules and regulations promulgated pursuant to this subchapter, if the request for a waiver is based on a locally developed evaluation process that is demonstrated to be the product of the collective bargaining process pursuant to Chapter 40 of this title and community review and is as rigorous and as educationally sound as DPAS II, provides for evaluating educator performance by measuring student growth using multiple measures over the course of a curricular year, and contains a mechanism for certifying evaluators and for quality control.

(g) The Department shall promptly establish a pilot program in not more than 3 local education agencies. The pilot program, which shall be for the 2016-17 and 2017-18 academic years, shall weigh all components equally, shall incorporate a survey provision for parents and students to be included in Component IV of the evaluation, and shall meet the following requirements for each participating local education agency:

3. The component dedicated exclusively to student improvement shall contain 2 parts. The first part, known as “Part A,” shall contain an individual goal created by the educator and administrator that is based upon the school or district improvement document and demonstrates the educator’s contribution to student growth for his or her current cohort of students. The second part, known as “Part B,” shall contain an individual goal created by the educator and administrator that is based upon an assessment approved by the Department. The administrator shall assess the progress toward goals, regardless of whether the educator has satisfied the requirements of § 1403(a) of this title, is on an improvement plan, has expectations contained in the most recent performance evaluation, or has a satisfactory most recent performance evaluation.

4. In the event that the educator and administrator cannot agree upon the goals to be included in the component dedicated exclusively to student improvement, the goals shall be determined as follows:

a. For educators who have not satisfied the requirements of § 1403(a) of this title, the administrator shall determine the goals to be included in the component dedicated exclusively to student improvement.

b. For educators who have satisfied the requirements of § 1403(a) of this title but are on an improvement plan or have expectations contained in their most recent performance evaluation, the administrator shall determine the goals to be included in the component dedicated exclusively to student improvement.

c. For educators who have satisfied the requirements of § 1403(a) of this title and whose most recent performance evaluation is satisfactory, the educator and administrator shall each determine a Part A and Part B goal. In such instance, each goal shall be of equal weight.

5. For all Part A and Part B goals, the administrator shall identify the measures to be used to provide data to judge progress towards the goals. In regards to Part B goals, the measure must be selected from a list of standardized measures approved by the Department.

6. The administrator shall be solely responsible for assessing progress toward the goals using the data generated by measures identified by the administrator and any other data provided by the educator and accepted by the administrator for this purpose.

(h) (1) Notwithstanding any provision of this section, the educator evaluation system under this section is suspended for the 2020-2021 school year. In lieu of the educator evaluation system, educators must engage in an observation and feedback cycle designed to provide coaching and support related to hybrid and remote learning practices that encourage all of the following:

b. Student engagement in learning.

c. Standards-aligned curriculum implementation.

(2) The observation and feedback cycle under paragraph (h)(1) of this section must include all of the following:

a. An initial goal setting process.

Assessment tools developed and implemented pursuant to this subsection must be approved by the Secretary and must be funded with local funds.

(e) Nothing in this section prevents a local education agency from administering other evaluations in addition to the Delaware Teacher Growth and Support System, provided that administration of additional evaluations is reported to the Department.

(f) A local education agency may make application to the Department for a waiver of the provisions of the Delaware Teacher Growth and Support System, which shall be granted, subject to the provisions of rules and regulations promulgated pursuant to this subchapter, if the request for a waiver is based on a locally developed evaluation process that is demonstrated to be the product of the collective bargaining process pursuant to Chapter 40 of this title and community review and is as rigorous and as educationally sound as the Delaware Teacher Growth and Support System, provides for evaluating educator performance by measuring student growth using multiple measures.
§ 1270B. Delaware Performance Appraisal System II [Effective July 1, 2023].

(a) For purposes of this subchapter only, Delaware Performance Appraisal System II applies only to specialists and administrators who practice in Delaware public schools. An administrator or specialist holding an initial license pursuant to § 1210 of this title must receive a Delaware Performance Appraisal System II evaluation annually. An administrator or specialist holding a continuing license pursuant to § 1211 of this title or an advanced license pursuant to § 1213 of this title must receive a Delaware Performance Appraisal System II evaluation at least every 2 academic years. The evaluation must be consistent with the Delaware Framework for Specialists and the Delaware Administrators’ Standards and must otherwise be in accordance with the criteria and requirements of this section.

(b) The Department, with the consent of the State Board of Education, shall promulgate rules and regulations to administer the Delaware Performance Appraisal System II. The Delaware Performance Appraisal System II must include an overall rating and a student-improvement component rating, and must identify what constitutes satisfactory performance and unsatisfactory performance on the overall evaluation and on each component of the evaluation. For the purposes of § 1273 of this title, Delaware Performance Appraisal System II must also include a definition of “pattern of ineffective practice” and define “pattern of ineffective administration” as it relates to unsatisfactory performance on the overall Delaware Performance Appraisal System II evaluation.

(c) (1) Delaware Performance Appraisal System II must have no more than 5 components and must have a strong focus on student improvement, with 1 component dedicated to student improvement. All components must be weighted equally.

(2) For all Part I and Part II goals, the specialist, as well as the administrator, may propose measures to be used to provide data to judge progress towards the goals. The proposed measures must be approved by the administrator and not result in additional assessments for students. With regard to Part II goals, the measures must be selected from a list of the standardized measures that may be created by a school district or charter school but must be approved by the Department. If the specialist and administrator do not agree, the supervisor’s decision is final.

(3) The measure of student improvement must take into consideration student absence, student mobility, student chronic noncompliance with school rules, chronic failure by parents to abide by the Parents’ Declaration of Responsibilities under § 157 of this title, and other factors that may adversely affect the evaluation. If a student has missed more than 15% of the class time, the student’s performance shall only be used with the agreement of the teacher specialist or administrator under this chapter.

(d) A local education agency may develop and implement other assessment tools that measure annual student improvement, including assessments in other content areas. Assessment tools developed and implemented pursuant to this subsection must be approved by the Secretary and must be funded with local funds.

(e) Nothing in this section prevents a local education agency from administering other evaluations in addition to the Delaware Performance Appraisal System II, provided that administration of additional evaluations is reported to the Department.

(f) A local education agency may make application to the Department for a waiver of the provisions of the Delaware Performance Appraisal System II evaluation system, which shall be granted, subject to the provisions of rules and regulations promulgated pursuant to this subchapter, if the request for a waiver is based on a locally developed evaluation process that is demonstrated to be the product of the collective bargaining process pursuant to Chapter 40 of this title and community review and is as rigorous and as educationally sound as the Delaware Performance Appraisal System II, provides for evaluating specialist or administrator performance by measuring student growth using multiple measures over the course of a curricular year, and contains a mechanism for certifying evaluators and for quality control.

(83 Del. Laws, c. 116, § 2.)

§ 1271. Certification of professional evaluators; monitoring evaluations.

(a) The Department shall develop rules and regulations pursuant to this subchapter to credential professional evaluators for the Delaware Performance Appraisal System II, including appropriate training for evaluators. The Department shall ensure that all evaluators are properly trained and credentialed.

(b) To maintain a high standard of quality for professional evaluations, the Department shall develop recommendations for an ongoing DPAS II monitoring system to be implemented by the Department. The monitoring system must include a process by which an educator may challenge the fairness of the process used and/or the conclusions reached in an evaluation.

(72 Del. Laws, c. 294, § 2; 74 Del. Laws, c. 13, §§ 13, 14.)

§ 1272. Improvement plans; professional development.

(a) If the overall rating of an educator’s DPAS II evaluation is unsatisfactory, the district shall develop and assign an improvement plan to the educator and provide a reasonable amount of time for the educator to complete the improvement plan. A district shall also make recommendations for improvement if an educator’s performance on an individual component of the evaluation is unsatisfactory. An improvement plan must identify the deficiencies in an educator’s performance and the professional development activities required to improve the deficiencies to a satisfactory level. An improvement plan pursuant to this section must be developed as part of a collaborative process between the district and the educator where possible, with the district having the final authority to develop and assign the plan. The Department shall develop guidelines for improvement plans required pursuant to this section.
(b) In an effort to promote continuous professional growth and to improve educator performance, the Department shall also develop guidelines for professional development when an educator receives a satisfactory DPAS II evaluation. The guidelines must incorporate specific professional development activities designed to enhance knowledge and skill in areas recommended by an evaluator.

(72 Del. Laws, c. 294, § 2; 74 Del. Laws, c. 13, § 15.)

§ 1273. Incompetency — A pattern of ineffective teaching.

A pattern of ineffective teaching shall be defined pursuant to § 1270 of this title, provided that the local school district has complied with § 1272(a) of this title. Notwithstanding any case law to the contrary, when a pattern of ineffective teaching is established, a local school district may move to terminate a teacher (as defined by § 1401 of this title) for incompetency pursuant to § 1411 or § 1420 of this title. Nothing herein shall be construed to limit a local school district’s ability to terminate a teacher for incompetency under § 1411 or § 1420 of this title where supported by factors other than a pattern of ineffective teaching, and nothing herein shall be construed to require additional factors beyond a pattern of ineffective teaching to constitute incompetency for purposes of termination.

(72 Del. Laws, c. 294, § 2.)

§ 1274. Disclosure.

If an educator licensed under this chapter is seeking an educator position in this State, the educator shall disclose the results of that educator’s most recent 3 DPAS II evaluations or alternative evaluations permitted under § 1270(f) of this title, if applicable, to a prospective employing district. Upon the request of the prospective employing district, a present or previous employing district of the educator shall confirm the results of the educator’s previous DPAS II evaluations. No action in law or equity may be brought or maintained against a local school district or an employee thereof for action taken in compliance with this section.

(72 Del. Laws, c. 294, § 2; 70 Del. Laws, c. 186, § 1; 78 Del. Laws, c. 53, § 47.)

(a) Consistent with § 122 of this title, no individual, public or private educational association, corporation, or institution, including any institution of post-secondary education, may offer an educator preparation program for the training of educators to be licensed in this State without first having procured the assent of the Department for the offering of educator preparation programs. A program approval process based on standards adopted under this section must be established for educator preparation program approval, phased in according to timelines determined by the Department, and fully implemented for educator preparation programs in the State. Each program must be approved by the Department based upon significant, objective, and quantifiable performance measures.

At a minimum, the data must measure performance and effectiveness of program graduates by student achievement. The effectiveness of each graduate must be reported for a period of 5 years following graduation for each graduate who is employed as an educator in the State. Data must be reported on an annual basis. The Department shall make the data available to the public.

(f) (1) The Department shall promulgate rules and regulations governing educator preparation programs under this subchapter in

This amount is intended to be the equivalent of 70 percent of a recommended average total competitive starting salary. All other salary amounts shall be determined by multiplying the base salary amount by the index value that corresponds with the appropriate training and experience cell, and then rounding to the nearest whole dollar.

c) The index values assigned in subsection (a) of this section are intended to be constant. Future modification to this index should be linked to specifically stated policy goals.

d) All persons who are employed for more than 10 months per year and are paid in accordance with subsections (a) and (b) of this section shall receive one tenth of the amount computed in subsection (b) of this section in salary for each additional month of employment each year.

e) Beginning in Fiscal Year 2011 and each succeeding fiscal year, salary derived from subsections (a) and (b) of this section for 10 months’ employment shall mean a total of 188 full work days to be utilized as follows:

1. 180 days or equivalent hours devoted to actual school sessions for pupils;
2. 2 days devoted to start-up/closing; and
3. 6 days devoted solely to professional development.

   (2) 2 days devoted to start-up/closing;
   (3) 5 days devoted solely to professional development.

(g) Beginning in fiscal year 2002 and each succeeding fiscal year, salary derived from subsections (a) and (b) of this section for 10 months’ employment shall mean a total of 188 full workdays to be utilized as follows:

(i) A full workday shall be defined by the Department of Education with the approval of the State Board of Education.

(j) Beginning in fiscal year 2001, local school districts shall provide a local salary supplement for each full workday in excess of 185 workdays. To the extent that a local school district is unable to provide a local salary supplement, it may make application under subsection (h) of this section.

(k) In addition to the base salary derived from subsections (a) and (b) of this section, an employee paid in accordance with this section is eligible to earn additional salary supplements for gaining skills and knowledge that lead to more effective instruction. The Professional Standards Board, with approval of the State Board of Education, shall designate through regulation the specific professional development activities and specific areas of skills and knowledge that an employee can undertake and/or obtain in order to receive a skills and knowledge salary supplement. The supplement must be in the form of an additional salary amount spread evenly across an employee’s contract period similar to base salary or be paid as a single payment. The Professional Standards Board, with approval of the State Board of Education, shall designate the specific percentage for each specific skills and knowledge supplement through regulations promulgated to implement the provisions of this section. The percentage must be uniform across the State. Also, the Professional Standards Board shall, with approval of the State Board of Education, designate which of the supplements, if any, shall be permanent and which of the supplements, if any, shall require renewal or requalification on a periodic basis. The provisions of this subsection shall become effective in fiscal year 2001. The supplements described in this subsection are subject to an annual appropriation. The Department of Education shall provide for funding the supplement provisions of this subsection in its annual budget.

(l) In addition to the base salary derived from subsections (a) and (b) of this section, an employee who has achieved certification from the National Board for Professional Teaching Standards or from an equivalent program approved by the State Board shall receive a salary supplement equal to 12% of the base salary so derived. Funding for National Board certification described in this subsection is subject to an annual appropriation. The Department of Education shall provide for funding the supplement provisions of this subsection in its annual budget.

(m) An employee paid in accordance with this section may earn multiple salary supplements pursuant to subsections (I) and (m) of this section. The supplements must be computed as a percentage of the base salary derived from subsections (a) and (b) of this section; the percentages may not to be computed on a salary that includes a previously earned supplement amount.

(n) In addition to the base salary derived from subsections (a) and (b) of this section and any supplements provided pursuant to subsections (I) and (m) of this section, an employee paid in accordance with this section is eligible to earn additional salary supplements for accepting additional responsibility assignments that impact student achievement. The Professional Standards Board has the authority to review and make recommendations regarding additional responsibility supplements for administrators. The Professional Standards Board, with the approval of the State Board of Education, shall designate through regulation the specific assignments that an employee may accept in order to receive a state-funded salary supplement. The supplement must be in the form of an additional salary amount spread evenly across an employee’s contract period similar to base salary or be paid as a single payment. The supplement must be no less than $750 and no more than $1,500. In addition to the state-specified assignments designated by the Professional Standards Board and State Board pursuant to Chapter 12 of this title, a local school district, with the approval of the Standards Board and the State Board, and through
regulatory action of the local board, may designate specific academic assignments that an employee may accept in order to receive a state-funded salary supplement. An assignment designated pursuant to this subsection must be academic in nature and may not include extracurricular activities or noninstructional supervisory responsibilities. The provisions of this subsection become effective in fiscal year 2001, except that the Professional Standards Board, subject to state board approval, may, pursuant to § 1203 of this title, authorize stipends for educator lead mentors in fiscal year 2000. The state-funded salary supplements described in this subsection are subject to an annual appropriation. The Department of Education shall provide for funding the supplement provisions of this subsection in its annual budget.

Salary supplements defined in this act must not exceed 15% of the State share for an employee covered by the provisions of this act. The Standards Board shall annually review these supplements and promulgate and adopt recommendations pursuant to § 1203 of this title as necessary.

(c) One twelfth of the salary rate set forth under subsection (a) of this section shall be deducted for each month that the employee is not employed.

§ 1312. Experience.

(a) In the case of a teacher, principal or superintendent, or other administrative employee, the term “years of experience” in determining salary in accordance with § 1305 of this title means years of service in any public school or regularly organized private school. Ninety-one days in any school year shall constitute 1 year of experience, but not more than 1 year of experience may be credited for any 1 calendar year. Years of service in the armed forces shall also be counted as years of experience in accordance with the rules and regulations adopted by the Department of Education in this respect. A graduate of a 5-year preservice program that includes an extensive clinical component in the fifth year, or a graduate of a 4-year preservice program who graduates with a grade point average (GPA) of 3.75 or higher on a 4.0 scale, or the equivalent, must be granted 1 year of experience in addition to any other experience granted in accordance with this section.

(b) In the case of a person employed as a teacher of trades and industries, or as a coordinator of distributive education, work experience shall be allowed on a year for year basis for full-time work experience in the trade of the teaching subject for those years of work experience beyond years counted toward qualification for certification under rules and regulations of the Department of Education. One hundred and thirty-one working days in any school year shall constitute 1 year of work experience but not more than 1 year of experience may be credited for any 1 calendar year.

(c) In the case of a Department of Education employee who is required to meet certification requirements as specified in the Manual for the Certification of Professional Public School Personnel but is employed in the non-instructional areas of transportation, finance/business management, human resources/personnel management, purchasing, community/public relations, administrative services, pupil services, audiology, occupational therapist, physical therapist, psychologist, speech/language pathologist, human relations, nurse, social work/services, information technology or a specialized assignment comparable to these areas, work experience shall be allowed on a year for year basis for full-time work experience in a directly related position in public or private business in accordance with rules established by the Department of Education. Nothing in this section shall be construed as changing or modifying the certification requirements relating to these noninstructional positions.

(d) In the case of personnel whose salaries are based wholly or in part upon §§ 1306, 1307, 1308, 1309, 1310, 1311, 1321, 1322, 1324, and 1336 of this title, experience shall be evaluated by the Department of Education, taking into consideration the number of months and the nature of the services rendered.

(e) Beginning with the fiscal year ending June 30, 1998, experience for all public education employees shall be credited according to the provisions of subsections (a) through (d) of this section. No employee shall be entitled to retroactive payment of salary as a result of any changes in experience resulting from the provisions of subsections (a) through (d) of this section.

§ 1313. Employment requirements.

A person may not be employed by a public school employer in any position requiring licensure and certification if the person does not meet licensure and certification requirements established under Chapter 12 of this title, except pursuant to a license extension and/or emergency certificate issued pursuant to Chapter 12. A person’s salary may not be reduced because that person is employed under a license extension and/or emergency certificate.

§ 1314. Limitation on salary decreases.

The salary paid from state funds to any person covered by this chapter shall not be reduced by reason of the application of any salary schedule contained in this chapter, except in the case of a change to a lower classification.

§ 1315. Rules and regulations.

The Department of Education may make such rules and regulations as it deems appropriate to make the application of the salary schedules contained in this chapter uniform throughout the State.
§ 1316. Determination of number of employees and months of employment.

The Department of Education shall determine the number and months of employment in a school year of the personnel employed in each district whose salaries may be paid out of state funds under any salary schedule contained in this chapter, except teachers whose salaries are paid for 10 months per year and except such numbers and months of employment of personnel otherwise specified by law.

§ 1317. Method of salary payments.

Ten-month employees in public and higher education shall have the option of being paid bi-weekly payments during the contract or annual period, provided that such employees shall indicate their preference at the time of signing their contract for the ensuing school year and that the method of salary payment so designated shall not be changed during the period of the aforementioned contract.

§ 1318. Sick leave and absences for other reasons; accumulation of annual leave.

(a) Teachers and other school employees shall be allowed 10 days of sick leave per year with full pay; those teachers and other school employees employed 11 months a year shall be allowed 11 days of sick leave per year with full pay; and those teachers and other school employees employed 12 months a year shall be allowed 12 days of sick leave per year with full pay. Any unused days of such leave shall be accumulated to the employee’s credit without limit.

(b) In the case of a death in the immediate family of the employee, there shall be no reduction of salary of said employee for an absence not to exceed 5 working days. Members of the immediate family shall be defined as the employee’s spouse or domestic partner; parent, stepparent or child of the employee, spouse or domestic partner; employee’s grandparent or grandchild; employee’s sibling; spouse of employee’s child; any relative who resides in the same household; or any minor child for whom the employee has assumed and carried out parental responsibilities. This absence shall be in addition to other leaves granted the employee.

(c) In the case of a serious illness of a member of the employee’s immediate family, as defined in subsection (b) of this section that requires the employee’s personal attention, an employee may use accrued sick leave. An employee needing sick leave under the provisions of this title shall inform that employee’s own immediate supervisor of the fact and reason in advance, when possible, or otherwise before the expiration of the first hour of absence or as soon thereafter as practicable; failure to do so may be cause for denial of pay for the period of absence. Before approving pay for sick leave, the supervisor may at that supervisor’s discretion require either a doctor’s certificate or a written statement signed by the employee setting forth the reason for the absence. In the case of an absence of more than 5 consecutive days, a doctor’s certificate is required as a condition of approval.

(d) In case of the death of a near relative, there shall be no deduction in the salary of the employee for absence on the day of the funeral. A near relative shall be defined as: first cousin, aunt, uncle, niece, nephew, brother-in-law, sister-in-law, grandparent-in-law, or any other friend living in the employee’s household.

(e) In the case of the observance of recognized religious holidays, an employee may be absent without loss of pay on no more than 3 calendar days per year. The days so lost are to be counted in the sick leave of the employee.

(f) An employee may be absent without loss of pay no more than 3 days per fiscal year for personal reasons of the employee. Such absences shall be included in the sick leave of the employee. Such absences must be approved by the chief school officers.

(g) An employee retired subsequent to June 1, 1969, after serving in covered employment under Chapter 55 of Title 29, shall, on retirement, be paid for each unused sick leave day, not to exceed 90 days. The total amount paid shall be based upon that portion of the salary computed in accordance with state schedules, regardless of the source of funding, and shall be based upon 50% of the per diem rate of pay in effect at the time of retirement. Effective July 1, 1986, in the event of the death of a teacher or other school employee, payment shall be made to that teacher’s or other school employee’s estate at the rate of 1 day’s pay for each day of unused sick leave not to exceed 90 days. Effective July 1, 1991, for school employees of the Department of Education and school district boards of education the per diem rate shall be 1/185 in the fiscal year beginning July 1, 1999; 1/187 in the fiscal year beginning July 1, 2000; 1/188 for the fiscal year beginning July 1, 2001; and each succeeding fiscal year, of the annual salary based on state salary schedule for those employed 10 months; for those employed 11 months the per diem rate shall be 1/204 in the fiscal year beginning July 1, 1999; 1/206 in the fiscal year beginning July 1, 2000; 1/207 for the fiscal year beginning July 1, 2001; and each succeeding fiscal year, of the annual salary based on state salary schedule; and for those employed 12 months, the per diem rate shall be 1/222 of the annual salary based on state salary schedule. The local employing agency shall certify the number of days to which the employee shall be entitled. This section also applies to retired Delaware State Police who return to state service as a teacher or other school employee, and who otherwise meet the eligibility requirements for retirement under the Delaware State Employees’ Pension Plan to the extent such person did not utilize the 75-day maximum following retirement from the Delaware State Police.

(h) The maximum amount of annual leave which any employee shall be permitted to accumulate shall be 42 days. At the end of each fiscal year, the accumulated annual leave of each employee shall equal not more than 42 days. Where, prior to the end of a fiscal year, an employee has accumulated more than 42 days of annual leave, such annual leave shall be adjusted to 42 days at the end of such fiscal year.
§ 1318A. Donated leave program [Effective until fulfillment of the contingency in 81 Del. Laws, c. 187, § 3]

(a) “Donated leave program” means a program:

(1) In which 1 or more employees of a public school district may transfer accrued, unused sick leave days to 1 or more other employees of the same public school district;

(2) Is established by the public school district as a local Board of Education policy and/or pursuant to the terms of a collective bargaining agreement negotiated under the terms of Chapter 40 of Title 14; and

(3) Is consistent with the provisions set forth in subsection (b) of this section. No donated leave program shall prohibit participation by employees based on inclusion in or exclusion from a certified bargaining unit.

(b) Any donated leave shall be required to comply with the following requirements:

(1) Employees wishing to donate accrued sick leave must donate in increments of whole days. For every 2 days donated, 1 day will be made available to a recipient.

(2) Donated days shall be made available only for recipients within the school district for a catastrophic illness of a recipient or of a member of a recipient’s family. For this section, “catastrophic illness” shall mean any illness or injury to an employee or to a member of an employee’s family which is diagnosed by a physician and certified by the physician as rendering the employee or a member of the employee’s family unable to work, or, in the case of a family member who does not work, the medical equivalent of “unable to work”, to work for a period greater than 5 calendar weeks. Separate periods of disability lasting 7 consecutive work days or more each, and totaling more than 5 calendar weeks, resulting from the same or a related medical condition and occurring within any 12-month consecutive period, shall be considered the same period of disability. For this section, “family member” or “member of an employee’s family” means an employee’s spouse, son, daughter or parent who resides with the employee and who requires the personal attendance of the employee during the family member’s catastrophic illness. Donated leave may be used by the recipient for subsequent absence because of personal medical treatments or personal illness directly related to the employee’s “catastrophic illness” as certified by the physician. This provision is limited to an absence that occurs because of an employee’s “catastrophic illness” not a family member’s “catastrophic illness.”

(3) The local school district shall convert the donated leave available for use by a recipient into cash value at the donor’s rate of pay, shall re-convert the cash value to hours of leave at the recipient’s rate of pay, and shall then credit the recipient’s account.

(4) The recipient of the donated leave shall have been an employee with the local school district for at least 6 months before that employee is eligible for donated leave time.

(5) The recipient shall have used all of that recipient’s own sick days and personal days and half of that recipient’s annual leave, where applicable. However, when donated leave is for the catastrophic illness of a family member, the employee must have used all of that employee’s sick days, personal days and annual leave.

(6) The recipient shall have established medical justification for such receipt, which must be renewed every 30 days during any absence.

(7) No potential donor nor any other person shall sell any accrued leave which might otherwise be donated under this section.

(8) The liability of the State under this program shall be limited to paying the state share of salary, benefits and other employment benefits at that employee’s cost during said leave of absence.

Any absence not covered in subsection (a), (b), (c), (d), (e), (f) or (g) of this section shall be considered unexcused.

A duly elected president of the Delaware State Education Association, as defined in Chapter 40 of this title, who requests a leave of absence without pay from a school board shall be granted a leave of absence by said school board for service for the duration of the elected term. Said employee shall be eligible to purchase health insurance for himself or herself and eligible dependents and other state benefits at that employee’s cost during said leave of absence. Other duly elected officers of the Delaware State Education Association shall be granted 45 release days by the employing board to represent the Association for education-related business. The Association shall be responsible for the costs of substitute teachers when utilized to provide coverage for the elected officer. In addition, when the Association determines the need and makes a request for the hiring of a teaching partner, the duly elected officer shall be granted no less than 60 or more than 100 release days by the employing school board to represent the Association for education-related business. The teaching partner shall be granted 45 release days by the employing board to represent the Association for education-related business. The teaching partner will be hired on a full-time and annual basis to ensure continuity of instruction during periods of time when the Association officer is engaging in education-related business as a representative of the Association. Release time granted pursuant to this section shall be in addition to other leaves granted the employee by this section. The Association shall be responsible for the cost incurred related to the hiring of the teaching partner.

(i) Effective September 1, 1991, the per diem rates used to pay retiring employees for accrued annual leave shall be identical to the per diem rates for sick leave contained in subsection (g) of this section.

(j) Any absence not covered in subsection (a), (b), (c), (d), (e), (f) or (g) of this section shall be considered unexcused.

