After the bonds are awarded or sold to the successful bidder or bidders therefor, the county government shall return to the unsuccessful bidder or bidders the certified check or checks submitted with the bid or bids.

§ 566 Rejection and acceptance of bids; opinion required.

Such contract or contracts shall contain the provisions required by § 569 of this title and shall be substantially in accordance with the proposal or suggested contracts originally submitted by the petitioners in accordance with § 553 of this title. The contract or contracts need not be let upon a competitive bid basis. The county government may, in its discretion, request a statement of financial condition, or such other evidence of financial responsibility as it shall deem appropriate, from the owner or operator of said local water distribution system or the owner’s or operator’s agents.

§ 568 Payment to contractor.

The county government shall withhold 10 percent of all payments made under the terms of the contracts until final certification by the county engineer that the work has been satisfactorily completed, in compliance with the terms of the contract.

The improvement or improvements shall, however, remain the property of the county and, except as otherwise provided in such contract or contracts, shall be subject to the control of the county government.

(b) Any duly organized fire company, including volunteer fire companies, may inspect and test all fire hydrants and all water mains serving such hydrants located within the area that such company already operates and shall report its findings to the State Fire Marshal, the owners or operators of the water distribution systems serving such fire hydrants and water mains and to the municipality or local government having jurisdiction over such water system. (a) Not later than 30 days after the date of receipt by the county government of the final contract costs from the county engineer, but in no event later than 8 months after the sale of the bond issue, the county government shall make a special assessment or levy upon all real property of every freeholder in the suburban community which is assessable and taxable. Such assessment shall be made in such a manner that the real property of each freeholder of the community, upon the basis of all front footage within the area to be protected by the improvements, shall equitably bear its pro rata share of the costs of the improvement or improvements. In cases of irregular corner properties, the county engineer shall determine the footage in the area to be protected that shall be considered as front footage. The sum total of all assessments or levies, so made, shall equal the total amount of the final contract cost, together with all interest accruing on the full amount of the bond issue until maturity.

(b) If final contract costs are not determined within the aforementioned 8 month period, the county government shall make a temporary special assessment or levy upon the basis of the contract bid, together with all interest accruing on the full amount of the bond issue until maturity. The temporary special assessment shall be adjusted when final contract costs are known.

(c) If moneys from the general fund of the county government are used as permitted by § 562(c) of this title, the special assessment shall be determined on the basis of final contract costs plus interest. The interest rate in such case shall be the average rate of all interest on bonds issued for similar purposes during the previous calendar year. All interest collected from such special assessments shall be deposited in the special sinking fund account provided for in § 576 of this title.

(d) In making such special assessment or levy the county government shall prepare an assessment roll which shall describe each lot or parcel of real property in the suburban community in such manner that the same may be ascertained and identified and shall show the name or names of the reputed owner or owners thereof and the aggregate amount of the assessment levied upon such lot or parcel of land, and shall file such assessment roll so prepared in the office of the clerk of the county government. Before finally adopting such assessment roll, the county government shall hold a public hearing. Notice of such public hearing shall state that the assessment roll has been completed and filed in the office of the clerk of the county government where it may be examined by any person interested and, that at the time and place fixed for the public hearing, the county government will meet and hear and consider any objections which may be made to such assessment roll. Notice of the public hearing shall be published in a newspaper published within the county and having a general circulation therein, once in each of the 2 weeks immediately preceding the week in which the public hearing is to be held. § 571 Determination of portion of total assessment payable annually; special lien; payment.

(a) After the county government has determined the total amount of the special assessment to be levied, it shall promptly seek the advice of at least 2 responsible brokers or bankers in this State accustomed to dealing in municipal, school or county bond issues as to what proportion of his or her total assessment or levy shall be paid annually by each freeholder in the suburban community until the maturity of the bond issue, bearing in mind the terms and conditions of the particular issue, and whether all the bonds mature on the same day or are to be retired serially or by lot, as the case may be.

(b) Having determined upon such proportionate annual amount of payment as will adequately insure the payment of the principal and interest upon the bonds, the county government shall meet and, by resolution, declare the amount of the assessment or levy against the property of each freeholder a lien and fix the proportionate amount of the assessment or levy against each such property or properties to be paid annually by each freeholder.

Part II
New Castle County
Chapter 11
County Executive and County Council
Subchapter I
Powers of the Government of New Castle County

§ 1101 General powers.
(a) Granted. — The Government of New Castle County as established by this chapter shall assume and have all powers which, under the Constitution of this State, it would be competent for the General Assembly to grant by specific enumeration, and which are not denied by statute, including, but not limited to, any powers conferred prior to May 26, 1965, by the General Assembly upon New Castle County, or upon the Levy Court of New Castle County, or upon the Levy Court Commissioners of New Castle County, or upon the officers or employees of New Castle County, or upon counties generally, or upon Levy Court Commissioners generally. This grant of power includes the power to fix the tax rate upon the assessed valuation of all real property in New Castle County subject to assessment by the County. This grant of power further includes the power to fix the fees of the Recorder of Deeds in New Castle County for services, any statute denying such right to the contrary notwithstanding. This grant of power further includes the power to impose a surcharge on any application for a building permit issued by New Castle County in an amount not to exceed .5% of the residential construction value and of the first million dollars of commercial construction value applicable to said building permit application, to provide funding for volunteer fire companies except that this surcharge shall not be added to building permits applied for by an organization exempt from tax under § 501(c)(3) of the federal Internal Revenue Code [26 U.S.C. § 501(c)(3)] which provides owner-occupied housing to low and moderate income households by rehabilitating residential properties and reselling said properties without profit, nor to the Delaware State Housing Authority nor to any applicant funded by the Delaware State Housing Authority. This grant of power does not include the power to enact private or civil law concerning civil relationships, except as incident to the exercise of an expressly granted power, and does not include the power to define and provide for the punishment of felonies. This grant of power shall also include the power to impose and collect a tax upon the transfer of real property situate within the unincorporated areas of the County, subject to the conditions and limitations provided in § 8102 of this title.

(b) Construction. — The powers of New Castle County shall be construed liberally in favor of the County, and specific mention of particular powers in this title shall not be construed as limiting in any way the general powers stated herein.

§ 1102 Transfer of functions.
(a) The term “local service function,” as used in this chapter, shall mean a local governmental service, or a group of closely allied governmental services, performed by New Castle County, or by a municipality within New Castle County, for its inhabitants and for which, under constitutional and statutory provisions and judicial interpretations, the County, or any municipality as distinguished from the State, has a primary responsibility for provision and financing. Without in any way limiting the foregoing, the following are examples of local service functions:

1. Planning and zoning including subdivision regulations;
2. Adoption and enforcement of ordinances and regulations for the protection of persons and property from hazards in the use, occupancy, condition, alteration, maintenance, repair, sanitation, removal and demolition of buildings and structures or any parts thereof and grounds appurtenant thereto, in the operation of equipment therein, and of outdoor signs including, but not limited to, zoning ordinances and regulations thereunder, building codes and regulations thereunder, plumbing codes and regulations thereunder or other such codes;
3. Programs for redevelopment, low rent housing and urban renewal;
4. Parks and park related activities and recreational programs;
5. Police protection;
6. Fire protection;
7. Public works including, but not limited to, maintenance and operation of sanitary and storm sewers, drainage systems, sewage disposal facilities, refuse disposal facilities, including trash and garbage collection disposal;
8. Lighting of streets, roads, alleys, and other public places;
9. Maintenance and operation of water supply system;
10. Library services.

(b) The term “municipality,” as used in this chapter, shall mean any municipal corporation located within New Castle County, and incorporated pursuant to law by the General Assembly of this State, which performs for its residents any local service function and pays the cost thereof out of its own revenue sources.
(c) Except as provided under subsection (e) of this section, responsibility for a local service function or a distinct activity or portion thereof exercised by a municipality located within New Castle County, may be transferred to the County by the concurring affirmative action in the form of an ordinance of the County Council of New Castle County and of the governing body of the municipality concerned. Responsibility for a local service function or a distinct activity or portion thereof not exercised by New Castle County, or by a municipality located within New Castle County, as of January 3, 1967, or exercised by New Castle County as of January 3, 1967, may be transferred to a municipality located within New Castle County by the concurring affirmative action in the form of an ordinance of the County Council of New Castle County and of the governing body of the municipality concerned.

(d) The expression of official action transferring a local service function shall make explicit:

(1) The nature of the local service function transferred;
(2) The effective date of such transfer;
(3) The manner in which affected employees engaged in the performance of the function will be transferred, reassigned or otherwise treated;
(4) The manner in which real property, facilities, equipment or other personal property required in the exercise of the function are to be transferred, sold or otherwise treated;
(5) The method of financing to be used in the exercise of the function received;
(6) Other legal, financial, and administrative arrangements necessary to effect transfer in an orderly and equitable manner.

(e) Notwithstanding any other provision of law, for fire protection that is partially financially supported but not directly provided by New Castle County and that is also partially financially supported but not directly provided by a municipality, New Castle County shall convert the net New Castle County fire protection cost into a real property tax rate for each municipality and the unincorporated area under its jurisdiction that does not directly provide fire protection by calculating all of the following for each municipality and the unincorporated area:

(1) The “service area share”, which equals the taxable assessed value of real property within the municipality or the unincorporated area not directly providing fire protection divided by the sum of the taxable assessed value for all real property in the unincorporated area and all municipalities not directly providing fire protection.
(2) The “apportioned gross amount”, which equals the service area share multiplied by the net New Castle County fire protection cost for fire protection.
(3) The “net New Castle County fire protection cost”, which is New Castle County’s contribution of funds or in-kind services to volunteer fire companies within New Castle County, increased by indirect costs applicable to fire protection and decreased by service charges, grants, or other revenue that New Castle County directly attributes or otherwise apportions to fire protection.
(4) The “credit percentage”, which equals the municipality’s actual direct contribution of funds or in-kind contributions of goods or services to a volunteer fire company in the previous year, divided by the municipality’s apportioned gross amount. The “credit percentage” may not exceed 100%. The “credit percentage” is 0% for the unincorporated area.
(5) The “New Castle County fire protection percentage”, which equals 100% minus the municipality’s or the unincorporated area’s credit percentage. The “New Castle County fire protection percentage” for the unincorporated area is 100%.
(6) The “weighted service share”, which equals the municipality’s or the unincorporated area’s service area share multiplied by the municipality’s or the unincorporated area’s New Castle County fire protection percentage.
(7) The “total weighted service amount”, which equals the sum of the weighted service shares.
(8) The “final service weight”, which equals the municipality’s or the unincorporated area’s weighted service share divided by the total weighted service amount.
(9) The “apportioned net fire protection cost”, which equals the final service weight multiplied by the net New Castle County fire protection cost for fire protection.
(10) The “individual fire protection tax rate”, which equals the municipality’s or the unincorporated area’s apportioned net fire protection cost divided by the taxable assessed value of real property in the respective municipality or the unincorporated area. This calculation may be adjusted to raise sufficient revenues after accounting for the historical county-wide level of nonpayment of county real property tax.

§ 1103 Exercise of powers.

All powers of the government of New Castle County shall be carried into execution as provided by this title or by other law of this State or if this title or other law of this State makes no such provision, as provided by ordinance or resolution of the County Council of New Castle County.

§ 1111 Election and term.

(a) At the first general election in November following May 26, 1965, and each fourth year thereafter, a County Executive shall be elected at large from New Castle County, except that if such first general election is in a nonpresidential election year, then the County Executive...

§ 1112 Qualifications.

The County Executive shall be a citizen of the United States, a qualified elector of New Castle County, and shall have been a resident of New Castle County for at least 5 years immediately preceding his or her election. The person appointed by the Governor to be acting County Executive shall meet all eligibility requirements to be a candidate for that office.

(b) Whenever a vacancy in the office of County Executive occurs for any reason, within 10 days following the creation of the vacancy, the President of County Council shall deliver to the Department of Elections for New Castle County a writ of election reporting the existence of the vacancy and requesting that a special election be scheduled to fill the same.

(c) On the next day after receiving a writ of election, unless the same shall be Saturday, Sunday, or a legal holiday, and then on the next business day following, the Department of Elections for New Castle County shall post a proclamation reciting the writ and appointing a day for holding a special election, at the following locations:

(1) On the outside of the door of the New Castle County Courthouse;

(e) Any political party eligible to have a candidate listed on a ballot in the most recent general election preceding the creation of the vacancy may select a candidate to be listed on the ballot for the special election. (f) To the greatest extent feasible, the Department of Elections for New Castle County will use the same polling places as used in a general election; provided, however, that the department may require voters from multiple election districts to use a single polling place and, in the event a normal polling place is not available to be used on the day of the special election, may use as polling places buildings which are not normally used as polling places.

Budgeting

§ 1131 Separate budgeting for local service functions performed by the County outside of the limits of municipalities.

(a) The Chief Administrative Officer and the County Executive, in the preparation of the annual operating budget, shall divide and segregate in a separate budget, entitled Local Service Function Budget, all expenditures for the performance of local service functions which are not performed by the County within the limits of any municipality. The Chief Administrative Officer and the County Executive, in the preparation of the Local Service Function Budget, shall specify separately the total appropriation required for the performance of each local service function, including appropriations for Supporting Services, which is not performed by the County within the limits of any municipality. The County Executive, in estimating the revenues necessary for the payment of the cost of each such local service function, shall not include in the estimate any estimated revenues to be derived from ad valorem taxation of real property within any municipality which performs such function independently for its residents and pays the cost thereof out of its own revenue sources.

(b) The County Executive shall submit to the County Council a proposed revenue ordinance which will achieve sufficient revenues to balance the total operating budget, including the Local Service Function Budget. The County Executive in the preparation of the proposed revenue ordinance shall not, and the County Council and the County Executive in the enactment of the annual revenue ordinance shall not, impose ad valorem taxation on real property within any municipality to pay the cost of any local service function if such function is performed by the municipality for its residents, paid out of municipal revenues and the fact that the service is being provided is validated by County Council.

(c) The provisions of subsections (a) and (b) of this section shall not be applicable:
In any instance where a municipality initiates the performance of, or exercises responsibility for, a local service function, without the affirmative action in the form of an ordinance of the County Council of New Castle County, and

(2) To the cost of operation by the County of park and recreational facilities which are not local in nature and which serve the metropolitan area; and

(3) To any municipality not expending funds in the previous fiscal year for the given local service or not adequately performing the function.

(d) The Chief Administrative Officer and the County Executive, in the preparation of the annual operating budget, shall divide and segregate in a separate budget entitled General Operating Budget all expenditures not properly allocable to the Local Service Function Budget or other operating budget fund. The County Council in estimating the revenues which will be necessary for the payment of these expenditures shall include the estimated revenues to be derived from county-wide ad valorem taxation of real property.

(e) The County Executive in the preparation of the proposed revenue ordinance, and the County Council and the County Executive in the enactment of the annual revenue ordinance, shall uniformly impose ad valorem taxation on real property within the County to pay the cost of the General Operating Budget.

§ 1132 Preparation of the annual operating budget; distribution of budget requests; completed forms; preliminary budget; preliminary budget hearings; operating budget; distribution of operating budget.

(a) The Chief Administrative Officer shall annually, not later than January 1, distribute budget request forms to the County Council and for each office, department, board, or agency which is receiving or seeking to receive an appropriation from the County Council payable from any operating fund of the County.

(b) County Council and the heads of all offices, departments, boards or agencies shall enter upon the budget request forms requests for appropriations for the ensuing year and such supporting information as the Chief Administrative Officer shall have specified. The Chief Administrative Officer shall establish deadlines for the presentation of completed forms by such time and in such manner as necessary for the timely preparation and presentation of the annual operating budget.

(c) The Chief Administrative Officer shall prepare a preliminary budget for the consideration of the County Executive. The preliminary budget shall include all budget requests, the recommendations of the Chief Administrative Officer with respect to each request, an estimate of the receipts from each source of revenue, and a statement of the total estimated income and the total recommended expenditures for each operating fund.

(d) The County Executive shall review the preliminary budget and may hold hearings thereupon at which the head of all offices, departments or boards may be given an opportunity to be heard with respect to their requests. The Chief Administrative Officer shall thereupon prepare the operating budget as directed by the County Executive. The operating budget shall be presented to the County Council by the County Executive, together with a budget message outlining the County Executive’s reasons for the requested appropriations, and shall be accompanied by proposed revenue and operating budget ordinances to give effect to the budget as presented. If the estimated revenue from existing sources is deemed by the County Executive to be insufficient to balance the budget, the County Executive shall recommend revenues sufficient to achieve a balanced budget.

(e) The proposed ordinance for the operating budget shall provide appropriations in a lump sum under the following classes for each office, department, or board to which appropriations are made:

(1) Personal services of officers and employees;
(2) Contractual services;
(3) Training;
(4) Communications and utilities;
(5) Materials and supplies;
(6) Equipment;
(7) Grants and fixed charges;
(8) Debt services;
(9) Such other general classes as the County Executive or the County Council may annually establish.

(f) The operating budget and the proposed revenue and operating budget ordinances shall be submitted to the County Council not later than April 1. Sufficient copies of the operating budget shall be supplied by the County Executive to the Clerk of the County Council for distribution to members of the County Council and to interested citizens.

§ 1133 Administration and enforcement of the operating budget ordinance; adoption of operating budget; allocations and allotments; approval of allocations and allotments; revisions.

(a) The adoption of the operating budget ordinance shall constitute an appropriation of the sum specified in the budget for the purpose and from the funds indicated. Such appropriation shall be considered valid only for the year for which made, and any part of such appropriation which is not encumbered or expended shall lapse at the end of the year.
(b) Following the adoption of the operating budget ordinance, the Chief Administrative Officer shall determine, with the approval of the County Executive, such allocation or allotment procedures as deemed appropriate for a proper administration of the budget. The head of each office, department, or board shall submit to the Chief Administrative Officer such work programs and requests for allocations and allotments as deemed appropriate for the most efficient and effective operation of each office, department or board.

(b) Within 3 years after the commencement of the system of government provided in this chapter and at least every 10 years thereafter, the County Council shall provide for the preparation of a general codification of all county ordinances having the force and effect of continuing law. The general codification shall be adopted by the County Council by ordinance and shall be published promptly in bound or loose-leaf form, together with pertinent provisions of the Delaware Code and any amendments thereto, pertinent provisions of the Constitution and other laws of this State applicable to New Castle County, and such codes of technical regulations and other rules and regulations as the County Council may specify. finance the cost of any object, program or purpose for which New Castle County, or any officer, department, board or agency thereof, is by

connection with the creation of debt, and in addition, shall have the power to authorize the issuance of bonds of New Castle County to

recommendations. Not later than 60 days after the receipt of such recommendations, the County Council shall adopt them as submitted

recommendations. (a) (1) The County Council shall exercise all power vested in the Levy Court of New Castle County prior to January 3, 1967, in

(b) Not more than 15 days after receipt from the County Executive of any recommendation of measures for the establishment or

or in such amended form as the County Council shall provide. Should the County Council fail to act upon such recommendations within

such 60-day period, its approval shall be presumed and the recommended pay plan or amendment thereto shall become effective as

recommended.

§ 1163 Creation of debt.

(1) The County Council shall exercise all power vested in the Levy Court of New Castle County prior to January 3, 1967, in

connection with the creation of debt, and in addition, shall have the power to authorize the issuance of bonds of New Castle County to

finance the cost of any object, program or purpose for which New Castle County, or any officer, department, board or agency thereof, is by

this title or by any other law, authorized to raise, appropriate or expend money, or for the implementation and performance of functions,

programs and purposes specified in this title, or in any other law, applicable to New Castle County; provided, however, that the County

Council shall not have authority to create or to authorize the creating of any bonded indebtedness for the following purposes: The payment

of any operating expenses; the payment of any judgment resulting from the failure of the County to pay any item of operating expense;

the payment for any equipment or any public improvement of a normal life of less than 3 years. The foregoing limitations shall not apply

should the County Council unanimously declare the existence of an emergency due to public calamity.

(2) The powers conferred by this chapter shall be in addition to and not in substitution for or in limitation of the powers conferred by

any other law. Bonds may be issued under this section for any object or purpose for which the County is by this chapter or any other

law authorized to raise or appropriate or expend money notwithstanding that any other law may provide for the issuance of bonds for

the same or like purposes and without regard to the requirements, restrictions or other provisions contained in any other law. Bonds

may be issued under this chapter notwithstanding any debt or other limitation prescribed by any other law, and the mode and manner

of procedure for the issuance of bonds and the adoption of the ordinance authorizing issuance of the bonds under this chapter need not

conform to the provisions of any other law or any other provision of this chapter.