(k) A duly elected president of the Delaware State Education Association, as defined in Chapter 40 of this title, who requests a leave of absence without pay from a school board shall be granted a leave of absence by said school board for service for the duration of the elected term. Said employee shall be eligible to purchase health insurance for himself or herself and eligible dependents and other state benefits at that employee’s cost during said leave of absence. Other duly elected officers of the Delaware State Education Association shall be granted 45 release days by the employing board to represent the Association for education-related business. The Association shall be responsible for the costs of substitute teachers when utilized to provide coverage for the elected officer. In addition, when the Association determines the need and makes a request for the hiring of a teaching partner, the duly elected officer shall be granted no less than 60 or more than 100 release days by the employing school board to represent the Association for education-related business. The teaching partner will be hired on a full-time and annual basis to ensure continuity of instruction during periods of time when the Association officer is engaging in education-related business as a representative of the Association. Release time granted pursuant to this section shall be in addition to other leaves granted the employee by this section. The Association shall be responsible for the cost incurred related to the hiring of the teaching partner.

For this section, “catastrophic illness” shall mean

(10) If a long-term disability program is available to employees, a period of disability defined herein shall be limited to the waiting or elimination period defined in the policy.

c) The Department of Education is authorized to operate a donated leave program. Such donated leave program shall conform, to the extent practicable, to the provisions of § 5956 of Title 29.

(3) Is consistent with the provisions set forth in subsection (b) of this section. No donated leave program shall prohibit participation by employees based on inclusion in or exclusion from a certified bargaining unit.

(b) Any donated leave shall be required to comply with the following requirements:

(1) Employees wishing to donate accrued sick leave must donate in increments of whole days. For every 2 days donated, 1 day will be made available to a recipient.

(2) Donated days shall be made available only for recipients within the school district for use in connection with either of the following:

a. A catastrophic illness of a recipient or of a member of a recipient’s family. — For this section, “catastrophic illness” shall mean any illness or injury to an employee or to a member of an employee’s family which is diagnosed by a physician and certified by the physician as rendering the employee or a member of the employee’s family unable to work, or, in the case of a family member who does not work, the medical equivalent of “unable to work,” to work for a period greater than 5 calendar weeks. Separate periods of disability lasting 7 consecutive work days or more each, and totaling more than 5 calendar weeks, resulting from the same or a related medical condition and occurring within any 12-month consecutive period, shall be considered the same period of disability. For this section, “family member” or “member of an employee’s family” means an employee’s spouse, son, daughter or parent who resides with the employee and who requires the personal attendance of the employee during the family member’s catastrophic illness. Donated leave may be used by the recipient for subsequent absence because of personal medical treatments or personal illness directly related to the employee’s “catastrophic illness” as certified by the physician. This provision is limited to an absence that occurs because of an employee’s “catastrophic illness” not a family member’s “catastrophic illness.”

Such eligibility shall expire at the end of the 6-month period beginning on the date of such birth or adoption. Subject to the 12-week maximum, donated leave may be used by the recipient for subsequent absence for a period of 1 year following the birth or adoption for maternal or pediatric medical care requiring hospitalization or extended care at home.

(3) The local school district shall convert the donated leave available for use by a recipient into cash value at the donor’s rate of pay, shall re-convert the cash value to hours of leave at the recipient’s rate of pay, and shall then credit the recipient’s account.

(4) The recipient of the donated leave shall have been an employee with the local school district for at least 6 months before that employee is eligible for donated leave time.

(5) The recipient of donated leave in connection with parental leave or the recipient’s own catastrophic illness shall have used all of that recipient’s own sick days and personal days and half of that recipient’s annual leave, where applicable. For those employees not eligible for annual leave the recipient shall have used all of that recipient’s personal days and all but 3 sick days. A recipient of donated leave for the catastrophic illness of a family member must have used all of that employee’s sick days, personal days and annual leave.

(9) Any recipient of this program is subject to a 1-work-year cap with the number of days equal to 188 days for a 10-month employee;
207 days for 11-month employees; and 222 days for a 12-month employee.

(10) If a long-term disability program is available to employees, a period of disability defined herein shall be limited to the waiting or elimination period defined in the policy.

c) The Department of Education is authorized to operate a donated leave program. Such donated leave program shall conform, to the extent practicable, to the provisions of § 5956 of Title 29.

d) The leave described in this section is intended to run concurrently with any leave available under the Family Medical Leave Act, 29 U.S.C. § 2601 et seq.

§ 1325. Sabbatical leave.

Sabbatical leave may be granted to any properly certified professional employee under the following conditions and provisions:

1. After 7 years of service as a fully certified professional employee defined as a teacher, nurse, supervisor, director, principal, superintendent, coordinator, psychologist and any other professional position in public education in this State, provided that at least 5 consecutive years of such service shall have been in the employ of the school board from which leave of absence is sought, unless such board in its discretion shall allow a shorter period of time;

2. For purposes of professional improvement or for the recovery of health after prolonged illness;

3. The period of leave shall not be shorter than 1/2 school term or longer than 1 full school term;

4. While on leave the employee shall not be allowed to engage in full-time gainful employment, except by written agreement with the leave-granting board. However, this provision shall not preclude the employee from receiving grants such as scholarships, gifts, fellowships, part-time employment, or other grants of aid as frequently provided by colleges, universities, governmental agencies, corporations, trusts or other individuals to students or other persons engaged in study or travel for purposes of professional improvement;

5. The professional employee shall agree in writing to return to service to the leave-granting board for a period of at least 1 full school year following the completion of the employee’s leave;

6. Request for sabbatical leave shall be presented in writing to said leave-granting board at a regular meeting of such board before April 1 for leave to begin at the opening of the next term, and before November 1 for leave to begin at the opening of the second semester of the term;

7. At the end of any such period of leave of absence the employee shall present evidence of that employee’s own professional improvement in such terms as shall have been agreed upon between said employee and said leave-granting board at the time when such leave was granted. Such evidence may consist of college transcripts, degrees earned or written reports by the recipient of the leave of absence;

8. Said leave-granting board shall accept the employee into full-time employment upon that employee’s return from leave and assign the employee to the position from which that employee left or to a similar position. In no case may assignment be made so as to invalidate the employee’s certification status or to bring about a demotion in position or salary;

9. For purposes of salary increments and pension eligibility and computation, a year of leave shall be considered a year of experience in covered employment under the provisions of local or state salary and pension programs, except that not more than 2 years of leave shall be applied toward salary increments and pension credits to any person. Failure of an employee to return to service of said leave-granting board shall cause for forfeiture of salary increments and pension credits for the period of the leave;

11. The leave-granting district shall provide to the employee granted leave, under paragraphs (1)-(10) of this section, compensation equal to 1/2 the salary to which the employee would have been entitled under full-time employment; provided, however, that in no case shall the compensation paid exceed $10,000 for a full school year leave or $5,000 for a 1/2 school year. 12. Sabbatical leave authorized under this section, at state expense, shall be limited to 1 full year leave or 2 half-year leaves per local school district during a fiscal year. PROCEDURES FOR THE TERMINATION OF SERVICES OF PROFESSIONAL EMPLOYEES

Subchapter I
General Provisions

§ 1401. Definitions.
As used in this chapter:
  (1) “Board” means a board of education of a reorganized school district.
  (2) “Teacher” means any certificated professional employee of a public school district. It shall not include a person employed as assistant principal, principal, supervisor, administrative assistant, director, assistant superintendent or superintendent; except that any such person who has completed 3 years of service in the State, 2 years of which shall have been in the employ of the same board, may at that person’s own option elect to be assigned as a teacher in the employ of said board.

§ 1402. Formal communications.
All formal communications between the teacher and the terminating board provided for in this chapter shall be by certified mail, with a return receipt requested.

§ 1403. Application of chapter.
(a) Except as set forth in subsection (b) of this section, the provisions set forth in §§ 1411, 1412, 1413 and 1414 of this title, covering reasons for termination, notice of termination, hearings before a board and judicial review, shall apply to all teachers:
  (1) Who began teaching in a Delaware public school prior to the end of the 2009/2010 school year and have completed 3 years of service in the State, 2 years of which shall be in the employ of the terminating board; or
  (2) Who began teaching in a Delaware public school after the conclusion of the 2009/2010 school year and has completed at least 3 years of service in the State, at least 2 of which are in the employ of the terminating board, provided that said teacher has received at least 2 years of “Satisfactory” ratings in the “Student Improvement” component of the teacher appraisal process (established pursuant to § 1270 of this title) within a 3-year period. The 2 “Satisfactory” ratings need not be consecutive and the requirement for “Satisfactory” ratings need only be satisfied once in order for the provisions of §§ 1411 through 1414 of this title to apply.
(b) The provisions set forth in §§ 1411, 1412, 1413 and 1414 of this title shall not apply to teachers employed temporarily to replace professional personnel on leave of absence or to teachers holding temporary certificates.
  (c) Time spent in military service shall not be counted as years of service for purposes of this chapter.

Subchapter II
Termination of Services at the End of the School Year

§ 1410. Notice of intention to terminate services.
(a) In the event that any board desires to dispense with the services of any teacher, such board shall give notice in writing to such teacher on or before May 15 of any year of its intention to terminate said teacher’s services at the end of such school year. For teachers identified pursuant to § 1403(a)(1) or (2) of this title, such written notice shall state the reasons for such intended termination of services and shall be accompanied by a copy of this chapter; provided, however, that this requirement shall not apply to those teachers employed temporarily to replace professional personnel on leave of absence or those holding temporary certificates.
(b) Teachers other than those identified pursuant to § 1403(a)(1) or (2) of this title may, within 7 days of receiving notice of intention to terminate services, request in writing, the reason or reasons for such notice. The board will provide such reason or reasons in writing and a copy of this chapter no later than 5 days after receipt of such a request, provided that the stated reason or reasons must have either been
§ 1411. Reasons for termination.

Termination at the end of the school year shall be for 1 or more of the following reasons: Immorality, misconduct in office, incompetency, disloyalty, neglect of duty, willful and persistent insubordination, a reduction in the number of teachers required as a result of decreased enrollment or a decrease in education services. The board shall have power to suspend any teacher pending a hearing if the situation warrants such action.

(14 Del. C. 1953, § 1411; 50 Del. Laws, c. 39, § 1.)

§ 1412. Notice of termination.

In the event that a teacher fails to request a hearing, as herein provided, the aforesaid notice of intent to terminate services shall be construed as a notice of termination.

(14 Del. C. 1953, § 1412; 50 Del. Laws, c. 39, § 1.)

§ 1413. Hearing by terminating board.

(a) In the event that a teacher so notified shall within 10 days after the receipt of written notice of intention to terminate services request in writing an opportunity to be heard by the terminating board, the board shall set a time for such hearing to be held within 21 days after the date of receipt of said written request, and the board shall give the teacher at least 15 days’ notice in writing of the time and place of such hearing. The hearing shall be conducted by a majority of the members of the board and shall be confined to the aforementioned written reasons as stated in the board’s written notice of the board’s intention to terminate the teacher’s services. The conduct of such hearings and such rules of procedure as may be found necessary shall be left entirely to the discretion of the board provided that:

1. The teacher shall have the option to indicate whether or not that teacher wishes the hearing to be public, by so stating in that teacher’s own written request for a hearing; otherwise the hearing shall be private;
2. The teacher may be represented by counsel;
3. The teacher and the board may subpoena witnesses. Subpoenas shall be issued by the secretary of the board upon written request, and such subpoenas shall be directed to the sheriff of the county where the witness resides or is employed within the State, and, upon service of such subpoena, the witness shall be compelled to appear subject to the same penalties for failure to appear that govern subpoena proceedings before the Superior Court of the State;
4. The teacher and the board and counsel for each may cross-examine witnesses;
5. Testimony before the board shall be under oath;
6. The testimony to be heard shall be confined to the reasons stated in the written notice of intent to terminate service. Any evidence shall be admissible during the hearing which is adjudged by the board to be pertinent to the reasons contained in the written notice which the teacher received and which stated the reasons for dismissal;
7. A stenographic record of the hearing shall be taken and prepared by a qualified court stenographer and paid for by the board, and shall be supplied to the teacher and the board within 10 days following the conclusion of the hearing;
8. The decision of the board shall be submitted in writing to the teacher within 15 days following the conclusion of the hearing;
9. If the decision is in favor of the teacher, the teacher shall be fully reinstated and shall receive all salary lost as a result of that teacher’s temporary dismissal or suspension.
(b) Any provision of this chapter to the contrary notwithstanding, the board may designate a hearing officer to conduct the hearing prescribed by subsection (a) of this section under rules and regulations promulgated by the board. The hearing officer shall submit a report with a recommendation to the board, within 5 days of the conclusion of the hearing, which shall become part of the record. A majority of the board shall convene to review the records of the proceedings and, within 15 days of the hearing before the hearing officer, shall submit to the employee its decision in writing.

(14 Del. C. 1953, § 1413; 50 Del. Laws, c. 39, § 1; 64 Del. Laws, c. 250, § 1; 70 Del. Laws, c. 186, § 1.)

§ 1414. Judicial review.

A decision of the board shall be final and conclusive unless, within 10 days after a copy thereof has been received by the teacher, the teacher appeals to the Superior Court for the county in which the teacher was employed. In case of every such appeal, the cause shall be determined by the Court from the record which shall include a certified copy of the evidence, findings and the decision of the board, without the aid of a jury. The notice of appeal and all other matters regulating the appeal shall be in the form and according to the
procedure as shall be provided by the Rules of the Superior Court. The Court shall decide all relevant questions of law and all other matters involved, and shall sustain any board action, findings and conclusions supported by substantial evidence. The Court may reverse, affirm or modify the decision of the board or remand the cause to the board for a rehearing. In case any cause shall be remanded to the board for a rehearing, the procedure and the rights of all parties to such cause shall be the same as in the case of the original hearing before the board. If the decision is in favor of the teacher, the teacher shall be fully reinstated and shall receive all salary lost as a result of that teacher’s temporary dismissal or suspension.

Subchapter III
Termination of Services During the School Year

§ 1420. Reasons for termination; rights of teacher.

Termination of any teacher’s services during the school year shall be for 1 or more of the following reasons: Immorality, misconduct in office, incompetency, disloyalty, neglect of duty or wilful and persistent insubordination. Such teacher shall be given the same opportunity to be heard and right of appeal as provided in §§ 1412, 1413 and 1414 of this title, and the board shall give notice in writing to such teacher of its intention to terminate the services of such teacher at least 30 days prior to the effective date of termination. Such written notice shall state the reasons for such termination of services. The board shall have the power to suspend any teacher pending a hearing if the situation warrants such action.

Free Public Schools
Chapter 15
FISCAL PROVISIONS

§ 1501. Support of free public schools.

The free public schools of the State shall be maintained and supported by such moneys as shall be appropriated from time to time by the General Assembly, local school tax revenues generated and payments received in accordance with this title, payments received in accordance with Chapters 4, 5 and 6 of this title, and appropriated and nonappropriated special funds otherwise authorized or legally acquired. Funds appropriated or otherwise allocated to the Department of Education on behalf of the public schools of this State shall be administered by the Department in accordance with this title or other applicable state or federal laws and regulations.

§ 1502. Disbursements.

Such appropriations as are made by the General Assembly for the free public schools, and such money as is received from the federal government for school purposes under any law shall be paid by the State Treasurer in accordance with the items of the official state school budget and with the appropriations of the General Assembly therefor, as required by the Department of Education; but such payments shall be made only upon orders of the said Department of Education, signed by its Secretary or the Secretary’s designee. For all competitive grants to public school districts and public charter schools administered by the Department of Education, the Department shall publish on its website for a period of 12 months from the award notice the threshold eligibility requirements, the criteria for evaluation of applications, the names of successful applicants, the applications of successful applicants, and the amount awarded to each successful applicant.

§ 1503. Limitation on terms of contracts.

No contract for public school purposes that is predicated on the availability of state funds shall be made to extend beyond the fiscal year covered by the current appropriation of the General Assembly in effect at the time of the making of such contract, unless all of the funds required to satisfy the obligation are available for encumbrance, or a cancellation provision should funds not be subsequently appropriated is included in the original contract. This provision does not apply to contracts involving the expenditure of moneys raised by bond issues or advance purchase orders for instructional materials duly authorized by the Secretary of Finance.

§ 1504. Audit.

(a) The Auditor of Accounts shall each year as soon as possible after July 1 audit the business and financial transactions, records, and accounts of the Department of Education, the State Board of Education, the Delaware Center for Education Technology, the Delaware Advisory Council for Career and Vocational Education, the boards of education of the school districts, and, if required by § 513(d) of this title, the charter schools created under Chapter 5 of this title.

(b) The Auditor of Accounts shall publish the results of such audit and shall also mention the name of any person who has made within the last year a gift to said funds, with the amount or value thereof.

(c) In order to ensure that authorized position complements are not exceeded, the Auditor of Accounts is directed to incorporate an examination of the number of authorized positions versus the number of actual positions a district has employed as part of the regular, annual audit review for all public school district audits that commence on or after July 1, 1991. This position audit function shall include, in addition to formula salary positions, an examination of positions and associated “option units” authorized by the Secretary of Education under any appropriation.

(d) Any discrepancy found by the Auditor of Accounts which has resulted in a local school district expending more general funds than it was entitled to during the fiscal year being audited shall be promptly reported to the Director of the Office of Management and Budget, the Controller General and the Secretary of Education. Upon review and determination as to the status of the questioned expenditure, the Director of the Office of Management and Budget, Controller General and the local school district Board of Education shall develop and certify a written repayment plan.

(e) The local school district may choose to make the required General Fund reimbursement from its local current operating expense account or by agreeing not to utilize a current year General Fund appropriation for which it is otherwise eligible based on unit entitlements. Reimbursements required by this section shall be transacted during the fiscal year in which the over-expenditure is discovered unless the Director of the Office of Management and Budget and the Controller General agree that the timing of the discovery or the potential impact on the affected district is such that satisfying the obligation in part or in its entirety should be deferred until the next ensuing fiscal year.
§ 1505. Unauthorized expenditures.

The Auditor of Accounts may withhold approval of any voucher or bill or order for money of a school district whenever such district shall have failed to comply with this title in the expenditure of its moneys, until such district shall make good such failure.

§ 1506. Limitation on use of tax revenues.

No tax revenues of the State, or of any political subdivision thereof, or of any school district, shall be used for the free public education of pupils living in the State on real property exempt from taxes levied on real property. The limitations of this section shall not apply to pupils living on real property owned by the State or any of its political subdivisions, or by the federal government where such real property is used for nonmilitary housing, or where such real estate is exempt from such taxes on account of the use of such property for charitable, educational or religious purposes.

(14 Del. C. 1953, § 1508; 51 Del. Laws, c. 183; 71 Del. Laws, c. 180, § 89A.)

§ 1507. School district financial position reports.

(a) Beginning with the fiscal year ending June 30, 1997, all public school districts, including vocational-technical school districts, both sometimes referred to herein as “district,” are required to submit to the Secretary of Education, 3 financial position reports, 1 on or before February 1, 1 on or before May 1 and 1 on or before August 31 of each year. The format of the reports shall be as prescribed by the Secretary consistent with the provisions of this section, and also shall establish that the school district has sufficient year-end carryover balances, including any nonstate funded share, to fund at least 1 month of local payroll for the next ensuing fiscal year.

The financial position report due by February 1 shall project a school district’s current fiscal year ending balance in its local current expense revenue accounts after taking into consideration all remaining local operating obligations that can be reasonably estimated. To the extent that a district has General Fund balances in their Division III Equalization Accounts, Division II—All Other Costs and Energy Accounts, or in an approved cash option account, such balances may be identified as offsets to any local obligation. If the financial position report shows a deficit occurring prior to the close of the current fiscal year, the district shall indicate what steps it will take to assure that its obligations are satisfied in the current fiscal year. If the financial position report shows a current expense deficit for the current fiscal year, or a surplus that is less than the amount required to satisfy 1 month’s full local payroll and other operating obligations for the ensuing fiscal year, the district shall also indicate what steps it plans to take in the ensuing fiscal year to assure that its future year-end balance will be sufficient to cover at least this amount.

The financial position report due by May 1 shall project a school district’s current fiscal year ending balance in its local current expense revenue accounts after taking into consideration all remaining local operating obligations that can be reasonably estimated. To the extent that a district has General Fund balances in their Division III Equalization Accounts, Division II—All Other Costs and Energy Accounts, or in an approved cash option account, such balances may be identified as offsets to any local obligation. If the financial position report shows a deficit occurring prior to the close of the current fiscal year, the district shall indicate what steps it will take to assure that its obligations are satisfied in the current fiscal year. If the financial position report shows a current expense deficit for the current fiscal year, or a surplus that is less than the amount required to satisfy 1 month’s full local payroll and other operating obligations for the ensuing fiscal year, the district shall also indicate what steps it plans to take in the ensuing fiscal year to assure that its future year-end balance will be sufficient to cover at least this amount.

The financial position report due on or before August 31 of the ensuing fiscal year shall be focused exclusively on local district payroll obligations through and including the October 15 payroll cycle. This report shall compare the district’s year-end current expense balances from the previous fiscal year, and its preliminary Division III Equalization appropriation for the current year (which amount shall be based on 75% of the Division III amount earned in the previous fiscal year), with the district’s projected local salary obligations through October 15. To the extent that this report shows a deficit, the district shall report what steps it will take to meet its payroll obligations through October 15. If the August 31 report projects an October 15 surplus that is less than the amount required to cover 1 month’s full local payroll cycle, the district shall also indicate what steps it plans to take to attempt to assure that such a minimum balance will be in place in the subsequent fiscal year.

Whenever the August 31 report shows that a district will be unable to meet all or some of its payroll obligations through October 15, the district may meet those obligations by requesting from the Secretary of Education with the approval of the Secretary of Finance and the Director of the Office of Management and Budget an advance of state funds in an amount sufficient to cover the district’s payroll obligations through October 15. Upon such request and approval, the Secretary of Finance shall cause to have the requested funds advanced to the district, and the district shall reimburse the State for those funds no later than November 15 of the same year. In addition, the district shall pay an amount to the State for interest defined as the average rate of return on state investments during the period of the loan.
The financial position report shall have been reviewed and approved by the school board of each reorganized school district and be made a part of the public record of that school district. An electronic copy of each report shall be submitted to the Department of Education by the dates specified above. The Department of Education shall provide copies of the submitted reports to the Director of the Office of Management and Budget and the Controller General within 5 working days of all submissions.

(b) Notwithstanding any provision in this Code to the contrary, a minimum of 25% of all projected state funding to any school district, including a vocational-technical school district shall be withheld until the submission of the financial position report required to be filed on or before August 31 pursuant to the provisions of subsection (a) of this section, and the acceptance thereof as satisfactory in the sole discretion of the Secretary of Education, and the certification of the school district’s unit count in accordance with this Code and any rule or regulation promulgated in accordance therewith.

(c) If a school district materially alters its financial position after providing any report required by this section, the school district shall provide financial impact statements to the Department of Education, the Office of Management and Budget and the Office of the Controller General, specifying the nature of such change and its impact upon its previously filed financial position report.

(d) Any school district that fails to comply with this section or any provision herein shall be subject to review, including all of its books and financial records, by the Department of Education, the Office of Management and Budget and the Office of the Controller General in order to determine whether the school district is financially stable.

§ 1507A. Christina School District financial position reports.

§ 1508. Citizen oversight of district finances.

The Department of Education shall promulgate regulations by November 1, 2009, establishing procedures for appointment of citizen budget oversight committees for each of the public school districts and charter schools. These committees shall have full access either electronically or in hard-copy format to all financial documents and financial information in the possession of the school districts they are assigned to oversee, with redactions permitted only to protect confidential personal information regarding students or employees. Oversight committees shall have representation from parents, educators, and taxpayers residing in each of the public school districts, provided that in the case of charter schools membership on oversight committees shall consist of parents of students enrolled in the charter school, educators at the charter school, and representatives of the Delaware Department of Education. Where possible, oversight committees shall contain at least 2 members with formal educational or vocational backgrounds amenable to oversight of school district financial statements. The Department of Education shall provide training to committee members. The Department shall also promulgate regulations by November 1, 2009, dictating uniformity and transparency in the financial recording and bookkeeping practices of the school districts and charter schools.

(77 Del. Laws, c. 197, § 1.)

§ 1509. Transparency of district finances.

Each district and charter school shall post on its web site by September 1, 2009, and every 3 months thereafter a check register indicating the recipient of each check issued by the school district or charter school, the amount of the check, and identifying information regarding the check sufficient to permit members of the public to seek additional information regarding the payment in question. The only information excepted from inclusion in this database shall be records that would not constitute public records under § 10002 of Title 29, and records for which the disclosure would violate any federal or state law.

(77 Del. Laws, c. 197, § 1; 78 Del. Laws, c. 382, § 1.)

§ 1510. Department oversight of district spending [Repealed].

77 Del. Laws, c. 197, § 1; repealed by 82 Del. Laws, c. 242, § 356, effective July 1, 2020.

§ 1511. School funding transparency.

(a) By December 2018, the Department of Education will create a standardized statewide approach to collecting and reporting school-level per-pupil expenditures that all districts and charter schools must follow. At a minimum, the standardized statewide approach must do all of the following:

(1) Comply with Every Student Succeeds Act (ESSA) [P.L. 114-95] requirements by reporting federal funding separate from state and local funding.

(2) Create business rules that will identify which district and charter expenses are to be included and excluded in the per-pupil calculation.

a. At a minimum, expense categories required under ESSA should be included such as administration, instruction, attendance and health services, pupil transportation services, operation and maintenance of plant, fixed charges, and net expenditures to cover deficits for food services and student body activities.
b. At a minimum, expense categories that do not link directly to the day-to-day schooling of pre-K through twelfth-grade students should be excluded. Excluded expense categories include adult education, capital expenditures, community services, fees for student services, debt service, and rent.

c. Salary costs reported under this section must include benefits and other employment costs.

(3) Define the method of determining student enrollment counts used in the per-pupil calculation.

(4) Require that districts and charter schools report 100% of included district and charter expenses, as defined in paragraph (a)(2) of this section, in the following 2 school-level categories:

a. Category 1: Expenditures on resources actually tracked to the school.

b. Category 2: Each school’s share of central office expenditures (expenditures shared across multiple schools).

Each district and charter school must also report the grand total of Categories 1 and 2.

(5) Give clear guidance to districts and charter schools about how to assign district and charter expenses into Categories 1 and 2 for reporting purposes. The guidance must do at least all of the following:

a. Require that at least the expense categories required under ESSA are commonly defined across the State in how they get assigned to Category 1 or 2.

b. Require that districts and charter schools report whether they have assigned any expense categories that they have discretion over into Category 1 or 2.

c. Require that all expenditures for personnel who work in schools at least 80% of the time are reported in Category 1 using actual, not average, salary costs.

d. Require that central office expenditures be either divided across all schools according to student enrollment or be divided by time spent in each school.

e. Require that charter schools without central offices report 100% of included district and charter expenses, as defined in paragraph (a)(2) of this section, in Category 1, since all expenditures are made at the school site, so that reporting is comparable across districts and charter schools.

f. Require that any expense categories and amounts excluded from the calculation, as defined in paragraph (a)(2) of this section, are still reported.

g. Require that districts and charter schools commonly report the averages of teacher and paraprofessional salaries at the school-level.

h. 1. Require that districts and charter schools report expenditures with codes that identify each expenditure with the type of expenditure, such as personnel, materials and supplies, or contract services.

2. The codes under paragraph (a)(5)h.1. of this section must be developed as part of the process under subsection (c) of this section, with an intent to provide public transparency regarding how schools spend money.

(b) Annually, beginning with school year 2018-2019 data reported no later than December 2019, the Department of Education will publicly report school-level per-pupil expenditures, as defined in subsection (a) of this section, as follows:

(1) The annual data must be publicly reported in at least the following formats:

a. Online individual school report cards.

b. Downloadable statewide data files or interactive, user-friendly online statewide data tools that allow the user to draw comparisons between schools.

(2) At a minimum, the following information must be included with school-level per pupil expenditures:

a. The school level (elementary, middle or high school).

b. The grade levels served and student enrollment of each school.

c. The statewide school-level per-pupil expenditure averages, using the grand total of Categories 1 and 2 as defined in paragraph (a)(4) of this section.

d. The districtwide school-level per-pupil expenditure average, using districtwide averages for Category 1 spending as defined in paragraph (a)(4) of this section.

e. School-level student demographics including rates of English learners, students living in poverty, and special education students by need category.

f. School-level student outcomes, including proficiency in state assessments and graduation rates.

g. Average teacher salary at the school-level.

h. Average paraprofessional salary at the school-level.

(3) The following information may be included with school-level per-pupil expenditures:

a. The district and statewide averages of student demographics, as defined in paragraph (b)(2)e. of this section.

b. The district and statewide averages of student outcomes, as defined in paragraph (b)(2)f. of this section.

c. The district and statewide averages of teacher salaries and paraprofessional salaries, as defined in paragraphs (b)(2)g. and h. of this section.

d. Names of special programs in the school that drive resource allocation, such as districtwide special education programs.

(4) Individual school report cards must be posted on state, district, and charter websites.
(c) The Department of Education must include public community involvement in developing the standardized statewide approach as follows:

(1) Hold at least 3 public meetings to review and receive input on the standardized statewide approach before finalizing the approach for district and charter school use.

(2) Hold at least 3 public meetings to review and receive input on the templates for publically reporting data.

(3) Include representatives of at least the following constituencies:
   a. District leaders.
   b. Business managers.
   c. Charter leaders.
   d. Local school board members.
   e. Business community.
   f. Parents.
   g. Advocates with specific knowledge of low-income students, special education, or of English learners.
   h. Educators and the Delaware State Education Association.
   i. Governor’s Advisory Council for Exceptional Citizens.

(4) Report twice to the Chairs of the House and Senate Education Committees on how the requirements of subsection (c) of this section were met and how feedback was incorporated by the end of December 2018 and again before the release of the 2018-2019 data that will be reported no later than December 2019.

(d) Each year, after new school-level per-pupil expenditure data is released to the public, the Department of Education must offer at least 1 training session with the objective to increase understanding and use of the data in order to make data-driven decisions for students. The training, which is optional, must be offered to at least each of the following groups:

   (1) Each of the local school boards and citizen’s budget oversight committees.
   (2) School and central office leaders from districts and charters.
   (3) The general public and parents, which must be held at a time and place accessible to working parents and with translation services available.

(e) The Department of Education shall oversee the statewide collection of school-level financial data. To this end, when processing financial and personnel transactions in the statewide systems of record, local school districts and charter schools shall use a standard set of codes as established by the Department of Education.

It is the purpose of this chapter to provide for the establishment of a statewide comprehensive program to improve student discipline in the public elementary and secondary schools of the State. The program shall provide for the treatment of pupils who are exhibiting discipline problems and for the establishment of services to school pupils which will reduce the rate and severity of discipline problems in the future. The program shall operate under the supervision and direction of the Department of Education.
(69 Del. Laws, c. 464, § 1; 71 Del. Laws, c. 180, § 90.)

§ 1602. Appropriation.
The General Assembly shall annually provide an appropriation for the operation of the Comprehensive School Discipline Improvement Program in the budget appropriation bill. From the funds appropriated, the Department may allocate funds to the public school districts for the financial support of various components of the program.

This component will serve primarily secondary school students, including but not limited to: youngsters who have been expelled from regular schools, students who may be subject to expulsion, and others who have serious violations of the local school district discipline code. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

(1) School districts shall make application to the Department of Education for funding to implement programs authorized under this section. Preference shall be given to applications from consortia of school districts. To the extent feasible, programs offered under this component should serve eligible pupils within a county, however, multiple sites may be operated by a single consortia of school districts within a county.

(2) Any application submitted under this section shall specify the types and level of services to be provided and an estimate of the number of youngsters to be served. The application shall also include a budget of proposed expenditures during a fiscal year. That budget shall indicate, at a minimum, the funds being requested from appropriations authorized under this section and funds to be obtained from all other sources.

(3) All applications submitted to the Department of Education under this section shall indicate an agreement to fund at least 30 percent of the total cost of services provided from sources of funding other than those authorized under this section.

(4) All projects funded under this section shall submit an annual evaluation report on the effectiveness of the program to the Department of Education. Such report shall incorporate the data and information specified by the Department.

(5) School districts shall be permitted to use funds collected in accordance with the provisions of Chapter 6 of this title to make tuition payments for youngsters assigned to programs authorized under this section.

(8) A student 16 years of age or less who is expelled or suspended pending expulsion by a local school district or charter school shall be presumed appropriate for placement in a Consortium Discipline Alternative Program site, provided the student is not otherwise ineligible by statute or regulation for placement in such a program. The burden of establishing that a student is not appropriate for placement in a Consortium Discipline Alternative Program shall be on the local school district or charter school. Any student not shown by preponderance of evidence to be inappropriate for placement in a Consortium Discipline Alternative Program shall be placed in such a program.
(69 Del. Laws, c. 464, § 1; 71 Del. Laws, c. 180, § 91; 76 Del. Laws, c. 407, § 1.)

(1) The school district or consortium of school districts shall notify by mail the Secretary of Education and every property owner located within 200 feet of the site’s boundary lines that there is a plan to establish an alternative educational facility for children exhibiting discipline problems on the site. The notice must include the date, time and location of an informational meeting that will explain the details of the site, facility and program plans.

(2) The school district or consortium of school districts shall notify city council members and state legislators who represent residents of the school district in which the proposed site is located and the chief elected official of the county and town or city in which the proposed site is located of the time, date and location of the informational meeting. (3) Written comments shall be directed to the superintendent of the district in which the facility is to be located within 10 business days of the informational meeting.

   a. If there are objections to the proposed site by at least 5 citizens who reside within 200 feet of the site or by at least 25 citizens who reside within the school district in which the site is located, the local school board shall hold a special public meeting to consider the concerns of the community and the responses of the school district or consortium of school districts proposing the facility site.

   b. The local school board shall take action on the proposed site at its next regularly scheduled meeting after the informational meeting or special public meeting, whichever occurs last. The decision by the local school board is final and not subject to appeal.

(b) This section does not apply to a facility site that is located in a public school building or on the grounds of a public school building or on land owned by a reorganized school district, vocational-technical school district or charter school.

§ 1605. School and district level component.

The Department of Education shall be authorized to approve and provide financial support for programs to provide alternative educational and related services to disruptive students in the public schools. This component will serve students, in schools enrolling pupils in grades K through 12, who are causing repeated disruptions in the regular classes to which they are assigned. Services may be delivered in a variety of modes with students assigned to the specific programs for short- or long-term assistance. Programs authorized under this section could also serve as a transition for youngsters returning from programs operated under the provisions of § 1604 of this title. The Department of Education shall provide rules and regulations for the conduct of programs authorized under this section subject to the following limitations:

(1) School districts shall be permitted to use personnel authorized by any of the provisions of this title to establish alternative educational and related service programs for disruptive students. Such personnel shall continue to be paid in accordance with salary schedules specified in Chapter 13 of this title.

(2) In the event that a school district uses personnel authorized under various sections of this title to establish and operate a program for disruptive students, the district may elect to employ 2 service paraprofessionals or 2 instructional paraprofessionals, paid in accordance with § 1324 of this title, in lieu of 1 staff member paid in accordance with § 1305 of this title.

(3) Any school which either enrolls pupils in at least 2 of the grades 3 through 12 or enrolls pupils solely in 1 or more of grades K through 3, and which establishes a program for disruptive students in accordance with the provisions of this section and the rules and regulations of the Department of Education may make application to the Department for an incentive grant to help defray the cost of operating such program. No school may qualify for more than 1 incentive grant per fiscal year, and all applications for such grants must have the prior approval of the board of education of the school district in which the applicant school is located. The maximum dollar value of an incentive grant shall be specified in the annual budget appropriation bill. Funds available to the Department of Education shall be allocated on a competitive basis if in any fiscal year more schools are eligible for funding than there are funds appropriated for the incentive grants.

(4) Funds provided to a school under an incentive grant provided under paragraph (3) of this section may be used for any purpose that Division I or II funds may be used, provided, however, that such funds shall not be used to pay salaries to employees beyond the state-supported salaries specified in Chapter 13 of this title.

(5) To achieve the most cost-effective impact from the incentive funds authorized by this section and to increase the coordination of services by schools and other governmental and nongovernmental social service agencies consistent with § 1607 of this title, schools and school districts shall consider contracting for educational or related goods and services with the State Departments of Services for Children, Youth and Their Families and Health and Social Services, and other governmental and nongovernmental social service agencies using funds authorized by this section. Each school filing a report pursuant to paragraph (6) of this section shall include information regarding the provisions of this paragraph (5).

The Family Services Cabinet Council (Council), with the Department of Education and the Department of Services for Children, Youth and Their Families acting as lead agencies, shall administer a program to offer prevention-related student support services (prevention services) to students to prevent them from becoming discipline problems and from failing academically in our schools. Within the limits of appropriations made for this purpose, the Council shall provide rules and regulations for the award of prevention grants and the conduct of prevention programs authorized under this section, subject to the following limitations:

(1) The Council shall issue prevention funding to local school districts proposing to establish an integrated plan to deliver prevention services including, but not limited to, academic tutoring and student mentoring programs to provide at-risk students with the extra help they may need to succeed academically and with positive adult role models; outreach programs to promote parental, family and community involvement in students’ academic studies and in reducing and resolving school discipline problems; school-linked support services to help students with family or health problems that may be adversely affecting their academic performance and their conduct at school; training to help students and school personnel resolve conflicts peacefully and non-disruptively; and assistance to help teachers better manage the behavior of students in their classrooms.

(2) Applications for funding pursuant to this section shall be made by school districts in accordance with procedures and standards established by the Council. Each applicant shall set forth an integrated plan to provide prevention services consistent with paragraph (1) of this section. To avoid duplication of effort, maximize the impact of limited resources, and increase the effect of efforts by state, local, community and private, nonprofit agencies through increased coordination and cooperation, the Council shall give preference to applications which:

   a. Are submitted by 2 or more school districts working in concert, where appropriate;
   b. Include private, nonprofit agencies and community organizations as partners in the application, and identify the roles those agencies and organizations are to play in delivering prevention services in the community;
   c. Indicate how grants from the federal government and foundations will be used or sought to help deliver prevention services in the community; and

   d. Indicate how the school’s application meets the following criteria:

      1. Establish a school code of conduct which defines the roles and responsibilities of all members of the school community (administrators, teachers, support staff, contracted service personnel, students, families and child/family advocates) and which is consistent with the established state and federal laws, state and federal regulations, local board policies, local district codes of conduct and local district budgetary guidelines, unless relevant waivers have been granted.
      2. Hear concerns from a staff member dissatisfied with the disposition of any disciplinary matter by the school administration;
      3. Refer students to programs defined in § 1604 of this title; provided, however, that any child with disabilities be referred to such programs through the child’s Individualized Education Plan;
      4. Design, approve and oversee the implementation of programs established in the school as defined in this chapter;
      5. Establish and enforce the school’s attendance policy, including mandating attendance in programs established in paragraph (7)b.7. of this section;
      6. Establish extended day, week or year programs, for students with discipline or attendance problems, or at risk of academic failure, that provide for the assessment of penalties for violations of school discipline or attendance policies and for academic acceleration and tutoring, mentoring and counseling services for such students and their families as an integral program component;
      7. Establish staff development programs for conflict resolution for all school staff, and establish programs in classroom and behavioral management for schools staff identified as needing improvement;
      8. Design student mentoring, conflict resolution and/or peer counseling programs for all students, especially for those who are identified as having chronic discipline, academic or attendance problems.

d. Identify the roles state and local agencies are to play in delivering prevention services in the community.

(3) The Council shall provide technical assistance to districts preparing applications and ongoing assistance to districts awarded funding pursuant to this section.

(4) The Council shall establish a timetable for the award of grants pursuant to this section which shall provide, at minimum, for a period of 1 month for joint planning between the Council and the applicants that the Counsel selects as finalists eligible for a funding award. During such joint planning, the Council and the applicant shall refine the applicant’s prevention plan, ensure that the plan makes cost-effective use of the resources and services of state, local, community and private, nonprofit agencies, and consider the incorporation of successful elements of other districts’ prevention programs into the applicant’s plans. Final awards shall be made by the Council on or before January 15 of each year for the subsequent school year, contingent upon the appropriation of funds for such purpose in the annual appropriations act.

§ 1606. State Board waiver authority.

The Department of Education shall have the authority to waive or suspend provisions of the Delaware Code in the implementation of programs authorized under this chapter; provided however, that such waiver or suspension of a provision of the Code shall not result in an increased financial obligation to the State. The Department of Education is also authorized to waive or suspend its rules and regulations in order to maximize the projected impact of programs authorized under this chapter. The State Board shall be advised of any waiver of a regulation it must promulgate or approve, and may deny such waiver within 30 days or by the next regularly scheduled meeting, whichever is earlier, of the waiver’s approval by the Department.

(69 Del. Laws, c. 464, § 1; 71 Del. Laws, c. 180, § 93.)

In the case of a school district created under the provisions of § 1028(k) of this title, 2 values for current expense revenues shall be computed “Tax district current expense revenue” shall be computed by multiplying the current operating expense real estate tax rate for the school tax district by the total assessed valuation of the school tax district as of July 1 of the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated. “Individual district current expense revenue” shall be computed as specified in the first sentence of this paragraph.

(7) “School district effort” means the school district’s current expense revenue divided by the school district’s total full valuation as of July 1 in the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated. In the case of a county vocational-technical school district, the school district effort means the school district’s current expense revenue divided by the total number of units of pupils in the district in the year immediately preceding the fiscal year for which Division III funds are appropriated divided by the school district ability. In the case of a school district created under the provisions of § 1028(k) of this title, 2 values of school district effort shall be computed. “Tax district effort” shall be computed by dividing tax district current expense revenue by the total full valuation of taxable property in the school tax district as of July 1 of the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated. “Individual district effort” shall be computed by dividing individual district current expense revenue by the total full valuation of the school district as of July 1 in the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated.

(8) “State average ability” means the total full valuation of all taxable real property in the State as of July 1 in the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated divided by the total number of units of pupils in the public schools of the State, excluding those units assigned to vocational-technical school districts and those assigned to special schools as defined in paragraph (b)(5) of this section, as of September 30 of the fiscal year immediately preceding the fiscal year for which Division III funds are appropriated.

(9) “State average effort” means the authorized amount times 68.1% divided by the State average ability.

(10) “Total assessed valuation” means the official total assessed value of taxable real property appearing on the assessment rolls of appropriate county governing body or bodies as the case may be.

(11) “Total full valuation” means the total assessed valuation of taxable property divided by the average of the 3 most current assessment to sales price ratios. The Office of Management and Budget shall conduct, in accordance with nationally accepted standards and practices, an assessment to sales price study, by school district, on an annual basis in order to establish the most current ratios and such studies shall be open to public review. Each county is required to make available to the Office of Management and Budget, at the cost of reproduction only, machine-readable copies of its assessment and sales transactions files. In the event a county completes a general reassessment during the period between studies, the county’s assessment to sales price ratio shall be equal to its rate of assessment, until a subsequent assessment to sales price study is completed.

(12) “Units of pupils” means the total number of Division I units as specified in § 1703 of this title.

(c) The formula for determining the sums to be allocated in Division III, to school districts other than those created under the provisions of § 1028(k) of this title, shall be as provided in this subsection. The State share per unit is equal to the authorized amount times the effort index times the quantity of 1 minus .75 times the ability index; provided, that in no case shall the State share be less than the equivalent of 5% of the authorized amount times the effort index. The State share per unit in any fiscal year shall not be less than 95% or more than 105% of the State share per unit in the preceding fiscal year, except as provided in subsection (e) of this section. In fiscal years 2004 through and including fiscal year 2010, the State share per unit for those districts who are entitled to the formula minimum of 5% of the authorized amount times the effort index shall be 80% of the State share per unit in the preceding fiscal year.

(d) The formula for determining the sums to be allocated in Division III, to school districts created under the provisions of § 1028(k) of this title, shall be provided in this subsection. The State share per unit is equal to the sum of the 2 amounts defined as follows. The “tax district share” is equal to the authorized amount times the tax district effort index times the quantity of 1 minus .75 times the tax district ability index; provided, that in no case shall the tax district share be less than the equivalent of 5% of the authorized amount times the tax district effort index. The “individual district share” is equal to the authorized amount times the local district effort index times the quantity of 1 minus .75 times the individual district ability index; provided, that in no case shall the individual district share be less than the equivalent of 5% of the authorized amount times the individual district ability index. The State share per unit, the sum of the tax district share and the individual district share, in any fiscal year shall not be less than 95% or more than 105% of the State share per unit in the preceding fiscal year, except as provided in subsection (e) of this section.

(e) In the case of a school district with an effort index less than 1.00, or a district created under § 1028(k) of this title where the sum of
the tax district effort index and the individual district effort index is less than 1.00, that passes a current expense tax referendum to increase taxes in the fiscal year preceding the fiscal year for which Division III funds are appropriated, the State share per unit shall be determined as provided in this subsection. The State share per unit shall first be computed in accordance with the provisions of subsection (c) or subsection (d) of this section, whichever calculation is appropriate for a particular school district, excluding the 105% provision. The State share per unit shall then be calculated a second time using the appropriate formula from subsection (c) or subsection (d) except that the current expense tax rate or rates for real estate and capitation for the current fiscal year shall replace the rates for the immediately preceding fiscal year throughout the calculation. The 105% maximum provision shall also be excluded in this second calculation. The State share per unit shall be equal to the amount computed in the second calculation; provided, that in no case shall the State share per unit be greater than the State share per unit under the second calculation minus the State share per unit under the first calculation plus 105% of the State share per unit in the preceding fiscal year.

(f) The 95% provision contained in subsection (c) and subsection (d) assumes that a school district does not reduce its current expense revenue by reducing current expense tax rates on real estate or capitations. In the event that a school district does reduce its current expense tax rate or rates, the 95% minimum shall not apply and the school district shall qualify for a State share per unit based upon the formula in subsection (c) or subsection (d) only.

(g) Total State equalization shall be computed by multiplying the State share per unit times the number of units of pupils enrolled in the school district, the vocational school district, or the special school in the fiscal year for which the Division III funds are appropriated.

(h) Division III funds shall be utilized to supplement funds appropriated under Division I, including legal expenses associated with collective bargaining, and Division II for the purpose of advancing education beyond the level authorized through the basic appropriations in Divisions I and II or through any other state or federal appropriation.

(i) A committee, composed of not less than 10 or more than 15 members, shall be appointed by the Secretary of the Department of Education to annually review and make recommendations on the equalization formula. The committee shall also be empowered to analyze other issues and concerns related to equalization that impact the State’s ability to achieve the basic purpose of equalization for Delaware’s school districts. The committee shall include at least the following: a representative of the State Board of Education; a representative from the Governor’s Office designated by the Governor; at least 1 member each from the House of Representatives and the State Senate designated by the Speaker of the House and the President Pro Tempore of the Senate, respectively; the Secretary of Finance or the Secretary’s designee; the Director of the Office of Management and Budget or the Director’s designee; the Controller General or the Controller General’s designee; a representative of the State Education Association designated by that organization; and at least 3 representatives of the local school districts, 1 from each county.

§ 1708. Form of appropriation.

(a) Appropriations to the Department of Education on behalf of the school districts shall be in an aggregate form and shall be allocated to the districts in accordance with this title and the provisions of the annual Appropriations Act.

(b) In the event that any employee or officer receives a salary from more than 1 of the agencies receiving appropriations according to the form set forth in subsection (a) of this section, the total of such employee’s or officer’s salary from all such agencies shall be appropriated to the agency paying the principal portion of such salary. In no case shall a salary appropriation be made to more than one agency for the same employee or officer.

(c) The classification of employees and officers into the various categories set forth in Division I of subsection (a) of this section shall be determined by such employee’s or officer’s classification for salary to be paid under Chapter 13 of this title, except in the case of the Secretary and Deputy Secretary of Education.

§ 1709. Use of appropriation for purpose other than that designated.

No part of any amount appropriated to any district shall be transferred from 1 subdivision of Division I to any other such subdivision of Division I or to Division II, or from Division II to any subdivision of Division I. But nothing contained in this matter shall prohibit the transfer of Division III funds to Division I to comply with §§ 1304, 1705 and 1712 of this title or Division II.

§ 1710. Certification of number of units by Secretary of Education.

The number of units in each school district as calculated under § 1704 of this title shall be certified by the Secretary of Education as soon as such calculations are completed.

§ 1711. Salaries in excess of state supported uniform salary schedules.

Nothing contained in this chapter shall prevent any local school board from paying an additional amount of salary to any employee when such additional amount is derived from local funds or from Division III appropriations.

§ 1712. Transfer of appropriation of closed and consolidated district.

In the case of any closing and consolidation of a school district, the permanent Budget Commission may transfer the unexpended balance, or any part thereof of any appropriation under this chapter for the closed district or districts to the appropriation of the district or districts with which any such closed districts are consolidated.

§ 1714. Acquisition of school sites, Advanced Planning and Real Property Acquisition Fund; purchase; sale; repayment.

The Advanced Planning and Real Property Acquisition Fund authorized by Title 29 and administered by the Budget Commission may be used for the acquisition of school sites in anticipation of the need for construction of new school buildings. From this Fund the Department of Education may purchase in the name of the State upon request from a school district any needed school site or option to purchase such a site. The Department shall make no payments to any school district from the Fund unless either the acquisition of a school site and the approximate cost of the proposed new construction thereon have first been approved by a referendum held among the voters in the school district concerned or, in the event that such a referendum has not been approved, upon presentation from the school district that it otherwise has available sufficient funds to meet local share requirements, as the term “local share” is defined in Chapter 75 of Title 29, of the school district concerned necessary for the school construction project. In the event land is purchased within a school district and no school construction is started thereon within 5 years of such purchase or in the event plans to use the site are abandoned, then the Department of Education may sell the land at a public sale and shall repay the Advanced Planning and Real Property Acquisition Fund and deposit any excess receipts in the General Fund of the State.

When the school district within which such a site has been purchased has sold bonds and deposited construction funds with the State Treasurer in compliance with any school construction act, or when, in the event of construction based entirely upon state funds, the Treasurer has in the Treasurer’s command construction funds for such site the Board of Education of the district shall present to the appropriate authorities an invoice against such construction funds of that district payable to the Department of Education for deposit in the Fund and the funds used to purchase the site shall be returned to the Fund.

In the case of the school district of the City of Wilmington, such tax as is necessary to support its local district contribution may be levied, notwithstanding the maximum tax rate specified in § 11, Chapter 92, Volume 23, Laws of Delaware, as amended by Chapter 9, Volume 56, Laws of Delaware and, unless otherwise specifically provided, such tax rate as may be so specified on or after June 3, 1968.

§ 1903. Election preceding levy of tax.
Before any school board levies a tax under § 1902 of this title, it shall determine whether the tax shall be on the basis of a specified amount or of a specified rate of taxation and shall call a special election to be held at the polling place or places designated by the Department of Elections conducting the election. There shall be not more than 2 such special elections held during any 12-month period.

The wording on the voting machine shall include a statement of the question which is being voted for and against.

(c) The Department of Elections conducting the election shall provide a sufficient number of voting machines necessary to carry out the election hereunder, and the cost of transportation of the voting machines and other necessary charges for use of the voting machines shall be borne by that Department of Elections.

§ 1912. Assessment list; school capitation tax.

The school board of the district in which an additional tax is to be levied shall use the assessment list of the county in which that district is located as a basis for any school district tax. There may also be added a school capitation tax on all persons 18 years of age and upward residing in the district of such amount as shall be determined by the board, provided that such school capitation tax is approved by the voters of the district in the same manner as required by this chapter for the levy of taxes upon the assessed value of real estate.

In the event a school capitation tax is approved by the voters of the district in New Castle County, the Department of Finance shall collect such taxes and make deposits of the moneys so collected in accordance with § 1917 of this title. Warrants or drafts on the said fund shall be drawn by the school board of the district.

Every person who would be entitled to any exemption from taxation if such person owned real estate, pursuant to subchapter II of Chapter 81 of Title 9, shall be entitled to an exemption from the school capitation tax, whether such person owns real estate or not.

§ 1913. Rate of tax.

(a) If the additional tax was authorized on the basis of amount of tax to be collected, the school board shall, upon the completion of the assessment, fix the rate sufficient to raise the amount determined to be raised at that time with an addition of 10 percent added thereto for delinquencies and costs of collection. If the additional tax was authorized on the basis of a specified rate of taxation, the board shall add thereto 10 percent of said authorized rate for delinquencies and costs of collection.

(b) Notwithstanding any other provision of this title to the contrary, any school district which traverses county boundary lines, which has tax rates established in accordance with § 1916(c) of this title, and which subsequently receives approval through referendum to change the limit on such tax rate, shall establish a new or changed tax rate, including the 10 percent for delinquencies and costs of collection, such that the tax rate levied upon the full valuation of real estate will be uniform on all real estate in the school district regardless of the county in which it is located. For purposes of this subsection, the term “tax rate” shall mean the total tax rate levied for all school purposes. For purposes of this subsection, the term “full valuation” shall mean the assessed valuation of a real property divided by the most current assessment to sales price ratio for property within each county among the following sources of such ratios:

1. The aggregate assessment to sales price ratio for all types of real estate in that county as presented in the 1982 Taxable Property Values and Assessments survey for Delaware, United States Bureau of Census.

2. The assessment to sales price ratio established by the Director of the Office of Management and Budget in accordance with § 1707 of this title.

3. The county’s assessment to sales ratio used in its most recent assessment.

§ 1914. Levy of annual school tax without election.
The school board of any district, which has for 1 year levied a local tax under this chapter, may continue annually, without a further election or referendum, to levy such local tax not exceeding in amount the tax originally authorized by an election if said original authorization was on the basis of an amount of tax, or not to exceed the rate of tax originally authorized by an election if said original authorization was on the rate of taxation, each together with an added 10 percent for delinquencies and costs of collection as provided in § 1913 of this title.

(36 Del. Laws, c. 214, § 1; Code 1935, § 2747; 47 Del. Laws, c. 303, § 3; 14 Del. C. 1953, § 1915.)

§ 1915. Demand for new election.

If in any year, not less than 2 months before the date of the regular school election, a number of voters, not fewer than 25 percent of the number of qualified voters of the district, shall demand over their signatures that an election be held, the board of education shall call an election as provided in § 1903 of this title, and the result of such election shall be binding until another election.

§ 1916. Tax collection warrant and assessment list; tax rate after general reassessment.

(a) Based on the total value of all taxable property as shown on the county assessment list and on the amount to be raised, the board of the district shall fix the rate of taxation plus 10% for delinquencies.

(b) Whenever the qualified voters of a reorganized school district have approved a specific rate of taxation or specified amount of taxation under § 1903 of this title and a subsequent general reassessment of all real estate in the county changes the total assessed valuation of the school district, the local board of education of each such local school district shall calculate a new real estate tax rate which, at its maximum, would realize no more than 10% increase in actual revenue over the revenue derived by real estate tax levied in the fiscal year immediately preceding such reassessed real estate valuation. Any subsequent increase in rate of taxation shall be achieved only by an election of the qualified voters in such local school district according to the procedures in § 1903 of this title.