(3) Bonds issued pursuant to this chapter shall be authorized by an ordinance passed by the County Council with the concurrence

of 5/7 of all of the members elected to the County Council. However, when County Council has more than 7 members, bonds issued

pursuant to this chapter shall be authorized by an ordinance passed by the County Council with the concurrence of 3/4 of all the members

elected to the County Council. Each such ordinance shall state in brief and general terms the objects or purposes for which the bonds

are to be issued and the maximum aggregate principal amount of bonds to be issued for each such object or purpose. Such ordinance,

or a subsequent resolution of the County Council, shall specify, or may delegate authority to the County Executive to determine, the

following: The date or dates of such bonds; the maturity of such bonds; provisions for either serial or term bonds; sinking fund or other

reserve fund requirements, if any; due dates of the interest thereon; the form of such bonds; the denominations and designation of such

bonds; registration, conversion and transfer privileges; provisions for redemption prior to maturity, if any, with or without premium;

limitations with respect to the interest rate or rates on such bonds; the times and place or places within or without this State for the

payment of the principal or interest on the bonds; the method of execution of the bonds; provisions for the consolidation of bonds

authorized for several objects and purposes pursuant to 1 or more ordinances into 1 consolidated issue; provisions for the receipt and

deposit or investment of the good faith deposit pending delivery of such bonds; provisions for the public or private sale of the bonds as

hereinafter provided; provisions for the replacement of lost, stolen, mutilated or destroyed bonds; and such other terms and conditions

of such bonds and of the issuance and sale thereof as the County Council may determine to be in the best interests of the County. Debt

incurred by the County Council pursuant to this chapter may be represented by uncertificated obligations of the County Council which

may be authorized in accordance with the same procedures applicable to bonds which are permitted to be issued under this chapter,

and the County Council by resolution may determine, or it may delegate authority to the County Executive to determine, all procedures

appropriate to the establishment of a system of issuing uncertificated debt.

(4) The bonds authorized by each ordinance shall mature as may be determined by the County Council but in any event not later than

30 years after the date of the bonds; provided, however, that the last maturity of bonds issued to finance any single water improvement

costing over $5,000,000 may mature not later than 40 years after the date of such bonds.

(5) Bonds issued pursuant to this chapter shall be sold by the County Executive at public sale upon sealed proposals after at least

10 days’ notice published at least once in 1 newspaper published in New Castle County and in a financial journal published in the
City of New York, at such price and upon such terms, conditions and regulations as the County Council may prescribe; provided, that the County Council may authorize the County Executive to sell such bonds at public or private sale upon such terms, conditions and regulations as it may prescribe.

(6) The proceeds of the sale of bonds issued under this chapter shall be used only for the object or purpose or objects or purposes specified in the ordinance authorizing such bonds or for the payment of the principal of and interest on temporary loans made in anticipation of the sale of such bonds. If for any reason any part of such proceeds are not applied to or are not necessary for such purposes, such unexpended part of such proceeds shall be applied to the payment of the principal of or interest on such bonds.

(7) a. Bonds shall not be issued pursuant to this chapter if their issuance would increase the aggregate principal amount of all bonds of the County then outstanding to an amount in excess of 3% of the assessed valuation of the real estate taxable by the County. Provided, however, that in computing the outstanding bonds under the previous sentence of this paragraph, there shall not be included therein any bond, notes or other evidences of indebtedness issued, or which may be issued, after January 8, 1968:

1. Under Chapter 23 of this title for the purpose of financing facilities for sanitary districts or under Chapter 5 of this title for the purpose of financing suburban community improvements;
2. Under this chapter or any other provision of law for the purpose of financing the construction or acquisition of sewer or sewage systems, airport facilities or water improvements or supply systems;
3. To the extent of any sinking fund or other reserve fund which will be available for the payment of, and which is pledged to secure, said debt;
4. In anticipation of tax or other revenues pursuant to subsection (c) of this section; or
5. Which do not pledge the full faith and credit of the County.

b. For the purposes of calculating under paragraph (a)(7)a.3. of this section, above, the amount of any sinking or reserve fund which will be available for payment of a debt, such fund shall be counted only to the extent that it is invested in obligations of, or guaranteed by, the United States or any agency or instrumentality thereof and, to the extent that the rate of investment earnings thereon is not fixed or guaranteed, such rate shall be assumed to be 6% per annum.

(8) Whenever the County Council shall have authorized the issuance of bonds by an ordinance adopted pursuant to this chapter, the County may borrow money in anticipation of the issuance of such bonds so authorized and, for such purpose, may issue, and may from time to time, renew negotiable bond anticipation notes of the County, of an aggregate principal amount not exceeding the principal amount of such bonds authorized by such resolution. The County may also borrow money in anticipation of the receipt of grants either from the federal or state government or from any of their agencies, and for such purpose, may issue, and may from time to time, renew negotiable grant anticipation notes of the County in an aggregate amount, including interest thereon to the date of maturity, not greater than the grant or grants in anticipation of the receipt of which the notes are issued. The principal of and interest on the grant anticipation notes shall be payable out of the proceeds of the grant or grants, and the County shall so covenant. With respect to bond anticipation notes and grant anticipation notes, the County Council shall authorize such notes by a resolution or resolutions which shall determine the date of the notes, the date on which such notes are to be payable, the maximum principal amount thereof and the rate or maximum rate of interest to be borne thereby and the manner of their signing. The County Council in such resolution may delegate to the County Executive authority to sell the notes thereby authorized, either at public or private sale, and to determine within the limitations prescribed by such resolution the rate of interest to be borne by such notes and the principal amount thereof. Moneys raised by the issuance of notes in anticipation of the issuance of bonds or in anticipation of the receipt of grants shall be used only to finance the object or purpose for which the proceeds of the bonds or grants, respectively, may be used and such proceeds shall be applied, to the extent necessary, to pay and retire such notes. Notwithstanding any provisions of paragraph (a)(10) of this section, and notwithstanding any other provision of this chapter or any provision of any other law, grant anticipation notes may be made payable from the proceeds of grants and need not pledge the faith and credit or taxing power of the County, and in that case, the notes may not be deemed to constitute an indebtedness of or a charge against the general credit or taxing power of the County within the meaning of any debt or other limitation or any provision of any other law.

(9) The full faith and credit of the County shall be deemed to be pledged for the punctual payment of the principal of and interest on every bond and note issued under this chapter. The County Council shall annually levy and collect a tax ad valorem upon all property taxable by the County sufficient to pay the principal of and interest on each such bond or note as such principal and interest become due; provided, however, such tax may be reduced by the amount of other moneys appropriated and actually available for such purpose or provided for by local or special assessments or local service taxes. Nothing in this subsection shall relieve the government of New Castle from any requirement to levy any local or special assessment or local service tax.

(10) All bonds, notes or other evidences of indebtedness issued pursuant to this chapter shall recite that they are issued for a purpose or purposes as specified in the authorizing ordinance or resolution and that they are issued pursuant to the terms of the Constitution and laws of this State and the County. Upon the sale and delivery of any such bonds, notes or other evidences of indebtedness against payment, such recitals shall be conclusive as to the right, power and authority of the County to issue the same and of the legality, validity and enforceability of the obligation of the County to pay principal of and interest on the same. In case any county official whose signature or a facsimile thereof shall appear on any such bonds, notes or other evidences of indebtedness shall cease to be such officer before the delivery of such obligation, or in case the seal of the County which appears on any such obligation shall change before the

(b) A variance which permits a use otherwise prohibited by any zoning ordinance, code or regulation shall not be valid unless approved by resolution of the County Council. (d) The Board of Adjustment shall not be required to return the original papers acted upon by it, but it shall be sufficient to return certified or sworn copies thereof, or of such portions thereof as may be called for by the writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision reviewed and shall be verified.

(c) The County Council of New Castle County and the Wilmington Institute may enter into continuous contracts, pursuant to resolutions of their respective bodies, with each other and with other persons or corporations, whether public or private, respecting payments of money to be made toward the maintenance and support of a free library for the use of the residents of New Castle County outside the City of Wilmington.

(5) Bonds bearing the signatures of officers in office on the date of the signing thereof shall be valid and binding obligations notwithstanding that before the delivery thereof and payment therefor any or all the persons whose signatures appear thereon have ceased to be officers of the County.

(6) The validity of the bonds shall not be dependent on nor affected by the validity or regularity of any proceeding relating to the matters authorized by subsection (d) of this section. §§ 1901-1903 Fire prevention outside of incorporated towns; county police; powers and duties; mergers [Repealed].

§ 2101 Lighting streets and highways in unincorporated communities and villages; petition.

(a) Upon the petition of a majority of the property owners of any unincorporated community or village in New Castle County, the County Council may enter into a contract with any electric, gas or other lighting companies to light and illuminate the streets or highways running through, bounding and within the community or village, with electric light, gas light, or other illuminant. The petition of the property owners shall set forth the boundary lines of the community to be lighted. Street lights shall be of such candle power, electric or its equivalent in other illuminating mediums, as shall be determined by the County Council. The County Council may enter into contracts for additional lights or may change the location of any lights theretofore located and may levy and collect additional tax for the payment of the same.

(b) For purposes of this chapter, the term “property owner” shall mean a person or entity who owns a fee simple interest in land situated in any unincorporated community or village in New Castle County entitling the owner to sign a petition filed pursuant to subsection (a) of this section and cast 1 vote in favor of or against illuminating streets or highways covered by such petition. In the event that a property is owned by more than 1 person or entity, either as joint tenants with right of survivorship, tenants in common or tenants by the entirety, each such party shall be entitled to cast a proportional vote equal to such party’s proportional interest in and to the jointly-held property, as set forth in the deed of conveyance or other evidence of ownership. If the deed or other evidence of ownership does not set forth each owner’s proportionate interest, each owner’s interest shall be presumed to be equal for purposes hereof. It is the intent of this section that each property shall have no more than 1 vote, and each property owner shall have a vote equal to such property owner’s proportional interest in such property.

§ 2102 Levy and collection of light tax; penalty for late payment.

(a) The County Council, for the purpose of providing street and highway lighting pursuant to § 2101 of this title, shall levy for the installation and maintenance of such lights an annual tax based on the full annual cost of such lighting, plus up to but not exceeding 10% thereof to cover the actual direct and indirect costs of administration and billing. Such tax shall be levied against all properties within the boundary lines of the communities that have submitted petitions under § 2101 of this title. The County Council shall establish the method by which such tax shall be computed and shall adopt and levy annual light tax rates that will yield sufficient revenue to cover the full annual cost of all lighting services, plus up to but not exceeding 10% for the actual cost of administration and billing. No such taxes shall be levied against farm land.

(b) Such taxes shall be collected by the same collector, at the same time and in the same manner as other county taxes. If such taxes are not paid by the date set for the payment of other taxes, penalty shall accrue thereon in the manner and at the rate specified in § 8604(a) of this title.

(c) If the County Council receives a petition for street lighting from any community and the contract for such street lighting is entered after the commencement of the county’s fiscal year, the Department of Finance may, at the same times established for supplemental assessments in § 8339 of this title, levy and bill a supplemental light tax to the property owners within such community, computed in the same manner as all other light tax bills, reduced at the rates specified in § 8340 of this title.

(d) All taxes levied under this chapter shall be considered real property taxes and, as provided in § 2901(a) of Title 25, shall constitute and remain a statutory lien on such property, together with any penalties that may accrue thereon, until such taxes and penalties are paid in full. Such lien shall enjoy the priority established for governmental liens by § 2901 of Title 25.

§ 2103 Light tax; administration of fund; surplus.

The Department of Finance of New Castle County shall receive all light taxes collected, shall keep them in a separate account, and shall pay them out only upon orders signed by the County Executive and approved by the Department. The Department shall receive or charge no compensation for the performance of any duty required of it or New Castle County under this chapter, beyond that expressly authorized by § 2102 of this title. If, after payment of all contracts entered into pursuant to this chapter, there remains a surplus in the light account, the surplus shall be applied to reduce the light tax rate for the succeeding taxable year.

§ 2104 Removal of lights.

Lights installed under the provisions of this chapter shall be removed only by ordinance of County Council or upon its direction after receipt of a petition, signed by a majority of the property owners within the bounds of any lighted community or village, requesting such
removal. No such ordinance or petition shall be considered by County Council at any time within 3 years after the date of the first light tax billing issued after the installation of such lights. After the removal of such lights, no light tax shall be levied against properties within the bounds of the community or village identified in the ordinance or petition. In the event that such lights are removed, County Council shall not refund any light tax that has been levied for the fiscal year during which the lights are removed.

Any such contract may contain other and different provisions relative to the kind and character of sewage to be disposed of and treated and the compensation, if any, to be paid for such services.

§ 2216 Connection of property with sewers.

Permits for connecting any property by a drain with any county sewer shall be obtained from the County Council and shall be issued only to plumbers licensed to do business in the State. § 2301 Conditions for establishment of sanitary sewer district.

Whenever contiguous territory containing 1 or more centers of population, whether incorporated or not, shall be so situated that the construction of interceptor sewers, outfall sewers and sewage treatment plants will be conducive to the preservation of the public health, the territory shall be established by the County Council as a sanitary sewer district.

§ 2302 Establishment or revision of sanitary sewer districts without election; consolidation of districts.

(a) Where the County Council has already constructed sewers to which 50 or more houses have been connected, the County Council may establish, upon request of the Department of Public Works, a new district or revise the boundaries of an established district without further petitions or hearings by posting at 4 public places in the district notices describing the new or revised boundaries, and, in the case of the establishment of a new district, the same cost and assessment data required for districts established by vote of electors.

(b) Within 30 days after the posting of the notices of the establishment of the district in accordance with the provisions of subsection (a) of this section, the County Council shall pass a formal resolution establishing the district, which shall:

1. Contain a description of the boundaries of the district;
2. Direct the Department of Public Works and the attorney of the County Council to procure the necessary land and rights-of-way by purchase, agreement, or condemnation in accordance with existing statutes; and
3. Authorize the Department of Public Works to prepare maps, plans, specifications, and estimates, let contracts for and supervise the construction and maintenance of, or enlarging and remodeling of, any or all structures required to provide for the safe disposal of the sewage in the sanitary district.

(c) The County Council may consolidate any existing sanitary sewer districts or establish a countywide district following a public hearing. The hearing shall be at such time as may be fixed by the County Council and advertised at least 2 weeks in advance by publishing a notice in a newspaper within the County having a general circulation, once in each of the 2 weeks immediately preceding the week in which the hearing is to be held. All interested persons in any way affected by the proposed consolidation shall be heard. After the public hearing is closed, the County Council shall, by ordinance, determine whether or not it is in the public interest to establish the consolidated district. The ordinance shall specify the boundaries of the consolidated district. The County Council may change or amend the rate of levy as it deems necessary and just.

§ 2303 Establishment of sanitary sewer district upon petition of voters.

Fifty or more legal voters who are residents of a proposed sanitary sewer district, may petition the County Council to submit the question of organizing a sanitary sewer district to a vote of electors residing in that district. The petition shall contain a description of the proposed district and shall be accompanied by a map drawn to scale showing the boundaries of the proposed district together with the limits of any incorporated areas which may be included in the district. The execution of the petition by an elector shall be acknowledged by the elector or it may be proved by the oath of a witness who shall swear that the witness knows the elector and that the petition was signed by the elector in the presence of the witness.

§ 2304 Public hearing; notice.

The County Council, upon receipt of a petition submitted as provided in § 2303 of this title, shall, and the County Council may, upon its own motion and without having received such a petition, set a date for a public hearing on the question of organizing a sanitary sewer district. The hearing shall be held at such time as may be fixed by the County Council and shall be previously advertised by posting a notice, in 4 of the most public places within the proposed district, at least 10 days prior thereto and by publishing a notice in a newspaper published within the County and having a general circulation therein, once in each of 2 weeks immediately preceding the week in which the hearing is to be held. All interested persons, officials, residents, voters, taxpayers, property owners or other persons or corporations in any way affected by the granting of the petition shall be heard on any question dealing with the location of the boundaries of the district. Such notice shall contain a description of the boundaries of the proposed sanitary district and if the public hearing is ordered as a result of the filing of a petition such boundaries shall be those described in the petition.

§ 2305 Action of County Council following hearing.

(a) After the public hearing referred to in § 2304 of this title shall have been closed, the County Council shall, by resolution, determine whether or not it is in the public interest to establish the district and, if it deems it to be in the public interest to establish the district, the Council shall, by such resolution, determine what shall be the boundaries of the district. Such boundaries may be those set forth in the petition or may be boundaries which will include in the district the property and property owners, and only the property and property owners, that will be benefited by the establishment of the district and the construction of sewage disposal facilities therein.

(b) After establishing the boundaries of the district, the County Council shall also cause to be prepared by the Department of Public Works or consulting engineers, an estimate of the cost of proposed immediate construction and also an approximate estimate of the assessment per front foot and the amount to be included in the assessment necessary to take care of interest, amortization and maintenance costs. The construction cost estimates and assessment estimates shall be advertised in the same manner as provided in § 2304 of this title for advertising the public hearing.

§ 2306 Election on question of establishment of district.

(a) Whenever the determination on the question of establishing the district, as required by § 2305 of this title, is in the affirmative, and after the other requirements of that section have been complied with, the County Council then shall cause an election to be held within 6 months following the date of the hearing, at which the question shall be submitted to the voters residing within the boundaries of the sanitary sewer district as fixed by the County Council as to whether the district shall be established or not. Notice of the election shall be advertised in the same manner as provided in § 2304 of this title for advertising the public hearing. The cost of the election shall be borne by the County Council, which shall be reimbursed for such cost by the district, if established by the election.

(b) The proposition shall be submitted to the voters substantially in the following form:

FOR THE SANITARY SEWER DISTRICT

AGAINST THE SANITARY SEWER DISTRICT

(c) The majority of votes cast shall decide the matter.

(d) The election shall be managed and the votes canvassed in such manner as may be prescribed by the County Council. Every citizen who resides in the proposed sanitary sewer district in which the election is being held and who would be entitled at the time of the holding of such election to register and vote in any election district in which the proposed sanitary sewer district is a part, at a general election, if such general election were held on the day of such election in the proposed sanitary sewer district, may vote at such election whether or not the citizen is at the time a registered voter.

§ 2307 Action of County Council following election favoring establishment of district.

(a) If the majority of the voters are in favor of establishing the sanitary sewer district, the County Council shall within 30 days following the election, issue a determination to that effect which shall contain a description of the district. The County Council shall file a certified copy of the determination with the clerk of the peace.

(b) Within 30 days after the election, the County Council shall authorize the Department of Public Works and the County Attorney to procure the necessary land and rights-of-way by purchase, agreement, or by condemnation in accordance with existing laws, and shall authorize the Department of Public Works to prepare maps, plans, specifications and estimates for any or all structures required to provide for the installation of sewers, structures incidental thereto and the safe disposal of the sewage in the district and to let contracts for, supervise the construction and maintenance of, or the enlarging or remodeling of such structures, and to carry on such other activities as may be required by this chapter or considered necessary to perform the duties prescribed in this chapter.

§ 2308 Construction of system adequate for future connections.

The County Council may construct and maintain main sewers and sewage treatment works in order to provide a satisfactory outlet for any subdivision which may at any future time connect submain or lateral sewers to it.

§ 2309 Construction or maintenance of sewers for cities or towns.

The County Council may construct or maintain submains or laterals as agents for cities or towns when officially requested so to act and when the cost of such work is to be borne by local assessments against the property benefited or by assessment by the County Council in the same manner as for unincorporated areas.

§ 2310 Adjustment of assessment for cost of existing sewers included in a district.

In the case where a sanitary sewer district shall include areas wherein sanitary sewers have been constructed under the authority of the County Council, or by incorporated towns, corporations or individuals, the necessary adjustments shall be made with each property owner for those costs already incurred by the property owner when those sewers were constructed. Such excess costs shall be credited to future assessments levied by the district.

§ 2311 Bonds; power to issue; terms.

(a) The County Council may issue bonds of New Castle County to finance the cost of constructing sewage disposal facilities in any sanitary sewer district. The moneys raised by the issuance of such bonds shall be held in a separate account and shall be expended only for the construction of sewage disposal facilities in the sanitary sewer district for which the bonds are issued.

(b) The bonds shall bear interest at the most advantageous rate attainable by the County Council and the income therefrom shall not be subject to state taxation. Each issue of such bonds shall be payable within 30 years after the date of the bonds of such issue. The interest coupons and face amount of the bonds shall be payable at such place or places as the County Council may prescribe. The reasonable expenses of issuing such bonds shall be deemed a part of the cost of constructing the sewer facilities. The full faith and credit of New Castle County shall be pledged to the payment of such bonds and the interest thereon. Debt incurred by the County Council pursuant to this chapter may be represented by uncertificated obligations of the County Council which may be authorized in accordance with the same procedures applicable to bonds which are permitted to be issued under this chapter, and the County Council by resolution may determine, or it may delegate authority to the County Executive to determine, all procedures appropriate to the establishment of a system of issuing uncertificated debt.