(c) Notwithstanding any other provisions of this title to the contrary, the school board of the district whose jurisdiction traverses county boundary lines and whose local school taxes are made different as a result of property reassessment shall levy real estate taxes in the following manner:

(1) In the county not reassessed, at a rate authorized by law and referendum.

(2) In the county recently reassessed, at a newly calculated rate based on the newly established assessments which at its maximum would bring in revenue equal to the amount authorized by law and by referendum, based on the previous year’s assessment, plus the quarterly updates and the 10% increase as authorized by subsection (b) of this section.

(d) The board shall, no later than the second Thursday in July, deliver its warrant, with a duplicate of the assessment list, to the receiver of taxes and county treasurer of the county or counties where the district is located.

§ 1917. Collection and deposit of school taxes.

(a) The receiver of taxes and county treasurer shall collect school taxes in the same manner and at the same time as provided by law for the collection of taxes for other purposes, and, except as provided in subsection (c) and (d) of this section, shall allow no abatement or discount upon any taxes levied for school purposes required to be collected by them. The Receiver of Taxes and County Treasurer for New Castle County only shall, after September 1 in the year in which the tax rolls shall be delivered to them, assess a penalty of 5% to taxes which are due and owing but unpaid, and shall each month thereafter add to such unpaid taxes a penalty of 1% per month until the same shall be paid. The Receiver of Taxes of Kent and Sussex Counties only shall, after September 30 in the year in which the tax rolls shall be delivered to them, assess a penalty of 1% per month until the same shall be paid.

(b) All money so collected shall be paid to the State Treasurer and shall be deposited by the State Treasurer in a separate account in the depository for other school moneys to the credit of the district.

(c) (1) a. If authorized by majority vote of the whole school board of the local school district pursuant to § 6102(q) of Title 29, there shall be allowed a credit against taxation imposed pursuant to this chapter on the valuation of any qualified property. For purposes of this subsection, “qualified property” shall mean property owned and occupied as a dwelling by and as the principal residence of a qualified person. A “qualified person” is a person who, as of June 30 immediately prior to the beginning of the county fiscal year, is of the age of 65 or more and meets the following requirement:

1. For claimants establishing legal domicile in this State after December 31, 2012, but on or before December 31, 2017, only claimants who, as of June 30 immediately prior to the beginning of the county fiscal year, have been legally domiciled within the State for a period of at least 3 consecutive years are eligible to receive a credit.

2. For claimants establishing legal domicile in this State after December 31, 2017, only claimants who, as of June 30 immediately prior to the beginning of the county fiscal year, have been legally domiciled within the State for a period of at least 10 consecutive years are eligible to receive a credit.

b. Mere seasonal or temporary residence within the State, of whatever duration, shall not constitute domicile within the State for the purposes of this section. Absence from this State for a period of 12 months shall be prima facie evidence of abandonment of
domicile in this State. The burden of establishing legal domicile within the State shall be upon the claimant. The maximum such credit authorized by vote of local school boards shall be the lesser of:

1. Fifty percent of such tax remaining after taking into account any exemption pursuant to Title 9 and Title 22 and any tax reduction pursuant to § 6102 of Title 29; or

2. Five hundred dollars.

The receiver of taxes and county treasurer shall apply such credit after any change to the current expense tax rate pursuant to § 6102 of Title 29.

(2) No credit against taxation on the valuation of real property as provided in this subsection shall be allowed except in accordance with a form of written application prescribed by the Secretary of Finance in consultation with the receiver of taxes and county treasurer and provided by the receiver of taxes and county treasurer for use by the claimants under this subsection. Such application shall be filed with and received by the receiver of taxes or county treasurer no later than April 30 immediately prior to the beginning of that tax year.

(3) The Secretary of Finance shall have the authority to waive the date of application in the case that an individual is financially disabled defined herein as unable to manage such individual financial affairs by reason of a medically determinable physical or mental impairment (excluding impairment caused by voluntary use of alcohol or unlawful use of a controlled substance as defined in Chapter 47, Title 16) which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months, but shall not include individuals for whom an individual’s spouse, guardian, or any other person is authorized to act on behalf of such individual in financial matters.

(4) A. Where title to property on which a credit is claimed is held by claimant and another or others, either as tenants in common or as joint tenants, claimant shall not be allowed a credit against that claimant’s interest in said property in excess of the assessed valuation of that claimant’s proportionate share in said property, which proportionate share, for the purposes of this subsection, shall be deemed to be equal to that of each of the other tenants unless it is shown that the interests in question are not equal, in which event claimant’s proportionate share shall be as shown.

b. Nothing in this subsection shall preclude more than 1 tenant, whether title be held in common or joint tenancy, from claiming a credit against the property so held, but no more than the equivalent of 1 full credit in regard to such property shall be allowed in any year, and in any case in which the claimants cannot agree as to the apportionment thereof, the credit shall be apportioned between or among them in proportion to their interests. Property held by husband and wife as tenants by the entirety shall be deemed wholly owned by each tenant, but not more than 1 credit in regard to such property shall be allowed in any year.

c. Right to claim a credit under this subsection shall extend to property the title to which is held by a partnership to the extent of the claimant’s interest as a partner therein, or by a guardian, trustee, committee, conservator or other fiduciary for any person who would otherwise be entitled to claim a credit under this subsection, but not to property held by a corporation.

d. Right to claim credit under this subsection shall be withdrawn for the subsequent tax year from any taxpayer who has not paid in full such taxpayer’s property tax bill by the end of the tax year for which a credit was reported for that taxpayer to the Secretary of Finance by the receiver of taxes and county treasurer. Taxpayers who fail to pay in full their property tax bill by the end of the tax year for which a credit was reported for that taxpayer to the Secretary of Finance by the receiver of taxes and county treasurer may qualify for credits under this subsection in subsequent tax years upon the payment in full of property taxes and penalties owed prior to the beginning of the subsequent tax year.

(5) The Secretary of Finance may, in consultation with the receiver of taxes and county treasurer, promulgate such rules and regulations and prescribe such forms as the Secretary shall deem necessary to implement this subsection. The Secretary may require that any return or other writing required to be filed with respect to the credit allowed under authority of this subsection be signed by the maker of such return or writing under oath or affirmation, subject to the penalties of perjury.

(6) An aggrieved taxpayer may appeal from the disposition of a claim for credit under this subsection in the same manner as provided for appeals from property tax assessments generally.

(7) Whenever the Secretary of Finance shall determine that a credit has been claimed in disregard of the conditions under which such claims may be made and for which the Secretary has authorized payment under § 1919(c) or (d) of this title, the Secretary may assess such claimant for the amount of the credit and, unless it is shown that such disregard is due to reasonable cause and not due to willful neglect, with a penalty of 20% of the credit claimed along with interest at 1% for any month or fraction of a month commencing on the date on which the claim for credit was filed.

(d) If authorized by majority vote of the whole school board of the local school district pursuant to § 6102(r) of Title 29, there shall be allowed a credit against taxation in the full amount of tax liability imposed pursuant to this chapter on the valuation of any qualified property. For purposes of this subsection, “qualified property” shall mean property owned and occupied as a dwelling by and as the principal residence of a qualified person. A “qualified person” means a veteran who receives from the United States Department of Veterans Affairs or its successor agency 100% disability compensation due to a service-connected, permanent and total disability based on individual unemployability or a 100% disability rating, who is legally domiciled in this State for a period of at least 3 consecutive years. Mere seasonal or temporary residence within the State, of whatever duration, shall not constitute domicile within the State for the purposes of this section. Absence from this State for a period of 12 months shall be prima facie evidence of abandonment of domicile in this State. The burden of establishing that the claimant meets the definition of qualified person shall be upon the claimant. The receiver of taxes and
county treasurer shall apply such credit after any change to the current expense tax rate pursuant to § 6102 of Title 29.

(2) No credit against taxation on the valuation of real property as provided in this subsection shall be allowed except in accordance with a form of written application prescribed by the Secretary of Finance in consultation with the receiver of taxes and county treasurer and provided by the receiver of taxes and county treasurer for use by the claimants under this subsection. Such application shall be filed with and received by the receiver of taxes or county treasurer no later than April 30 immediately prior to the beginning of that tax year.

(3) The Secretary of Finance shall have the authority to waive the date of application in the case that an individual is financially disabled defined herein as unable to manage such individual financial affairs by reason of a medically determinable physical or mental impairment (excluding impairment caused by voluntary use of alcohol or unlawful use of a controlled substance as defined in Chapter 47, Title 16) which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months, but shall not include individuals for whom an individual’s spouse, guardian, or any other person is authorized to act on behalf of such individual in financial matters.

(4) a. Where title to property on which a credit is claimed is held by claimant and another or others, either as tenants in common or as joint tenants, claimant shall not be allowed a credit against that claimant’s interest in said property in excess of the assessed valuation of that claimant’s proportionate share in said property, which proportionate share, for the purposes of this subsection, shall be deemed to be equal to that of each of the other tenants unless it is shown that the interests in question are not equal, in which event claimant’s proportionate share shall be as shown.

b. Nothing in this subsection shall preclude more than 1 tenant, whether title be held in common or joint tenancy, from claiming a credit against the property so held, but no more than the equivalent of 1 full credit in regard to such property shall be allowed in any year, and in any case in which the claimants cannot agree as to the apportionment thereof, the credit shall be apportioned between or among them in proportion to their interests. Property held by husband and wife as tenants by the entirety shall be deemed wholly owned by each tenant, but not more than 1 credit in regard to such property shall be allowed in any year.

c. Right to claim a credit under this subsection shall extend to property the title to which is held by a partnership as a partner therein, or by a guardian, trustee, committee, conservator or other fiduciary for any person who would otherwise be entitled to claim a credit under this subsection, but not to property the title to which is held by a corporation.

d. Right to claim credit under this subsection shall be withdrawn for the subsequent tax year from any taxpayer who has not paid in full such taxpayer’s property tax bill by the end of the tax year for which a credit was reported for that taxpayer to the Secretary of Finance by the receiver of taxes and county treasurer. Taxpayers who fail to pay in full their property tax bill by the end of the tax year for which a credit was reported for that taxpayer to the Secretary of Finance by the receiver of taxes and county treasurer may qualify for credits under this subsection in subsequent tax years upon the payment in full of property taxes and penalties owed prior to the beginning of the subsequent tax year. A claimant must notify the receiver of taxes or county treasurer of any modification in status that results in the claimant no longer meeting the definition of qualified person set forth in paragraph (d)(1) of this section.

e. To the extent that a claimant qualifies for a credit pursuant to both this subsection and subsection (c) of this section, the claimant shall be entitled to the credit authorized under this subsection and shall have no right to claim a credit authorized under subsection (c) of this section.

(5) The Secretary of Finance may, in consultation with the receiver of taxes and county treasurer, promulgate such rules and regulations and prescribe such forms as the Secretary shall deem necessary to implement this subsection. The Secretary may require that any return or other writing required to be filed with respect to the credit allowed under authority of this subsection be signed by the maker of such return or writing under oath or affirmation, subject to the penalties of perjury.

(6) An aggrieved taxpayer may appeal from the disposition of a claim for credit under this subsection in the same manner as provided for appeals from property tax assessments generally.

(7) Whenever the Secretary of Finance shall determine that a credit has been claimed in disregard of the conditions under which such claims may be made and for which the Secretary has authorized payment under § 1919 (e) of this title, the Secretary may assess such claimant for the amount of the credit and, unless it is shown that such disregard is due to reasonable cause and not due to wilful neglect, with a penalty of 20% of the credit claimed along with interest at 1% for any month or fraction of a month commencing on the date on which the claim for credit was filed.

§ 1918. Disbursement of school taxes; financial statement.

(a) Warrants or drafts on the said fund shall be drawn by the school board of the district and applied only for the purpose for which the levy is made.

(b) The district shall prepare at the close of each fiscal year a financial report as specified in § 1507 of this title. This financial report shall have been examined and approved by the Board prior to its publication and submission to the Secretary of Education, not later than August 31 for the prior fiscal year. Copies of the financial report shall be placed on file for review by the public in each school in the district, in the district’s central administrative offices and in each public library located within the school district.

c. This section shall apply for fiscal years beginning on or after July 15, 1988.

(a) Each receiver of taxes and county treasurer shall, on the first day of each month make a report to the school board of the district for which the receiver or treasurer is collecting taxes, to the State Treasurer and the Department of Education, of all taxes collected in the previous month. The forms shall show a complete breakdown of taxes collected, such as capitation, debt service and current expenses, and all such other information as may be required.

(b) Each receiver of taxes and county treasurer shall, not less than once each calendar month, pay over to the State Treasurer all funds collected by him or her for any district.

§ 1923. Payment of interest upon local school funds on deposit.

(a) The State Treasurer shall credit to the account of each local school district that has funds on deposit with the State Treasurer such amount of interest as determined by this section upon such funds. (14 Del. C. 1953, § 1923; 56 Del. Laws, c. 66; 63 Del. Laws, c. 142, § 32.)

§ 1924. Tax rates in districts resulting from consolidation pursuant to court order or created after February 1, 1978, but prior to July 30, 1978.

(a) For the purpose of this section:

1) “Consolidated area” shall refer to a contiguous geographical area in which all school districts (except vocational-technical school districts unless specifically included by the court or the consolidation) are being organized into 1 or more reorganized school districts.

2) “Reorganized school district” shall mean any school district created by consolidation of whole existing school districts or parts of existing school districts or any combination thereof pursuant to court order or created by consolidation of whole existing school districts or parts of existing school districts or any combination thereof which occurs after February 1, 1978, but prior to July 30, 1978, except for consolidation of districts created specifically to administer a system of vocational and/or technical education.

(b) The interim board of education or board of education or other authority mandated by the court or by this title for each reorganized school district may annually set a tax rate for current operating expenses not greater than a maximum rate to be determined by the State Board of Education in accordance with the following mathematical procedure:

1) Determine the total aggregate dollar amount of local tax funded current operating cost expenditure in the school districts (except vocational-technical school districts unless such districts are included in the consolidation) of the consolidated area in the year prior to consolidation. In determining such total amount the State Board shall take the known total aggregate dollar amount of local tax funded current operating cost expenditure in the fiscal year preceding the year prior to consolidation and shall adjust this amount to take into account historic annual percentage changes in such total dollar amounts;

2) Calculate the average per pupil local tax funded operating cost expenditure by dividing the dollar amount determined in paragraph (b)(1) of this section by the total number of students resident in the consolidated area who attend public schools of the districts (except vocational-technical school districts unless such districts are included in the consolidation) within the consolidated area on September 30 of the year prior to consolidation;

3) Multiply the per pupil figure determined in paragraph (b)(2) of this section by the projected number of pupils expected to attend school in the reorganized school district in the first year of consolidation, such projected number to be determined by the State Board of Education by whatever tests or standards it finds appropriate;

4) Determine the tax rate which, when multiplied by the total assessed value of all taxable real estate in the reorganized school
district at the time the maximum is calculated, except taxable real estate which is exempt from county taxation, as determined and fixed for county tax purposes, would yield tax dollars collectible equal to 110 percent of the total dollar amount determined in paragraph (b)(3) of this section.

(c) The maximum rate of tax authorized in accordance with subsection (b) of this section includes the percentage for delinquencies and costs of collection provided for in § 1913 of this title.

(d) The interim board of education or the board of education or other authority mandated by the court or by this title for each reorganized school district may at an appropriate time during each fiscal year set a tax rate for debt service for the next fiscal year that shall be adequate to make the payments for principal and interest on debts evidenced by bonds or bond obligations of the reorganized district and bonds or bond obligations in each of the whole component school districts included in the reorganized district and for that fraction of the bond obligation of each component school district partially included in the reorganized district equal to the fraction of the assessed value (except taxable real estate which is exempt from county taxation, as determined and fixed for county tax purposes) of such partially included district located in the reorganized district.

(e) The interim board of education or board of education or other authority mandated by the court or by this title for each reorganized school district may each fiscal year determine and set tax rates for tuition and for minor capital improvements for the next fiscal year.

(f) Each reorganized school district may annually levy and collect taxes at rates set in accordance with this section upon the assessed value of all taxable real estate in such district, except taxable real estate which is exempt from county taxation, as determined and fixed for county tax purposes. Whenever this section provides for a maximum rate of tax, the levy of any taxes in excess of such maximum rate of tax shall in all respects be subject to this subchapter, notwithstanding this section.

(61 Del. Laws, c. 211, § 1.)

§ 1925. School tax districts.

(a) If the State Board of Education divides a school district pursuant to the authority of § 1028(k) of this title, the geographical area encompassed by the district being divided shall be established as a school tax district for the collection of taxes at a uniform rate throughout the school tax district, said taxes to be distributed according to § 1028(k) of this title. Such a school tax district shall serve no other function nor shall any staff or governing board be established for such a district.

(b) The tax rate for current operating expenses shall be the rate of taxes levied for current operating expenses in the district being divided in the fiscal year in which the State Board of Education adopts the plan dividing the district.

(c) The tax rate for the meeting of bond obligations shall be set by the taxing authorities of the county wherein the school tax district is located after consultation with the Treasurer of the State and levied throughout the school tax district in order to meet the obligations of §§ 1028(k) and 2121 of this title.

(d) The official of the county wherein the school tax district is located who is authorized to collect school taxes pursuant to § 1917 of this title shall annually set the tax rate, in compliance with subsections (b) and (c) of this section, for taxes to be collected in the following year.

(e) This section shall supersede § 1924 of this title upon the effective date of the division pursuant to § 1028(k) of this title.

(62 Del. Laws, c. 351, § 3.)

Subchapter II

Tax on Mobile Homes

§ 1930-1943.

Transferred.

As used in this chapter:

(1) “District” means a reorganized school district.

(2) “School board” means a board of education of a reorganized school district.

The Department of Education shall establish a standard school construction formula which shall be uniform throughout the State. The standard formula so established shall take into consideration the different educational requirements at the various grade levels and the number of pupils for whom the facilities are planned.

The Department of Education shall use the standard school construction formula for determining the cost of school construction, either new or additions, for the various districts. Such costs shall be used as the base upon which state aid for school construction to the various districts shall be allocated.

This chapter shall not prevent the Department of Education from approving school construction requests submitted by districts when such requests vary from the standard formula; provided, however, that when the costs of the facilities so approved exceed the costs determined by the standard formula, the voters in the districts so affected may authorize and limit by referendum the expenditure of funds to the amount based on the standard formula, such referendum to be held in accordance with Chapter 21 of this title. The election may be conducted by the use of printed paper ballots or by the use of voting machines. Provisions shall be made for the following form to appear on the printed paper ballots next to squares added for convenience in marking and on the voting machine:

Section I — Vote for one

A. For a bond issue at this time

B. Against a bond issue at this time

Section II — Vote for one

In the event that the majority of votes cast in Section I is for a bond issue, which bond issue would you prefer?

A. For the bond issue in the amount of $________ as recommended by the school board.

B. For the bond issue in the amount of $________ as determined from the standard formula by the Department of Education.

The amounts of the proposed bond issues shall be inserted in the appropriate spaces on the ballot. Section I of the ballot shall be counted first. If the majority is for issuance of a bond (Section I) then Section II shall be counted and in no case shall the bond issue recommended by the school board be authorized with less than a majority of the total ballots validated for count; the lack of which majority will constitute a positive bond issue authorization by the standard formula of the Department of Education.

(a) Reorganized school districts and charter schools authorized pursuant to Chapter 5 of this title are authorized to enter into satellite school agreements pursuant to this section. For purposes of this section, a “satellite school” is defined as a public school that operates in physical facilities leased from, donated by or located on property that is owned or leased by a private sector or governmental employer which is not the school district or charter school operating the satellite school.

(b) The Department of Education shall promulgate rules and regulations for the approval of satellite school agreements. Such rules and regulations shall ensure that the physical facilities in which satellite schools operate are sufficient to protect the health and safety of the students who attend such schools, but shall not require that those physical facilities meet the same requirements established by the Department pursuant to § 2002 of this title for schools constructed and owned by reorganized districts. The State Risk Manager shall provide assistance to the Department in establishing regulations governing the respective obligations of the school district or the charter school operating the satellite school and the employer or employers providing the physical facility for the operation of the satellite school.
for any liabilities that may be incurred pursuant to a separate provision of this Code or other provision of law. Satellite schools and their employees shall have the same immunities from liability as other public schools and their employees.

(c) Reorganized districts shall establish procedures for admissions to non-charter school satellite schools consistent with those established by Chapter 4 of this title and charter schools shall establish procedures for admissions to satellite schools consistent with those established by Chapter 5 of this title; provided however, that preference in admissions to satellite schools may also be given to students whose parents are residents of the State and who work at the worksite at which the satellite facility is located so long as such preference is made equally available to such students without regard to the jobs their parents hold at the worksite or without regard to whether the student’s parents work for the employer who controls the worksite or a contractor of such employer. Such preference may also be extended to students whose parents work at a physical facility located within a 1-mile radius of the satellite school for an employer or the contractor of any employer, which is a party to a satellite school agreement with a reorganized district and which provides assistance pursuant to such agreement in the provision of the physical facility for the operation of the satellite school.

(70 Del. Laws, c. 366, § 1; 71 Del. Laws, c. 180, § 123.)

§ 2006. Subdivision impact and permit fees.

(a) Notwithstanding any law, rule, ordinance, or charter provision to the contrary, no county or municipality is permitted to assess permit fees, impact fees, or other assessments on a school district for any school construction project. This section does not prohibit a political subdivision from charging utility fees for usage of such utility provided the rate is no higher than that of other properties within the political subdivision nor shall this section prohibit the charging of a surcharge relating to building permit construction value to provide funding for volunteer fire or ambulance companies.

(b) For the purposes of this section:

(1) “Impact fees” or “other assessments” shall not include any fee assessed for maintaining or increasing water supply, wastewater transmission line capacity, or wastewater facility capacity.

(2) “Permit fees” or “other assessments” shall not include a fee or assessment to reimburse the jurisdiction for the approximate and reasonable cost to inspect and enforce applicable building, zoning, water, and wastewater codes or ordinances.

(c) Arbitration procedure. — (1) If a school district disagrees with the reasonableness of fees imposed and subject to this section, a right to an arbitration procedure in front of a 3-member panel is hereby established. The municipality or county and the school district shall each choose a member of the panel, and the third member shall be chosen by agreement of the remaining members of the panel and shall chair the panel. The decision of this panel shall be final and binding on the parties.

(2) For the purposes of this section, it shall be reasonable to base a fee upon the actual cost incurred, and 10% administrative support costs to provide the service.

§ 2105. Validity of bonds; incontestability.
When any bonds shall be sold and delivered pursuant to this chapter, the certification by the Department of Elections conducting the election pursuant to § 1083(d)(2) of this title and the certification by the school board of the district issuing such bonds that the bonds have been issued in due compliance with this chapter shall be conclusive upon the district and all and every other person whatsoever of the right, power and authority for the issuance of said bonds and the legality and validity thereof and of the principal debt and interest represented thereby, and the legality and validity of such bonds shall thereafter not be subject to question in any court by the district or by any person for or on its behalf, and this provision shall be and become part of the contract and obligation represented by each such bond.

§ 2106. Procedure governing sale of bonds to State.
The school board of any district, with the exception of the Board of Public Education in Wilmington, shall sell any bonds to be issued pursuant to the authority contained in this chapter or pursuant to any other provision of law to the State at private sale. The authority to issue bonds shall be construed to be authority to provide funds for the payment of the interest and annual payments on such bonds, which without further authority shall be provided for by an additional tax levy on the property subject to taxation for county purposes in the district issuing such bonds and by a poll tax on all persons 21 years of age and upward, residing in the district, of such amount as shall be determined by the school board of the district.

§ 2117. Assessment list; objections; posting; hearing.

The school board of the district in which the tax is to be levied under § 2116 of this title shall use the assessment list of the county in which that district is located, in order to determine all the taxables of the district, the property of each taxable and the assessed value thereof. Such list shall constitute the assessment list of the district for purposes of levying a tax under § 2116 of this title.

Warrants or drafts on the said fund may also be drawn for the purpose of paying school construction costs as authorized by referenda pursuant to § 7507 [repealed] of Title 29.

§ 2119. Report of tax collections and payment of collected taxes.

(b) Each receiver of taxes and county treasurer shall, not less than once each calendar month, pay over to the State Treasurer all funds collected by that receiver of taxes or county treasurer for any district.

§ 2120. Jurisdiction of justices of the peace.
Whoever, being a receiver of taxes and county treasurer of any county, or other person authorized to collect school taxes, or a member of any school board, fails, neglects or refuses to perform all or any of the duties imposed upon that person by this chapter shall be fined not less than $10 nor more than $100.

Justices of the peace shall have jurisdiction of offenses under this section.

The provisions of this chapter relative to the assessment, the rate of taxation and the levy and collection of taxes, and the deposit of taxes collected, and the disbursement thereof, shall apply to the case of school districts which have issued bonds under any former law of this State which have not been paid in whole or in part both principal and interest.

(c) The polls must open at 7:00 a.m. and must close at 8:00 p.m., prevailing local time, on the day advertised.

(e) An election under this chapter for the purpose of increasing the real estate tax rate under Chapter 19 of this title, while simultaneously decreasing the real estate tax rate under this chapter by the same amount, shall be by the use of voting machines. The wording on the voting machine shall include a statement of the question which accurately reflects the issue being voted for and against.

(f) There shall be not more than 2 such special elections held during any 12-month period.

(b) Within 10 days of the certification of the results of the election in accordance with § 1083(a) of this title, the Department of Elections conducting the election shall declare the results of the election by an advertisement published on 2 consecutive days in at least 1 newspaper of the county with countywide circulation or a combination of newspapers whose circulation covers the area of the school district.

§ 2302. Gifts of buildings or grounds; title.
School boards may receive donations of playgrounds, school grounds and school sites, or of buildings already built suitably located and adapted to school purposes, but in no case shall any site be built upon or any building accepted until a good and sufficient title has been obtained for the same in the name of the school board.

§ 2303. Condemnation.
(a) When lands are required for the site of a school house, or for enlarging a school house lot, or for playgrounds or other school purposes and the Department of Education or the school board shall for any cause be unable to contract with the owner or owners thereof upon what they deem to be a fair valuation thereof, the Department and the school board, or either of them, may institute condemnation proceedings in accordance with Chapter 61 of Title 10.
(b) No lot so taken or enlarged shall exceed, in the whole, including the land occupied by the school building, more than 15 acres for a school whose certified enrollment is less than 500 pupils.
(c) No lot so taken or enlarged shall exceed, in the whole, including the land occupied by the school building, more than 25 acres for schools having a certified enrollment in excess of 500 pupils.

(e) Any proposed action pursuant to Chapter 61 of Title 10 shall be approved by appropriate resolutions of the local board of education and by the Department of Education. The Department shall, in the usual manner, review the building and site needs of the local district before deciding whether or not to adopt a resolution indicating the need for procuring the land as provided by Chapter 61 of Title 10 and the maximum number of acres involved.

§ 2304. Financing and construction.
The School Building Program Acts of 1951, and 1949, being Chapter 148 of Volume 48, Laws of Delaware, and Chapter 2 (Second Special Session) of Volume 47, Laws of Delaware (pages 1076 to 1090), are continued in full force and effect and shall govern the financing and construction of the school building programs and projects dealt with therein.