§ 2312 Advertising sale of bonds; authority of County Executive.

The County Council shall advertise the bonds for sale in at least 2 issues in each of 2 newspapers, 1 of which shall be a newspaper of general circulation published in the City of Wilmington, and the other a newspaper of general circulation published in the City of New York, inviting bids for the bonds. The advertisements shall state the total amount of the proposed issue, the denominations of the bonds, the place of payment of the bonds and interest, the place and date of opening bids, and the conditions under which the bonds are to be sold. The County Council may give notice of the sale of the bonds in such other manner as it may decide. In addition, the County Council may authorize the County Executive to sell such bonds at public or private sale upon such terms, conditions and regulations as it may prescribe.

§ 2313 Deposit accompanying bids.

The County Council may require each bid for the bonds to be accompanied by a certified check in the amount of the bid. After the bonds are awarded or sold to the successful bidder or bidders therefor, the County Council shall return to the unsuccessful bidder or bidders the certified check or checks submitted with the bid or bids.

§ 2314 Sale of bonds; opinion of County Attorney.

(a) The County Council may reject any and all bids, but in awarding the sale of the bonds, or any of them, they shall be sold to the person, persons, firm or corporation which, in the judgment of the County Council, offers the most advantageous terms.

(b) The bonds shall not be offered for sale until the County Attorney has submitted the County Attorney's opinion in writing that the bonds will, when duly sold, executed, delivered and paid for, be validly issued in accordance with the provisions of this chapter.

§ 2315 Preparation, form and execution of bonds.

The County Council shall direct and effect the preparation and printing of the bonds authorized by this chapter, shall determine whether such bonds shall be registered or bearer with coupons convertible into fully registered bonds and shall prescribe the form of the bonds and, in the case of bearer bonds with coupons, the form of the coupons for the payment of interest thereto attached. The bonds shall state the conditions under which they are issued, the face amount of the bonds and, in the case of bearer bonds with coupons, the coupons thereto attached shall be payable at such place or places as may be designated by the County Council. The bonds shall be signed as prescribed by the County Council.

§ 2316 Annual assessment; procedure for fixing amount.

(a) The County Council each year, at a time to be fixed by it, shall, after a public hearing, establish an annual assessment roll for the sanitary sewer district which shall be known as the “Sanitary Sewer District Assessment.”

(b) The total amount assessed for each year shall be sufficient to provide funds required to reimburse the County for sums to be expended for retiring the bonds which have been issued and for the payment of the interest due on the same and for maintaining or improving the sewerage system and paying the necessary general expenses of the sanitary sewer district.

(c) Notice of the public hearing shall state that the assessment roll has been completed and filed and that at the time and place fixed for the public hearing the County Council will meet and hear and consider any objections which may be made to the assessment roll. Notice of the public hearing shall be published in a newspaper published within New Castle County, and having a general circulation therein, once in each of the 2 weeks immediately preceding the week in which the public hearing is to be held.

(d) After holding the public hearing, the County Council may change or amend the assessment roll as it deems necessary or just, and may confirm and adopt the assessment roll as originally proposed or as amended or changed.

§ 2317 Collection of assessments.

The annual assessments shall be collected by the County Council as are other county taxes. The properties against which such assessments are levied shall be liable for the payment of the assessments in the same manner as they are liable for other county taxes. No assessment shall be made against any property which is not subject to taxation and assessment for county and municipal purposes.

§ 2318 Rules and regulations governing use of sewage disposal facilities.

The County Council may promulgate from time to time and enforce such rules and regulations, as may be necessary, governing the use of the whole or any parts of such sewerage systems or sewage treatment plants constructed under their control either within or without the district.

§ 2319 Grants or loans from federal, state or interstate agencies.

The County Council may accept grants or loans of money, labor, materials, equipment or technical assistance from agencies of the federal or state government or from interstate agencies established by law, to accomplish the purposes of this chapter and may pay the interest and amortization on such loans in the same manner as is authorized in this chapter for bonds.

§ 2320 Validation of prior acts and proceedings.

All proceedings taken and all acts done prior to June 2, 1949, purporting to establish any sanitary district for the purposes set forth in Article 1, Chapter 43, Revised Code of the State of Delaware, 1935, as amended by Chapter 113, Volume 45, Laws of Delaware, by either the County Council of New Castle County or by other officers or agencies of the County, are legalized, validated and confirmed, notwithstanding any error or omission or irregularity in the acts or proceedings, or in any petition submitted to the County Council under such act, or any lack of authority therefor; provided:

(1) The County Council shall have fixed the boundaries of such sanitary district after holding a public hearing at which all interested persons, officials, residents, voters, taxpayers, property owners or other persons or corporations in any way affected were afforded an opportunity to be heard on any question dealing with the location of the boundaries of the district, and

(2) Such public hearing shall have been previously advertised by posting notice thereof in 1 or more public places within such district at least 10 days prior to such public hearing and by publishing a copy of such notice in a newspaper published within New Castle County and having a general circulation therein, once in each of the 2 weeks immediately preceding the week in which such public hearing was held, and

served or may be served by the county sewerage system and upon which lot or parcel of land a building shall have been constructed for residential, commercial or industrial use, to connect such building with such sanitary sewer.

(b) If any owner shall fail to comply within 60 days with such order to connect with a sanitary sewer, the County Council shall forthwith institute action in a Justice of the Peace Court in New Castle County or in the Court of Chancery of the State to compel compliance with such order.

§ 2401 Acquisition of land generally; construction and operation of incineration or garbage disposal plant.

The County Council may acquire land or any interest therein at any place within the County that it deems advisable and may construct and operate upon the land so acquired an incineration or garbage disposal plant or plants. The County Council may enter into contracts and agreements with persons, firms or corporations relative to the purchase of the land and to the building, constructing and equipping of an incineration or garbage disposal plant or plants and may require from such persons, firms or corporations proper security for the faithful performance of the work to be done. The County Council may engage the services of competent architects and engineers in connection with the construction of the plant or plants and shall award any contract to the lowest responsible bidder with the right to reject any and all bids.

§ 2402 Acquisition by purchase or eminent domain; condemnation proceedings.

(a) The County Council may acquire the land or interest therein either by purchase or by the exercise of the right of eminent domain which is expressly granted. In any case in which the County Council considers it necessary to acquire the land or interest therein by the right of eminent domain, the County Council shall proceed in accordance with the procedure prescribed in Chapter 61 of Title 10.

(b) The right of eminent domain granted in subsection (a) of this section shall extend to and include the right to acquire the fee simple title to land, or an easement or a right-of-way in, to, over or above such land or property as the County Council deems necessary.

(c) Upon the institution of condemnation proceedings, the County Council may state in the complaint that the possession, right to enter, or occupancy of the land or interest therein is necessary to the project without delay, and the title to the land in fee simple absolute, or such lesser estate or interest therein, as may be specified, shall immediately pass to and vest in New Castle County, and said lands or interest therein shall be deemed to be condemned and taken for the use of such County, and the right to just compensation therefor shall vest in and to the person or persons entitled thereto. In the event of an immediate taking as specified in this subsection, the Superior Court may fix the time within which and the terms upon which the parties in possession shall be required to surrender possession to the County, and make such orders in respect to incumbrances, leases, taxes, rights, assessments, insurance or other charges, if any, as shall be just and equitable. The right to take possession and title in advance of final order or judgment in condemnation proceedings as provided in this subsection shall be in addition to any right, power or authority conferred by the laws of this State under which such proceedings may be conducted, and shall not be construed as limiting or modifying any such right, power or authority.

§ 2403 Powers of County Council as to operation of plant; regulations and charges for service.

(a) The County Council may enter into contracts, leases or agreements of any nature pertaining to the operation of the incineration and garbage disposal plant or plants, including the right to sell such portion of land acquired as may not be necessary to use. The power to contract shall include the power to contract with any governmental agency of any sort whatsoever and to receive grants-in-aid from any such agency or any other person or organization.

§ 2404 Power to borrow money and issue bonds; interest rates.

The County Council may borrow money upon the faith and credit of the County as provided in this chapter for the purpose of acquiring land and property for the establishment of an incineration and garbage disposal plant or plants and for the construction of such a plant or plants in the County and for the purpose of securing the payment of such sum to issue bonds in such denominations and bearing such rate of interest, not exceeding 5 percent per annum, and in such form as the County Council shall deem expedient. The interest upon said bonds shall be payable semiannually in each and every year after the date of issuance thereof.

§ 2405 Terms of bonds.

The County Council shall decide upon and determine the form and time or times of maturity of the bonds provided that no bond shall be issued for a term exceeding 25 years. The bonds may or may not at the option of the County Council be made redeemable at such time or times before maturity, at such price or prices and under such terms and conditions as may be fixed by the County Council prior

Whenever in the judgment of the County Council it is deemed advisable that any part or all of the bonds shall be sold, the County Council may sell and dispose of the same at public sale after having advertised the same in the public press at least once each week for at least 2 weeks. No commission or other compensation shall be charged or paid to any members of the County Council for effecting the sale or negotiation of such bonds.

§ 2408 Principal and interest payments; taxes.

(a) The principal of and interest on the bonds shall be payable when due and payable from money appropriated from time to time by New Castle County.

No part of the money thus obtained, except as in this section provided, shall be used for any other purpose than those stated in this chapter.

commencing February 24, 2008. New construction shall not be construed as a renovation or modification of a building, or an expansion
or addition to a building which is contiguous to an existing building for which a permanent certificate of occupancy was in effect by
February 24, 2008. A structure shall be considered new construction even if it is physically connected to an existing structure exempt
from the provisions of this section if it is not contiguous to the structure. “Contiguous structures” shall mean at least 2 structures that
share a common wall or floor.

(d) The zoning ordinance and regulations adopted pursuant to this section shall provide that newly constructed buildings of 25,000
square feet of gross floor area or more shall be designed, constructed and/or equipped so that they meet the GAT (Grid Acceptance Test) at
95% compliance for 800 MHz public safety in-building communications coverage. The in-building coverage required under this section
may occur naturally or may require in-building emergency communications equipment as defined in subsection (a) of this section.
(e) No issuing agency shall award a permanent certificate of occupancy unless a building affected under this section meets the GAT 95% coverage requirement. An issuing agency may issue a temporary certificate of occupancy for a period of 3 months if a reasonable effort has been made to meet the requirements under this section prior to the issuance of the temporary certificate of occupancy.

(f) The Delaware Department of Safety and Homeland Security (DSHS), or its designee, shall develop and promulgate rules and regulations for the implementation of the provisions in this section. The Secretary of DSHS shall form an advisory committee consisting of representatives of state agencies and private commercial and industrial building interests to develop the rules and regulations specified in this section. The advisory committee shall be comprised of no more than 16 members which shall consist at least of the following members:

10. A member of the Commercial Industrial Realty Council;
11. Two members at-large to be appointed by the Governor of the State of Delaware.

The remaining members shall be appointed by the Governor and shall represent owners and developers of buildings greater than 100,000 square feet. The Advisory Committee shall expire upon completion and adoption of the rules and regulations under this section, but no later than February 28, 2009.

(g) The rules and regulations promulgated by the Department of Safety and Homeland Security shall not require any building to be certified for 95% in-building coverage until all 800 MHz communications towers within a county, under the Next Generation 800 MHz Project in effect at the time this section is enacted, are fully operational. If a building otherwise subject to the provisions of this section is temporarily exempt from certification under this section due to unfinished towers in a county, the design and construction of a building shall incorporate the means to later install any equipment necessary to meet the 95% GAT in-building coverage requirement. A building temporarily exempted under this subsection shall be certified within 6 months after all Next Generation 800 MHz communication towers are fully operational within a county. The Department of Safety and Homeland Security shall publish, and update, on its website, a map of the State showing those counties in which buildings subject to this chapter must comply with the requirements under this section.

(h) If a building, subject to the provisions of this section, has been certified as meeting the GAT 95% in-building coverage requirement, then persons and/or entities involved in the design, construction, ownership and maintenance of the building shall not be liable for any injury, death or damage that solely and directly results from the acts or omissions in its operation of the State of Delaware 800 MHz Emergency Communications system.

(i) Except as otherwise provided in this section, the following shall be an exception to the provisions of this section:

1. Areas of a building, otherwise subject to the provisions of this Section, where electromagnetic interference (EMI’s) will interfere with the efficient operation of equipment sensitive to EMI’s; and,

§ 2653 Scope of subchapter.

(a) The County shall have power and responsibility:

(1) To plan for their future development and growth.

(2) To adopt and amend comprehensive plans, or elements or portions thereof, to guide their future development and growth.

(3) To implement adopted or amended comprehensive plans by the adoption of appropriate land development regulations or elements thereof. In furtherance of the authority to adopt, amend and implement comprehensive plans or elements or portions thereof to guide and control future growth, counties are expressly granted the authority to develop and adopt regulations governing the transfer of development rights from identified residential and nonresidential districts, zones or parcels of land to residential and nonresidential districts, zones, parcels or areas designated to receive such development rights; provided that such receiving districts, zones or areas are within the same planning district as defined by the county. Such regulations may provide for the establishment of development right banking. Whenever a county exercises its authority to provide for the transfer of development rights it shall:

a. Comply with all requirements of this subchapter pertaining to the amendment of a comprehensive plan;

b. Provide for the transfer of development rights as an option to the use and development of the subject property according to the otherwise applicable zoning ordinance;

c. Limit designation of receiving areas to locations where the county has determined that growth should be encouraged and where a transfer of development rights would not result in the inability of either the existing or planned public facilities which serve the area to accommodate such growth; and

d. Demonstrate that the creation and regulation of both sending and receiving districts are otherwise consistent with promotion of the policies expressed by the comprehensive plan and statewide planning goals and objectives established pursuant to Chapter 91 of Title 29.

e. Consider appropriate incentives for the transfer of development rights, including bonuses for the use of transferred development rights and intergovernmental agreements with other counties or municipalities which would permit the transfer and use of development rights between counties and municipalities.

(4) To establish, support and maintain administrative instruments and procedures to carry out the provisions and purposes of this subchapter.

(b) Each County Council shall prepare a comprehensive plan of the type and in the manner set out in this subchapter or amend its existing comprehensive plan to conform to the requirements of this subchapter.

§ 2654 Areas under this subchapter.

A county shall exercise authority under this subchapter for the total unincorporated area under its jurisdiction.

§ 2655 Local planning agency.

(a) The governing body of each County Council shall designate and by ordinance establish a “local planning agency.” The governing body may designate itself as the local planning agency pursuant to this subsection. The local planning agency shall prepare the comprehensive plan after meetings to be held after due public notice and shall make recommendations regarding the adoption of such plan
or element or portion thereof. The agency may be a local planning commission, the Department of Land Use of the County Council or other instrumentality, including a countywide planning entity established by special act or council of local government officials, provided the composition of the council is fairly representative of all the governing bodies in the County.

(b) The governing body or bodies shall appropriate funds for salaries, fees and expenses necessary in the conduct of the work of the local planning agency and shall also establish a schedule of fees to be charged by the agency. To accomplish the purpose and activities authorized by this subchapter, the local planning agency, with the approval of the governing body or bodies and in accord with the fiscal practices thereof, may expend all sums so appropriated and other sums made available for use from fees, gifts, state or federal grants, state or federal loans and other sources; however, acceptance of loans must be approved by the governing bodies involved.

c) The local planning agency shall have the general responsibility for the conduct of the comprehensive planning program. Specifically, the local planning agency shall:

(1) Be the agency responsible for the preparation of the comprehensive plan and shall make recommendations regarding the adoption of such plan or element or portion thereof consistent with existing county laws or regulations. During the preparation of the plan, and prior to any recommendation for adoption, the local planning agency shall hold at least 1 public hearing or public meeting on the proposed plan or element or portion thereof. The local planning agency may designate any agency, committee, department or person to prepare, revise, monitor and oversee the effectiveness and status of the comprehensive plan or any element thereof. Prior to adoption of the proposed comprehensive plan, the governing body shall hold at least 1 public hearing, with due public notice, on the proposed plan or element thereof. Final recommendation of the adoption of such plan to the governing body shall be in accordance with existing county procedures, or absent such procedures, shall be the responsibility of the local planning agency.

(2) Review proposed land development regulations, land development codes or amendments thereto, and make recommendations to the governing body as to the consistency of the proposal with the adopted comprehensive plan.

(3) Perform any other functions, duties and responsibilities assigned to it by the governing body or special law.

(66 Del. Laws, c. 207, § 1; 71 Del. Laws, c. 401, §§ 15, 85.)

§ 2656 Required and optional elements of comprehensive plan; studies and surveys.

(a) The comprehensive plan shall consist of materials in such descriptive form, either written or graphic, as may be appropriate to the prescription of principles, guidelines and standards for the orderly and balanced future economic, social, physical, environmental and fiscal development of the area.

(b) Coordination of the several elements of the local comprehensive plan shall be a major objective of the planning process.

(c) A capital improvements plan covering at least a 5-year period shall be developed in accordance with the adoption of, and be consistent with, the comprehensive plan. The capital improvements plan shall be designed to consider the need for and the location of public facilities in order to encourage the efficient utilization of such facilities and set forth:

1) Principles for construction, extension or increase in capacity of public facilities, as well as principles for correcting existing public facility deficiencies, which are necessary to implement the comprehensive plan.

2) Estimated public facility costs, including a delineation of when facilities will be needed, the general location of the facilities and projected revenue sources to fund the facilities.

3) Standards to ensure the availability of public facilities and the adequacy of those facilities.

4) To the extent provisions of the capital improvements plan anticipate State financial assistance, involvement or cooperation, such provisions shall be developed in conjunction with the state capital improvement plan and annual capital budget.

(d) The capital improvements plan shall be reviewed on an annual basis and modified as necessary. Corrections, updates and modifications concerning costs, revenue sources, acceptance of facilities pursuant to dedications which are consistent with the plan, or the date of construction of any facility enumerated in the capital improvements plan may be accomplished by ordinance and shall not be deemed to be amendments to the local comprehensive plan. All proposed improvements to public facilities shall be consistent with the capital improvements plan.

(e) Coordination of the comprehensive plan with the comprehensive plans of municipalities within the County, adjacent counties and applicable state regulations and policy shall be an objective of the comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element as adopted, the planning agency shall include a specific policy statement or coordinated mapping element indicating the relationship of the proposed development of the area to the comprehensive plans of municipalities within the County, adjacent counties and applicable state regulations and policy as the case may require. Such policy statement or coordinated mapping element shall specifically identify the coordination process undertaken and the official action taken by affected municipalities regarding the county comprehensive plan. Such statement or element shall also set forth the procedures to be followed to ensure continuing coordination with municipalities, regional agencies and the State. In addition, the comprehensive plan shall provide for coordination with state agencies regarding land use and development policies and shall provide for review and consideration by the Cabinet Committee on State Planning Issues at such times as required by this subchapter.

(f) The comprehensive plan and its elements shall contain policy recommendations for the implementation of the plan and its elements.

(g) The comprehensive plan shall include:
(1) A future land use plan element designating proposed future general distribution, location and extent of the uses of land for such activities as residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities and other categories of the public and private uses of land. The plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies and measurable objectives. Each land use category shall be defined in terms of the types of uses included and standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies and data regarding the area, including the amount of land required to accommodate anticipated growth, the projected population of the area, the character of undeveloped land and the availability of public services. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this subchapter. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. Population, demographic, environmental and economic data and projections used to determine present conditions, future land use and public facility requirements shall be developed in conjunction with the State and municipalities, and shall, as a minimum, consistent with projections officially adopted by the Delaware Population Consortium. The sources and assumptions used to develop such projections shall be clearly identified.

(2) A mobility element which is consistent with the approved Area-wide Transportation Plan and has been developed in conjunction with the Department of Transportation. The mobility element shall provide a balanced transportation system addressing the movement of people and goods while showing existing and proposed rights-of-way, sidewalks, bikeways, rail facilities, terminals and related facilities. The mobility element shall include recommendations for land use regulations that promote a range of sustainable transportation choices for future transportation needs. The mobility element shall be consistent with the State Implementation Plan (SIP) for air quality attainment.

(3) A water and sewer element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, and wastewater disposal for the area. County Council, in conjunction with the State, shall assess their current, as well as projected, water needs and sources. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The water and sewer element shall be developed in consultation with and reviewed by the Department of Natural Resources and Environmental Control. The water and sewer element shall include an assessment of fiscal considerations and shall be consistent with approved area-wide wastewater treatment Plans.

(4) A conservation element for the conservation, use and protection of natural resources in the area and which results in the identification of these resources. At a minimum, the element shall consist of such natural area classifications as wetlands, wood uplands, habitat areas, geological areas, hydrological areas, floodplains, aquifer recharge areas, ocean beaches, soils and slopes. The land use map or map series contained in the future land use element shall generally identify and depict natural areas classifications, such as those enumerated in this section. The land uses identified on said maps shall be consistent with applicable state laws and regulations. Identification and depiction of the above shall be based on the best topographic maps and other information available from state and federal agencies or other sources that the County deems appropriate. The conservation element shall also consider areas most suited for agricultural uses, silvicultural uses and watershed protection. The conservation element shall be developed in consultation with and reviewed by the Department of Agriculture and the Department of Natural Resources and Environmental Control.

(5) A recreation and open space element indicating a comprehensive system of public and private sites for recreation including, but not limited to, nature preserves, parks and playgrounds, parkways, water bodies including beaches and public access to beaches, open spaces and other recreational facilities. A county recreation and open space plan is acceptable in lieu of a recreation and open space element. The recreation and open space element shall be consistent with the comprehensive land use plan. The element shall be developed in consultation with and reviewed by the Department of Natural Resources and Environmental Control and shall reflect the State’s open space preservation and outdoor recreation planning activities.

(6) A housing element that is consistent with county housing plans, standards and principles. Such housing plans shall be in accordance with state and federal rules and regulations and the housing plan or housing element of the comprehensive plan shall include the following:

a. The provision of housing for existing residents and the anticipated growth of the area.

b. The elimination of substandard dwelling conditions.

c. The structural and aesthetic improvement of existing housing.

d. The provision of adequate sites for future housing, including housing for low-income and moderate-income families, group home facilities and foster care facilities, with supporting infrastructure and public facilities.

e. Provision for relocation housing and identification of historically significant and other housing for purposes of conservation, rehabilitation or replacement.

f. The formulation of housing implementation programs.

g. Demonstrated coordination with the State Housing Authority including, but not limited to, guidelines to insure that sites for publicly assisted housing are located where adequate transportation opportunities, health and social services and other community services are available.
§ 2657 State responsibilities to local planning agencies.

(a) All elements of the comprehensive plan shall be based upon data appropriate to the element involved. State agencies shall provide to each county upon request existing data or information necessary to expedite the development and preparation of the comprehensive plan and elements of this section. Surveys and studies utilized in the preparation of the comprehensive plan shall not be deemed a part of the comprehensive plan unless adopted as a part of it. Copies of such studies, surveys and supporting documents shall be made available to public inspection, and shall be made available to the public upon payment of reasonable charges for reproduction. The County shall be relieved of any requirement to comply with the data and information requirements of this subchapter when the State is unable to supply the necessary data and information to implement that requirement, except when such data or information is currently available or readily accessible to the County within budgetary limitations.

(b) The State, through the Office of State Planning Coordination, shall provide to the County, for use in the comprehensive planning process, State land use and development goals and policies, state regulatory requirements, estimates of future State financial capabilities, the State Capital Improvements Budget and Plan, State facility location plans, estimates of existing quantity of natural resources, economic development strategies and any other information which might reasonably influence the County’s future land use decisions. The State shall provide the County with long-range plans, performance standards, land development policies, facility siting criteria and infrastructure impact assessment standards (necessary to ensure the availability of public facilities and the adequacy of those facilities), so as to enable the county to prepare the plan elements required by § 2656 of this title and to clearly set forth the criteria the State will use to review such elements. The review by the Cabinet Committee on State Planning Issues shall be pursuant to § 9103 of Title 29. During preparation of the county comprehensive plan, the county and the State shall jointly establish guidelines for the location and arrangement of public facilities, such as public schools, health care facilities, public safety and correctional institutions, libraries and other public buildings. Such guidelines shall be used to coordinate between the various levels of government so as to ensure that public buildings and facilities are located in a manner which are consistent with state and county development goals.

§ 2658 Evaluation and appraisal of comprehensive plan.

(a) The comprehensive plan or amendments or revisions thereto shall be submitted to the Governor or designee at such time as the plan is made available for public review. The County shall provide sufficient copies for review by the Cabinet Committee on State Planning Issues. Within 30 days of plan submission, the Cabinet Committee on State Planning Issues shall conduct a public meeting, at which time the County shall make a presentation of the plan and its underlying goals and development policies. Following the public meeting the plan shall be subject to the state review and certification process set forth in § 9103 of Title 29.

(b) The State shall not be obligated to provide State financial assistance or infrastructure improvements to support land use or development actions by the County where the County’s adopted comprehensive plan or portions thereof are determined to be substantially inconsistent with state development policies.

(c) The planning programs shall be a continuous and ongoing process. The local planning agency shall prepare a report on the progress of implementing the comprehensive plan, which shall be sent to the Office of State Planning Coordination each year after adoption of
§ 2659 Legal status of comprehensive plan.

(a) After a comprehensive plan or element or portion thereof has been adopted by County Council in conformity with this subchapter, the land use map or map series forming part of the comprehensive plan as required by this subchapter shall have the force of law, and no development, as defined in this subchapter, shall be permitted except in conformity with the land use map or map series and with land development regulations enacted to implement the other elements of the adopted comprehensive plan.

(b) Nothing in this subchapter shall serve to invalidate any comprehensive plan, land development regulation, land use, development, development order or development permit which presently exists or which hereafter validly comes into existence prior to the date when full compliance with this subchapter is required.

(c) Any application for a development permit filed or submitted prior to adoption or amendment under this subchapter of a comprehensive plan or element thereof shall be processed under the comprehensive plan, ordinances, standards and procedures existing at the time of such application. All subdivision or land development applications heretofore or hereafter filed or submitted to New Castle County that do not receive final approval from New Castle County government within 5 years from the date of application shall be subject to the environmental standards contained in Chapter 40, Articles 5 and 10, of the New Castle County Code, as may be amended, and the traffic impact standards contained in Chapter 40, Articles 5 and 11, of the New Castle County Code, as may be amended. This section shall not be construed to extend any time limitations pertaining to the expiration of subdivision or land development applications contained in the New Castle County Code.

(d) All development permits and development orders heretofore or hereafter validly issued or approved by County Council and not thereafter limited, rescinded or restricted shall automatically be incorporated into and become part of the present and all future comprehensive plans.

(e) In the event that any comprehensive plan or element required to comply with this subchapter shall be determined as failing to comply herewith, such failure shall not invalidate those elements of the plan which do comply with this subchapter, nor invalidate any previously issued development permit or order that was not specifically and timely challenged in the legal action in which such noncompliance was determined.

(f) The County Council may by ordinance provide for the sunsetting of any subdivision or land development plan approvals heretofore or hereafter approved by County Council. However, no such plans shall be subject to sunsetting within the first 5 years of approval of such plans by County Council or the first 5 years after adoption of the County sunsetting ordinance, whichever is later.

§ 2660 County comprehensive plan.

(a) The County shall submit a final comprehensive plan for submission to the Cabinet Committee on State Planning Issues no later than 5 years after the adoption of the current plan; provided, however, that the County may request an extension of such date by forwarding
§ 2661 Information from state and local agencies and school districts.

(a) All subdivision plans approved by the County Council shall be filed with the Office of the Recorder of Deeds, and with such other state and local agencies as the County may by ordinance require.

(b) As part of its review of a rezoning or subdivision application, the County Council through its designated local planning agency shall request and review information from all state and local agencies and local school districts identified on a list prepared by the County and shall file as part of the record any written information provided by such state and local agencies or local school districts with respect to the rezoning or subdivision application. If the planning agency makes recommendations that are in conflict with the information supplied by state and local agencies or local school districts, it must explain its reasons for doing so in writing.

(c) (1) This section shall apply only to residential development. Prior to recording a major record subdivision plan, as defined by New Castle County, the applicant shall provide certification to the Department of Land Use from the Secretary of the Department of Education after consultation with the superintendent of the affected individual school district that the school district has adequate capacity for the proposed development. The Secretary shall respond to any request for certification or Voluntary School Assessments within 60 days’ after consultation with the superintendent of the appropriate individual school district that the school district has adequate capacity for

(a) existing classrooms and service levels based upon the Delaware Department of Education Delaware School Construction Manual, September 19, 1996, as may be amended or supplemented from time to time, or based upon other standards accepted as accurate by the Secretary of the Department of Education; and

(b) capacity calculations, which shall include the current student population, increased demand resulting from prior certifications from the Department of Education, and the increased demand that will result from the proposed development. The Department of Land Use shall within 20 days provide the Department of Education with all necessary information regarding the number and type of dwelling units proposed and other information which the Secretary may request.

This subsection shall apply to all new residential major subdivision plans submitted pursuant to the New Castle County Unified Development Code adopted December 31, 1997, as may be amended.

(2) Notwithstanding the foregoing provisions of this subsection, no certificate of adequate school capacity shall be required where either: (i) the residential development is restricted by recorded covenants to provide housing or shelter predominantly for individuals 55 years of age or older pursuant to the Federal Fair Housing Act [42 U.S.C. § 3601 et seq.]; (ii) the residential development is for low income housing, which, for purposes of this section, shall be defined to mean any housing financed by a loan or mortgage that is insured or held by the Secretary of HUD or the Delaware State Housing Authority or which is developed by a nonprofit corporation certified under § 501(c)(3) of the United States Internal Revenue Code [26 U.S.C. § 501(c)(3)]; or (iii) the applicant has pledged, in a writing recorded and running with the subject property, to pay a Voluntary School Assessment in an amount determined pursuant to § 103(c) of Title 14, for each lot for which the applicant would otherwise be required to obtain a certificate.

(3) Voluntary School Assessments will be calculated on a per unit basis as of the time of the issuance of the first building permit, and the assessment shall remain constant throughout the development of the subdivision (and shall not be increased for any reason, including but not limited to any resubdivision); provided, however, that after 5 years the Voluntary School Assessment amount may be recalculated. Any Voluntary School Assessments paid under this subsection shall be paid to the Department of Education at the time that a certificate of occupancy is obtained for each unit, and shall be deposited by the Department into an interest-bearing account as set forth below. With the approval of the Secretary, after consultation with the superintendent of the affected school district, an applicant may receive a credit against voluntary assessments to be paid in an amount equal to the fair market value of any lands or

(4) Within 18 months of the date of adoption of the county comprehensive plan or revisions thereof, New Castle County shall amend its official zoning map or maps to rezone all lands in accordance with the uses and intensities of uses provided for in the future land use element for the County. In the event that the comprehensive plan includes provisions governing the rate of growth of particular planning districts or sub-areas of the County, the County’s zoning district regulations shall be amended to reflect the timing elements of the comprehensive plan.

properties set aside by the applicant and deeded to the school district for school uses. Any such lands shall not be used for nonschool purposes, other than as parkland or open space. All voluntary assessments paid shall be held in an interest-bearing account by the State for the school district in which the applicant’s project is located until such time as the school district engages in construction activities that increase school capacity, at which time such assessments shall be released to the school district by the State in the amount of the Voluntary School Assessments paid into an interest-bearing account for such district. It is the intent of this section that lands or properties required to be conveyed by the applicant to New Castle County as a condition to subdivision approval shall not be eligible to be used for purposes of obtaining a credit against the voluntary school assessment notwithstanding the fact that such lands or properties may subsequently be conveyed by the county to a school district.

(4) To the extent New Castle County has adopted (or in the future attempts to adopt) any regulations or ordinances linking or tying residential development to school capacity, or otherwise restricting residential development in the absence of school capacity, such regulations and ordinances are hereby preempted and of no force and effect.

### § 2662 Highway capacity.

The County Council shall not approve any proposed change in the zoning classification for land (i.e., any “rezoning request”) without first complying with either the procedures contained in paragraphs (1)a. through (1)d. of this section or the procedures contained in paragraphs (2)a. through (2)c. of this section:

(1) a. As soon as possible, but in any event no later than June 30, 1988, the County Council, through its designated planning agency, shall establish an agreement with the Department of Transportation to provide a procedure for analysis by the Department of Transportation of the effects on traffic of each rezoning application.

b. Each agreement under paragraph (1)a. of this section shall be approved by a resolution or ordinance, consistent with County procedures, and shall establish traffic level of service suitable to the County and the Department of Transportation.

c. The purpose of the agreement under paragraph (1)a. of this section shall be to ensure that traffic analyses are conducted as part of the zoning reclassification process within the County.

d. The agreement under paragraph (1)a. of this section shall provide for the review of traffic impacts according to nationally recognized traffic criteria and shall, at a minimum, consider the effects of existing traffic, projected traffic growth in areas surrounding a proposed zoning reclassification, and the projected traffic generated by the proposed site development for which the zoning reclassification is sought.

(2) a. The County Council, through its local planning agency, shall establish an agreement with the Department of Transportation to designate a Complete Community Enterprise District as described in §§ 2103 and 2104 of Title 2.

b. The local planning agency shall hold at least 1 public hearing on the proposed agreement created under paragraph (2)a. of this section and public comment must be permitted at the public hearing.

c. The local planning agency shall provide due public notice of the public hearing required by paragraph (2)b. of this section at least twice, the first notice at least 60 days prior to the public hearing and the second notice at least 30 days prior to the public hearing.

The 7th District shall constitute all of Kent County.

(c) The report of the Redistricting Commission shall include a map and a written description of the Levy Court Districts recommended and shall be in the form of a proposed ordinance. Once filed with the President of the Levy Court, or the President’s designee, the report shall be treated as an ordinance introduced by a member of the Levy Court.

(d) The procedure for the Levy Court’s consideration of the report shall be the same as for other ordinances, and the Levy Court is empowered to modify the recommended plan subject, however, to the standards set forth in subsection (b) of this section.

(e) The Levy Court shall adopt a redistricting ordinance within 60 days after the report of the Redistricting Commission has been filed with the President of the Levy Court or the President’s designee. If a redistricting ordinance has not been adopted by the Levy Court within 60 days of filing the report by the Redistricting Commission, the redistricting plan as submitted by the Redistricting Commission shall become effective as if it had been adopted by the Court.

Subchapter II

Powers and Duties

§ 4110 General powers; county government procedures; ordinances.

(a) In addition to the powers specifically enumerated by statutes in this title and elsewhere, the government of Kent County shall assume and have all powers which under the Constitution of the State it would be competent for the General Assembly to grant by specific enumeration, and which are not denied by statute, including, but not limited to, any powers conferred prior to July 3, 1985, the General Assembly upon Kent County, or upon the Levy Court of Kent County, or upon the Levy Court Commissioners of Kent County, or upon the officers or employees of Kent County, or upon counties generally, or upon Levy Court Commissioners generally or upon the Levy Court generally.

(b) This grant of power includes the power to:

(1) Fix a tax rate upon the assessed valuation of all real property in Kent County, subject to assessment by the County;

(2) Fix an additional tax rate upon the assessed valuation of all real property, subject to assessment, located in unincorporated areas in Kent County for the limited purpose of providing financial support for public safety services to be provided by the County, or its agents to unincorporated areas of Kent County; and

(3) Add surcharges on any application for a building permit issued by the county:

a. In an amount not to exceed .5% of the construction value applicable to said building permit application to provide funding for volunteer fire companies; and

b. In an amount not to exceed 1.25% of the construction value applicable to said building permit application to provide funding for the local share of any school capital construction program having received a Certification of Necessity from the Secretary of Education of the Department of Education pursuant to § 7510 of Title 29, as amended; provided however, this surcharge shall not be applicable to an application for a building permit having a construction value of $30,000 or less and such application is made after the issuance of the original certificate of occupancy.

(c) This grant of power does not include the power to enact private or civil law concerning civil relationships, except as incident to the exercise of an expressly granted power, and does not include the power to define and provide for the punishment of felonies.

(d) This grant of power does not repeal or modify the doctrine of sovereign immunity as it now exists so as to broaden or increase the limitations of legal actions against Kent County.

(e) This grant of power includes the right of the Levy Court to receive moneys or grants from this State or the United States; and the Levy Court may enter into agreements or contracts with this State or the United States relating to such moneys or grants. The Levy Court may enact resolutions providing for programs and services for purposes for which the federal or state funds are granted to the County and to spend out of County funds any share required as a condition of the grants.

(f) The powers of Kent County shall be construed liberally in favor of the County, and specific mention of particular powers in this title shall not be construed as limiting in any way the general powers stated herein.

(g) (1) The county government shall meet regularly. The place and dates of such meetings shall be established by the county government as a part of the rules of procedure adopted for the conduct of its meetings. Special meetings may be held on the call of the President of the county government or of a majority of the members of the county government in accordance with rules adopted as a part of the rules of procedure of the county government.

(2) The county government shall determine its own rules and order of business and shall provide for keeping a journal of its proceedings which shall be a public record.

(3) Voting, except on procedural motions, shall be on roll call and the ayes and nays shall be recorded in the journal. A majority of all members of the county government shall constitute a quorum, but a smaller number may adjourn from time to time and may compel the attendance of absent members in the manner and subject to the penalties prescribed by the rules of the county government. No action of the county government, except as otherwise provided in this title, shall be valid or binding unless adopted with the concurrence of a majority of all of the members of the county government.
(h) All actions of the county government which shall have the force of law shall be by ordinance.

(i) (1) Every proposed ordinance shall be introduced in writing and in the form required for final adoption. No ordinance, except those relating to the budget or appropriation of funds and those relating to the adoption or revisions of the County Code, shall contain more than 1 subject which shall be clearly expressed in its title. The enacting clause shall be “The County of Kent hereby ordains.” Any ordinance which repeals or amends an existing ordinance or part of the County Code shall set out in full that part of the ordinance, sections or subsections to be repealed or amended, and shall indicate the matter to be omitted by enclosing it in brackets and shall indicate new matter by underscoring or by italics.

(2) An ordinance may be introduced by any member at any regular or special meeting of the county government. Upon introduction of any ordinance, the Clerk of the county government shall distribute a copy to each elected official of the county governing body and to the County Administrator; shall file a reasonable number of copies in the office of the Clerk of the county government and such other public places as the county government may designate; shall, in 1 newspaper in general circulation in the county, publish in bold type the ordinance or the title thereof together with a notice setting out the time and place for a public hearing thereon by the county government; and shall produce a sufficient number of copies thereof to meet reasonable demands therefor by interested citizens and others who may be affected by such ordinance. The public hearing shall follow the publication by at least 7 days, may be held separately or in connection with a regular or special county government meeting and may be adjourned from time to time, and all persons interested shall have a reasonable opportunity to be heard. The county government may make rules governing the holding of public hearings. After the public hearing, the county government may adopt the ordinance with or without amendment or reject it, but if it is amended as to any matter of substance which is not embraced within the title of the ordinance, the county government may not adopt it until the ordinance or its amended sections have been subjected to all of the procedures hereinbefore required in the case of a newly-introduced ordinance. As soon as practicable after adoption of any ordinance, the Clerk of the county government shall number the ordinance and have it, or its title, published again, 1 time in a newspaper of general circulation in the County, together with a notice of its adoption.

(3) Except as otherwise provided in this title, every adopted ordinance shall become effective immediately unless the ordinance itself stipulates a different date.

(j) To meet a public emergency affecting life, health, property or the public peace, the county government may adopt emergency ordinances, but such ordinances may not levy taxes, grant, review or extend a franchise, or authorize the borrowing of money except to issue emergency notes as provided by law. An emergency ordinance shall be introduced in the form and manner prescribed for ordinances generally, except that it shall be plainly designated as an emergency ordinance and shall contain, after the enacting clause, a declaration stating that an emergency exists and describing it in clear and specific terms. An emergency ordinance may be adopted with or without amendment or rejected at the meeting at which it is introduced. After its adoption, the ordinance shall be published and printed as prescribed for other adopted ordinances. It shall become effective immediately upon adoption or at such later time as it may specify. An emergency ordinance may be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

(k) The Clerk of the county government shall authenticate by his or her signature and record in full, in a properly indexed book kept for that purpose, all ordinances and resolutions adopted by the county government.

(l) The surcharges otherwise added by paragraph (b)(3) of this section shall not be added to building permits applied for by an organization exempt from tax under § 501(c)(3) of the federal Internal Revenue Code [26 U.S.C. § 501(c)(3)] which provides owner-occupied housing to low and moderate income households by rehabilitating residential properties and reselling said properties without profit, nor to the Delaware State Housing Authority nor to any applicant funded by the Delaware State Housing Authority.

§ 4111 Creation of debt; authorization, procedures, debt limitation and anticipation borrowing.