Such sidewalks may be located on land or rights-of-way under the control of the State Highway Department or on other land or rights-of-way provided for such purpose.
(b) Sidewalks financed by issuance of bonds by a school board may be constructed only after the need for such sidewalks is ascertained by the school board by careful examination of transportation facilities in the district and the project has been approved by the State Highway Department and the Department of Education.
(c) When considering granting approval for sidewalk construction, the local board and State Department of Education shall take into consideration the current rule governing permanent free bus transportation and shall make sure there is no overlapping. 141: Any day of summer school, any session of after school or Saturday extra instruction, or any session of mentoring which a child is required to attend as an academic improvement activity in conformity with § 153 of this title shall be considered a school day for purposes of this chapter, and for purposes of § 901 of Title 10, § 1100 of Title 11, and § 301 of Title 31 of this Code, or wherever the term school day or its equivalent is used in a provision of this Code designed to minimize or punish truancy.

151: Every student who is enrolled in a public school of this State in grades 6 through 12 shall be allowed 1 excused absence per school year to attend a civic engagement activity, which includes visiting Capitol Hill in Washington, D.C. or Legislative Hall in Dover, visiting a site of significant historical or cultural importance, advocating for or testifying on behalf of legislation, or participating in a rally, march, or protest.

161: “One excused absence” is defined as 1 partial or full school day. Students may not take more than 1 excused partial day and combine them to consider them to be “1 excused absence”.

171: For any civic engagement event that occurs on a day when the student’s school is not in session, the student may not redeem or exchange this nonschool day for an excused absence on a school day.

181: For a student to attend a civic engagement event, the student’s parent or guardian must provide written permission to the school principal or designee no later than 3 school days prior to the student’s planned absence. It is incumbent upon each school to determine what is acceptable as written permission, either a letter or email from the parent or guardian, or a form designed by the school or school district.

191: The Delaware Department of Education is not responsible for monitoring, tracking, or gathering any information or data regarding students’ excused absences to participate in civic engagement activities.

201: A child over the age of 16 may withdraw from public school prior to graduation if both of the following circumstances exist:

211: Where the student is fewer than 18 years of age, written consent is granted by the child’s parent or guardian.

221: An exit interview is conducted where the student and the student’s parent or legal guardian have been advised that withdrawal from school shall likely reduce the student’s future earning potential and increase the student’s likelihood of being unemployed in the future. During the exit interview, the student who is withdrawing from school shall be given information that has been prepared and supplied by the Department regarding the detrimental impacts and effects of early withdrawal from school, along with any available information about training and employment opportunities. The school and the student and the student’s parent or legal guardian shall also evaluate any available support services, interventions or programs that might assist the student in remaining enrolled until graduation. A school is required to make 3 good faith attempts to contact a student’s parent or legal guardian to schedule an exit interview pursuant to this paragraph.

§ 2703. Private school attendance or other educational instruction.

Section 2702 of this title shall not apply to any student enrolled in a private school who is receiving regular and thorough instruction in the subjects prescribed for the public schools of the State in a manner suitable to children of the same age and stage of advancement, provided that such private school is subject to and in compliance with § 2704 of this title. For the purposes of this section, any student who is home-schooled in any manner provided for in § 2703A of this title shall also be exempt from the provisions of § 2702 of this title. Notwithstanding the foregoing, the Justice of the Peace Court may retain jurisdiction over any case of truancy filed pursuant to § 2729 (failure to send) of this title or § 2730 (failure to attend) of this title prior to a student withdrawing from the public school bringing the charge and enrolling in a private or nonpublic school of this State.

§ 2703A. Homeschools defined.

(a) For purposes of this chapter, a “homeschool” is considered a nonpublic school, except that students enrolled in homeschools are deemed to be parentally-placed private school children for purposes of providing equitable services using proportionate share funds under the Individuals with Disabilities Education Act, 20 U.S.C. § 1400, et. seq.

(b) The 3 types of homeschools are defined as follows:

1) “Multi-family homeschool” means the education of children, primarily by the parents or legal guardians of the children mainly in 1 or more residences, or other facilities, when the children are not all related to each other as brother or sister. A person shall act as a liaison to the Department of Education for reporting enrollment and attendance information for all families involved.

2) “Single-family homeschool” means the education of an individual’s own child, primarily by the parent or legal guardian of the child, mainly in their own residence.

3) “Single-family homeschool coordinated with the local school district” means the education of a child primarily by the parent or legal guardian of the child, mainly in their own residence, using a curriculum approved by the local superintendent or the local superintendent’s designee. The local superintendent shall determine in writing that the student is or will be provided with regular and thorough instruction by the student’s parent or legal guardian in the subjects prescribed for the public schools of the State and in a manner suitable to children of the same age and stage of advancement.

(74 Del. Laws, c. 79, § 1; 70 Del. Laws, c. 186, § 1; 83 Del. Laws, c. 87, § 1.)

§ 2704. Report of nonpublic schools to Department.

(a) All persons conducting nonpublic schools shall report to the Department of Education annually, on or before the July 31, on such forms as shall be prescribed by the Department of Education.

(b) Such persons shall also submit annually, on or before the October 5, a statement of pupil enrollment as of the last school day in September, on such forms as prescribed by the Department of Education.

§ 2705. Exemption of children from compulsory attendance requirements.

(a) Other provisions of this title notwithstanding, a child may be exempted from § 2702 of this title upon request of the parent, guardian or other person legally having control of that child when the request is supported by written documentation of a physician, psychiatrist, psychologist or neurologist, as the case may require. The request and documentation shall be addressed to the superintendent of schools of the district in which the child resides and, in the case of a child with a disability or disabilities, the child’s Individual Education Program (IEP) team, for the development of an educational program and determination of whether a change of placement is necessary to ensure that the child receives a free and appropriate public education.

(b) Any disputed decision under this section shall be presented first to the board of education of the school district of which the child is a resident and may thereafter be appealed to the State Board of Education. The decision of the State Board of Education shall be final. In the case of a child with a disability or disabilities, all of the federal regulatory due process procedures of Part B of the Individuals with Disabilities Education Act [20 U.S.C. §§ 1411 et seq.] shall apply.

§ 2706. Contagious diseases.

Any child affected with diphtheria, measles, scarlet fever or smallpox shall be excluded from the schools until permission of the proper school officer for the child to return is granted; and intercourse between pupils of the schools and the family or house, when there is any case of 1 of these contagious diseases, must be forbidden until the official permission is given to return to the school.

§ 2707. Religious holidays.
   (a) A pupil’s absence from school for the observance of a religious holiday is a necessary and excused absence.
   (b) A list of religious holidays on which a pupil’s absence shall be excused shall be created by the Secretary of Education and placed in regulation. The list of approved religious holidays is not a limit on the power of school districts or charter schools to excuse absence on any other day for the purpose of religious or cultural observance.
   (c) A signed, written excuse from the pupil’s parent or guardian is required in order to excuse an absence under this section.
   (d) A pupil of any public school, who is absent by reason of observance of a religious holiday, may not be deprived of any award or eligibility or opportunity to compete for any award.
   (e) School districts and charter schools must have a policy discouraging teachers from scheduling major grading events, such as tests, examinations, presentations, or project due dates on religious holidays. A pupil who misses a grading event due to excused absence for observance of a religious holiday must be allowed the opportunity to take an alternate test or given some other means to recover credit.
   (83 Del. Laws, c. 78, § 2.)

§ 2722. Absences and truancy.
   (a) Subject to the rules and regulations of the local school board, pupils enrolled in the free public schools may be excused by the superintendent of schools or persons authorized by the superintendent.    (b) No pupil who could otherwise legally fail to attend school pursuant to § 2702(a) of this title may do so without the written consent of such person or persons having legal control of that pupil.

§ 2723. Responsibility of police officers.
   (a) Any pupil under the age of 16 identified by a police officer as being off school property without official authorization may be returned to that pupil’s home school.
   (b) Any pupil under the age of 16 identified by a police officer as being off school property without official authorization may be detained by the police for a period not to exceed 2 hours for the purpose of notification of parent or guardian.    (63 Del. Laws, c. 290, § 6; 70 Del. Laws, c. 186, § 1; 72 Del. Laws, c. 346, § 12.)
§ 2724. Notification to parents and students.
At the beginning of a school year each school district or public school shall notify each student and the parent of each student of the school attendance requirements of this Code, including the procedures and penalties applicable to truancy. The school district or school may determine the form of the notification.
(72 Del. Laws, c. 346, § 14.)

(a) If a student has been absent from school without a valid excuse 1 or more days, the principal of the school may take such action as the principal considers appropriate.
(b) If a student is truant, the principal shall schedule a truancy conference with the student, the student’s parent and the principal pursuant to § 2726 of this title. The conference may be attended by other persons as the principal may include.
(c) Following a truancy conference the school shall decide whether or not to file a charge against the parent for a violation of § 2702 of this title; provided however, that the principal shall refer the case for prosecution following the twentieth day of unexcused absence by a student during the school year, in compliance with § 2702(d) of this title, and may refer the case before the twentieth day of unexcused absence if the principal determines it is appropriate to do so.
(d) The fact that a student or student’s parent attended or failed to attend a truancy conference does not bar the principal from filing a complaint with the Justice of the Peace Court.
(72 Del. Laws, c. 346, § 14; 79 Del. Laws, c. 26, § 3; 82 Del. Laws, c. 224, § 3.)

§ 2726. Procedure for truancy conferences.
The provisions of § 4122 of this title shall apply to truancy conferences. The principal shall determine the date, time and place of the conference and shall give all participants notice at least 1 week prior to the conference. In conducting a truancy conference, the principal may exclude any person, including a parent or a student, from the conference or part of a conference.
(72 Del. Laws, c. 346, § 14.)

§ 2727. Notice of violation and compliance.
No person shall be prosecuted for violation of § 2702 of this title if that person, within 3 days from the time that the person is notified by the superintendent of schools or persons authorized by the superintendent, presents an excuse in writing satisfactory to such superintendent of schools, and complies with the requirements of such § 2702 of this title. The mailing of a notice to the usual address of the offending party shall be sufficient notification.

§ 2728. Procedure for court adjudication.
(a) When the school charges a parent or a student with a violation of § 2702 of this title, the school shall file a written complaint in the court. The complaint shall be on such form(s) as the court may require. The school shall be the complainant and the parent or the student shall be the defendant. The court must determine whether probable cause exists to issue a warrant or summons against the parent charged. When there is probable cause to find that a student is truant, probable cause to issue a warrant or summons for a parent shall exist when the parent is named as the parent or guardian on the student’s school records and the parent resides in Delaware.
(b) The school shall attach to the complaint any record relevant to the allegations of the complaint.
(c) When a complaint is filed, all sanctions imposed by the principal shall remain in effect unless suspended or terminated by the principal or stayed by the court.

(72 Del. Laws, c. 346, § 14; 75 Del. Laws, c. 107, § 1.)

§ 2729. Failure to send; affirmative defense; penalties.
(a) If a charge is filed against a parent for a violation of § 2702 of this title, the court shall determine whether the evidence establishes beyond a reasonable doubt that the parent has violated the section.
(b) In the prosecution of a parent for a violation of § 2702 of this title, it shall be an affirmative defense that the parent has made substantial and reasonable efforts to comply with the compulsory attendance requirements of § 2702 but is unable to cause the child to attend school. It shall also be an affirmative defense that the parent does not have legal custody of the student. Other affirmative defenses may be permitted as required in the interests of justice. If the court determines the affirmative defense is valid it shall dismiss the complaint against the parent and the school may file a complaint against the student pursuant to § 2730 of this title.
(c) This section shall not apply to a parent whose child is receiving instruction pursuant to § 2703 of this title, to children exempted from compulsory attendance requirements pursuant to § 2705 of this title, or whose children are in compliance with school attendance requirements.
(d) A parent who is determined to have violated § 2702 of this title is guilty of an unclassified misdemeanor and shall be sentenced as follows:

1. For a first offense, a fine of not less than $25 nor more than $300, or imprisonment for not more than 10 days or both;
2. For a second offense, a fine of not less than $50 nor more than $500, or imprisonment for not more than 20 days or both;
3. For a third or subsequent offense, a fine of not less than $230 nor more than $1,150, or imprisonment for not more than 30 days or both.

(e) To the extent possible the fine shall be commensurate with the number of days the student was absent from school without valid excuse.

(f) The court may order the parent to perform unpaid community service in lieu of a fine. The court may require that all or part of the service may be performed for a public school district.

(g) The court may also order as conditions of release prior to judgment or as conditions of sentence upon conviction such conditions as the court considers necessary to obtain compliance with school attendance requirements. These conditions include but are not limited to the following:

1. Verifying the child’s attendance with the school;
2. Meeting with school officials;
3. Taking the child to school;
4. Taking the child to the bus stop;

8. Taking the child for medical, psychological or psychiatric evaluation or for drug, alcohol or other substance abuse evaluation and following the evaluator’s recommendations.

(h) Upon conviction, the name and address of the parent and a summary of the disposition of any offenses for which the parent was convicted shall be reported by the Court to the Division of Family Services of the Department of Services for Children, Youth and Their Families and to the Division of Social Services of the Department of Health and Social Services.

(i) The provisions of § 4218 of Title 11 (probation before judgment) shall apply to a parent charged with violation of § 2702 of this title.

(72 Del. Laws, c. 346, § 14; 73 Del. Laws, c. 301, § 1; 81 Del. Laws, c. 404, § 1.)

§ 2730. Failure to attend; penalties.

(a) The school may file a civil charge of truancy against the student in the Justice of the Peace Court if:

1. The student is age 12 or older; and/or
2. The Court determines that a parent who is charged with violating § 2702 of this title has a valid affirmative defense under § 2729(b) of this title.

(b) The court shall determine whether a preponderance of the evidence establishes that the student has violated § 2702 of this title.

(c) If the Court determines the student has violated § 2702 of this title, it shall adjudicate the student a truant and may order the following remedial dispositions:

1. Community service;
2. Counseling;
3. Substance abuse evaluation and treatment;
4. Mental health evaluation and treatment;
5. A curfew with hours set by the court;

6. (7) [Repealed.]

10. Such other action as is permitted by statute or by court rule.

(d) [Repealed.]

§ 2731. Enforcement of court order.

(a) The court with jurisdiction over the matter shall retain jurisdiction until all terms of the court’s order have been complied with regardless of any change in the student’s age, marital status or choice of educational source or location.

(b) Notwithstanding any provision of this Code to the contrary, if it is alleged that a student has not complied with the terms of the court’s order, the noncompliant student may be charged with criminal contempt pursuant to § 1271 of Title 11, which shall, in the first instance, be brought in the Family Court.

(c) A juvenile against whom criminal contempt proceedings pursuant to this section and § 1271 of Title 11 have been initiated shall have
§ 2732. Appeals.

(a) A parent convicted within the Justice of the Peace Court of a violation of § 2702 of this title may appeal to the Court of Common Pleas in the county in which the judgment was given. (b) [Repealed.]

(c) A student who has been adjudicated truant within the Justice of the Peace Court pursuant to § 2730 of this title may appeal to the Family Court in the county in which the adjudication occurred. The appeal shall be filed within 15 days of the date of the adjudication. On appeal the Family Court shall make a de novo determination based on the record below.

(d) No appeal of the adjudication of truancy or truancy-related contempt pursuant to subsection (c) of this section shall stay execution of the remedial disposition unless a judge of the Family Court orders a stay.

(72 Del. Laws, c. 346, § 14; 76 Del. Laws, c. 12, §§ 2, 3; 82 Del. Laws, c. 224, § 3.)

§ 2733. Jurisdiction; venue.

(a) The Justice of the Peace Court and the Family Court shall have concurrent jurisdiction of complaints filed pursuant to this subchapter.

(b) All complaints under this subchapter shall be filed in a Justice of the Peace Court in the county where the school the child is required to attend is located or in the county in which the office of the school district which contains the child’s school is located.

(c) The matter shall proceed within the Justice of the Peace Court unless that Court determines, upon the complaint’s filing, that the matter shall be transferred to the Family Court due to the existence of any of the following conditions:
   (1) Pending delinquency proceedings involving the child;
   (2) Pending civil proceedings involving a determination of the child’s best interests pursuant to § 722 of Title 13;
   (3) Pending proceedings with involvement by the Department of Services for Children, Youth and Their Families with the child’s family; or
   (4) Any other condition exists related to the child that reasonably warrants transfer to Family Court.

(d) In the event that a student withdraws from school for any reason other than age and does not re-enroll in another public school, the Family Court or Justice of the Peace Court, in its discretion, may retain jurisdiction for the purpose of ensuring that the student’s alternative educational environment was not an attempt to avoid the compulsory attendance requirements of § 2702 of this title.

(72 Del. Laws, c. 346, § 14; 76 Del. Laws, c. 23, § 4; 82 Del. Laws, c. 224, § 3.)

§ 2734. Disposition and accounting of fines.

The fines provided for by § 2729 of this title shall, when collected, be paid over by the officers collecting the same to the treasurer of the board of education of a reorganized school district according to the residence of the person convicted, to be accounted for by such treasurer or by the Department of Education as other moneys raised for school purposes.

§ 2735. Special procedure for expungement of truancy records.

(a) At the time that a case is closed because there has been compliance with all Family Court or Justice of the Peace Court orders issued pursuant to this subchapter, the following shall be automatically expunged:
   (1) Any records of charges against or the conviction of a parent or guardian for failure to send; or
   (2) Any records of the charges or adjudication of truancy against a student.

(b) In any case which was closed because there was compliance with all Family Court or Justice of the Peace Court orders and the automatic expungement required by subsection (a) of this section did not occur either due to error or omission on the part of the court or the prosecuting agency because such expungement was not authorized at the time the case was closed, the court that issued the order shall grant such expungement upon motion of a parent, guardian or student. There shall be no filing fee for such applications.

(c) Following the closing of a case for any reason other than compliance with all Family Court or Justice of the Peace Court orders, the records listed in subsection (a) of this section may only be expunged upon application to the court that issued the order. That court may, in its discretion, grant or deny the request or make the granting of such request subject to such reasonable terms and conditions as may be appropriate. The civil filing fee shall apply to such applications.

(d) Upon either the automatic expungement of records or the issuance of an order expunging truancy records:
   (1) The State Bureau of Identification shall take all necessary steps to ensure that the expunged records or the information contained therein is not released for any reason except as specified in this section. In response to requests from persons other than law-enforcement officers for such information or records, the State Bureau of Identification, law-enforcement officers or Truancy Court officials in the
course of another truancy case involving the same parent or child and departments shall reply that there is no record.

(2) Except for the disclosure to law-enforcement officers acting in the lawful performance of their duties in investigating criminal activity or to Truancy Court officials in the course of another truancy case involving the same parent or child, it shall be unlawful for any person having or acquiring access to an expunged truancy record to open or review it or to disclose to another person any information from it without a court order.

(3) Disclosure to law-enforcement officers shall be permitted only for the purpose of investigating particular criminal activity in which the person, whose records have been expunged, is considered a suspect and the crime being investigated is a felony or, with regard to records of parents or guardians for failure to send, pursuant to an investigation of an employment application as an employee of a law-enforcement agency.

(4) Nothing herein shall require the destruction or deletion of records of the Department of Justice, DELJIS or court records, including electronic records. However, all court DELJIS and Department of Justice records relating to a charge or case which has been expunged shall be so handled as to ensure that any information contained therein shall not be disclosed to the public.

(5) An offense for which records have been expunged pursuant to this section shall not have to be disclosed by the person for any reason.

(6) Any person who violates paragraph (d)(2) of this section shall be guilty of a class B misdemeanor, and shall be punished accordingly.

§ 2803. Local funds.
Any local district initiating an expanded school year program must provide such program within the limits of state funding it would receive absent its decision to operate such program; provided, however, that nothing in this section shall preclude a district from using existing or additional local, federal or other nonstate funding for the provision of an expanded school year program.
(71 Del. Laws, c. 180, § 136.)

§ 2804. Rules and procedures.
(a) The Secretary of Education and Director of the Office of Management and Budget must approve such expanded program at least 4 months before such plan is implemented in the local district. Such approval must be based, in part, on an analysis of a 10-year student population projection for the local district.

Repealed by 72 Del. Laws, c. 6, § 4, effective Feb. 8, 1999.
§ 2901. Regulations governing design and operation of school buses; annual student bus passes.
   (a) The Secretary of Education, with the advice of the Director of the Division of Motor Vehicles, shall adopt and enforce regulations not inconsistent with the motor vehicle laws of this State to govern the design and operation of all school buses used for the transportation of school children, whether such buses be owned and operated by any public school district or privately owned and operated under contract with the Department or any public school district in this State. Such regulations shall by reference be made a part of every contract entered into by the Department or any school district for the operation of a school bus. The Department may conduct a criminal history background check pursuant to the procedures set forth in Chapter 85 of Title 11 for the purposes of employment or contractual employment of any school bus driver.
   (b) The regulations adopted relating to the award of school transportation contracts shall provide as follows:
      (1) A school transportation contract may be awarded to a party contingent upon approval of the local board and the Department of Education. Such award may be made only after notice is provided to all interested persons by means of a notice published in at least 2 Delaware newspapers of general circulation.
      (2) A local board of education must approve the awarding of a transportation contract to a party based on the following criteria: financial stability, insurability, record of service in that or another school district, if applicable, and personal and/or business resume including references. A local board may use a lottery system to select from among the qualified applicants.
      (3) No contract shall be deemed effectively awarded until said award is approved by the local board of education and the Department of Education.
   (c) School districts and charter schools may purchase annual student bus passes from the Delaware Transit Corporation for use on fixed route public transit by students in grades 6 through 12.
      (1) A school district or charter school must negotiate an agreement with the Delaware Transit Corporation regarding the method of purchasing and tracking bus passes under this subsection.
      (2) Students may not be directly reimbursed for the cost of public transportation under this subsection.
      (3) A school district or charter school may not require a student to use public transportation.
      (4) This subsection does not limit the manner in which schools provide transportation for students under the McKinney-Vento Homeless Education Assistance Improvement Act, 42 U.S.C. §§ 11431 through 11435.

§ 2902. Violation of regulations; compliance clause in contracts; penalty.
   Any officer or employee of the Department of Education or of any school district who violates any of the school bus regulations or who fails to include an obligation binding a contractor to comply with such regulations in any contract executed by the officer or employee on behalf of a school district shall be guilty of misconduct and subject to removal from office or employment.

§ 2903. Breach and cancellation of contract.
   Whoever, being the operator of a school bus under a contract with the Department of Education or any school district, fails to comply with any school bus regulation adopted by the Department shall be guilty of breach of contract and the operator’s contract shall be cancelled, after notice and hearing, by the responsible officers of the school district or the Department.

§ 2904. Minimum insurance coverage requirements.

(c) Pupils enrolled in nonpublic, nonprofit schools shall only be entitled to transportation within the described boundaries of a public school district and not beyond those boundaries.

§ 2906. Transportation of pupils to special schools.

In the event that a contractor does not wish to renew the contract, said contract shall be opened to all other interested persons in that area by means of notice published in at least 2 Delaware newspapers of general circulation.

In the event that the bus associated with the transportation contract is less than 7 years old and still on the depreciation schedule in the transportation formula, the district shall require that the new contractor make an offer to purchase the bus of the current contractor at least at fair market value as described in a national publication. It shall not be mandatory for the current contractor to accept this offer.

(5) No contract shall be deemed effectively transferred until said transfer is approved by the local board of education and the Department of Education.

The determination shall be made by the IEP team and by the Department of Education that no school district or other state agency has a suitable free and appropriate program of education for that particular child with a disability. Such private placement shall be in a school or institution approved by the Department of Education in keeping with its oversight responsibilities. Given the nature of these services, such placements shall be exempt from the requirements of Chapter 69 of Title 29.

(b) Before the Department of Education can authorize expenditures for new placements according to this section, the case must be reviewed by the Interagency Collaborative Team (ICT).

1. The ICT shall consist of:

   h. If appropriate, designate agencies to be involved in collaborative monitoring of individual cases.

(5) The ICT will ensure that state costs incurred as the result of a Team recommendation or assessment of a child currently funded from the Unique Alternatives appropriation will be covered from the existing appropriation. New referrals will be assessed in the interagency manner described above. The ICT shall accept and review cases initiated by other agencies, but in all cases the school district of residence must be involved in the review.

(6) Cases reviewed by the ICT will employ Unique Alternatives funding to cover state costs to the extent determined appropriate by the Interagency Collaborative Team. Other agencies may recognize a portion of the responsibility for the treatment of these children if determined appropriate by the Team. Cases involving individuals who are wards of the State shall be fully funded from Unique Alternatives funding. Subject to the parties’ right to appeal, the decision of the hearing panel appointed by the Secretary of Education is final and binding on all parties and the State Board of Education.

(d) Financial aid shall include tuition for special education and related services as defined in the Individuals with Disabilities Education Act (IDEA) [20 U.S.C. § 1400, et seq.] to include daily transportation for a private day program and room and board for a residential program. Transportation for a residential program will include, at a minimum, transportation to and from the facility at the start and end of each school term and when the school is officially closed to students. Reimbursement for other trips home or for the parents’ travel costs to accompany the child or to attend conferences at the facility shall be determined on a case-by-case basis.

(e) The Department of Education is authorized to continue utilizing funds appropriated for this section to develop unique educational alternatives, in lieu of private placement, for children who have been found unable to benefit from the regularly offered free, appropriate public educational programs and students in present education programs within this State whose individual education plan requires services not presently available within the present unit funding system. Unique educational alternatives shall be defined and approved by the Department of Education and may include, but not be limited to, related and supportive services. Any placement made pursuant to this subsection shall be considered a special program placement and shall be eligible for inclusion in local school district tuition tax rate setting per § 604(c) of this title.

(b) The parents shall have the right to obtain copies of all records, except the actual evaluation or examination instrument, described in subsection (a) of this section either without charge, or, at the discretion of the district or state agency, at a fee not to exceed actual cost. Under no circumstances shall a fee be assessed which effectively prevents parents from exercising their right to inspect, review and copy records.

(c) The parents of a child with a disability shall have the right to visit and observe, either personally or through a representative, their child’s current or proposed public educational program.

(64 Del. Laws, c. 63, § 1; 77 Del. Laws, c. 424, § 22.)

§ 3131. Conduct of meetings.

(a) No charter school or school district, or any person acting under the authority of a charter school or school district, shall discriminate or take any adverse employment or contract action against any person based upon statements that person makes while advocating for a student in connection with an individualized education program (IEP), including statements made in preparation for or at a meeting, review, or conference concerning a child with a disability’s free, appropriate public education. Entities or persons who violate this subsection shall be subject to the same injunctive and monetary sanctions as persons or entities that engage in unlawful employment practices under Chapter 7 of Title 19.

(b) Subject to confidentiality requirements of applicable state or federal law, minutes may be taken, by disclosed recording device or stenographer, of any meeting, review or conference concerning a child with a disability’s free, appropriate, public education, at the option of the parents of the child with a disability, their authorized representative or the agency conducting the meeting, review or conference. Costs of the recording shall be borne by the person or agency exercising the option under this section.

(c) Discussions about employment options with children and parents during the IEP process should be consistent with Delaware’s employment first policy articulated by § 743 of Title 19. Progress made toward post-secondary goals in transition IEPs will be reported with the same frequency as that for academic goals.

(d) The Department of Education, in consultation with the Department of Justice, shall annually survey a material number of parents and children who have individualized education programs with respect to the parents’ and children’s satisfaction with the IEP process. Information gathered through this survey shall be used by the Department of Education and Department of Justice to conduct follow-up examinations with school districts and charter schools as to their good faith compliance with state and federal laws and regulations.