(a) The Levy Court shall exercise all powers of Kent County in connection with the creation of debt, and shall have the power to authorize the issuance of bonds and notes of Kent County to finance the cost of any object, program or purpose for which Kent County, or any officer, department, board or agency thereof, is, by this title or by any other law, authorized to raise, appropriate or expend money, or for the implementation and performance of functions, programs and purposes specified in this title or in any other law applicable to Kent County; provided, however, that the Levy Court shall not have authority to create or to authorize the creating of any bonded indebtedness for any of the following purposes: The payment of any operating expenses; the payment of any judgment resulting from the failure of the County to pay any item of operating expense; or the payment for any equipment or any public improvements of a normal life of less than 3 years. The foregoing limitations shall not apply should the Levy Court unanimously declare the existence of an emergency due to public calamity.

(b) The powers conferred by this subchapter shall be in addition to and not in substitution for or in limitation of the powers conferred by any other law. Bonds and notes may be issued under this subchapter for any object or purpose for which Kent County is by this chapter or any other law authorized to raise or appropriate or expend money notwithstanding that any other law may provide for the issuance of bonds or notes for the same or like purposes and without regard to the requirements, restrictions or other provisions contained in any other law. Bonds and notes may be issued under this subchapter notwithstanding any debt or other limitation prescribed by any other law,
and the mode and manner of procedure for the issuance of bonds and notes and the adoption of the ordinance authorizing issuance of the bonds or notes under this chapter need not conform to the provisions of any other law or any other provision of this chapter.

(c) Bonds and notes issued pursuant to this subchapter shall be authorized by ordinance of the Levy Court approved by not less than \( \frac{5}{7} \) of all of the members thereof. Each such ordinance shall state in brief and general terms the objects or purposes for which the debt is to be incurred and the maximum aggregate principal amount of debt to be incurred for each such object or purpose. Such ordinance, or a subsequent resolution of the Levy Court, shall specify, or may delegate authority to the County Administrator to determine, with respect to any bonds and notes; their date or dates; their maturity; the security therefor, if any, including a pledge of the County’s full faith and credit, federal or state grants or other revenues or property; provisions for either serial or term bonds; sinking fund or other reserve fund requirements, if any; provisions for redemption prior to maturity, if any, with or without premium; the interest rate or rates and any limitations with respect thereto or the manner of their determination; the times and place or places within or without this State for the payment of principal and interest; the method of execution; the form; provisions for the consolidation of debt authorized for several objects and purposes pursuant to 1 or more ordinances into 1 consolidated issue; provisions for the receipt and deposit or investment of any good faith deposit; provisions for the public or private sale of the debt instruments; and such other terms and conditions as the Levy Court may determine to be in the best interest of the County. Debt incurred by the County pursuant to this subchapter may be represented by uncertificated obligations of the County which may be applicable to bonds and notes which are permitted to be issued under this subchapter, and the Levy Court by resolution may determine, or it may delegate authority to the County Administrator to determine, all procedures appropriate to the establishment of a system of issuing uncertificated debt.

(d) The Levy Court may pledge the full faith and credit of the County to secure the payment of the principal, interest and premium, if any, on any debt incurred pursuant to this subchapter and/or may pledge any other security therefor. With respect to any debt to which the County’s full faith and credit is pledged, the authorizing ordinance and the debt instruments issued shall contain the declaration that the principal, interest and premium, if any, are to be paid by ad valorem taxes on all real property subject to taxation by the County without limitation as to rate or amount and that the full faith and credit of the County are pledged for payment. The Levy Court shall annually levy and collect a tax ad valorem upon all property taxable by the County sufficient to pay the principal of and interest on each bond or note secured by the County’s pledge of its full faith and credit as such principal and interest become due; provided, however, such tax may be reduced by the amount of other moneys appropriated and actually available for such purpose or provided for by local or special assessments or local service taxes.

(e) The outstanding general obligation bonded indebtedness of Kent County secured by the full faith and credit of the County may not exceed 12 percent of the assessed valuation of all real property subject to taxation within the County. The outstanding bonded indebtedness of the County not secured by the County’s full faith and credit is without limitation as to amount.

(f) The proceeds from the sale of bonds and notes issued under this subchapter shall be used only for the object or purpose or objects or purposes specified in the ordinance authorizing such bonds or notes for the payment of the principal of and interest on temporary loans made in anticipation of the sale of such bonds or notes. If for any reason any part of such proceeds are not applied to or are not necessary for such purposes, such unexpended part of such proceeds shall be applied to the payment of the principal of or interest on such bonds or notes no later than the earliest date on which such bonds or notes may be called for redemption without premium.

(g) All bonds, notes or other evidences of indebtedness issued pursuant to this subchapter shall recite that they are issued for a purpose or purposes as specified in the authorizing ordinance or resolution and that they are issued pursuant to the terms of the Constitution and laws of this State and the County. Upon the sale and delivery of any such bonds, notes or other evidences of indebtedness against payment, such recitals shall be conclusive as to the right, power and authority of the County to issue the same and of the legality, validity and enforceability of the obligation of the County to pay principal of and interest on the same. In case any County official whose signature or a facsimile thereof shall appear on any such bonds, notes or other evidences of indebtedness shall cease to be such officer before the delivery of such obligation, or in case the seal of the County which appears on any such obligation shall change before the delivery of such obligation, such signature, seal or facsimile thereof shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office and as if such seal had not changed. The legality, validity and enforceability of such bonds, notes or other evidences of indebtedness shall never be questioned in any court of law or equity by the County or any person after the issuance, execution and delivery against payment for the same. All such bonds, notes and other evidences of indebtedness are hereby declared to have all the qualities and incidents of negotiable instruments under the Commercial Code of this State.

(h) Notwithstanding any limitations herein to the contrary, the Levy Court may borrow in the anticipation of the collection of taxes or other revenues budgeted for any purposes for which taxes are levied.

§ 4112 Employment by county officers of a chief deputy and clerks.

The county government may authorize any county officer to employ a chief deputy and such clerical assistance as may, in the judgment of the county government, be necessary, and may fix their compensation. The compensation shall be paid by warrants according to the form to be prescribed by the county government, and drawn on the Receiver of Taxes and County Treasurer.

The county government may create a sinking fund for public buildings, public improvements, and public works generally, and for such purposes may open a special bank account in the name of the Receiver of Taxes and County Treasurer of the County and may deposit therein such sums at such times as the county government deems advisable. § 4607 Referendum upon petition.

(a) Within 10 days after the adoption of a resolution subject to referendum upon petition, the county government shall cause a notice to be published at least once in a newspaper published within the County and having a general circulation therein. Such notice shall contain a true copy of the resolution, the date of adoption thereof, and a statement that such resolution is subject to referendum upon petition.

(b) Such resolution shall not take effect until 30 days after its adoption; nor unless it is approved by the affirmative vote of a majority of qualified electors of the proposed district, voting thereon, if within 30 days after its adoption there be filed with the county government a petition signed by 10 percent of the electors of the proposed district.

(c) Such petition shall state that a referendum is requested on such resolution describing the same by its date of adoption, and shall contain an abstract of the text thereof. The petition may consist of separate sheets and the signatures to each sheet shall be acknowledged.
§ 4609 Validation of prior establishment of districts.

Any district heretofore established pursuant to the provisions of this chapter is hereby declared and determined to have been validly established, regardless of the failure of the county government or any of its officials or employees to comply with the requirements as to the establishment of such district set forth in this chapter, and notwithstanding that any of the proceedings taken to establish such district were not validly taken, and notwithstanding that the area of the district is less than the area in which the proposed sewage improvements are to be constructed and that such sewage improvements will serve an area greater than the area of such district; provided, however, that any assessment levied on the lots and parcels of land in such district or any extension thereof shall be in proportion as nearly as may be to the benefit which each parcel would derive from such proposed sewage improvements, regardless of the total cost of such sewage improvements. Sewage disposal systems may be constructed on behalf of any such district either within or without the area of the district, to serve the district, any other district heretofore or hereafter established, and any municipality or other political subdivision of the State or agency which may contract for the use and services of the sewage system. Bonds of the county government may be issued to finance the cost of such sewage systems whether authorized by bond resolutions heretofore or hereafter adopted by the county government. The bonds shall be payable in the manner provided by § 4656 of this title.

(9 Del. C. 1953, § 4609A; 57 Del. Laws, c. 108, § 1.)

§ 4610 Plans and specifications.

After a district shall have been established, the county government shall cause to be prepared by the County Engineer or duly licensed engineer employed or contracted for that purpose, detailed plans and specifications for the improvement, a detailed estimate of the expense, and with the assistance of the attorney for the county government, or other legal or professional help employed or contracted for that purpose, a proposed contract or contracts for the execution of the work.

(9 Del. C. 1953, § 4609; 56 Del. Laws, c. 103, § 13.)

§ 4611 Contracts.

(a) All contracts or orders for work, material or supplies, performed or furnished in connection with construction, shall be awarded by the county government by or pursuant to resolution. Such contracts or orders for work, material or supplies needed for any particular

(f) No contract or order for work, material or supplies needed for any particular

(g) No contract or order for work, material or supplies needed for any particular

(h) No contract or order for work, material or supplies needed for any particular

(m) No contract or order for work, material or supplies needed for any particular

(n) No contract or order for work, material or supplies needed for any particular
purpose involving an expenditure of more than $2,000 shall be awarded only after inviting sealed bids or proposals therefor. The notice inviting sealed bids or proposals shall be published at least once in a newspaper or trade paper selected by the county government for such purpose, such publication to be at least 10 days before the date for the receipt of bids. If the county government shall not deem it in the interest of the county government to reject all bids, it shall award the contract to the lowest bidder, unless the county government shall determine that it is in the public interest that a bid other than the lowest bid should be accepted.

(b) The bidder whose bid is accepted shall give security for payment for materials and for the faithful performance of the contract, for maintenance following completion, and for such other purposes as the county government may require. The sufficiency of such security shall be determined by the county government. All bids or proposals shall be publicly opened by the county government or its duly authorized agent. If the bidder whose bid has been accepted shall neglect or refuse to accept the contract within 5 days after written notice that the same has been awarded to that bidder on his or her bid or proposal, or, if the bidder accepts but does not execute the contract and give proper security, the county government shall have the right to declare his or her deposit forfeited, and thereupon it shall be readvertised and relet as above provided. In case any work shall be abandoned by any contractor, the county government may, if the best interests of the district be thereby served, adopt on behalf of the district any or all subcontracts made by such contractor for such work and all such subcontractors shall be bound by such adoption if made; and the county government shall in the manner provided herein advertise and relet the work specified in the original contract exclusive of so much thereof as shall be provided for in the subcontract or subcontracts so adopted.

(c) Notwithstanding the provisions of this section or any other provision of law, the county government may contract for engineering, legal or other professional services requiring special skill or training for any project authorized by this chapter without requesting competitive bids or proposals, and without awarding such contract to the lowest bidder.

§ 4612 Powers of the county government.

In addition to other powers which it has in reference to a district or extension thereof, the county government may:

(1) Plan, construct, reconstruct, improve, better or extend a sewage system or systems, acquire by gift, purchase, lease or the exercise of the right to eminent domain, a sewage system or lands or rights in land in connection therewith; on behalf of a district, acquire by purchase or lease any sewage collection, treatment or disposal facilities owned, maintained or operated by any municipal, public or district corporation, or special district, and such agencies shall have the power to sell or lease such facilities to a county sewer district, notwithstanding that such sewage facilities have already been devoted to and are held for public use; and may, instead of making any cash payment agreed or required to be made to the municipal, public or district corporation or special district, as compensation for such sewage facilities, agree to pay the principal of and interest on outstanding bonds issued by or on behalf of such municipal, public or district corporation or special district, of a principal amount not exceeding any lump sum amount agreed upon as consideration for such purchase or lease, as such principal and interest shall become due and payable;

(2) Operate and maintain a sewage system or systems, and furnish the services and facilities rendered or afforded thereby;

(3) Enter into and perform contracts, whether long term or short term, with any industrial establishment, municipality, district or agency of the state or federal government for the provision and operation by the county sewer district of a sewage system to abate or reduce the pollution of waters caused by discharges of sewage and industrial wastes by such industrial establishment, municipality, district or agency of the state or federal government; and such contract may provide for the payment periodically by the industrial establishment, municipality, district or agency of the state or federal government to the county sewer district of amounts to compensate the county sewer districts for the cost of providing (including payment of principal and interest charges, if any) and of operating and maintaining the sewage system or part thereof serving such industrial establishments, municipality, district or agency of the state or federal government;

(4) After appropriate notice, require a municipality, public or district corporation or special district which maintains or operates any sewage collection treatment or disposal facilities within the area of a county sewage disposal district, established pursuant to the provisions of this chapter, to connect to and utilize the sewage system and facilities of such county sewage disposal district in order to abate or reduce the pollution of waters caused by discharges of sewage and industrial waste;

(5) Accept from any authorized agency of the state or federal government, or from persons, firms or corporations, loans, grants or contribution for the planning, construction, acquisition, lease, reconstruction, improvement, betterment or extension of any sewage system and enter into agreements respecting such loans, grants and contributions;

(6) Accept grants or loans of money, labor, materials, equipment or technical assistance from agencies of the federal or state government or from interstate agencies established by law to accomplish the purposes of this chapter, and may pay the interest and amortization of such loans;

(7) Enter into and perform contracts with any person for the sale of effluent products;

(8) After a public hearing called and held in a manner provided in § 4604 of this title, adopt, amend, and repeal from time to time ordinances, resolutions, and rules and regulations for the operation of a county sewer district and the use of the sewerage system therein, including regulation of the manner of making connections and the construction to the system and all facilities and appurtenances associated therewith; and
Impose a fine of not less than $500 or more than $10,000 for a violation of any ordinance, resolution or rule or regulation, so adopted by the county government relating to operation of a county sewer district and the use of the sewerage system therein, including regulation of the manner of making connections and the construction to the system and all facilities and appurtenances associated therewith.

(9 Del. C. 1953, § 4611; 56 Del. Laws, c. 103, § 13; 68 Del. Laws, c. 370, § 1; 74 Del. Laws, c. 341, §§ 1, 2.)

§ 4613 Preliminary expenses.

The preliminary expenses incurred for the preparation of maps, plans, studies, reports and other matters relating to the establishment or extension of a sewer district as authorized by this chapter, shall be a county charge and shall be assessed, levied and collected in the same manner as other county charges. If the county government shall thereafter establish or extend a sewer district and construct a sewer system therein pursuant to the provisions of this chapter, the expenses incurred by the county government as set forth above shall be deemed to be part of the cost of such improvement and the County shall be reimbursed for the whole amount paid therefor, or for such portion of that amount which the county government shall allocate against such district or extension. In the event the district is not established or extended, the county government may issue bonds to finance the above cost either in whole or in part, pledging the full faith and credit of the County to the punctual payment of the bonds and the interest thereon. Such bonds may be issued for a period of not to exceed 5 years from their respective dates.

(9 Del. C. 1953, § 4612; 56 Del. Laws, c. 103, § 13.)

§ 4614 Sewage charges and revenues.

(a) The county government may, after a public hearing called and held in the manner provided in § 4604 of this title, by ordinance or resolution, establish charges for the use of a sewage system or any part or parts thereof. Such charges may be based on any of the following:

(1) The consumption of water on the premises connected with and served by the sewage system or such part or parts thereof;
(2) The number and kind of plumbing fixtures on the premises connected with and served by the sewage system or such part or parts thereof;
(3) The number of persons served on the premises connected with and served by the sewage system or such part or parts thereof;
(4) The volume and character of sewage, industrial waste and other waste discharged into the sewage system or such part or parts thereof; or
(5) Any other equitable basis determined by the county government including but not limited to any combination of the foregoing.

(b) Such sewage charges, together with the amount of any penalty and interest prescribed by the county government and due for nonpayment of such charges, shall constitute a lien upon the real property served by the sewage system or such part or parts thereof for which sewage charges shall have been established and imposed. The lien shall be prior and superior to every other lien or claim except as otherwise may be provided by law.

(c) The county government on behalf of a sewer district may bring and maintain an action:

(1) To collect sewage charges in arrears including penalties and interest; or
(2) To foreclose liens for such sewage charges.

As an alternative to the maintenance of any such action, the county government may annually cause a statement to be prepared stating the amount of each lien for sewage charges in arrears including penalties, the real property affected thereby, and the name of the person in whose name such real property is assessed. The county government shall cause to be levied the amounts contained in such statements against the real property at the same time and in the same manner as county taxes, and such amounts shall be set forth in a separate column in the annual tax rolls. The amount so levied shall be collected and enforced in the same manner and at the same time as may be provided by law for the collection and enforcement of county taxes.

(d) The ordinance or resolution establishing and imposing sewage charges:

(1) Shall describe the sewer system or the part or parts of the sewer system for which such charges shall be established and imposed;
(2) Shall prescribe the basis for such charges;
(3) Shall provide for the date or dates on which sewage charges shall become due and payable; and
(4) May provide for penalties and interest for sewage charges in arrears, or for discounts for the prompt payment of such charges, or for penalties, interest and discounts.

(9 Del. C. 1953, § 4613; 56 Del. Laws, c. 103, § 13.)

§ 4615 Expense of the improvement.

The cost of establishment of a county sewer district and the furnishing of the improvement therein shall include the amount of all contracts, the cost of all lands and interests therein necessarily acquired, the cost of erection of necessary facilities and appurtenances for operation or administration of the improvement, the cost of necessary equipment for operation or administration of the improvement, printing, publishing, interest on loans, legal, engineering and other professional services, and all other expenses incurred or occasioned...
§ 4616 Increase and improvement of facilities.

Whenever the county government shall determine it necessary to acquire additional lands or interests in lands or to acquire or to construct additional trunk, interceptor and outfall sewers, pumping stations, treatment and disposal works and appurtenances, lateral sewers or other facilities, or whenever the county government shall determine it necessary for the purpose of the operation and maintenance of such facilities to increase, improve and reconstruct the facilities thereof, including the acquisition of additional lands or interests in lands, it may cause the same to be accomplished without further authorization; provided, however, that if it is proposed to finance any part of the cost thereof by the issuance and sale of county obligations, such improvement shall not be undertaken unless authorized by proceedings taken in the same manner as the proceedings taken for the original establishment or extension of the district except that the sole determination which the county government shall make is whether such improvement is in the public interest, and, if zones of assessment have been established, said county government shall further determine the allocation of the cost thereof as between such zones.

(9 Del. C. 1953, § 4616; 56 Del. Laws, c. 103, § 13.)

§ 4617 Increase of maximum amount to be expended.

At any time after the establishment of a district or extension thereof pursuant to this chapter, the maximum amount authorized to be expended for the original improvement in such district or extension thereof may be increased by a resolution of the county government, provided the county government shall, after a public hearing called and held in the manner provided in § 4604 of this title, determine that it is in the public interest to authorize an increase of such maximum amount. If zones of assessment have been established, such resolution of the county government shall further provide for the allocation of such increase as between such zones of assessment and the notice of such public hearing shall state such allocation.

(9 Del. C. 1953, § 4617; 56 Del. Laws, c. 103, § 13.)

§ 4618 Method of assessment.

(a) The county government may determine to issue obligations of the County in such an amount as they may estimate to be sufficient to pay the entire cost of the improvement, but not in excess of the maximum amount proposed to be expended for the improvement, as stated in the notice of hearing, published pursuant to § 4604 of this title. In preparing the annual estimate of revenues and expenditures for the County on behalf of the district or extension thereof, the county government shall include, in addition to all costs of operation and maintenance for the next succeeding fiscal year, sums sufficient to pay the annual installments of principal and interest on obligations issued on behalf of the district or extension thereof. The county government shall thereupon annually levy a tax, unlimited as to rate or amount, upon the assessable property within the County in the amount of the estimate of expenditures. In making such levy the county government shall take into account the estimates of revenues, as set forth in the estimate so prepared, at a time to be fixed by it, and the amount of any assessments levied on behalf of the County, as hereafter provided and due and payable in the fiscal year for which the estimates are prepared.

(b) The county government shall, after a public hearing, establish an annual assessment roll for the county sewer district or extension thereof which shall be known as the “Sewer District Assessment Roll.” The annual assessments may be apportioned, by the county government, against the several lots and parcels of land in the district or extension thereof by 1 or more of the following methods:

(1) An assessment on the lots and parcels of land in the district or extension thereof in proportion as nearly as may be to the benefit which each parcel would derive from the improvement;

(2) If zones of assessment have been established and an allocation of the total estimated cost of the facilities has been made to the zones, the amount of the cost of the facilities so allocated to any such zone of assessment may be apportioned by an ad valorem assessment levied on all the lots and parcels of land within such zone;

(3) If zones of assessment have been established, as provided above, by assessment on the lots and parcels of land within such zone in proportion as nearly as may be to the benefit which each parcel will derive from the improvement.

(c) Notice of the public hearing shall state that the assessment roll has been completed and filed, and the time and place fixed for the public hearing. Notice of such public hearing shall be published in a newspaper, published within Kent County, and having a general circulation therein at least once, not less than 7 days immediately preceding the date of the public hearing. At the time and place specified, the county government shall meet and hear and consider any objections to the assessment roll, and may change or amend the same as it deems necessary or just, may affirm and adopt the same as originally proposed or as amended or changed, or the county government may prepare a new roll. No amended, changed, or new roll shall be adopted, unless the county government shall hold another hearing thereon, in the manner and upon the notice prescribed for the original hearing. The annual assessment shall be levied and collected at
the same time as taxes levied for general county purposes. The County Treasurer shall keep a separate account of such moneys, and they shall be used only for the purpose of the district or extension thereof for which collected. The properties against which such assessments are levied, shall be liable for the payment of the assessments in the same manner as they are liable for other county taxes.

§ 4619 Extension of the district.

The district may be extended so as to include territory not previously included within its boundaries in the same manner as hereinbefore prescribed for the original establishment of a district. The cost of the extension shall include all the costs and expenses occasioned by reason of such extension and in addition thereto such proportion of the cost of the system of the original district as the county government shall determine.

(9 Del. C. 1953, § 4618; 56 Del. Laws, c. 103, § 13.)

§ 4620 Changes in zones of assessment.

The county government, after holding a public hearing upon notice published in the same manner as provided in § 4604 of this title, from time to time, by resolution may:

(1) Change the allocation of the cost of such facility as between zones of assessment;

(2) Change the boundaries of zones of assessment; or

(3) Establish new zones of assessment or eliminate existing zones of assessment.

(9 Del. C. 1953, § 4619; 56 Del. Laws, c. 103, § 13.)

§ 4621 Order to connect to sewer; enforcement.

(a) The county government may, where it deems it necessary to the preservation of public health, order the owner of any lot or parcel of land within a district or extension thereof which abuts upon a street or right-of-way containing a sewer which is part of or served by the county sewage system, and upon which lot or parcel of land a building shall have been constructed for residential, commercial or industrial use, to connect such building with such sewer.

(b) If any owner shall fail to comply within 60 days with such order to connect with such sewer, the county government may forthwith institute action in any Justice of the Peace Court or may institute a summary action in the Superior Court to compel compliance with such order.

(9 Del. C. 1953, § 4620; 56 Del. Laws, c. 103, § 13.)

(b) The county government or its designated representatives may inspect, at reasonable hours, any premises, dwelling or other building in the vicinity of a sewer to determine if it is connected to the sewer, or to determine if the sewer connection has been made or is being maintained in accordance with the regulations of the county government.

(c) Whoever refuses to permit inspections and surveys at reasonable hours shall be fined not less than $10 nor more than $100 for every such refusal.

(9 Del. C. 1953, § 4621; 56 Del. Laws, c. 103, § 13.)

§ 4623 Annexation.

Any annexation by any municipality of any previously unincorporated area shall not confer upon the annexing municipality any right, title or interest in any part of any sewage system constructed, acquired, extended or improved pursuant to this chapter, except as a resolution of the county government may so provide. No such resolution shall be adopted by the county government unless the annexing municipality shall have deposited a fund sufficient to pay when due any outstanding bonds issued hereunder for the purchase, construction, acquisition, extension or improvement of all systems wholly or partly within the annexed area, with interest to the date of call or redemption and any redemption or call premium applicable thereto.

(9 Del. C. 1953, § 4622; 56 Del. Laws, c. 103, § 13.)

§ 4624 Dissolution and diminishing area of sewer districts.

Whenever the county government shall determine it to be in the public interest, said county government, upon its own motion, but after a public hearing called and held in the manner provided in § 4604 of this title, may dissolve and discontinue any sewer district:

(1) Provided that the period of 3 years shall have elapsed since the date of establishment of such district, and that no improvement has been constructed or service provided for such district at any time since the establishment thereof; and
(2) Further provided that there be no indebtedness outstanding and unpaid, incurred to accomplish any of the purposes of such district.

The county government shall authorize the issuance of bonds by a “bond resolution” passed by the affirmative vote of at least 3/5 of all its members.

(9 Del. C. 1953, § 4626; 56 Del. Laws, c. 103, § 13.)

§ 4628 Form and content of bond resolution.

Every bond resolution adopted pursuant to this chapter shall be properly dated and shall bear a title indicating the type of obligation to which it relates and shall contain, in substance, at least the following provisions:

1. A statement of the specific purpose for which the obligations authorized by the resolution are to be issued; such specific purpose to be described in brief and general terms sufficient for reasonable identification;

As used in this subchapter:

1. “Garbage” means residential garbage and trash to the exclusion of commercial and industrial refuse.

2. “Garbage collection district” means an area in Kent County outside of the limits of any incorporated municipality, within ascertainable boundaries, and which is in the opinion of the county government susceptible of efficient and economical garbage collection pursuant to the procedures of this subchapter.

3. “Garbage collection unit” means each improved parcel of real estate located within the boundaries of a garbage collection district and either used or intended for residential purposes.

(9 Del. C. 1953, § 4720; 58 Del. Laws, c. 221.)

§ 4721 Petition to establish garbage collection district.

Twenty-five real property owners of any area in Kent County contained within ascertainable boundaries and lying outside the limits of any incorporated municipality may petition the Kent County government to declare the area a garbage collection district. The petition shall set forth the boundary lines of the proposed garbage collection district and shall be filed on or before the first Tuesday in any month in any year with the clerk of the peace of Kent County.

(9 Del. C. 1953, § 4721; 58 Del. Laws, c. 221.)

§ 4722 Public hearing.

Upon receipt of the petition, the county government shall hold a public hearing, notice of which shall be published at least once in a newspaper published within the County. Said notice shall be published not more than 21 and at least 10 days before the public hearing and shall contain a description of the boundaries of the proposed garbage collection district and a statement that the county government will hold a hearing to consider whether or not to create the proposed disposal district. The notice shall also state that in the event the county government decides to create the proposed garbage disposal district, the county government will contract for garbage collection and assess the unit costs of garbage collection against each unit of real property used or intended for residential purposes within the garbage collection district.

(9 Del. C. 1953, § 4722; 58 Del. Laws, c. 221; 71 Del. Laws, c. 255, § 1.)
§ 4723 Creation of garbage collection district.

If the county government determines, after a public hearing, that it is in the public interest to create the proposed garbage collection district, it shall pass a resolution to that effect.

(9 Del. C. 1953, § 4723; 58 Del. Laws, c. 221.)

§ 4724 Contracts for garbage collection authorized.

The county government may enter into a contract with any private or public garbage collector to collect the garbage of each garbage collection unit located within the garbage collection district. The mere creation of a garbage collection district pursuant to § 4723 of this title shall not obligate the county government to enter into a contract hereunder if in its opinion the bids received pursuant to § 4725 of this title are too costly.

(9 Del. C. 1953, § 4724; 58 Del. Laws, c. 221.)

§ 4725 Award of contracts.

No contract for garbage collection shall be awarded unless the county government shall publicly invite sealed bids by at least 14 days’ notice in a newspaper published within the County. Bids so obtained shall be publicly opened and awarded to the lowest responsible bidder except that the county government may reject any or all bids. The county government may in its specifications include reasonable qualifications for bidders in respect to equipment. The county government may provide for contracts in excess of 1 year and may impose such provisions, conditions and limitations as deemed desirable, including requirements that no 1 bidder may serve the entire county.

(9 Del. C. 1953, § 4725; 58 Del. Laws, c. 221; 60 Del. Laws, c. 329, § 3.)

§ 4726 Levy and collection of garbage collection tax.

(a) In order to pay the annual costs for any garbage collection contract entered into pursuant to § 4724 of this title, the county government shall divide the annual contract cost, plus a pro rata administrative cost as determined by the county government, by the number of garbage collection units within the garbage collection district to arrive at the annual unit cost. The annual unit cost shall then be assessed against each garbage collection unit located within the boundaries of the garbage collection district. No parcel of real estate shall be exempt from paying its annual unit cost because it is uninhabited so long as it is improved and intended for residential use. No parcel of real estate so improved and intended for residential use shall be exempt from paying its annual unit cost because its owner chooses not to use the garbage collection service.

(b) The annual unit cost assessed against each garbage collection unit shall be levied and collected by the Board of Assessment, county government and Receiver of Taxes and County Treasurer at the same time and in the same manner as other county taxes and shall be a lien on real property the same as other county taxes. The tax shall be included on the county tax bills under the heading “garbage collection tax.”

(9 Del. C. 1953, § 4726; 58 Del. Laws, c. 221; 59 Del. Laws, c. 198, § 1.)

§ 4727 Administration of funds.

All amounts collected pursuant to this subchapter shall be paid into the general fund of Kent County and all payments for garbage collection shall be paid out of the general fund of Kent County. Should Kent County fail in any 1 year to collect all of the taxes in the garbage collection district necessary to pay the contract price for garbage collection in any year, the county government may pay the deficit out of the general fund pending enforcement of the tax lien. The county government may make payments out of the general fund in anticipation of collection of the garbage collection tax.

(9 Del. C. 1953, § 4727; 58 Del. Laws, c. 221.)

§ 4728 Annual rebidding on contracts [Repealed].

§ 4729 Continuation and termination of contracts; consolidation of garbage collection districts.

Once a garbage collection district has been formed and garbage collection undertaken pursuant to this subchapter, the county government may, without further public hearings, enter into new contracts for garbage collection. However, the county government may determine not to continue garbage collection for any garbage collection district at the expiration of any contract entered into pursuant to this subchapter. The county government may, without further public hearings, consolidate 2 or more garbage collection districts into a single district.

(9 Del. C. 1953, § 4729; 58 Del. Laws, c. 221; 59 Del. Laws, c. 198, § 2; 60 Del. Laws, c. 329, § 2.)

§ 4730 Annual budgeting.

(a) The annual amounts required for garbage collection contracts entered into pursuant to the provisions of this subchapter shall be included in the annual budget request of the office of County Engineer under separate headings for each garbage collection district. After levying the garbage collection tax, the county government shall deliver a separate tax collection warrant together with a list of taxables
for each garbage collection district to the Receiver of Taxes and County Treasurer commanding him or her to collect from the persons named in the said list their garbage collection tax and its amount.

(b) Should a garbage collection district be formed and a garbage collection contract awarded after the commencement of any fiscal year, the county government shall include in the next annual budget an amount sufficient to reimburse the general fund for the expenditure during the last fiscal year as well as an amount sufficient to pay the contract cost for the coming fiscal year. Any contract awarded after the commencement of a fiscal year shall expire at the beginning of the next fiscal year.

Each land use category shall be defined in terms of the types of uses included and standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies and data regarding the area, including the amount of land required to accommodate anticipated growth, the projected population of the area, the character of undeveloped land, and the availability of public services. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this subchapter. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. Population, demographic, environment, oil economic data and projections used to determine present conditions, future land use, and public facility requirements shall be developed in conjunction with the State and municipalities, and shall, as a minimum, be consistent with projections officially adopted by the Delaware Population Consortium. The sources and assumptions used to develop such projections shall be clearly identified.

2. A mobility element which is consistent with the approved area-wide transportation plan and has been developed in conjunction with the Department of Transportation. The mobility element shall provide a balanced transportation system addressing the movement of people and goods while showing existing and proposed rights-of-way, sidewalks, bikeways, rail facilities, terminals and related facilities. The mobility element shall include recommendations for land use regulations that promote a range of sustainable transportation choices for future transportation needs. The mobility element shall be consistent with the State Implementation Plan (SIP) for air quality attainment.

3. A water and sewer element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, and wastewater disposal for the area. County government, in conjunction with the State, shall assess their current, as well as projected, water needs and sources. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The water and sewer element shall be developed in consultation with and reviewed by the Department of Natural Resources and Environmental Control. The water and sewer element shall include an assessment of fiscal considerations and shall be consistent with approved area-wide wastewater treatment plans.

(1) A comprehensive plan which sets out plans and programs for the future planning and development of land in the area.

§ 4957 State responsibilities to local planning agencies.

(a) All elements of the comprehensive plan shall be based upon data appropriate to the element involved. State agencies shall provide to each county upon request existing data or information necessary to expedite the development and preparation of the comprehensive plan and elements of this section. Surveys and studies utilized in the preparation of the comprehensive plan shall not be deemed a part of
the comprehensive plan unless adopted as a part of it. Copies of such studies, surveys and supporting documents shall be made available
to public inspection, and shall be made available to the public upon payment of reasonable charges for reproduction. The County shall be
relieved of any requirement to comply with the data and information requirements of this subchapter when the State is unable to supply

plan shall be subject to the state review and certification process set forth in § 9103 of Title 29.

(b) The State shall not be obligated to provide state financial assistance or infrastructure improvements to support land use or
development actions by the county where the County’s adopted comprehensive plan or portions thereof are determined to be substantially

2012. The Cabinet Committee shall forward the report to the Office of State Planning Coordination, which will evaluate it in the context
of state goals, policies and strategies, and the plans of other jurisdictions. The Office of State Planning Coordination will integrate the

which is to be prepared as specified in § 9101(d), Title 29. It is the intent of this subchapter that periodic updates on amendments to and
the implementation of adopted comprehensive plans be communicated through the evaluation and appraisal reports to ascertain trends,
monitor implementation and foster ongoing coordination.

(d) The report shall present an assessment and evaluation of the success or failure of the comprehensive plan or element or portion
thereof, and shall contain appropriate statements (using words, maps, illustrations or other forms) related to:

Committee elect to do so, the Office of State Planning Coordination shall assist the Committee in the development and administration
of such guidelines.

(a) After a comprehensive plan or element or portion thereof has been adopted by County Council or Levy Court in conformity with
this subchapter, the land use map or map series forming part of the comprehensive plan as required by this subchapter shall have the force
of law, and no development, as defined in this subchapter, shall be permitted except in conformity with the land use map or map series and with land development regulations enacted to implement the other elements of the adopted comprehensive plan.

(b) Nothing in this subchapter shall serve to invalidate any comprehensive plan, land development regulation, land use, development, development order or development permit which presently exists or which hereafter validly comes into existence prior to the date when full compliance with this subchapter is required.

(c) Any application for a development permit filed or submitted prior to adoption or amendment under this subchapter of a comprehensive plan or element thereof shall be processed under the comprehensive plan, ordinances, standards and procedures existing at the time of such application.

(d) All development permits and development orders heretofore or hereafter validly issued or approved by county government and not thereafter limited, rescinded or restricted shall automatically be incorporated into and become part of the present and all future comprehensive plans, subject to whatever time limitations may otherwise apply to such permits and orders at the time of issuance or approval.

(e) In the event that any comprehensive plan or element required to comply with this subchapter shall be determined as failing to comply herewith, such failure shall not invalidate those elements of the plan which do comply with this subchapter, nor invalidate any previously issued development permit or order that was not specifically and timely challenged in the legal action in which such noncompliance was determined.

The basis for the request shall be clearly indicated. The decision whether to grant a request an extension, and the duration of such extension, shall be at the discretion of the Cabinet Committee. Upon completion of the comment period set forth in this subchapter, the County shall solicit public comment and adopt a comprehensive plan for zoning, subdivision and other land use decisions. Such plan shall be updated every 10 years thereafter.

(b) Once the county government shall have in place said comprehensive plan, the County shall not be permitted to amend such plan without a simple majority of the entire membership thereof voting to do so.

In the event that the comprehensive plan includes provisions governing the rate of growth of particular planning districts or sub-areas of the County, the County’s zoning district regulations shall be amended to reflect the timing elements of the comprehensive plan.

§ 4961 Information from state and local agencies and school districts.

(a) All subdivision plans approved by the county government shall be filed with the Office of the Recorder of Deeds, and with such other state and local agencies as the County may by ordinance require.

(b) As part of its review of a rezoning or subdivision application, the county government through its designated local planning agency shall request and review information from all state and local agencies and local school districts identified on a list prepared by the County and shall file as part of the record any written information provided by such state and local agencies or local school districts with respect to the rezoning or subdivision application. If the planning agency makes recommendations that are in conflict with the information supplied by state and local agencies or local school districts, it must explain its reasons for doing so in writing.

(c) Any state or local agency or local school district which delivers to the head of county government a written request that it be notified of rezoning or subdivision applications shall be included on the County’s list of agencies and school districts from which information shall be requested and reviewed in accordance with subsection (b) of this section.

(2) “Stormwater management” means:

a. For water quantity control, a system of vegetative, structural, and other measures that controls the volume and rate of stormwater runoff which may be caused by land disturbing activities or activities upon the land; and

(79 Del. Laws, c. 149, § 1.)

§ 5202 Establishing a stormwater maintenance district.

(a) Real property owners of any area in Kent County contained within ascertainable boundaries may petition the Kent County government to declare the area a stormwater maintenance district. The petition shall set forth the boundary lines of the proposed stormwater maintenance district and be submitted according to the criteria established by the county government.

(b) Any new applicable subdivision or land development approved following the adoption of Kent County’s implementing ordinance shall establish a stormwater maintenance district as a condition of approval. Fees for the district shall not be incurred until the subdivision or land development is complete and the stormwater infrastructure approved by the appropriate regulating agency.

(c) Kent County may establish a stormwater maintenance district within an incorporated area using the same submission process only with the concurrence of the local governing body.

(79 Del. Laws, c. 149, § 1.)

§ 5203 Public hearing.

Upon receipt of the petition, the county government shall hold a public hearing, notice of which shall be published at least once in a newspaper published within the County. Said notice shall be published not more than 21 and at least 10 days before the public hearing and shall contain a description of the boundaries of the proposed stormwater maintenance district and a statement that the county government will hold a hearing to consider whether or not to create the proposed district. The notice shall also state that in the event the county government decides to create the proposed stormwater maintenance district, the county government will assess the unit costs of stormwater maintenance against each unit of real property used or intended for residential purposes within the stormwater maintenance district.

(79 Del. Laws, c. 149, § 1.)

§ 5204 Creation of stormwater maintenance district.

(a) If the county government determines, after a public hearing, that it is in the public interest to create the proposed stormwater maintenance district, it shall pass a resolution to that effect.

(b) The creation of a stormwater maintenance district and the resulting infrastructure maintenance managed by the County shall take precedence over any homeowner obligation for stormwater management included in declarations of restrictions or similar development agreements. Any common open space or infrastructure within a community not maintained as part of a stormwater maintenance district shall remain the responsibility of the homeowners.

(79 Del. Laws, c. 149, § 1.)

(79 Del. Laws, c. 149, § 1.)
§ 5207 Levy and collection of stormwater maintenance fee.

(a) In order to fund the annual and long-term costs for each stormwater maintenance district, the county government shall establish a fee structure for each district and divide the annual cost, plus a pro rata administrative cost as determined by the county government, by the number of dwelling units within the stormwater maintenance district to arrive at the annual unit cost. The annual unit cost shall then be assessed against each unit located within the boundaries of the stormwater maintenance district. No parcel of real estate shall be exempt from paying its annual unit cost. The established fee structure need not be uniform among districts.

(b) The annual unit cost assessed against each unit shall be levied and collected by the Board of Assessment and county government at the same time and in the same manner as other county taxes and shall be a lien on real property the same as other county taxes. The fee shall be included on the county tax bills under the heading “stormwater maintenance fee.”

(79 Del. Laws, c. 149, § 1.)

§ 5208 Administration of funds.

All amounts collected pursuant to this chapter shall be paid into the general fund of Kent County and all payments for stormwater maintenance shall be paid out of the general fund of Kent County. Should Kent County fail in any 1 year to collect all of the taxes in the stormwater maintenance district necessary to pay the price for stormwater maintenance in any year, the county government may pay the deficit out of the general fund pending enforcement of the tax lien. The county government may make payments out of the general fund in anticipation of collection of the stormwater maintenance tax.

(79 Del. Laws, c. 149, § 1.)

§ 5209 Continuation and termination of contracts; consolidation of stormwater maintenance districts.

The county government may determine not to continue stormwater maintenance for any stormwater maintenance district at the expiration of any agreement entered into pursuant to this chapter. The county government may, without further public hearings, consolidate 2 or more stormwater maintenance districts into a single district.

(79 Del. Laws, c. 149, § 1.)

§ 5210 Annual budgeting.