(a) Educational surrogate parents. — The Department with the approval of the State Board of Education shall establish and maintain procedures to protect the rights of a child with a disability whenever the parents of the child are not known, unavailable or the child is a ward of the State, or an unaccompanied homeless youth as defined in § 725(6) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. § 11434a(6)), including the assignment of an individual, who shall not be an employee of any public agency involved in the education or care of the child, to act as an educational surrogate parent for the child. The educational surrogate parent shall exercise and be accorded all rights of a parent to assure the provision of a free, appropriate, public education to the child.

(b) Educational representatives. — The Department of Education, with the approval of the State Board of Education, shall establish and maintain procedures, by regulation, to assure that children with disabilities who have reached age 18 have an identified decision-maker, which may be the child with a disability, to exercise rights under this chapter. Such regulations shall be developed in consultation with the Governor’s Advisory Council for Exceptional Citizens and incorporate the following minimum standards, including a timeline to review the need for an educational representative.
(1) A child with a disability without a court-appointed guardian of the person shall be presumed to have capacity and be accorded the rights of a parent upon attainment of age 18.

(2) A child with a disability with capacity may authorize an agent to exercise rights through execution of a power of attorney or a standard voluntary grant of authority form published by the Department.

(3) The determination of capacity shall be made by the Individualized Education Program (IEP) team during an IEP meeting and shall conform to the following standards:

a. In cases where capacity is uncertain, a school psychologist familiar with the child must attend the initial meeting. For purposes of this section, the term “familiar with the child” means the school psychologist has conducted a recent in-person evaluation of the child which conforms to evaluation procedures established by Department regulations.

b. The child with a disability and parent, as defined in § 3101(7) of this title, must be invited to participate in the meeting regardless of whether the child has already attained the age of 18.

c. The IEP team may consider information from sources apart from school personnel and may authorize evaluation if necessary to inform its deliberations.

d. If information is ambiguous, any benefit of the doubt shall be exercised in favor of a finding of capacity.

(4) If the IEP team determines that the child lacks capacity, the IEP team shall appoint an individual to serve as an educational representative in the following descending order of priority:

a. Willing and available biological or adoptive parent;

b. Willing and available relative.

If such an individual is not identified, the IEP team shall promptly facilitate a referral to the Department for appointment of an educational surrogate parent. An appointed educational representative shall have the same authority as a parent under § 3101(7) of this title.

(5) If a child with a disability or parent disagrees with the capacity determination, either may contest the determination by pursuing dispute resolution options described in the procedural safeguards of this chapter or its implementing regulations regardless of the child’s attainment of age 18.

(6) The capacity determination is limited to exercise of rights under this chapter and its implementing regulations and shall not affect exercise of rights in any other context. In furtherance of this limitation, any other statute notwithstanding, the capacity determination shall not be admissible as evidence of competency or capacity in any noneducational judicial or administrative proceeding.

(8) This tuition and fee assistance program will be subject to the limits of the total funding appropriated by the General Assembly and approved by the Governor for that purpose.

(b) In order to receive funds for tuition and fees for a postsecondary class or course of instruction authorized by this section, a member must:

If funding is not appropriated to fully support the program, master’s degree reimbursement will be reduced prior to any reductions to members applying for funds to obtain an associate’s degree or bachelor’s degree.

(e) A member who has received funding pursuant to this section but who does not fulfill the service commitment required by paragraph (b)(1) of this section, or who is terminated from the National Guard for cause, or who otherwise fails to comply with any requirement of this section shall immediately become ineligible to receive education benefits pursuant to this section and shall repay the Delaware National Guard for all tuition and fee funding previously extended to the member, including interest, on a pro rata basis from the time of termination or noncompliance. The Adjutant General shall determine the amount of repayment due by the member pursuant to this subsection.

(f) If membership in the National Guard is terminated for other than cause, the member will not be required to repay previously funded tuition and fees.

(g) A member shall not receive funding for any tuition or fees not applied for prior to termination for any reason of membership in the National Guard.

(h) The Adjutant General shall report annually to the General Assembly:
   (1) The number of members who participated at each Delaware postsecondary school during the year;

Wherever a public school building or the equipment thereof is damaged or destroyed by fire or other casualty, the local school district in which the school building is located shall, as soon as may be practicable, send to the Secretary of Education, with a copy to the State Risk Manager, a written communication giving detailed information respecting the fire or other casualty stating, among other things, the name of the school building and local school district where the fire or other casualty occurred and a description of the building and equipment with the cost or approximate value thereof.

§ 3702. Governor’s allocation of General Fund.
Upon receipt of a written communication from the Secretary of Education and the State Risk Manager, the Governor may authorize, if there is a sufficient surplus available in the General Fund to meet the obligation, the allocation of an amount which, in the sole judgment and discretion of the Governor, is appropriate for such rebuilding and replacement.

§ 3801. Declaration of purpose.

The General Assembly finds and declares that a substantial drug and alcohol trafficking and abuse problem exists in this State among school age children, in schools and on school campuses, parks and playgrounds. It is the purpose of this chapter to support increased efforts by local law enforcement agencies, working in conjunction with school districts and with state and local drug and alcohol prevention agencies, to suppress trafficking, and to prevent drug and alcohol abuse among school-age children in schools and on school campuses, through the development of innovative and model programs jointly undertaken by local law-enforcement agencies and school districts. Further, it is the intent of the General Assembly to establish a program of financial and technical assistance for local law enforcement and school districts, and to formulate a joint policy of pursuing both demand reduction (through education and prevention programs), and supply reduction (through law enforcement).

(67 Del. Laws, c. 244, § 1.)

§ 3802. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

1. “Division” shall mean the Division of Substance Abuse and Mental Health.

2. “Enhanced apprehension, prevention and education efforts” shall mean projects and programs which do not compete with, but which supplement and improve currently existing substance abuse prevention and education programs.

§ 3803. Division of Substance Abuse and Mental Health.

(a) The Division of Substance Abuse and Mental Health shall allocate and award all funds appropriated for any purposes set forth in § 3801 and elsewhere in this chapter. Such funds shall be awarded only to programs or projects, undertaken jointly by a law-enforcement entity and a local school district or other public school entity, to prevent and/or suppress substance abuse and the trafficking of prohibited or controlled substances in the public schools. All applications for such funds shall be applications made jointly by the school and law-enforcement entities involved in the proposed project.

(b) In the allocation and awarding of funds to joint law enforcement and public school recipients, the Division shall obtain the comments and recommendations of the State Drug-free School Advisory Committee. All allocation and awarding of funds by the Division shall be in accordance with the Administrative Procedures Act [Chapter 101 of Title 29], and with those guidelines promulgated by the State Drug-free School Advisory Committee which do not conflict with existing state laws.

(c) Each application shall be accompanied by a fiscal note, prepared by the joint applicants, which sets forth all anticipated first-year costs and the anticipated total costs of the project or program. The Division may return any application to the applicant with a request that any or all expenses be more fully set out, together with the applicant’s explanations or reasons for each projected cost or expense.

(67 Del. Laws, c. 244, § 1; 73 Del. Laws, c. 41, § 1.)

§ 3804. State Drug-free School Advisory Committee.

(a) All criteria for the rating of applications for funds under this chapter shall be developed by the State Drug-free School Advisory Committee. The State Drug-free School Advisory Committee shall be composed of 16 members appointed by the Governor: 1 police chief; 1 sheriff; 1 prosecutor from the State Department of Justice who specializes in drug and/or alcohol cases; 1 attorney primarily engaged in criminal defense; 1 person from each county appointed by an active parent group or community-based group concerned primarily with drug and/or alcohol problems; 1 representative of the Division of Substance Abuse and Mental Health; 1 county drug and/or alcohol program administrator; and a permanent, full-time member of a drug treatment clinic or office, public or private. In addition, membership shall include the Attorney General or the Attorney General’s designee; 4 members who are professional employees of the Department of Education, 1 of whom shall be the Secretary of Education; and a drug and/or alcohol prevention professional employed by the Department of Education. The Committee shall review applications made to the Division for those funds which are awarded pursuant to this chapter, and shall recommend approval for those applications which the Committee deems appropriate, and which it deems are consistent with the guidelines and procedures established pursuant to this chapter. The Division shall not approve nor release any funds until approval under §
§ 3805. Local drug-free school advisory committees.
(a) A local drug-free school advisory committee may be established and appointed by each local board of education. Such committee may be either a newly created committee, or an existing local drug and alcohol abuse committee formerly established by the county, municipality or school district. (67 Del. Laws, c. 244, § 1.)

§ 3806. Utilization of funds.
(a) Funds shall be awarded primarily for projects undertaken jointly by the school district or other public school entity, and a law-enforcement entity. In participating in any joint application for the funds, the public school entity shall consult with the superintendent of each affected school. Any funds disbursed under this chapter are supplemental to and shall not supplant local funds which would, in the absence of this chapter, be otherwise available to suppress and prevent drug and alcohol abuse among school age children, or which otherwise would be used to curtail drug and alcohol trafficking in and around schools, parks and playgrounds.
(b) When applying for funds under this chapter, the local law-enforcement entity and the public school entity may jointly enter into those agreements between themselves which would allow and facilitate the administrative, fiscal and operational responsibilities created by their joint project or program.
(c) Funds disbursed under the provisions of this chapter shall be utilized primarily for enhanced apprehension, prevention, and education efforts, and for obtaining material and information resources relating to drug and alcohol abuse and drug trafficking in and around schools, parks and playgrounds. Enhanced apprehension, prevention and education efforts shall include, but are not limited to:

§ 3807. State Board of Education; Department of Public Safety.
The Department of Safety and Homeland Security and the Department of Education shall both have the power to monitor and evaluate the projects and programs under this chapter, and to make comments and suggestions to the Division.

PUBLIC SCHOOL EMPLOYMENT RELATIONS ACT

§ 4001. Statement of policy.
It is the declared policy of the State and the purpose of this chapter to promote harmonious and cooperative relationships between reorganized public school districts and their employees and to protect the public by assuring the orderly and uninterrupted operations and functions of the public school system. These policies are best effectuated by:

1) Granting to school employees the right of organization and representation;
2) Obligating boards of education and school employee organizations which have been certified as representing their school employees to enter into collective bargaining negotiations with the willingness to resolve disputes relating to terms and conditions of employment and to reduce to writing any agreements reached through such negotiations; and
3) Establishing a public employment relations board to assist in resolving disputes between school employees and boards of education and to administer this chapter.

(14 Del. C. 1953, § 4002; 57 Del. Laws, c. 298; 63 Del. Laws, c. 333, § 1.)

§ 4002. Definitions.

(a) “Appropriate bargaining unit” or “bargaining unit” means a group of school employees designated by the Public Employment Relations Board as appropriate for representation by an employee organization for purposes of collective bargaining.

(b) “Arbitration” means the procedure whereby the parties involved in a labor dispute over the interpretation or application of an existing collective bargaining agreement submit their differences to a third party for a final and binding decision.

(c) “Binding interest arbitration” means the procedure by which the Public Employment Relations Board shall make written findings of fact and a decision for final and binding resolution of an impasse arising out of collective bargaining.

(d) “Board” means the Public Employment Relations Board established by § 4006 of this title.

(e) “Certification” means official recognition by the Board, following a secret-ballot election, that an employee organization is the exclusive representative for all employees in an appropriate bargaining unit.

(f) “Collective bargaining” means the performance of the mutual obligation of a school employer through its designated representatives and the exclusive bargaining representative to confer and negotiate in good faith with respect to terms and conditions of employment, and to execute a written contract incorporating any agreements reached. However, this obligation does not compel either party to agree to a proposal or require the making of a concession.

(g) “Confidential employee” means any employee whose essential job function and advanced knowledge about the issues involved in collective bargaining would make it unduly burdensome for the employer to negotiate effectively if the employee were a member of an appropriate bargaining unit.

§ 4006. Public Employment Relations Board.

(a) There is hereby established a board to be known as the “Public Employment Relations Board,” the purpose of which shall be to administer this chapter under rules and regulations which it shall adopt and publish. The Board shall be organizationally located within the Department of State; however, in the performance of its powers and duties under this chapter, the Board shall not be subject to control, supervision or direction by the Department of State or by an officer thereof.

(b) The Board shall consist of 3 members to be appointed by the Governor, subject to confirmation by the Senate, from persons representative of the public. One member shall be designated by the Governor as Chair, and the Chair shall serve a fixed term. Not more than 2 members of the Board shall be members of the same political party. Each member shall be appointed for a term of 6 years, except that the initial appointments shall be: 1 member shall be appointed for a term that shall expire 2 years following the effective date of this chapter, 1 member for a term that shall expire 4 years following the effective date of this chapter, and the Chair for a term that shall expire 6 years following the effective date of this chapter. A member appointed to fill a vacancy shall be appointed for the unexpired term of the member whom the appointed member is to succeed. Any member of the Board may be removed by the Governor for misfeasance, malfeasance or nonfeasance in office, after a hearing before an impartial designee of the Governor. A vacancy in the Board shall not impair the right of the remaining members to exercise all the powers of the Board. Two members of the Board shall, at all times, constitute a quorum, but official orders shall require concurrence of a majority of the Board. Board members shall be eligible for reappointment.

(c) Members of the Board shall be knowledgeable in the area of labor relations and shall possess the reputation for integrity and impartiality necessary to protect the public interest.

(d) Members shall hold no other public office or employment by the State or other public agency or public employer, or be an officer or employee of any public employee labor organization or any of its affiliates, or represent any public employer or public employee organization or its affiliates; however, this restriction shall not be interpreted to exclude persons who are knowledgeable in employment relations, public administration or labor law so long as they are not actively engaged, other than as a member, in any management or employee organization.

(e) The Chair of the Board shall receive a per diem stipend of $110, and each of the other members shall receive a per diem stipend of $100. Each member of the Board shall be reimbursed for actual and necessary travel and subsistence expenses when performing Board business away from that member’s place of residence.

(f) The Board shall appoint an Executive Director who shall be the chief administrative officer. The Executive Director shall be a person familiar with employer-employee relations. In addition to the performance of administrative duties, the Board may delegate to the Executive Director authority with respect to, but not limited to, bargaining unit determination and representation proceedings, unfair labor practice proceedings, mediation of labor disputes, and binding interest arbitration proceedings. Such delegation shall not limit a party’s right to appeal to the Board. The Executive Director, with such assistance as may be provided by the Attorney General and such additional legal assistance which, from time to time, may be necessary, shall have authority on behalf of the Board, when necessary, to carry out or enforce any action or decision of the Board, to petition any court of competent jurisdiction for any order requiring compliance with the action or decision.

(g) The Board may employ such other persons as it may, from time to time, find necessary for the proper performance of its functions within the amounts made available through appropriations therefor, and may prescribe their duties and fix their compensation.

(h) To accomplish the objectives and to carry out the duties prescribed in this chapter, the Board shall have the following powers:

1. To issue, amend and rescind such rules and regulations as it deems necessary to carry out this chapter and to prevent any person from engaging in conduct in violation of this chapter. Such rules and regulations shall be adopted in accordance with Chapter 101 of Title 29.

2. To hold hearings, subpoena witnesses, administer oaths and take the testimony or deposition of any person under oath, and in connection therewith, to issue subpoenas requiring the production and examination of any books or papers, including those of the State and/or a board of education relating to any matter pending before it, and to take such other action, including the granting of interim or other relief as may be necessary to discharge its powers and duties. In no case, however, should it be empowered, either directly or through a fact-finder, to mandate to the public school employer action which involves an economic cost to the public school employer.

3. To conduct in any part of this State any proceeding, hearing, investigation, inquiry or election necessary to the performance of its functions. In carrying out the purposes of this chapter, the Board may designate 1 of its members or an agent or agents as hearing examiner or examiners.

4. To provide by rule a procedure for the filing and prompt disposition of petitions for a declaratory statement as to the applicability

of any provision of this chapter or any rule or order of the Board. Such procedures shall provide for, but not be limited to, an expeditious determination of questions relating to potential unfair labor practices and to questions relating to whether a matter in dispute is within the scope of collective bargaining.

(5) To request from any public agency such assistance, services and data as will enable the Board to properly carry out its functions and powers.

(6) At the end of each year, to make a report in writing to the Governor and the General Assembly and detail the work it has done in hearing and deciding cases.

(7) To adopt an official seal and prescribe the purposes for which it shall be used.

5. Distribute organizational literature or otherwise solicit public school employees during working hours in areas where the actual work of public school employees is being performed in such a way as to hinder or interfere with the operation of the public school employer. This paragraph shall not be construed to prohibit the distribution of literature during the employee’s lunch hour or duty-free lunch period or in such areas not specifically devoted to the performance of the employee’s official duties.

6. Hinder or prevent (by threats, intimidation, force or coercion of any kind) the pursuit of any lawful work or employment by any person, or unreasonably interfere with the entrance to or egress from any place of employment.

7. Instigate or advocate support, in any positive manner, for an employee organization’s activities from students on school property.

(63 Del. Laws, c. 333, § 1.)

§ 4008. Unfair labor practices — Disposition of complaints.

(a) The Board is empowered and directed to prevent any unfair labor practice and to issue appropriate remedial orders. Whenever it is charged that anyone has engaged or is engaging in any unfair labor practice as described in § 4007(a) and (b) of this title, the Board or any designated agent thereof shall have authority to issue and cause to be served upon such party a complaint stating the specific unfair labor practice charge and including a notice of hearing containing the date and place of hearing before the Board or any designated agent thereof. Evidence shall be taken and filed with the Board; provided, that no complaint shall issue based on any unfair labor practice occurring more than 180 days prior to the filing of the charge with the Board.

(b) If, upon all the evidence taken, the Board shall determine that any party charged has engaged or is engaging in any such unfair practice, the Board shall state its findings of fact and conclusions of law and issue and cause to be served upon such party a complaint stating the specific unfair practice charge and including a notice of hearing containing the date and place of hearing before the Board or any designated agent thereof. Evidence shall be taken and filed with the Board; provided, that no complaint shall issue based on any unfair labor practice occurring more than 180 days prior to the filing of the charge with the Board.

(c) In addition to the powers granted by this section, the Board shall have the power, at any time during proceedings authorized by this section, to issue orders providing such temporary or preliminary relief as the Board deems just and proper.

(63 Del. Laws, c. 333, § 1; 72 Del. Laws, c. 146, § 1.)
§ 4009. Unfair labor practices — Appeals; petitions for enforcement.

(a) Any person adversely affected by a decision of the Board under § 4008 or § 4015 of this title may appeal that decision to the Chancery Court of this State. Such an appeal must be filed within 15 days of the date upon which the decision was rendered and shall not automatically act as a stay.

(b) The Board may petition the Chancery Court of this State for enforcement of any order issued under § 4008 or § 4015 of this title.

(63 Del. Laws, c. 333, § 1; 76 Del. Laws, c. 196, §§ 6, 7.)

§ 4010. Bargaining unit determination.

(a) An employee organization desiring to be certified as the exclusive representative shall file a petition with the Board, accompanied by the uncoerced signatures of at least 30 percent of the public school employees in the unit claimed to be appropriate, indicating a desire to be represented for the purpose of bargaining collectively with the public employer.

(b) If the Board or its duly authorized designee determines that a petition is properly filed and is accompanied by the requisite number of valid signatures, the Board or its designee shall proceed toward defining the appropriate bargaining unit by setting a date for hearing on the matter. If a petition is not properly filed and/or if it is not accompanied by the requisite number of valid signatures, the Board or its designee shall dismiss the petition.

(c) After holding such hearings as it deems necessary the Board shall determine the appropriate bargaining unit. The Board may, by rule, delegate its unit definition authority to 1 or more of its members or to its Executive Director, provided that a unit definition order may be subject to review by the Board at the request of any party or upon the Board’s own motion in accordance with rules and procedures established by the Board.

(d) In making its determination as to the appropriate bargaining unit, the Board or its designee shall consider such factors as the similarity of duties, skills and working conditions of the employees involved; the history and extent of the employee organization; the recommendations of the parties involved; the effect of overfragmentation of bargaining units on the efficient administration of government; and such other factors as the Board may deem appropriate. The Board or its designee shall separate supervisory and nonsupervisory employees into separate appropriate bargaining units for all units created subsequent to July 18, 1990. The Board shall include positions commonly referred to as positions for extra-pay-for-extra-responsibility in the professional bargaining unit for the sole purpose of bargaining the salary for these positions and any other provision mutually agreed to by the parties.

(e) Procedures for redefining or modifying a unit shall be set forth in the rules and procedures established by the Board.

(f) Any bargaining unit designated as appropriate prior to the effective date of this chapter, for which an exclusive representative has been certified, shall so continue without the requirement of a review and possible redesignation until such time as a question concerning appropriateness is properly raised under this chapter. The appropriateness of the unit may be challenged by the public school employer, 30 percent of the members of the unit, an employee organization, or the Board not more than 180 days nor less than 120 days prior to the expiration of any collective bargaining agreement in effect on the date of the passage of this chapter. The continued appropriateness of any bargaining unit designated as appropriate prior to the effective date of this chapter, for which an exclusive representative is not certified, may be challenged by the public school employer, 30 percent of the members of the unit, an employee organization, or the Board at any time up until 30 days prior to the holding of an election to determine representation.

(63 Del. Laws, c. 333, § 1; 67 Del. Laws, c. 404, § 5; 70 Del. Laws, c. 425, § 352.)

§ 4011. Determination and certification of exclusive representative.

(a) Any employee organization seeking certification as exclusive representative in a designated appropriate bargaining unit shall file a petition with the Board. The petition must contain the uncoerced signatures of at least 30 percent of the employees within the designated appropriate bargaining unit. If the designated appropriate bargaining unit is sufficiently similar to the bargaining unit claimed to be appropriate in the petition filed pursuant to § 4010(a) of this title, such that the signatures submitted at that time represent at least 30 percent of the employees within the designated appropriate bargaining unit, those signatures shall be deemed sufficient for the purpose of this subsection. If the designated bargaining unit is not sufficiently similar to the bargaining unit claimed to be appropriate, the employee organization may continue to rely on the previously submitted uncoerced signatures of the employees who are in the designated bargaining unit and must supplement these signatures with uncoerced signatures of other employees within the designated appropriate bargaining unit, such that the signatures submitted represent at least 30 percent of the employees within the designated appropriate bargaining unit. No signature shall be considered valid if it was signed more than 12 months prior to the date on which the petition is filed.

(b) Where an employee organization has been certified as the exclusive representative, a group of employees within the bargaining unit may file a petition with the Board for decertification of the exclusive bargaining representative. The petition must contain the uncoerced signatures of at least 30 percent of the employees within the bargaining unit and allege that the employee organization presently certified is no longer the choice of the majority of the employees in the bargaining unit. If a lawful collective bargaining agreement of no more than 3 years’ duration is in effect, no petition shall be entertained unless filed not more than 180 days nor less than 120 days prior to the expiration of such agreement. A decertification petition also may be filed if more than 1 year has elapsed from the date of certification of an exclusive bargaining representative and no collective bargaining agreement has been executed.

(c) If the Board determines that a petition is properly supported, timely filed and covers the designated appropriate bargaining unit, the Board shall cause an election of all eligible employees to be held within a reasonable time after the unit determination has been made, in
§ 4013. Collective bargaining agreements.

The written grievance procedures shall be included in any agreement entered into between the public school employer and the exclusive bargaining representative. In any election where there are more than 2 choices on the ballot and none of the choices receives a majority of the votes cast, a run-off election shall be conducted. The ballot in the run-off election shall contain the 2 choices on the original ballot that received the largest number of votes.

(e) No election shall be held pursuant to this section within 12 months from the date of a preceding valid election.

Every employee organization which has or seeks recognition as a representative of public school employees under this chapter shall file with the Board a registration report, signed by its president or other appropriate officer. Such report shall be updated on an annual basis by any organization which continues to have or seeks recognition, shall be in a form prescribed by the Board and shall be accompanied by 2 copies of the employee organization’s constitution and bylaws. All changes or amendments to such constitutions and bylaws shall be promptly reported to the Board.

(63 Del. Laws, c. 333, § 1.)

§ 4013. Collective bargaining agreements.

(a) Collective bargaining shall commence at least 90 days prior to the expiration date of any current collective bargaining agreement or, in the case of a newly certified exclusive representative, within a reasonable time after certification.

(b) Negotiating sessions, including strategy meetings of public school employers, mediation and the deliberative process of binding interest arbitrators and arbitrators, shall be exempt from Chapter 100 of Title 29. Hearings conducted by binding interest arbitrators shall be open to the public.

(c) For those terms and conditions that are negotiated pursuant to state law, the public school employer and the exclusive bargaining representative shall negotiate written grievance procedures ending in binding arbitration by means of which bargaining unit employees, through their collective bargaining representatives, may appeal the interpretation or application of any term or terms of an existing collective bargaining agreement. The written grievance procedures shall be included in any agreement entered into between the public school employer and the exclusive bargaining representative, and shall include:

(1) A provision to limit binding arbitration to claims that the terms of the collective bargaining agreement have been violated, misinterpreted or misapplied;

(2) A provision to prohibit claims relating to the following matters from being processed through binding arbitration:
   a. Dismissal or nonrenewal of employees covered by Chapter 14 of this title;
   b. Dismissal or nonrenewal of employees not covered by Chapter 14 of this title, unless the controlling collective bargaining agreement provides that such matters are subject to binding arbitration;
   c. Delaware law;
   d. Rules and regulations of the Delaware Department of Education or State Board of Education;
   e. The content of or conclusions reached in employee observations and evaluations unless the controlling collective bargaining agreement for employees not covered by Chapter 14 of this title provides that such matters are subject to binding arbitration;
   f. Federal law;
   g. Rules and regulations of the United States Department of Education;
   h. Policies of the local school board; and
   i. Matters beyond the scope of the public school employer’s authority;

(3) A provision to select arbitrators by lottery from a panel of qualified arbitrators designated by the Public Employment Relations Board. In designating the panel, the Public Employment Relations Board shall prefer former judges who served on a Delaware constitutional court or on the United States District Court for the District of Delaware, and shall supplement the panel by adding qualified labor arbitrators;

(4) A provision to empower the Public Employment Relations Board to administer arbitrations pursuant to regulations adopted by the Public Employment Relations Board;

(5) A provision to require that disputes relating to whether a matter is arbitrable be ruled upon by the arbitrator prior to hearing the merits of the dispute, and, if the arbitrator determines that the dispute is arbitrable, a provision to require that the same arbitrator schedule a second hearing to hear the merits of the dispute;

(6) A provision to assess against the losing party the arbitrator’s fees and expenses incurred in determining whether a dispute is arbitrable; and

(7) A provision to require that the arbitrator’s fees and expenses incurred in deciding the merits of a dispute be evenly divided
§ 4014. Mediation.

(a) If, after a reasonable period of negotiations over the terms of an agreement or after a reasonable time following certification of an exclusive representative, no agreement has been signed, the parties may voluntarily submit to mediation. If, however, no agreement is reached between the parties by 60 days prior to the expiration date of an existing collective bargaining agreement, or, in the case of a newly certified exclusive representative, within 60 days after negotiations have commenced, both parties shall immediately notify the Board of the status of negotiations.

(b) If the parties have not voluntarily agreed to enlist the services of a mediator and less than 30 days remain before the expiration date of the existing collective bargaining agreement, or, in the case of a newly certified exclusive representative, more than 90 days have elapsed since negotiations began, the Board must appoint a mediator if so requested by the public school employer or the exclusive bargaining representative. The mediator shall be chosen from a list of qualified persons maintained by the Board and shall be representative of the public.