(a) The annual amounts required for stormwater maintenance pursuant to the provisions of this chapter shall be included in the annual budget under separate headings for each stormwater maintenance district. After levying the stormwater maintenance fee, the county government shall deliver a separate fee collection warrant together with a list of taxables for each stormwater maintenance district to the County Finance Director commanding him or her to collect from the persons named in the said list their stormwater maintenance fee and its amount.

(b) Should a stormwater maintenance district be formed after the commencement of any fiscal year, the county government shall include in the next annual budget an amount sufficient to reimburse the general fund for the expenditure during the last fiscal year as well as an amount sufficient to pay the cost for the coming fiscal year.

§ 6704 Authorization of bonds; terms; sale and interest rate; borrowing in anticipation of issuance of bonds.

(a) The planning, acquisition, purchase, construction, reconstruction, improvement, betterment or extension of any sewerage or water system may be authorized under this chapter, and bonds may be authorized to be issued under this chapter to provide funds for such purpose by ordinance or resolution of the county government.

(b) The county government, in determining the cost of acquiring or constructing any sewerage or water system, may include all costs and estimated costs of the issuance of the bonds, all planning, engineering, inspection, fiscal and legal expenses, and interest which it is estimated will accrue during the construction period and for 6 months thereafter on money borrowed or which it is estimated will be borrowed pursuant to this chapter.

(c) The bonds shall bear interest at such rates, may be in 1 or more series, may bear such dates, may mature at such times not exceeding 40 years from their respective dates, may be payable in such medium of payment, at such place or places, may carry such registration privileges, may be subject to such terms of redemption, may be executed in such manner, may contain such terms, covenants and conditions and may be in such form, either coupon or registered as the ordinance or resolution provides. The reasonable expense of issuing such bonds shall be deemed part of the cost of constructing the sewer or water facilities.

(d) Bonds issued pursuant to this chapter may be sold at either public or private sale, upon such terms, conditions and regulations as the county government may prescribe; provided, that the county government may authorize the County Administrator to sell such bonds at public or private sale upon such terms, conditions and regulations as it may provide.

(e) If the county government determines to sell such bonds at public sale, then the county government shall advertise the bonds for sale at least once, 10 or more days before the date of sale, in at least 1 newspaper of general circulation published in the County, and in a newspaper of general circulation published in the City of New York, inviting bids for the bonds. The advertisements shall state the total amount of the proposed issue, the denominations of the bonds, the place of payment of the bonds and interest, the place and date of opening bids, the conditions under which the bonds are to be sold and such other matters as the county government may determine. The county government may give notice of the sale of the bonds in such other manner as it may decide.

(f) The county government may require each bid for the bonds to be accompanied by a certified check in the amount of the bid. After the bonds are awarded or sold to the successful bidder or bidders therefor, the county government shall return to the unsuccessful bidder or bidders the certified check or checks submitted with the bid or bids.

(g) The county government may reject any and all bids, but in awarding the sale of the bonds, or any of them, they shall be sold to the purchaser or purchasers, which, in the judgment of the county government, offers the most advantageous terms.

(h) The county government shall direct and effect the preparation and printing of the bonds authorized by this chapter, shall determine whether such bonds shall be registered or bearer with coupons convertible into fully registered bonds, and shall prescribe the form of the bonds and, in the case of bearer bonds with coupons, the form of the coupons for the payment of interest thereto attached. The bonds shall state the conditions under which they are issued, the face amount of the bonds and, in the case of bearer bonds with coupons, the coupons thereto attached shall be payable at such place or places as may be designated by the county government. The bonds shall be executed, sealed and delivered as prescribed by the county government.

(i) Pending the preparation of the definitive bonds, interim receipts or certificates in such form and with such provisions as the county government determines may be issued to the purchasers of bonds sold pursuant to this chapter.

(j) In anticipation of issuance of bonds, the county government may, by resolution, borrow money in such amounts as it may find necessary and authorize the issuance of negotiable notes therefor.

§ 6705 Authorized signatures on bonds; validity of issuance.

(a) Bonds bearing the signatures of officers in office on the date of the signing thereof shall be valid and binding obligations notwithstanding that before the delivery thereof and payment therefor any or all of the persons whose signatures appear thereon have ceased to be officers of the County.
§ 6706 Payment of bonds, faith and credit of County; tax levy.

The full faith and credit of the County may be pledged to the payment of any bonds issued by the County under this chapter. The county government may annually appropriate to the payment of bonds issued under this chapter and the interest thereon the amounts required to pay such bonds and interest as the same becomes due and payable. Notwithstanding the provisions of any other law, the county government may levy an ad valorem tax, without limitations as to rate or amount, upon all property taxable by the County to raise the moneys necessary to meet any such appropriation. Section 6111 of this title is hereby repealed to the extent said section is inconsistent with this chapter.

§ 6707 Authorization of covenants in bonds.

(b) The provisions of this chapter and any such ordinances or resolutions shall be a contract with the holder of the bonds, and the duties of the County and of the county government and officers under this chapter, and any such ordinances or resolutions shall be enforceable by any bondholder by mandamus or other appropriate suit, action or proceeding in any court of competent jurisdiction.

§ 6708 Service charges; amount and application; repayment for borrowed funds.

(a) If the County issues bonds under this chapter, the county government shall prescribe and collect reasonable service charges for the services and facilities rendered or afforded by the sewerage or water systems, the revenues of which are pledged to the payment of such bonds, and shall revise such service charges from time to time whenever necessary.

(b) The service charges prescribed shall be such as will procure revenue at least sufficient to:

(1) Pay when due all bonds and interest thereon, for the payment of which such revenue is or shall have been pledged, charged or otherwise encumbered, including reserves therefor; and

(2) Provide for all expenses of operation and maintenance of such sewerage or water systems, including reserves therefor.

(c) The service charges when collected shall be applied to the payment of the bonds and interest and to the expenses of such operation and maintenance in accordance with the ordinance or resolution authorizing the bonds.

(d) The County may borrow funds up to $1,000,000 to pay as due the necessary expenses of the operation and maintenance of any sewer or water system to be repaid from sums received for service charges of each respective sewer or water district. Section 6102 of this title is not applicable to this chapter.

§ 6709 Power to make charges; liability of users; computation of rates.

(a) The county government may charge and collect rents, rates, fees or other charges (in this chapter sometimes referred to as “service charges”) for direct or indirect connection with, or the use or services of, any sewerage or water system. Such service charges may be charged to and collected from any person contracting for such connection or use or service, or from the owner or occupant, or both of them, of any real property which directly or indirectly is or has been connected with a sewerage or water system, or from or on which originates or has originated sewerage which directly or indirectly has entered or may enter into a sewerage system, or into which water from a water system may enter directly or indirectly, and the owner or occupant, or both of them, of any such real property shall be liable to

for and shall pay such service charges to the County at the time when, and place where, the county government by ordinance, resolution, rule or regulation determines that such charges are due and payable.

(b) Such service charges shall, as near as the county government deems practicable and equitable, be uniform throughout the area served by the sewerage or water system, and may be based or computed either on the consumption of water on or in connection with the real property, making due allowance for commercial use of water, or on the number and kind of water outlets on or in connection with the real property, or on the number and kind of plumbing or sewerage fixtures or facilities on or in connection with the real property, or on the number of persons residing or working on or otherwise connected or identified with the real property or on a front footage basis, or on other factors determining the type, class and amount of use or service of the sewerage or water system, or on any combination of any such factors.

§ 6710 Penalties for failure to pay charges.

(a) In the event that a service charge with regard to any parcel of real property is not paid as and when due, interest shall accrue and be due to the County on the unpaid balance at the rate of 1 percent per month until the service charge, and the interest thereon, shall be fully paid to the County.

(b) In the event that any service charge with respect to any parcel of real property is not paid as and when due, the county government may, in its discretion, enter upon such parcel and cause the connection thereof leading directly or indirectly to the sewerage or water system to be cut and shut off until the service charge and any subsequent service charges with regard to such parcel and all interest accrued thereon are fully paid.

(9 Del. C. 1953, § 6710; 55 Del. Laws, c. 263; 57 Del. Laws, c. 762, § 10A.)

§ 6711 Lien of service charges on real estate.

(a) In the event that any service charge is not paid when due, the unpaid balance and any interest accrued shall be a lien on the parcel of real property with regard to which the service charge was made. The lien shall be superior and paramount to the interest in such parcel of any owner, lessee, tenant, mortgagee or other person, except the lien of taxes.

(b) If any service charge or any part of a service charge remains unpaid at the end of 2 years after the due date, the county government shall institute proper proceedings for the enforcement of the lien, levy the service charge as an assessment with interest thereon accrued, and all costs thereupon, upon the grounds and buildings with regard to which a service charge was made. The properties against which such service charges remain unpaid shall be liable for the payment of said service charge in the same manner as they are liable for other county taxes and are subject to the collection procedures set forth in Chapter 87 of this title.

(c) The Sheriff shall, out of the purchase money of the premises so sold, pay all costs arising from the process and sale to the parties entitled thereto respectively, and shall pay the amount of the service charge with accrued interest thereon to the county government. The residue of the purchase money shall be immediately deposited in a state or national bank designated by Sussex County, to the credit of the owner or owners of the property so sold.

The Prothonotary shall, under the supervision and direction of the county government, prepare a docket to be known as “The Sussex County Sewer and Water Lien Docket” in which shall be recorded the liens for service charges. The Docket shall be prepared at the expense of the county government in substantially the same form as the judgment docket for Sussex County, and contain in the back thereof an index according to the name of the owner against which such lien has been assessed. No sewer lien shall be valid unless duly recorded as provided in this section. All sewer liens duly recorded in the Docket shall continue in full force and effect until the liens have been satisfied by payment, and when such liens are satisfied by payment the Prothonotary, acting under the supervision and direction of the county government, shall satisfy the record by entering thereon the date of final payment and the words “satisfied in full.” The Prothonotary, for the use of the county government, shall receive a fee of 50 cents for each satisfaction so entered.

(a) Each municipality or public corporation, or other person, owning or operating any system of water distribution serving 3 or more parcels of real property in the County shall, from time to time after request therefor by the county government or its designated agent, deliver to the county government or its designated agent a statement showing the amount of water supplied to every such parcel of real property as shown by the records of the municipality or public corporation or other person. The statements shall be delivered to the county government or its designated agent within 10 days after request is made for them, and the county government or its designated agent shall pay the reasonable cost of preparation and delivery of such statements.

(b) The county government or its designated representatives may inspect, at reasonable hours, any premises, dwellings or other buildings in the vicinity of a county sewer to determine if it is connected to the county sewer or water main, or to determine if the sewer or water main connection has been made or is being maintained in accordance with the regulations of the county government.

(c) Whoever refuses to permit inspections and surveys at reasonable hours shall be fined not less than $10 for every such refusal.

No such resolution shall be adopted by the county government unless the annexing municipality shall have deposited a fund sufficient to pay when due any outstanding bonds issued hereunder for the purchase, construction, acquisition, extension or improvement of all systems wholly or partly within the annexed area, with interest to the date of call or redemption and any redemption or call premium applicable thereto.

   (e) The Commission shall encourage the cooperation of the cities and towns within Sussex County in any matter concerning the plan and, if requested, shall advise the governing body or authority of any city or town in Sussex County with respect thereto.

use of owners of property abutting thereon or adjacent thereto within the limits of the District shall be submitted to the Commission for 
its approval and the adoption of the county government and no person shall record any plan or map showing the location of any new 
or proposed road in any public office in Sussex County unless such plan or map shall show thereon by endorsement its approval by 
the Commission and its adoption by the county government. The approval of such plan or map by the Commission and the adoption 
thereof by the county government endorsed upon such plan or map shall, when recorded, be deemed and taken as an acceptance of the 
intended dedication of the roads appearing thereon, but shall not impose any duty upon the county government or upon the Department 
of Transportation respecting the maintenance or improvement thereof. Such plan or map shall, when recorded, become a part of the official 
map. The Commission may adopt and the county government may approve such regulations as are deemed advisable for the removal 
of snow from the streets appearing on the plan from the time the plan is recorded until the obligation to maintain such improvements is 
assumed either by a maintenance corporation or by an appropriate public agency.

(b) No plat of land within the District shall be received or recorded by the Recorder of Deeds in and for Sussex County or filed for 
recording in the Recorder’s office until the plat shall have been submitted to and approved by the Commission after public hearing and 
approved by the county government, and such approvals be endorsed in writing on the plat by the Chair or Secretary of the Commission and 
President of the county government. The filing or recording of a plat without the approval of the Commission and the county government 
shall, upon application of the Commission or the county government, to the Superior Court in and for Sussex County, Delaware, be 
deleted from the records.

(c) On the basis of the estimated cost of the services including filing fees and cost of legal notice to be rendered by it in connection 
with the consideration of such plats and the work incident thereto, the Commission may fix the scale of fees to be paid to it and may 
from time to time amend such scale. In the case of each plat submitted to the Commission, the fee thus fixed shall be paid before the 
plat is approved or disapproved.

(d) Every such plat shall be prepared by a registered professional engineer or land surveyor and shall be prepared upon stabilized plastic 
film of such size and character, with such notations, information as the Commission may, by regulation prescribe, and shall have such 
monuments, permanent markers, boundary stones or stations as the Commission shall prescribe, which shall be shown and designated 
on the plat thereof. The Commission shall also require a certification by the registered professional engineer or land surveyor that the 
monuments, permanent markers, boundary stones or stations have been properly installed and verified as to final location at the completion 
of the project. The Commission shall prescribe the procedure for the submission of such plat and action in respect thereto.

(9 Del. C. 1953, § 6810; 56 Del. Laws, c. 95; 57 Del. Laws, c. 762, § 11B; 60 Del. Laws, c. 503, § 22; 70 Del. Laws, c. 186, § 1; 
70 Del. Laws, c. 255, § 3.)

§ 6811 Approval or disapproval of plat by Commission; appeal.

The Commission shall approve or disapprove a plat within 45 days after the submission thereof; otherwise such plat shall be deemed 
to have been approved and a certificate to that effect shall be issued by the Commission upon demand. Such period may be extended by 
mutual agreement between the Commission and the applicant for the Commission’s approval. The grounds of disapproval of any plat 
shall be stated upon the records of the Commission and a copy of such statement shall be furnished to the applicant. No plat shall be acted

(3) Hear and decide requests for variances. The Board may grant a variance in the application of the provisions of the zoning ordinance or code only if all of the following findings are made:

a. That there are unique physical circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property, and that the unnecessary hardship or exceptional practical difficulty is due to such conditions, and not to circumstances or conditions generally created by the provisions of the zoning ordinance or code in the neighborhood or district in which the property is located;

b. That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning ordinance or code and that the authorization of a variance is therefore necessary to enable the reasonable use of the property;

c. That such unnecessary hardship or exceptional practical difficulty has not been created by the appellant;

d. That the variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, nor substantially or permanently impair the appropriate use or development of adjacent property, nor be detrimental to the public welfare; and

e. That the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modification possible of the regulation in issue.
In granting any variance, the Board may attach such reasonable conditions and safeguards as it may deem necessary to implement the purposes of this chapter and the zoning ordinance or code. The Board is empowered in no case, however, to grant a variance in the use of land or structures thereon.

The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified. The cost of the transcript of the hearing appealed from shall be the responsibility of the person appealing the decision unless said costs are allowed against the Board as provided in subsection (g) of this section.

(e) If, upon the hearing, it shall appear to the Court that testimony is necessary for the proper disposition of the matter, it may take evidence, or appoint a referee to take such evidence as it may direct and report the same to the Court with the referee’s findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the Court shall be made.

(f) The Court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

It is the intent of this subchapter to encourage the most appropriate use of land, water and resources consistent with the public interest and to deal effectively with future problems that may result from the use and development of land within their jurisdictions. Through the process of comprehensive planning, it is intended that units of county
government can preserve, promote and improve the public health, safety, comfort, good order, appearance, convenience, law enforcement and fire prevention and general welfare; facilitate the adequate and efficient provision of transportation, water, sewage, schools, parks, recreational facilities, housing and other requirements and services; and conserve, develop, utilize and protect natural resources within their jurisdictions.

(a) The County shall have power and responsibility:

2. To adopt and amend comprehensive plans, or elements or portions thereof, to guide its future development and growth.

3. To implement adopted or amended comprehensive plans by the adoption of appropriate land development regulations or elements thereof. In furtherance of the authority to adopt, amend and implement comprehensive plans or elements or portions thereof to guide and control future growth, counties are expressly granted the authority to develop and adopt regulations governing the transfer of development rights from identified districts, zones or parcels of land to districts, zones or areas designated to receive such development rights. Such regulations may provide for the establishment of development right banking. Whenever a County exercises its authority to provide for the transfer of development rights it shall:

   a. Comply with all requirements of this subchapter pertaining to the amendment of a comprehensive plan;

   b. Provide for the transfer of development rights as an option to the use and development of the subject property according to the otherwise applicable zoning ordinance;

   c. Limit designation of receiving areas to locations where the County has determined that growth should be encouraged and where a transfer of development rights would not result in the inability of either the existing or planned public facilities which serve the area to accommodate such growth;

   d. Demonstrate that the creation and regulation of both sending and receiving districts are otherwise consistent with promotion of the policies expressed by the comprehensive plan and Statewide Planning Goals and Objectives established pursuant to Chapter 91 of Title 29; and

   e. Consider appropriate incentives for the transfer of development rights, including bonuses for the use of transferred development rights and intergovernmental agreements with other counties or municipalities which would permit the transfer and use of development rights between counties and municipalities.

(4) To establish, support and maintain administrative instruments and procedures to carry out the provisions and purposes of this subchapter.

(b) Each county government shall prepare a comprehensive plan of the type and in the manner set out in this subchapter or amend its existing comprehensive plan to conform to the requirements of this subchapter.

§ 6954 Areas under this subchapter.

A county shall exercise authority under this subchapter for the total unincorporated area under its jurisdiction.

§ 6955 Local planning agency.

(a) The governing body of each county government shall designate and by ordinance establish a “local planning agency.” The governing body may designate itself as the local planning agency pursuant to this subsection. The local planning agency shall prepare the comprehensive plan after meetings to be held after due public notice and shall make recommendations regarding the adoption of such plan or element or portion thereof. The agency may be a local planning commission, the planning department of the county government or other instrumentality, including a countywide planning entity established by special act or council of local government officials, provided the composition of the council is fairly representative of all the governing bodies in the County.
§ 6956 Required and optional elements of comprehensive plan; studies and surveys.

(a) The comprehensive plan shall consist of materials in such descriptive form, either written or graphic, as may be appropriate to the prescription of principles, guidelines and standards for the orderly and balanced future economic, social, physical, environmental and fiscal development of the area.

(b) Coordination of the several elements of the local comprehensive plan shall be a major objective of the planning process.

(c) A capital improvements plan covering at least a 5-year period shall be developed in accordance with the adoption of, and be consistent with, the comprehensive plan. The capital improvements plan shall be designed to consider the need for and the location of public facilities in order to encourage the efficient utilization of such facilities and set forth:

(1) Principles for construction, extension or increase in capacity of public facilities, as well as principles for correcting existing public facility deficiencies, which are necessary to implement the comprehensive plan.

(2) Estimated public facility costs, including a delineation of when facilities will be needed, the general location of the facilities and projected revenue sources to fund the facilities.

(3) Standards to ensure the availability of public facilities and the adequacy of those facilities.

(4) To the extent provisions of the Capital Improvements Plan anticipate state financial assistance, involvement or cooperation, such provisions shall be developed in conjunction with the State Capital Improvement Plan and Annual Capital Budget.

(d) The capital improvements plan shall be reviewed on an annual basis and modified as necessary. Corrections, updates and modifications concerning costs, revenue sources, acceptance of facilities pursuant to dedications which are consistent with the plan, or the date of construction of any facility enumerated in the capital improvements plan may be accomplished by ordinance and shall not be deemed to be amendments to the local comprehensive plan. All proposed improvements to public facilities shall be consistent with the capital improvements plan.

(e) Coordination of the comprehensive plan with the comprehensive plans of municipalities within the county, adjacent counties and applicable state regulations and policy shall be an objective of the comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element adopted, the planning agency shall include a specific policy statement or coordinated mapping element indicating the relationship of the proposed development of the area to the comprehensive plans of municipalities within the county, adjacent counties and applicable state regulations and policy as the case may require. Such policy statement or coordinated mapping element shall specifically identify the coordination process undertaken and the official action taken by affected municipalities regarding the county comprehensive plan. Such statement or element shall also set forth the procedures to be followed to ensure continuing coordination with municipalities, regional agencies and the State. In addition, the comprehensive plan shall provide for coordination with state agencies regarding land use and development policies and shall provide for review and consideration by the Cabinet Committee on State Planning Issues at such times as required by this subchapter.