(c) If the labor dispute has not been settled after a reasonable period of mediation, during which both parties have made a good faith effort to settle their differences, the parties jointly or individually may petition the Board in writing to initiate binding interest arbitration. In lieu of a petition, the mediator may inform the Board that further negotiations between the parties, at that time, are unlikely to be productive and recommend that binding interest arbitration be initiated. The public school employer and the exclusive bargaining representative may initiate binding interest arbitration at any time, by mutual agreement.

(d) Any costs involved in retaining a mediator to assist the parties in reaching a negotiated agreement shall be paid by the Board.

§ 4015. Binding interest arbitration.

(a) Within 7 working days of receipt of a petition or recommendation to initiate binding interest arbitration, the Board shall make a determination, with or without a formal hearing, as to whether a good faith effort has been made by both parties to resolve their labor dispute through negotiations and mediation and as to whether the initiation of binding interest arbitration would be appropriate and in the public interest.

(b) Pursuant to § 4006(f) of this title, the Board shall appoint the Executive Director or the Executive Director’s designee to act as binding interest arbitrator. Such delegation shall not limit a party’s right to appeal to the Board.

(c) The binding interest arbitrator shall hold hearings in order to define the area or areas of dispute, to determine facts relating to the dispute and to render a decision on unresolved contract issues. The hearings shall be held at times, dates and places to be established by the binding interest arbitrator in accordance with rules promulgated by the Board. The binding interest arbitrator shall be empowered to administer oaths and issue subpoenas on behalf of the parties to the dispute or on the binding interest arbitrators’ own behalf.

(d) The binding interest arbitrator shall make written findings of facts a decision for the resolution of the dispute; provided however, that the decision shall be limited to a determination of which of the parties’ last, best, final offers shall be accepted in its entirety. In arriving at a determination, the binding interest arbitrator shall specify the basis for the binding interest arbitrator’s findings, taking into consideration, in addition to any other relevant factors, the following:

1. The interests and welfare of the public.
2. Comparison of the wages, salaries, benefits, hours and conditions of employment of the employees involved in the binding interest arbitration proceedings with the wages, salaries, benefits, hours and conditions of employment of other employees performing the same or similar services or requiring similar skills under similar working conditions in the same community and in comparable communities and with other employees generally in the same community and in comparable communities.
3. The overall compensation presently received by the employees inclusive of direct wages, salary, vacations, holidays, excused leaves, insurance and pensions, medical and hospitalization benefits, the continuity and stability of employment and all other benefits received.
4. Stipulations of the parties.
5. The lawful authority of the public school employer.
6. The financial ability of the public school employer based on existing revenues, to meet the costs of any proposed settlements; provided that, any enhancement to such financial ability derived from savings experienced by such public school employer as a result of a strike shall not be considered by the binding interest arbitrator.

(c) Where a public school employee has lost entitlement to any daily pay or other consideration pursuant to subsection (b) of this section, any agreement between such public school employee or employee organization bargaining on such employee’s behalf and a public school employer which provided for the direct or indirect restoration of such entitlement shall be void as against public policy.

§ 4017. Injunctions.

(a) Chancery Court is vested with the authority to hear and determine all actions alleging violation of § 4016 of this title. Suits to enjoin violations of § 4016 of this title will have priority over all matters on the Court’s docket except other emergency matters.

(b) Where it appears that any public school employee, group of employees, employee organizations or any officer or agent thereof, threaten or are about to do, or are doing, any act in violation of § 4016 of this title, the public school employer may forthwith apply to the Court of Chancery for an injunction against such violation.

(c) If an order of the Court enjoining or restraining a violation of § 4016 of this title does not receive immediate compliance, the public school employer shall apply to the Court for appropriate contempt sanctions against any party in violation of such order. Upon a proper showing that any person or organization has failed to comply with such an order, the Court shall, in addition to any other remedy it deems appropriate, fine such violating party an amount on a daily, weekly or monthly basis without limitation as determined by the Court.

(d) In determining an appropriate amount for fines imposed pursuant to subsection (c) of this section, the Court shall consider and receive evidence of:

(1) The extent and value of services lost due to the violation of § 4016 of this title.

(2) Any unfair labor practices committed by either party during the collective bargaining process.

(3) The extent of the willful defiance or resistance to the Court’s order.

(4) The impact of the strike on the health, safety and welfare of the public.

(63 Del. Laws, c. 333, § 1.)

§ 4018. Status of existing exclusive representative.

An employee organization that has been certified as the exclusive representative of a bargaining unit deemed to be appropriate prior to the effective date of this chapter shall so continue without the requirement of an election and certification until such time as a question concerning representation is appropriately raised under this chapter in accordance with § 4011(b) of this title, or until the Board would find the unit not to be appropriate in accordance with § 4010(f) of this title.

(63 Del. Laws, c. 333, § 1.)

§ 4019. Fair share fees.

(a) If the provisions of a collective bargaining agreement so provide, each nonmember of a bargaining unit shall be required to pay the exclusive representative a fair share fee.

(b) To implement fair share fee agreements in accordance with subsection (a) of this section, the exclusive representative shall provide the public school employer with the name of each nonmember who is obligated to pay a fair share fee, the amount of the fee that the
nonmember is obligated to pay and a reasonable and lawful schedule for deducting said amount from the salary or wages of such nonmember. The public school employer shall deduct the fee in accordance with said schedule and promptly transmit the amount deducted to the exclusive representative.

(c) As a precondition to the collection of fair share fees, the exclusive representative shall establish and maintain a procedure that:

(1) Provides nonmembers with an adequate explanation of the basis for the fee;

(2) Provides nonmembers with a reasonably prompt opportunity to challenge the amount of the fee before an impartial decision maker; and

(3) Provides an escrow for the amounts reasonably in dispute while such challenges are pending.

A public school employer shall not refuse to carry out its obligations under subsection (b) of this section on the grounds that the exclusive representative has not satisfied its responsibilities under this subsection.

(d) Since fair share fees are collected each school year, in order to avoid undue delays in the receipt of, and determination of the validity of, fair share fees, any suit challenging a fair share fee must be filed within 6 months after receipt of the notice described in subsection (c) of this section, or within 6 months after the nonmember exhausts the procedure described in subsection (c) of this section, whichever is later.

   b. An employee or contractor providing educational services within a Department of Correction or Division of Youth Rehabilitative Services facility.

5. “Seclusion” means the involuntary confinement of a student alone in a room, enclosure, or space that is either locked or, while unlocked, physically disallows egress. The use of a “timeout” procedure during which a staff member remains accessible to the student shall not be considered “seclusion.”

6. “Timeout” means a behavior management technique in which, to provide a student with the opportunity to reflect or regain self-control, a student is separated from others for a limited period in a setting that is not locked and the exit is not physically blocked by furniture, closed door held shut from outside, or other inanimate object.

(b) Prohibition and restriction on use. — (1) Public school personnel are prohibited from imposing on any student the following:
a. Chemical restraint; and  
b. Subject to waiver authorized pursuant to paragraph (c)(4) of this section, mechanical restraint and seclusion.  
(2) Public school personnel may impose physical restraint only in conformity with all of the following standards:  
a. The student’s behavior presents a significant and imminent risk of bodily harm to self or others;  
b. The physical restraint does not interfere with the student’s ability to communicate in the student’s primary language or mode of communication;  
c. The physical restraint does not interfere with the student’s ability to breathe or place weight or pressure on the student’s head, throat, or neck;  
d. The physical restraint does not recklessly exacerbate a medical or physical condition of the student;  
e. Less restrictive interventions have been ineffective in stopping the imminent risk of bodily harm to the student or others, except in case of a rare and clearly unavoidable emergency circumstance posing imminent risk of bodily harm, including, without limitation, intervening in a student initiated physical assault or altercation;  
f. For a student with a disability as defined in Chapter 31 of this title or 34 C.F.R. Part 104, the physical restraint does not contravene provisions in an individualized education program (IEP), behavior intervention plan, accommodation plan, or any other planning document for the individual student;  
g. Personnel use only the amount of force necessary to protect the student or others from the threatened harm;  
h. The physical restraint ends when a medical condition occurs putting the student at risk of harm or the student’s behavior no longer presents an imminent risk of bodily harm to the student or others;  
i. The physical restraint is within the scope of force authorized by § 468 of Title 11; and  
j. The physical restraint conforms to applicable regulations promulgated by the Department of Education.  
(c) Department of Education role; regulations. — (1) The Department of Education shall promulgate regulations implementing this section. Such regulations shall include, but not be limited to, the following:

b. Requirement of timely parental notice in event of use of physical restraint;  
c. Special procedures and safeguards applicable to use of physical restraint for students with disabilities as defined in Chapter 31 of this title or 34 C.F.R. Part 104; and  
d. Recommended or required training of public school personnel in implementing this section.  
(2) To facilitate data collection and analysis, the Department of Education may adopt a uniform reporting document and may require reporting of data in a standardized electronic or nonelectronic format.  
(3) The Department of Education shall issue an annual report on use of physical restraint which includes rates of usage by school and by subcategories identified in paragraph (c)(1)a. of this section, identifies trends, and analyzes significant results.  
(4) Unless proscribed by federal law, the Secretary of Education may issue a waiver of the prohibition on mechanical restraint and seclusion for an individual student based on compelling justification and subject to specific conditions and safeguards which must include a requirement of continuous visual staff monitoring and parental notice of each use of mechanical restraint or seclusion.  
(d) School resource officer training. — Training and reporting related to employees, contractors, or subcontractsors excluded from the definition of “public school personnel” under paragraph (a)(4) of this section shall be governed by this subsection. This subsection shall be limited to those employees, contractors, or subcontractors who will assist with or independently intervene with students with disabilities, which shall include all students eligible to be identified as students with disabilities under Individuals with Disabilities Education Act (IDEA) [20 U.S.C. § 1401 et seq.], § 504 of the Rehabilitation Act of 1973 [29 U.S.C. § 794] and The Americans with Disabilities Act (ADA) [42 U.S.C. § 12101 et seq.].  
(1) Employees, contractors, and subcontractors governed by this subsection shall annually receive the following awareness training from their school district or charter school:

b. Best practices for de-escalation techniques in a school setting.  
c. Information on intervention decisions and techniques used by school personnel in a school setting.  
d. Such other training as is necessary to protect the health and well-being of students with disabilities as promulgated in implementing regulation, which shall include basic awareness training specific to individualized education programs (IEP), functional behavior assessments and behavior support plans.  
e. This training shall include references as to how it relates to school resource officer (SRO) duties and responsibilities outlined in their employment contract and school district or charter school memorandum of agreement (MOA). This training shall be consistent with the annual training already provided to school district or charter school educators.  
(2) Employees, contractors, and subcontractors, governed by this subsection shall annually participate in the SRO training provided by the State Police or equivalent training provided by the police department employing the SRO in the school district or charter.  
(3) Prior to the start of each school year, or as soon as practical, an SRO shall meet with a representative of each building in which
they are assigned to be familiarized with behaviors related to disabilities that may occur in the school and typical responses that may be taken by school personnel in that school.

(4) Reporting and notification practices for incidents involving employees, contractors, or subcontractors covered by this subsection shall be consistent with reporting and notification requirements for school personnel, and shall include a police report identification number where a police report exists.

(5) Each school district or charter school which contracts with SROs shall have a MOA consistent with the MOA template as required by Department of Education regulation with the agency which employs or manages those sworn officers.

(6) School districts or charter schools shall not contract with or employ individuals who are covered by this subsection, but do not comply with the training requirements set out herein.

(7) Department of Education role and regulations. — a. The Department of Education shall develop, promulgate, and update regulations for this subsection in collaboration with the Governor’s Advisory Council for Exceptional Citizens (GACEC).

b. Timelines for implementation and training shall be primarily based on protecting the health and welfare of children with disabilities.

c. To the greatest extent practical and appropriate, such regulations shall be consistent with and integrated with the regulations for the remainder of this section.

(8) Funding for training and implementation shall be derived from existing resources.

(9) Nothing in this subsection shall be interpreted as creating any additional restriction on the sworn authority of law-enforcement officers or their ability to carry out their required sworn duty.

e. Effect on other laws. — The limitations and prohibitions described in this section are in addition to, and not in derogation of, any other constitutional, statutory, or regulatory rights otherwise conferred by federal or state law or regulation.

In instances where the driver of a motor vehicle fails to comply with the lawful directions or signals of a school crossing guard, or otherwise violates a lawful ordinance or statute, the school crossing guard may report such driver to the appropriate police authorities. If the identity of the driver is not otherwise apparent, it shall be a rebuttable presumption that the person in whose name the vehicle is registered, to whom a rental vehicle is leased or whose name appears on a company’s records as driving a company car is responsible for the violation.

The principal of each school may issue passes for school bus transportation to certain pupils who have chosen to drive a private vehicle, for use on a temporary and emergency basis; and may also set aside a specific number of parking spaces for use on a temporary and emergency basis by pupils who originally chose transportation by school bus.

§ 4118. Parents as Teachers Program.

(a) The General Assembly finds and declares as follows:

1. The home environment and parental attitudes about the value of education can have a significant effect on a child’s ability or desire to learn.

2. A well-substantiated body of research on how children learn and grow clearly indicates that a child’s most productive and influential years of learning occur before the age of 5.

3. Experts in child development generally agree that 50 percent of intelligence, and the great majority of language skills, are developed by age 4, and that these, along with the establishment of curiosity and social skills, lay the foundation for all further learning.

4. Failure in the early years to develop adequately in these areas has been shown to lead directly to underachievement and failure in the elementary grades and beyond.

5. Most of the children headed for academic difficulty at age 6 and beyond are, by age 3, already significantly behind their peers.

6. The potential dropout often comes from a home in which well-intentioned but untrained parents have not gained, or do not use effectively, their personal resources to adequately nurture in their child the intellectual and social skills required for success in the early grades.

7. Parents are the first and most influential teachers in their child’s life and a free developmental resource for their child.

8. Neither public nor private institutions are systematically providing a meaningful number of Delaware parents with research-based, up-to-date instructions in giving their children the best possible beginning.

9. Delaware’s current Parents as Teachers Program was first initiated approximately 15 years ago by Joe Cobb, an elementary school principal and long-time Delaware educator, who recognized such in-home early education efforts as investments in our children’s futures.

10. The family is the proper and most influential first educational delivery system for the child.

11. Evidence exists that a child’s early experiences can significantly enhance or inhibit development and learning. It is both educationally sound and most cost-effective for schools to work cooperatively with the home during the crucial first years.

12. High quality parenting can be one of this country’s greatest national resources. It is a learned skill that can be improved for the benefit of the individual family and for our society.

(b) The Parents as Teachers Program is hereby established under the auspices of the Department of Education and shall be coordinated through 1 or more local school boards. The Department of Education shall establish programs to train parents as teachers. The Program shall address the educational needs of targeted parents of children and shall contain the following elements:

1. The use of individuals who are professionally trained in child development and parenting.

2. The provision by participating school systems of instruction in child development and parenting, on a voluntary enrollment basis, to targeted parents of children from infancy through age 3. The Program shall be provided in homes and other appropriate community settings in a cost-effective, accessible and convenient manner.

3. The Program shall include all of the following:

   a. Timely and practical information and guidance on development in language, cognitive and social skills.

   b. Instruction in the effective use of community parenting resources, including developmental and medical screening and, as needed, early intervention for children through the first 3 years of life, contingent on the availability of resources and the level of voluntary parental participation.

   c. Regular visits to the home of each participating parent, as part of that course of instruction by 1 or more of the qualified educators administering the course.

   d. Services shall be focused and targeted, to the extent possible, to parents of at-risk children.

   e. Coordination, where appropriate, with other programs in other state agencies, which serve this population.

(c) At least every 3 years, the Department of Education shall solicit proposals and shall select participants for the Program. The request for proposals shall require participants to demonstrate all of the following:

1. Ability to provide training for the Parents as Teachers Program.

2. Evidence of significant local support for the project from school system administrators and local school boards and local parent
and children advocacy organizations.

(3) Evidence that services will be provided to a racially, culturally, geographically and economically diverse targeted population.

(d) The Department of Education shall evaluate proposals to insure that the development of parenting skills provided by the program increases:

(1) Intellectual and language development.
(2) Knowledge level of child development and child rearing practices by parents.
(3) Positive feelings about the usefulness of the Program.
(4) Positive attitudes toward the school system.

(e) The Department of Education shall require applicants selected for the grant program, as a condition for the receipt of grant proceeds, to participate in in-service training programs.

(f) The implementation of the Parents as Teachers Program shall be subject to specific annual appropriation in the annual appropriations act.

§ 4119. Metal detectors.

The school board of each school district shall have authority to employ the use of metal detectors, or any other similar security devices, to prevent pupils from bringing dangerous instruments, deadly weapons or any other contraband into the schools. Any school board exercising its authority under this section shall promulgate rules and regulations governing the implementation and use of such security devices.

(69 Del. Laws, c. 120, § 4; 81 Del. Laws, c. 122, § 2.)

(a) The school board of each public school district shall have authority to establish and enforce a dress code program, which may include school uniforms, for students within the district to promote an orderly, disciplined school environment and to encourage uniformity of student dress. Any school board exercising its authority under this section shall promulgate rules and regulations governing the establishment and enforcement of its dress code program.

(b) In establishing a dress code that adopts school uniforms, the rules and regulations of the school board shall ensure that any uniform required is available at an affordable price, and shall include provision to assist economically disadvantaged students in obtaining school uniforms.

(70 Del. Laws, c. 69, § 1; 81 Del. Laws, c. 122, § 2.)

§ 4121. Video cameras on public school property.

The school board of each school district shall have authority to establish and implement programs to use video cameras for surveillance on public school property, including, but not limited to, classrooms, halls, auditoriums, cafeterias, gymnasiums and parking areas, for the purpose of monitoring student behavior to help ensure the safety of students and teachers. However, no video camera shall be used for classroom surveillance, pursuant to this section, unless the principal of the school and the teacher of the classroom consent to the surveillance.

Before exercising its authority under this section, a school board shall promulgate rules and regulations governing the implementation and use of video cameras in classrooms. However, in no event shall video cameras be used at any time or at any location which would violate a student’s reasonable expectation of privacy including, but not limited to, locker rooms, areas where students may disrobe and lavatories.

(b) When a parent fails to attend, participate or respond to a public school or charter school superintendent’s request for a conference to discuss matters involving alleged violations of school rules or regulations by the parent’s child, the public school or charter school superintendent or the superintendent’s designee may request that the Justice of the Peace Court issue a subpoena to compel the presence of the parent at a conference with the superintendent.

(c) Prior to the issuance of a subpoena to compel the presence of a parent, the superintendent or a designee must provide evidence that the superintendent or a designee has:

(1) Made a reasonable attempt to schedule the conference at a time that does not conflict with the employment hours of the parent; and

(2) Sent written notice of the conference by regular United States mail to the address of record of the parent, which notice shall include the reason for the conference and a statement that failure to schedule or attend the conference may result in the issuance of a subpoena.
(d) After verifying that the superintendent or a designee has sent the required notice, the Justice of the Peace Court may, in its discretion, issue a subpoena pursuant to Justice of the Peace Civil Rule 18 which shall compel the presence of the parent at a conference with the superintendent.

(e) If a parent fails to obey a subpoena properly served under this section, the superintendent may file a motion for an order holding the parent in contempt of court. The Justice of the Peace Court shall have jurisdiction over this matter. A parent found guilty of contempt for failure to appear at a conference after receiving a subpoena may be ordered by the Court to attend school with the student, attend family counseling, and/or comply with such other conditions as the Court may order.

(f) Proceedings against a parent of a suspended or expelled child may also be filed pursuant to subchapter II of Chapter 27 of this title for each day that the child is absent beyond the period of suspension or expulsion without a valid excuse as a result of the parent’s failure to attend or schedule a conference after having received notification of the suspension or expulsion.

specified in subsection (a) of this section and the application form developed by the Department of Education. This application shall include the delineation of any unmet funding needs related to, but not limited to, additional program and personnel costs to conduct the planned activities. 3. The parent/guardian’s decision regarding disclosure will not affect the child’s eligibility for free or reduced price meals or free milk.

(d) In connection with the disclosures required by subsection (c) of this section, the school district shall give the parent/guardian an opportunity to elect not to have information disclosed to DHSS.

(e) Prior to August 1, 2008, each school district shall enter into a written, signed agreement with DHSS stating that:

§ 4201. Legislative intent.

The Delaware Center for Educational Technology is intended to create a modern educational technology infrastructure in Delaware’s public schools for the purpose of enabling students, through the use of technology, to meet the academic achievement standards set by the State of Delaware through the Department of Education and its State Board of Education and to develop the skills needed by a world-class workforce. To these ends, the General Assembly intends for the Delaware Center for Educational Technology to concentrate on the deployment of technology at the school level in a way that will be of maximum effect in improving teaching and learning in Delaware schools. The General Assembly expressly desires to avoid the creation of bureaucracies that duplicate functions of the Department of Education and local school districts and intends that the Delaware Center for Educational Technology operate as an efficient organization making maximum use of existing staff and expertise of state agencies and school districts.

(70 Del. Laws, c. 111, § 1; 71 Del. Laws, c. 180, §§ 176, 177.)

§ 4202. Delaware Center for Educational Technology.

There is hereby established the Delaware Center for Educational Technology (Center). The Center shall be a public education agency, created for the purpose of coordinating the use of technology by Delaware’s several school districts, the Department of Education and any other organization, public body or other entity specifically designated by the General Assembly for the purpose of carrying out the public education of citizens of Delaware.

§ 4203. Duties and authorities.

To achieve the purposes set forth in § 4201 of this title:

(1) The Center shall be responsible for deploying and/or assisting in the deployment of educational technology to enable students, through the use of technology, to meet the academic achievement standards set by the State of Delaware through the Department of Education and its State Board of Education and to develop the skills needed by a world-class workforce.

(2) The Center shall be responsible for providing support to the several school districts and to the Department of Education for the acquisition, implementation and operation of: telecommunications systems and networks; computers; audio and video equipment; transmission equipment and such other equipment and processes necessary to provide modern telecommunications and computing resources. The Center shall also provide support for the training of public education employees in the use, operation and maintenance of such equipment and processes.

(3) The Center shall have the capacity to sue and be sued, and the Center and its employees shall be entitled to the same privileges and immunities of any political subdivision of the State pursuant to the Tort Claims Act, Chapter 40 of Title 10.

(4) The Center shall consult with and coordinate its activities with the Government Support Services Section of the Office of Management and Budget. Notwithstanding the previous sentence, the Center shall be subject to the same procurement and purchasing policies as required by Title 29 of Chapter 69.

(5) The Center shall be subject to the provisions of subchapter IV of Chapter 63 of Title 29 [see now the Department of Technology and Information in Chapter 90C of Title 29], as directed by the Office of Information Systems. The Center shall ensure the ability of public school districts to transmit and receive information in formats acceptable to parties that require access to administrative or educational information as determined by the Governor, the General Assembly or the Department of Education.

(6) The Center, in partnership with the Department of Education and the Office of Information Systems, is authorized to establish statewide policies and procedures for the access of state-provided computer networks. This includes, but is not limited to, acceptable use and copyright policies. Statewide policies will be developed through a collaborative process involving major education constituencies. School districts may develop more restrictive policies and procedures, but school districts may not modify their procedures to bypass state requirements.

(70 Del. Laws, c. 111, § 1; 71 Del. Laws, c. 180, §§ 176-178; 73 Del. Laws, c. 143, § 3; 74 Del. Laws, c. 68, § 342; 75 Del. Laws, c. 88, §§ 16(2), 22(2); 77 Del. Laws, c. 84, § 386.)

§ 4204. Finances of the Center.

(a) The Center shall be authorized to receive state appropriations, federal moneys, and local school district funding and shall follow state and federal policies and procedures for the investment of such funds.

(b) The Center shall be authorized to establish special fund accounts for the purpose of receiving donations, grants, gifts and such other
contributions that may be presented to it for use in the conduct of its business, subject to approval of the State Clearinghouse Committee. These accounts shall be interest-earning. The Center may accept such restrictions as the grantor or grantors may impose; provided, however, that no such restrictions contravene the laws of the State. These accounts shall be subject to audit by the State Auditor.

(c) The General Assembly intends that any funding provided to the Center shall augment, rather than replace, funding for existing programs. Toward this end, any funds provided to local education agencies by the Center shall not be used to reduce expenditures from funds received by districts from other funding sources, including but not limited to: State appropriations, federal grants, local district funding and other nonpublic funding sources.

(70 Del. Laws, c. 111, § 1.)

§ 4205. Reporting requirements.

The strategic plan shall include suggested performance measures and shall identify with specificity a strategy to deploy educational technology to meet the duties set forth in § 4203 of this title.

(b) On or before September 1 of each year subsequent to 1995, the Center shall report to the Governor, the General Assembly, the Department of Education and the State Board of Education on its progress toward meeting the objectives set forth in its strategic plan, on any update to its strategic plan, on the status of any of its other activities and on the disbursement of moneys for the purposes specified in this chapter. Included in this report shall be plans for future activities, with a detailed implementation schedule, cost estimates and grant/contribution projections.

(c) The Center shall provide the Joint Finance Committee with reports from time to time regarding the Center’s activities and coordination with other state agencies and related organizations including, but not limited to, the Office of Information Systems, the Department of Education and local school districts. On or after 3 years from June 27, 1995, the Joint Finance Committee shall review the Center’s activities and progress in meeting the objectives of this chapter.

(70 Del. Laws, c. 111, § 1; 71 Del. Laws, c. 180, §§ 176, 179; 77 Del. Laws, c. 84, § 386.)

§ 4206. Technology block grants.

This act creates a Technology Block Grant to be administered by the Delaware Center for Educational Technology (DCET) and the Department of Education (DOE). DCET shall administer a noncompetitive application process to determine grant awards to local school districts and charter schools. Funds provided by this act shall be used for the purpose of supporting the maintenance, replacement, personnel and/or contractual requirements to maintain a system of technology within the school districts. Such funding distribution shall be calculated using a funding formula based on a per pupil cost of technology maintenance. Notwithstanding the formula, each district shall be guaranteed a minimum level of block grant support. The formula developed shall be approved by the co-chairs of the Joint Finance Committee. It shall be the responsibility of the Department of Education, in consultation with DCET, to receive and disburse the block grant funds. The Department shall also be charged with the authority to verify the use of the funds and shall require each school district to annually report on expenditures of the funds.

(b) The principal of such bonds shall be payable solely from University funds (other than state appropriated funds) specifically pledged in each case by said Board by resolution, and the adoption of such resolution shall fully perfect such pledge for all purposes. No part of the revenues or funds of the University from other sources shall in any manner be expended for the purpose of paying such principal and interest.

(c) The bonds of each issue shall be dated, shall bear interest at such rate or rates per annum, payable semiannually, shall mature at such time or times and may be made redeemable before maturity at such price or prices and under such terms and conditions as may be fixed by the Board of Trustees prior to the issuance of the bonds. The principal and interest of such bonds may be made payable in any lawful
medium. The Board of Trustees shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix
the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof which may be at any
bank or trust company within or without the State.

d) The bonds shall be signed by the President of the Board of Trustees, or shall bear the facsimile signature of the President of the
Board of Trustees, in which latter event such bonds shall be authenticated by the manual signature of an officer of a bank or trust company
appointed by resolution of the Board of Trustees as fiscal agent in connection with the bond issue, and the seal of the University, or
facsimile thereof, shall be affixed to the bonds and shall be attested by the Secretary of the Board of Trustees, which attestation may, if the
bonds are authenticated as above provided, be by facsimile signature of the Secretary of the Board of Trustees; and any coupons attached to
the bonds shall bear the facsimile signature of the President of the Board of Trustees. In case any officer whose signature or a facsimile
thereof shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or facsimile
shall nevertheless be valid and sufficient for all purposes the same as if the officer had remained in office until such delivery.

e) All revenue bonds issued under this chapter shall have, and are declared to have, as between successive holders, all the qualities and
incidents of negotiable instruments under the law of this State.

f) Such bonds and the income therefrom shall be exempt from all taxation by the State or by any political subdivision, agency or
authority thereof.

g) The bonds may be issued in coupon or in registered form or both as the Board of Trustees may determine and provision may be made
for the registration of any coupon bond as to principal alone and also as to both principal and interest, and for the reconversion of any
bonds registered both as to principal and interest into coupon bonds.

h) The Board of Trustees may sell such bonds either at public or private sale in such manner and for such price as it may determine to
be for the best interests of the University.

i) The proceeds of such bonds shall be used solely for the payment of the cost of the specified capital improvements and shall be

j) Prior to the preparation of definitive bonds, the Board of Trustees may, under like restrictions, issue temporary bonds, with or without
coupons, exchangeable for definitive bonds upon the issuance of the latter. The Board of Trustees may also provide for the replacement of
any bond which shall become mutilated or be destroyed or lost.

proceedings, conditions and things which are specified and required by this chapter.

   a. A law-enforcement officer as defined in § 9200(b) of Title 11.
   b. An employee or contractor providing educational services within a Department of Correction or Division of Youth Rehabilitative Services facility.

(3) “School bus safety camera system” means a camera placed on the exterior of a school bus that is designed to capture a recorded image that clearly identifies the license plate number of the motor vehicle that fails to stop when a school bus is stopped and displays flashing lamps to take on or discharge school children.

(4) “School district” means Red Clay Consolidated School District.

(82 Del. Laws, c. 240, § 1; 83 Del. Laws, c. 67, § 1.)

§ 8002. Purpose.

The purpose is to implement a pilot program that utilizes school bus safety cameras to issue civil violations to individuals who fail to stop when a school bus is stopped and displays flashing lamps to take on or discharge school children. If this program is successful in helping to protect students, this may become a program that it utilized statewide. This program further funds itself with revenue from the civil violations and will create additional funds to spread public awareness of the dangers of failing to stop when a school bus is stopped and displays flashing lamps to take on or discharge school children.

(82 Del. Laws, c. 240, § 1; 83 Del. Laws, c. 67, § 1.)

§ 8003. School bus safety camera systems.

(a) The school district may enter into an agreement with a private vendor or manufacturer to provide a school bus safety camera system on each bus utilized by the school district, whether the bus is owned, contracted, or leased, up to and including the installation, operation, and maintenance of the systems.

   (1) Any school bus utilizing the school bus safety camera system must display at a minimum, a strip of, yellow and black, high-intensity, reflective conspicuity adhesive tape on the front and the back of school bus stating, “Violation for Passing When Red Lights Flashing”.

   (2) While utilizing the school bus safety camera systems, the school district must make at least 1 public service announcement each year warning the public in the school district that the school bus safety camera system is being utilized by the school district and that there is at least a $100 fine associated with illegally overtaking and passing a school bus utilizing the school bus safety camera system.

(b) Reimbursement. — The fines collected through the implementation of school bus safety camera systems shall be used to reimburse the private vendor or manufacturer and the school district for the cost of installation, operation, and maintenance of the systems, requirements as listed in § 8803(a) of this title, to cover additional costs related to the administration of the program, and transportation safety related costs.

(c) Liability. — The owner or operator of a vehicle approaching a school bus from the front or from the rear who has failed to stop when a school bus is stopped and displays flashing lamps to take on or discharge school children as evidenced by information obtained from a school bus safety camera system, shall be subject to a civil or administrative assessment of $100 for a first offense, which shall increase to $500 for each subsequent offense within 10 years of the prior offense or offenses; provided, however, that the school district may provide for an additional assessment not to exceed $10 if the civil or administrative assessment is not paid within 20 days, which assessment may be increased to an amount not to exceed $20 if the assessment is not paid within 45 days, and may be increased to an amount not to exceed $30 if the assessment is not paid within 90 days. Court costs or similar administrative fees not to exceed $35 may also be assessed against an owner or operator who requests a hearing to contest the violation and is ultimately found or pleads responsible for the violation or who fails to pay or contest the violation in a timely manner. No assessments and court costs other than those specified in this subsection may be imposed. A violation for which a civil assessment is imposed under this subsection shall not be classified as a criminal offense and shall not be made a part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance. Assessments collected as a result of a traffic control signal monitoring system shall be paid to the
school district, after first being applied to reimburse the private vendor or manufacturer and the school district for their costs of administering such systems. This subsection does not apply to an owner or operator of a vehicle on a roadway with 4 or more lanes approaching a school bus from the front.

(d) **Summons and notice of violation.** — Any nonresident owner or operator of any motor vehicle which is operated or driven on the public streets, roads, turnpikes, or highways of the school district is deemed to have submitted to the jurisdiction of the Delaware courts for purposes of this section. Notwithstanding any other provision of the Delaware Code, a summons for a civil violation of this section may be executed by mailing to any Delaware resident or nonresident by first-class mail a copy thereof to the address of the owner of the vehicle as shown on the records of the Division of Motor Vehicles of this or any other state, as appropriate. Collection actions, including default judgment and execution, may proceed based upon jurisdiction obtained through the mailing by first-class mail of a summons and subsequent court notices pursuant to this subsection. Every initial mailing shall include the:

1. Name and address of the owner of the vehicle;
2. Registration number of the motor vehicle involved in the civil violation;
3. Civil violation charges;
4. Location where the civil violation occurred;
5. Date and time of the civil violation;
6. A copy of a photograph of the registration number of the motor vehicle involved in the civil violation and reference to where recorded video images taken as proof of the civil violation can be accessed by the owner of the motor vehicle;
7. Amount of the civil assessment imposed and the date by which the civil assessment should be paid;
8. Information advising the summoned person of the matter, time and place by which liability as alleged in the notice may be contested, and warning that the failure to pay the civil assessment or to contest liability in a timely manner is an admission of liability and may result in a judgment being entered against the summonsed person or the denial of the registration or the renewal of the registration of any of the owner’s vehicles; and
9. Notice of the summonsed person’s ability to rebut the presumption that the summonsed person was the operator of the vehicle at the time of the alleged violation and the means for rebutting such presumption.

(e) **Payment by voluntary assessment.** — Persons electing to pay by voluntary assessment shall make payments to the school district. Procedures for payment under this subsection shall be as provided by the school district.

(f) **Procedures for contest the civil violation.** — A person receiving the summons pursuant to this subsection may request a hearing to contest the civil violation by notifying, in writing, the school district within 20 days of the date of the summons. Upon receipt of a timely request for a hearing a civil hearing shall be scheduled and the defendant notified of the hearing date by first-class mail. A civil hearing shall be held by the Justice of the Peace Court servicing the school district. The hearing may be informal and shall be held in accordance with Justice of the Peace Court Rules. Additional administrative collection processes may be established by court rule, policy directive, regulation, code, or ordinance, as applicable. Costs for such hearing shall not be assessed against the prevailing party. There shall be no right of transfer to the Court of Common Pleas.

(g) **Failure to pay or successfully contest the violation.** — If the owner or an operator identified by the owner fails to pay the civil penalty by voluntary assessment, request a hearing within the required time, or submit an affidavit stating that the owner or operator identified was not the driver, or if the owner or operator identified by the owner is found responsible at a hearing and fails to pay as ordered by the Court, or requests a hearing and fails to appear they will be considered in non-compliance. Upon receiving a record of non-compliance, the Clerk may enter a civil traffic judgment against the owner or operator in the amount of the civil penalty, costs, and any applicable penalty amounts, giving credit for any amount paid. Such judgment may, upon motion, be transferred by the Court to the civil docket. Any judgment so transferred may be executed and enforced or transferred in the same manner as other judgments of the Court and the school district shall have authority to seek such execution, enforcement or transfer.

(h) **Proof of civil violation.** — Proof of a civil violation of this subsection shall be evidenced by information obtained from a school bus signal violation monitoring system authorized pursuant to this subsection. A certificate, or facsimile thereof, based upon inspection of photographs, microphotographs, videotape or other recorded images produced by a school bus signal violation monitoring system shall constitute prima facie evidence of the facts contained therein, if the certificate, or facsimile thereof, is sworn to or affirmed by a technician that is Red Clay Consolidated School District personnel authorized to impose assessments pursuant to this section. Any photographs, microphotographs, videotape or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation pursuant to regulation, ordinance, or other law adopted pursuant to this section.

(i) **Presumptions.** — The owner of any vehicle found to be in violation of this chapter shall be held prima facie responsible for such civil violation in the same manner as provided for under § 7003 of Title 21, unless the owner can furnish evidence that the vehicle was, at the time of the civil violation, in the care, custody or control of another person. Such presumption shall be rebutted if the owner does any of the following:

1. Furnishes an affidavit by regular mail to the entity indicated on the summons that the owner was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person or company who leased, rented or otherwise had the care, custody or control of the vehicle, or attaches a certified copy of a police report showing that the vehicle or license plate or plates thereof had been reported to the police as stolen prior to the time of the alleged violation of this section.
(2) Provides proof in court that the owner was not the operator of the vehicle at the time of the alleged violation. A summons may be issued to a person identified by affidavit or evidence in court as the actual operator of the vehicle shown to have violated the school bus signal. There shall be a presumption that the person so identified was the driver. The presumption may be rebutted as described in this subsection.

(j) Notwithstanding any other provision in this section, if the motor vehicle which is found by the school bus safety camera system to have failed to comply with a school bus signal is commercially licensed, then the owner of that vehicle shall be sent notice of the date, time, and location of the violation with 2 photographs thereof. Within 10 days of the receipt of said notice, the owner of the vehicle shall provide the school district with the name and address of the driver of the vehicle at the date, time, and location of the violation and, within the same time period, shall provide the driver of the vehicle with the photographs of the violation. After receipt by the school district of the name and address of the driver of the vehicle at the time of the violation, the driver of the vehicle shall be prima facie responsible for such violation in the same manner as provided for under § 7003 of Title 21 and shall be subject to the provisions of this section. Failure of the owner of the vehicle found to be in violation of subsection (d) of this section to provide the name and address of the driver at the time of the violation within the period prescribed shall cause the owner to be held responsible as set forth in paragraph (d)(5) of this section.

(k) Any person found responsible for a bus safety camera violation shall have a right of appeal only in those cases in which the civil penalty imposed exceeds $500, upon giving bond with surety satisfactory to the judge before whom such person was found responsible, such appeal to be taken and bond given within 15 days from the time of the finding of responsible. Such appeal shall operate as a stay or supersedes all proceedings in the court below in the same manner that a certiorari from the Superior Court operates. The taking of such appeal shall constitute a waiver by the appellant of the appellant’s right to a writ of certiorari in the Superior Court. Additional penalty assessments for late payment/response shall be included.

COMPACT FOR EDUCATION

Whereas, the proper education of all citizens is one of the most important responsibilities of the States to preserve a free and open society in the United States; and

Whereas, the increasing demands of our whole national life for improving and expanding educational services require a broad exchange of research data and information concerning the problems and practices of education; and

Whereas, there is a vital need for strengthening the voices of the States in the formulation of alternative nationwide educational policies, The States affirm the need for close and continuing consultation among our several States on all matters of education, and do hereby establish this Compact for Education.

ARTICLE I. PURPOSE AND POLICY

A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional, educational and lay leadership on a nationwide basis at the State and local levels;

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education;

3. Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education;

4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

B. It is the policy of this Compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

As used in this Compact, “State” means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

ARTICLE III. THE COMMISSION

A. The Education Commission of the States, hereinafter called “the Commission,” is established. The Commission shall consist of 7 members representing each party State. One of such members shall be the Governor; 2 shall be members of the State legislature selected by its respective houses and serving in such manner as the legislature may determine; and 4 shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. If the laws of a State prevent legislators from serving on the Commission, 6 members shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the Governor, having
responsibility for 1 or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed 10 nonvoting commissioners selected by the steering committee for terms of 1 year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

B. The members of the Commission shall be entitled to vote each one on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the Commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to paragraph J. of this Article.

C. The Commission shall have a seal.

D. The Commission shall elect annually, from among its members, a chair, who shall be a Governor, a vice chair and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate, shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

E. Irrespective of the civil service, personnel or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for the personnel policies and programs of the Commission.

F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of 2 or more of the party jurisdictions or their subdivisions.

G. The Commission may accept for any of its purposes and functions under this Compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph F. of this Article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

ARTICLE IV. POWERS

In addition to authority conferred on the Commission by other provisions of the Compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources;
2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems;
3. Develop proposals for adequate financing of education as a whole and at each of its many levels;
4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this Compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private;
5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials;
6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this Compact.

ARTICLE V. COOPERATION WITH FEDERAL GOVERNMENT

A. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission but not to exceed 10 representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.
ARTICLE VI. COMMITTEES
A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a Steering Committee of 32 members which, subject to the provisions of this Compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-fourth of the voting membership of the Steering Committee shall consist of Governors, one-fourth shall consist of Legislators, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the Steering Committee, but without vote. The voting members of the Steering Committee shall serve for terms of 2 years, except that members elected to the first Steering Committee of the Commission shall be elected as follows: 16 for one year and 16 for 2 years. The chair, vice chair, and treasurer of the Commission shall be members of the Steering Committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the Steering Committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than 2 terms as a member of the Steering Committee; provided that service for a partial term of one year or less shall not be counted toward the 2-term limitation.

B. The Commission may establish advisory and technical committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to 2 or more of the party States.

C. The Commission may establish such additional committees as its bylaws may provide.

ARTICLE VII. FINANCE
A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

C. The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to paragraph G. of Article III of this Compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to paragraph G. of Article III of this Compact, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

F. Nothing contained in this Compact shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

ARTICLE VIII. ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL
A. This Compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term “Governor,” as used in this Compact shall mean the closest equivalent official of such jurisdiction.

B. Any State or other eligible jurisdiction may enter into this Compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least 10 eligible party jurisdictions shall be required.

C. Adoption of the Compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his or her State a party only until December 31, 1967. During any period when a State is participating in this Compact through gubernatorial action, the Governor shall appoint those persons who, in addition to the Governor, shall serve as the members of the Commission from the Governor’s State, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him or her.

D. Except for a withdrawal effective on December 31, 1967 in accordance with paragraph C. of this Article, any party State may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

ARTICLE IX. CONSTRUCTION AND SEVERABILITY
(a) This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the Constitution of any State or of the United States, or the applicability thereof to any Government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this Compact
shall be held contrary to the Constitution of any State participating therein, the Compact shall remain in full force and effect as to the State affected as to all severable matters.

(b) There shall be a Delaware Educational Council to consist of:
   (1) The Governor or the Governor’s designated alternate;
   (2) The Chair of the Senate Committee on Education;

(c) The members of the Delaware Educational Council shall also be the Delaware members of the Educational Commission of the States as provided for in Article III of the Compact for Education.

(14 Del. C. 1953, § 8201; 55 Del. Laws, c. 373; 56 Del. Laws, c. 12, §§ 1, 2; 70 Del. Laws, c. 186, § 1.)

Subchapter II

Interstate Agreement on Qualification of Educational Personnel

In accordance with the terms set forth in § 8213 of this title, this State may enter into interstate agreements on educational personnel. Such agreements, properly entered into by the designated state officials, shall be considered as a contract between this State and such other states legally joining therein in the form set forth in § 8213 of this title.

(14 Del. C. 1953, § 8211; 57 Del. Laws, c. 155, § 4.)

§ 8212. Designated state official and official copies of contract.

The “designated state official” for the State shall be the Secretary of Education. The Secretary of Education shall enter into contracts pursuant to this subchapter only with the approval of the State Board of Education. True copies of all contracts made on behalf of this State pursuant to the agreement set forth in § 8213 of this title shall be placed on file in the office of the Secretary of Education, in the office of the Secretary of State and in the office of the chief state school officer in such other state as is party to the contract. Reference to the existence of such contracts, including at least a list of states involved and the teaching fields or certificates referred to in each state, shall be published regularly in such certification manuals as may from time to time be published by the Department of Education.

§ 8213. Interstate Agreement.

ARTICLE I PURPOSE, FINDINGS AND POLICY

(A) The States party to this Agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the States party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

(B) The party States find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from State to State in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational resources.

ARTICLE II DEFINITIONS

As used in this Agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. “Educational personnel” means persons who must meet requirements pursuant to State law as a condition of employment in educational programs.

2. “Designated State Officials” means the education official of a State selected to negotiate and enter into, on behalf of such official’s State, contracts pursuant to this Agreement.

3. “Accept,” or any variant thereof, means to recognize and give effect to 1 or more determinations of another State relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving State.

4. “State” means a State, territory, or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico.
5. “Originating State” means a State (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III of this Agreement.

6. “Receiving State” means a State (and the subdivisions thereof) which accepts educational personnel in accordance with the terms of a contract made pursuant to Article III of this Agreement.

ARTICLE III INTERSTATE EDUCATIONAL PERSONNEL CONTRACTS

A. The designated State official of a party State may make 1 or more contracts on behalf of such official’s State with 1 or more other party States providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the States, and the subdivisions of those States, whose designated state officials enter into it with the same force and effect as if incorporated in this Agreement. A designated State official may enter into a contract pursuant to this Article only with States in which such official finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical, to that prevailing in the official’s own State.

B. Any such contract shall provide for:
   1. Its duration.
   2. The criteria to be applied by an originating State in qualifying educational personnel for acceptance by a receiving State.
   3. Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.
   4. Any other necessary matters.

C. No contract made pursuant to this Agreement shall be for a term longer than 5 years but any such contract may be renewed for like or lesser periods.

D. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this Agreement shall require acceptance by a receiving State of any persons qualified because of successful completion of a program prior to January 1, 1954.

E. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving State.

F. A contract committee composed of the designated State officials of the contracting States or their representatives shall keep the contract under continuous review, study means of improving its administration, and report at least once a year to the heads of the appropriate education agencies of the contracting States.

ARTICLE IV APPROVED AND ACCEPTED PROGRAMS

A. Nothing in this Agreement shall be construed to repeal or otherwise modify any law or regulation of a party State relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that State.

B. To the extent that contracts made pursuant to this Agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

ARTICLE V INTERSTATE COOPERATION

The party States agree that:
   1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this Agreement.
   2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

ARTICLE VI AGREEMENT EVALUATION

The designated State officials of any party States may meet from time to time as a group to evaluate progress under the Agreement, and to formulate recommendations for changes.

ARTICLE VII OTHER ARRANGEMENTS

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party State or States to facilitate the interchange of educational personnel.

ARTICLE VIII EFFECT AND WITHDRAWAL

A. This Agreement shall become effective when enacted into law by 2 States. Thereafter it shall become effective as to any State upon its enactment of this Agreement.

B. Any party State may withdraw from this Agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States.
C. No withdrawal shall relieve the withdrawing State of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

ARTICLE IX CONSTRUCTION AND SEVERABILITY

This Agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Agreement shall be severable and if any phrase, clause, sentence, or provision of this Agreement is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the validity of the remainder of this Agreement and the applicability thereof to any Government, agency, person, or circumstance shall not be affected thereby. If this Agreement shall be held contrary to the constitution of any State participating therein, the Agreement shall remain in full force and effect as to the State affected as to all severable matters.

One teacher of the year may be selected to represent all of the charter schools in the State. The selection process will follow the guidelines developed by the Department of Education which includes input from teachers, administrators and Department of Education staff. After the buildings make their individual selections, the district-wide teacher of the year shall be selected from each district, following the current guidelines. The final step will be the selection of the state “teacher of the year.”
(67 Del. Laws, c. 165, § 1; 71 Del. Laws, c. 180, § 192; 73 Del. Laws, c. 74, § 352.)

§ 9201. Legislative findings; declaration of purpose; construction of chapter.

(a) The General Assembly makes the following findings:

(1) For the benefit of the people of the State, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills;

(2) To achieve these ends it is of the utmost importance that students attending institutions of higher education located in the State have reasonable financial alternatives to enhance their access to such institutions;

(3) Reasonable financial access to institutions of higher education will assist such youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills;

(4) There exists a serious problem in this State regarding the ability of students to obtain financing for the cost of education beyond the high school level;

(5) Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education;

(6) Without the public action contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education;

(7) It is in the interests and welfare of the citizens of the State to provide a means for assisting students to continue their education; and

(8) It is necessary to create a Higher Education Supplemental Loan Authority to encourage the investment of private capital in the provision of funds for the financing of student loans.

(b) The General Assembly declares its legislative purpose to:

(1) Provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in the State appropriately and prudently to finance the cost or a portion of the cost of such higher education;

(2) To supplement federal guaranteed higher education loan programs, other student loan programs and grant or scholarship programs to provide the needed additional options for the financing of a student’s higher education in execution of the public policy recited herein; and

(3) Cause the establishment of the Authority for the benefit of the people of the State, for the improvement of their education, health and welfare, and for the promotion of the economy.

(c) The Authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it and this chapter shall be liberally construed to effect its purposes.

(2) The interest, income and profits, if any, earned or realized on any investment may also be applied to the payment of the outstanding bonds to be refunded.

(3) After the terms of the escrow have been fully satisfied and carried out, any balance of proceeds and interest, income and profits, if any, earned or realized on the investments shall be returned to the institution for use by it in any lawful manner.
Refunding bonds shall be subject to this chapter in the same manner and to the same extent as other bonds issued under this chapter. (63 Del. Laws, c. 378, § 1.)

INDEX DERIVATION:

b) Twelve-month salaries shall be determined by multiplying the appropriate 10-month salaries by 1.2.

c) The salary paid to any Salary Plan A employee shall be determined as follows:

1. Placement on the index for any Salary Plan A employee shall be based on the employee's actual degree, additional credits, and years of relevant experience as certified by the college on July 1 of the current fiscal year. Advancement for additional degrees and credits completed on and after that date and through December 31 will become effective on January 1. Advancement in any of these areas after January 1 will become effective for salary purposes on July 1 of the following fiscal year.

2. For Fiscal Year 1995, the minimum increase for a Plan A employee shall be 1.5 percent of the employee's Fiscal Year 1994 salary.

3. The Board of Trustees of the College may certify that specific instructional positions are in scarce supply and shall report that determination to the Secretary of the Department of Human Resources, the Director of the Office of Management and Budget and Controller General. After such certification, new hires on the Salary Plan A schedule who are to be engaged in positions of scarce supply may be offered a salary by the Board of Trustees that exceeds the scheduled salary by up to 15%.

d) During fiscal year 1989, new hires in Salary Plan A shall not receive salaries in excess of the lowest paid employee occupying a cell with the same or higher index value, unless the provisions of subsection (d) of this section have been duly invoked.

(e) The salary paid to any Plan B employee shall be paid in accordance with a merit system comparable pay system. Such a system shall be subject to the following provisions:
(1) For salary purposes, the 37.5 hour merit salary schedule shall be the pay plan for Plan B employees. Salary adjustments shall be granted under the same conditions as listed in § 8(d)(1)(ii) of 70 Del. Laws, c. 118.

(2) a. The class specifications for positions occupied by Delaware Technical and Community College Plan B employees shall be assigned paygrades comparable to the Merit System pay plan using the same criteria authorized by the Department of Human Resources for Merit System positions.

b. Periodic classification maintenance reviews shall be processed under the normal Department of Human Resources maintenance review processes. Critical reclassifications shall be processed under the same general system as the Merit System, subject to final approval of a committee composed of the President of the College, Secretary of the Department of Human Resources, Director of the Office of Management and Budget and Controller General.

(3) The College is authorized to hire at up to 100% of the midpoint of an assigned paygrade upon the signature of the appropriate Vice President and Campus Director; hiring beyond the 100% of midpoint shall require the signatures of the Secretary of the Department of Human Resources, Director of the Office of Management and Budget and Controller General.

(4) Selective market variation and any other special considerations relative to standard compensation exceptions shall be handled in accordance with hiring/compensation procedures outlined in the Merit System.

(5) Vacation and sick leave policies shall remain at the discretion of the College.

(6) Part-time employees' salaries shall not exceed the hourly rate of the grade assigned to comparable full-time employees.

(7) The College may compensate Plan B employees for additional degrees earned. This compensation shall be in the form of a 1-time bonus not added to the employee's base rate, and not paid out of state funds. The College may also provide such additional compensation to Plan B employees as authorized by the Board of Trustees. This compensation shall not be added to the employee's base rate, and shall not be paid out of state funds. This supplement and any 1-time bonus shall not be considered within the pension definitions stated in § 5501(c)-(f) of Title 29, § 5600(3) of Title 29, and § 8351(2) of Title 11.

(8) The College shall retain the ability to underfill any position and to advance any employee in an underfilled position, upon determination of satisfactory performance, to the paygrade to which the position is assigned.

(9) Employee benefits paid by a college plan in addition to state benefits shall remain at the discretion of the College.

(h) The salary plan for administration shall cover full-time employees of Delaware Technical and Community Colleges not covered by Salary Plan A or Salary Plan B. The compensation of an employee on the Administrative Salary Plan (Plan D) shall be computed as follows:

The following words and phrases when used in this chapter shall have the meanings given to them in this section unless the context clearly indicates otherwise:

“Hazing” means any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student or which wilfully destroys or removes public or private property for the purpose of initiation or admission into or affiliation with, or as a condition for continued membership in, any organization operating under the sanction of or recognized as an organization by an institution of higher learning. The term shall include, but not be limited to, any brutality of a physical nature, such as whipping, beating, branding, forced calisthenics, exposure to the elements, forced consumption of any food, liquor, drug or other substance, or any other forced physical activity which could adversely affect the physical health and safety of the individual, and shall include any activity which would subject the individual to extreme mental stress, such as sleep deprivation, forced exclusion from social contact, forced conduct which could result in embarrassment, or any other forced activity which could adversely affect the mental health or dignity of the individual, or any wilful destruction or removal of public or private property. For purposes of this definition, any activity as described in this definition upon which the admission or initiation into or affiliation with or continued membership in an organization is directly or indirectly conditioned shall be presumed to be “forced” activity, the willingness of an individual to participate in such activity notwithstanding.
(68 Del. Laws, c. 400, § 1.)

(b) Enforcement and penalties. — (1) Each institution shall provide a program for the enforcement of such rules and shall adopt appropriate penalties for violations of such rules to be administered by the person or agency at the institution responsible for the sanctioning or recognition of such organizations.

(2) Such penalties may include the imposition of fines, the withholding of diplomas or transcripts pending compliance with the rules or pending payment of fines and the imposition of probation, suspension or dismissal.

(3) In the case of an organization which authorizes hazing in blatant disregard of such rules, penalties may also include recision of permission for that organization to operate on campus property or to otherwise operate under the sanction or recognition of the institution.

(4) All penalties imposed under the authority of this section shall be in addition to any penalty imposed for violation of paragraph (b)(3) of this section or any of the criminal laws of this State or for violation of any other institutional rule to which the violator may be subject.