(f) The comprehensive plan and its elements shall contain policy recommendations for the implementation of the plan and its elements.

(g) The comprehensive plan shall include:

(1) A future land use plan element designating proposed future general distribution, location and extent of the uses of land for such activities as residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities and other categories of the public and private uses of land. The plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location and extent
Title 9 - Counties

of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies and measurable objectives. Each land use category shall be defined in terms of the types of uses included and standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies and data regarding the area, including the amount of land required to accommodate anticipated growth, the projected population of the area, the character of undeveloped land and the availability of public services. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this subchapter. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. Population, demographic, environment and economic data and projections used to determine present conditions, future land use and public facility requirements shall be developed in conjunction with the State and municipalities, and shall, as a minimum, be based on [consistent with] projections officially adopted by the Delaware Population Consortium. The sources and assumptions used to develop such projections shall be clearly identified.

(2) A mobility element which is consistent with the approved Area-wide Transportation Plan and has been developed in conjunction with the Delaware Department of Transportation. The mobility element shall provide a balanced transportation system addressing the movement of people and goods while showing existing and proposed rights-of-way, sidewalks, bikeways, rail facilities, terminals and related facilities. The mobility element shall include recommendations for land use regulations that promote a range of sustainable transportation choices for future transportation needs. The mobility element shall be consistent with the State Implementation Plan (SIP) for air quality attainment.

(3) A water and sewer element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, and wastewater disposal for the area. County government, in conjunction with the State, shall assess their current, as well as projected, water needs and sources. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The water and sewer element shall be developed in consultation with and reviewed by the Delaware Department of Natural Resources and Environmental Control. The water and sewer element shall include an assessment of fiscal considerations and shall be consistent with approved Area-wide Wastewater Treatment Plans.

(4) A conservation element for the conservation, use and protection of natural resources in the area and which results in the identification of these resources. At a minimum, the element shall consist of such natural area classifications as wetlands, wood uplands, habitat areas, geological areas, hydrological areas, floodplains, aquifer recharge areas, ocean beaches, soils and slopes. The land use map or map series contained in the future land use element shall generally identify and depict natural areas classifications, such as those enumerated in this section. The land uses identified on said maps shall be consistent with applicable state laws and regulations. Identification and depiction of the above shall be based on the best topographic maps and other information available from state and federal agencies or other sources that the County deems appropriate. The conservation element shall also consider areas most suited for agricultural uses, silvicultural uses and watershed protection. The conservation element shall be developed in consultation with and reviewed by the Delaware Department of Agriculture and the Delaware Department of Natural Resources and Environmental Control.

(5) A recreation and open space element indicating a comprehensive system of public and private sites for recreation including, but not limited to, nature preserves, parks and playgrounds, parkways, water bodies including beaches and public access to beaches, open spaces and other recreational facilities. A county recreation and open space plan is acceptable in lieu of a recreation and open space element. The recreation and open space element shall be consistent with the Comprehensive Land Use Plan. The element shall be developed in consultation with and reviewed by the Delaware Department of Natural Resources and Environmental Control and shall reflect the State’s open space preservation and outdoor recreation planning activities.

(6) A housing element that is consistent with county housing plans, standards and principles. Such housing plans shall be in accordance with state and federal rules and regulations and the housing plan or housing element of the comprehensive plan shall include the following:

b. The elimination of substandard dwelling conditions.

c. The structural and aesthetic improvement of existing housing.

d. The provision of adequate sites for future housing, including housing for low-income and moderate-income families, group home facilities and foster care facilities, with supporting infrastructure and public facilities.

e. Provision for relocation housing and identification of historically significant and other housing for purposes of conservation, rehabilitation or replacement.

f. The formulation of housing implementation programs.

g. Demonstrated coordination with the State Housing Authority including but not limited to guidelines to insure that sites for publicly assisted housing are located where adequate transportation opportunities, health and social services and other community services are available.

(7) An intergovernmental coordination element of the comprehensive plan shall demonstrate consideration of the particular effects of the plan, when adopted, upon the development of municipalities within the County, adjacent counties or on the applicable state regulations.
§ 6957 State responsibilities to local planning agencies.

(a) All elements of the comprehensive plan shall be based upon data appropriate to the element involved. State agencies shall provide to each county upon request existing data or information necessary to expedite the development and preparation of the comprehensive plan and elements of this section. Surveys and studies utilized in the preparation of the comprehensive plan shall not be deemed a part of the comprehensive plan unless adopted as a part of it. Copies of such studies, surveys and supporting documents shall be made available to public inspection, and shall be made available to the public upon payment of reasonable charges for reproduction. The County shall be relieved of any requirement to comply with the data and information requirements of this subchapter when the State is unable to supply the necessary data and information to implement that requirement, except when such data and information is currently available or readily accessible to the county within budgetary limitations.

(b) The State, through the Office of State Planning Coordination, shall provide to the County, for use in the comprehensive planning process, state land use and development goals and policies, state regulatory requirements, estimates of future state financial capabilities, the State Capital Improvements Budget and Plan, state facility location plans, estimates of existing quantity of natural resources, economic development strategies and any other information which might reasonably influence the county’s future land use decisions. The State shall provide the County with long-range plans, performance standards, land development policies, facility siting criteria and infrastructure impact assessment standards (necessary to ensure the availability of public facilities and the adequacy of those facilities), so as to enable the County to prepare the plan elements required by § 6956 of this title and to clearly set forth the criteria the State will use to review such elements. The review by the Cabinet Committee on State Planning Issues shall be pursuant to § 9103 of Title 29. During preparation of the county comprehensive plan, the county and the State shall jointly establish guidelines for the location and arrangement of public facilities, such as public schools, health care facilities, public safety and correctional institutions, libraries and other public buildings. Such guidelines shall be used to coordinate between the various levels of government so as to ensure that public buildings and facilities are located in a manner which are consistent with state and county development goals.

(c) The planning programs shall be a continuous and ongoing process. The local planning agency shall prepare a report on the progress of implementing the comprehensive plan, which shall be sent to the Office of State Planning Coordination each year after adoption of the comprehensive plan. The report shall be due annually no later than on each anniversary of the effective date of the most recently adopted comprehensive plan or plan update until January 1, 2012, and annually no later than July 1 each year thereafter starting on July 1,
§ 6959 Legal status of comprehensive plan.

(a) After a comprehensive plan or element or portion thereof has been adopted by County Council or Levy Court in conformity with this subchapter, the land use map or map series forming part of the comprehensive plan as required by this subchapter shall have the force of law, and no development, as defined in this subchapter, shall be permitted except in conformity with the land use map or map series and with land development regulations enacted to implement the other elements of the adopted comprehensive plan.

(b) Nothing in this subchapter shall serve to invalidate any comprehensive plan, land development regulation, land use, development, development order or development permit which presently exists or which hereafter validly comes into existence prior to the date when full compliance with this subchapter is required.

(c) Any application for a development permit filed or submitted prior to adoption or amendment under this subchapter of a comprehensive plan or element thereof shall be processed under the comprehensive plan, ordinances, standards and procedures existing at the time of such application.

(d) All development permits and development orders heretofore or hereafter validly issued or approved by county government and not thereafter limited, rescinded or restricted shall automatically be incorporated into and become part of the present and all future comprehensive plans, subject to whatever time limitations may otherwise apply to such permits and orders at the time of issuance or approval.

(e) In the event that any comprehensive plan or element required to comply with this subchapter shall be determined as failing to comply herewith, such failure shall not invalidate those elements of the plan which do comply with this subchapter, nor invalidate any previously issued development permit or order that was not specifically and timely challenged in the legal action in which such noncompliance was determined.

§ 6960 County comprehensive plan.

(a) The County shall submit a final comprehensive plan for submission to the Cabinet Committee on State Planning Issues no later than 5 years after the adoption of the current plan; provided, however, that the County may request an extension of such date by forwarding a written request to the Cabinet Committee at least 90 days prior to the deadline. The basis for the request shall be clearly indicated. The decision whether to grant a request an extension, and the duration of such extension, shall be at the discretion of the Cabinet Committee. Upon completion of the comment period set forth in this subchapter, the County shall solicit public comment and adopt a comprehensive plan for zoning, subdivision and other land use decisions. Such plan shall be updated every 10 years thereafter.

(b) Once the county government shall have in place said comprehensive plan, the County shall not be permitted to amend such plan without a simple majority of the entire membership thereof voting to do so.

(c) Within 1 year of the date of adoption of the county plan, the County shall initiate an implementation program regarding subdivision and development controls. The County shall report the status of the implementation program in the monitoring report as required by this subchapter. This report should include progress to date, problems, issues and opportunities.

(d) Subsequent amendments to the county comprehensive plan required by this chapter shall be submitted to the Cabinet Committee on State Planning Issues for review and certification pursuant to § 9103 of Title 29.
(e) Within 18 months of the date of adoption of the county comprehensive plan or revisions thereof, Sussex County shall amend its official zoning map or maps to rezone all lands in accordance with the uses and intensities of uses provided for in the future land use element for the County. In the event that the comprehensive plan includes provisions governing the rate of growth of particular planning districts or sub-areas of the County, the County’s zoning district regulations shall be amended to reflect the timing elements of the comprehensive plan.

§ 6961 Information from state and local agencies and school districts.

(a) All subdivision plans approved by the county government shall be filed with the Office of the Recorder of Deeds, and with such other state and local agencies as the County may by ordinance require.

(b) As part of its review of a rezoning or subdivision application, the county government through its designated local planning agency shall request and review information from all state and local agencies and local school districts identified on a list prepared by the County and shall file as part of the record any written information provided by such state and local agencies or local school districts with respect to the rezoning or subdivision application. If the planning agency makes recommendations that are in conflict with the information supplied by state and local agencies or local school districts, it must explain its reasons for doing so in writing.

(c) Any state or local agency or local school district which delivers to the head of county government a written request that it be notified of rezoning and subdivision applications shall be included on the County’s list of agencies and school districts from which information shall be requested and reviewed in accordance with subsection (b) of this section.

§ 6962 Highway capacity.

As soon as possible, but in any event no later than June 30, 1988, the county government, through its designated planning agency, shall establish an agreement with the Department of Transportation to provide a procedure for analysis by the Department of Transportation of the effects on traffic of each rezoning application.

c. The purpose of the agreement under paragraph (1)a. of this section shall be to ensure that traffic analyses are conducted as part of the zoning reclassification process within the County.

d. The agreement under paragraph (1)a. of this section shall provide for the review of traffic impacts according to nationally recognized traffic criteria and shall, at a minimum, consider the effects of existing traffic, projected traffic growth in areas surrounding a proposed zoning reclassification, and the projected traffic generated by the proposed site development for which the zoning reclassification is sought.

(2) a. The County Council, through its designated planning agency, shall establish an agreement with the Department of Transportation to designate a Complete Community Enterprise District as described in §§ 2103 and 2104 of Title 2.

No ordinance, except those relating to the budget or appropriation of funds and those relating to the adoption or revisions of the County Code shall contain more than 1 subject which shall be clearly expressed in its title. The enacting clause shall be “The County of Sussex hereby ordains.” Any ordinance which repeals or amends an existing ordinance or part of the County Code shall set out in full that part of the ordinance, sections or subsections to be repealed or amended, and shall indicate the matter to be omitted by enclosing it in brackets and shall indicate new matter by underscoring or by italics.

(2) An ordinance may be introduced by any member at any regular or special meeting of the county government. Upon introduction of any ordinance, the Clerk of the county government shall distribute a copy to each elected official of the county body and to the County Administrator; shall file a reasonable number of copies in the office of the Clerk of the county government and such other public places as the county government may designate; shall in 2 newspapers of general circulation in the county publish in bold type the ordinance or the title thereof together with a notice setting out the time and place for a public hearing thereon by the county government; and shall produce a sufficient number of copies thereof to meet reasonable demands therefor by interested citizens and others who may be affected by said ordinance. The public hearing shall follow the publication by at least 15 days; may be held separately or in connection with a regular or special county government meeting and may be adjourned from time to time and all persons interested will have a reasonable opportunity to be heard. The county government may make rules governing the holding of public hearings. After the public hearing the county government may adopt the ordinance with or without amendment or reject it, but if it is amended as to any matter of substance which is not embraced within the title of the ordinance, the county government may not adopt it until the ordinance or its amended sections have been subjected to all of the procedures hereinafore required in the case of a newly introduced ordinance. As soon as practicable after adoption of any ordinance, the Clerk of the county government shall number the ordinance and have it, or its title, published again, together with a notice of its adoption.

(3) Except as otherwise provided in this title, every adopted ordinance shall become effective immediately unless the ordinance itself stipulates a different date.

(n) Consideration and adoption of the annual operating budget ordinance. — (1) The county government, upon receipt of the proposed operating budget from the County Administrator, shall immediately publish a notice in all newspapers of general circulation in the County, setting forth:

The county government may increase, decrease or delete any item of appropriation recommended by the County Administrator. Upon concurrence of its members, the county government may add new items of appropriation.

(3) Amendments to the annual operating budget ordinance shall be considered and approved by the county government under the same procedures prescribed for its original adoption, but no amendment shall increase the aggregate of authorized expenditures to an amount greater than the total of the appropriation made at the time of the adoption of the original budget.

(o) Emergency ordinances. — To meet a public emergency affecting life, health, property or the public peace, the county government may adopt emergency ordinances, but such ordinances may not levy taxes, grant, review or extend a franchise, or authorize the borrowing of money except to issue emergency notes as provided by law. An emergency ordinance shall be introduced in the form and manner prescribed for ordinances generally, except that it shall be plainly designated as an emergency ordinance and shall contain, after the enacting clause, a declaration stating that an emergency exists and describing it in clear and specific terms. An emergency ordinance may be adopted with or without amendment or rejected at the meeting at which it is introduced. After its adoption, the ordinance shall be published and printed as prescribed for other adopted ordinances. It shall become effective immediately upon adoption or at such later time as it may specify. An emergency ordinance may be repealed by adoption of a repealing ordinance in the same manner specified in this section for adoption of emergency ordinances.

(p) Budgets of revenues. — (1) The county government, at the meeting at which the annual operating budget ordinance is adopted and within the limits of its power and subject to other provisions of this title, shall ordain such taxes and other revenue measures as will yield sufficient revenue which, together with any available surplus, will balance the budget.

(2) Revenues shall be estimated only upon the bases of the cash receipts anticipated for the fiscal year.

(3) The estimated yield from each item of revenue and of the amounts of surplus to be used in the balancing of the budget shall be provided to the county government by the County Administrator. The map shall show the location and lines of the public roads, easements, water courses, public lands and zoning districts within the County presently existing or established by law at the time of the preparation and setting up of the map and shall also show the location of the lines of the roads, easements, watercourses, public lands and zoning districts which have been approved by the county government.

(2) The Planning and Zoning Commission of Sussex County shall review the official map or any amendment, extension or addition thereto. After public hearing the Commission shall submit the official map or such amendment, extension or addition thereto along with its comments, to the county government. The county government shall not be bound by the report of the Commission and the county government may add, change or delete any portions of the proposed map, amendments, extension or addition thereto as it sees fit. If adopted by the county government, the map shall be recorded in the Recorder’s office within 30 days after such action.

(r) Authentication, recording, codification and printing of ordinances. — (1) The Clerk of the county government shall authenticate by his or her signature and record in full, in a properly indexed book kept for that purpose, all ordinances and resolutions adopted by the county government.

(2) Within 5 years after the commencement of the system of government provided herein, and at least every 5 years thereafter, the county government shall provide for the preparation of the general codification of all county ordinances having the force and effect of continuing law. The general codification shall be adopted by the county government by ordinance and shall be published promptly in bound or loose-leaf form, together with pertinent provisions of the Constitution and other laws of this State applicable to Sussex County, and such codes of technical regulations and other rules and regulations as the county government may specify. This compilation shall be known and cited officially as the Sussex County Code. Copies of the County Code shall be distributed as directed by the county government.

(3) The county government shall cause each ordinance having the force and effect of law and each amendment to state law affecting the County to be reproduced promptly following its adoption; and the reproduced ordinances, and the amendments to state law shall be
distributed or sold to any person at reasonable prices to be fixed by the county government. Subsequent to the publication of the first
Sussex County Code, the ordinances and the amendments to state law shall be printed or reproduced in substantially the same style
as the County Code currently in effect and shall be suitable in form for integration therein. The county government shall make such
further arrangements as it deems desirable with respect to reproduction and distribution of any current changes in or additions to the
provisions of the Constitution and other laws of the State or the codes of technical regulations included in the County Code.

(s) Adoption of pay plans. — (1) All persons employed by the County or by any of its boards, whether as officers or otherwise,
paid either in part or in whole from appropriations made by the county government, except those whose compensation is fixed by state
law, shall be compensated only in accordance with pay plans adopted by the county government.

(2) Promptly upon receipt from the County Administrator of any recommendation of measures for the establishment or amendment
of a pay plan or portions thereof for persons in the classified service, the President of the county government may introduce an ordinance
for the adoption of such recommendations. Not later than 60 days after receipt of such recommendations, the county government shall
adopt or reject them as submitted or adopt them in such amended form as the county government may provide.

(t) Creation of debt; authorization, procedures, debt limitation and anticipation borrowing. — (1) The county government shall
exercise all powers hereetofore vested in the county government of Sussex County in connection with the creation of debt, and shall have
the power to authorize the issuance of bonds and notes of Sussex County to finance the cost of any object, program or purpose for which
Sussex County, or any officer, department, board or agency thereof, is, by this title or by any other law, authorized to raise, appropriate
or expend money, or for the implementation and performance of functions, programs and purposes specified in this title or in any other
law applicable to Sussex County; provided however, that the county government shall not have authority to create or to authorize the
creation of any bonded indebtedness for any of the following purposes: The payment of any operating expenses; the payment of any
judgment resulting from the failure of the County to pay any item of operating expense; or the payment for any equipment or any public
improvements of a normal life of less than 3 years. The foregoing limitations shall not apply should the county government unanimously
declare the existence of any emergency due to public calamity. The term “bonded indebtedness” shall not include the promissory notes
issued pursuant to lines of credit for short-term borrowing purposes. “Short-term borrowing purposes” shall include borrowings with a
term of not to exceed 5 years from date of such note, or a note that is payable upon demand of the obligee.

(2) The powers conferred by this chapter shall be in addition to and not in substitution for or in limitation of the powers conferred by
any other law. Bonds and notes may be issued under this chapter for any object or purpose for which Sussex County is by this chapter
or any other law authorized to raise or appropriate or expend money notwithstanding that any other law may provide for the issuance
of bonds or notes for the same or like purposes and without regard to the requirements, restrictions or other provisions contained in any
other law. Bonds and notes may be issued under this chapter notwithstanding any debt or other limitation prescribed by any other law,
and the mode and manner of procedure for the issuance of bonds and notes and the adoption of the ordinance authorizing issuance of
the bonds or notes under this chapter need not conform to the provisions of any other law or any other provision of this chapter.

(3) Bonds and notes issued pursuant to this chapter shall be authorized by ordinance of the county government approved by not less
than 4/5 of all of the members thereof; provided however, that the county government shall be authorized by resolution approved by a
majority of all of the members thereof to establish lines of credit for short term borrowing purposes and to execute, issue and deliver
promissory notes for amounts borrowed pursuant to said lines of credit. Each such ordinance or resolution shall state in brief and general
terms the objects or purposes for which the bonds or notes are to be issued and the maximum aggregate principal amount of bonds or
notes to be issued for each such object or purpose. Such ordinance, or a subsequent resolution of the county government pertaining
to such ordinance, or a resolution of the county government, shall specify, or may delegate authority to the County Administrator to
determine, with respect to any bonds and notes the following: Their date or dates; their maturity; the security therefor, if any, including
a pledge of the County’s full faith and credit, if there is to be such a pledge; federal or state grants or other revenues or property;
provisions for either serial or term bonds; sinking fund or other reserve fund requirements, if any; provisions for redemption prior to
maturity, if any, with or without premiums; the interest rate or rates, including variable rates, and any limitation with respect thereto or
the manner of their determination; the times and place or places within or without the State for the payment of principal and interest;
the method of execution; the form; provisions, if any, for the consolidation of debt authorized for several objects and purposes pursuant
to 1 or more ordinances into 1 consolidated issue; provisions, if any, for the receipt and deposit or investment of any good faith deposit;
provisions for the public or private sale of bonds; and such other terms and conditions as the county government may determine to be in
the best interest of the County. Debt incurred by the County pursuant to this chapter may be represented by uncertificated obligations of
the County which may be applicable to bonds and notes which are permitted to be issued under this chapter, and the county government
by resolution may determine, or it may delegate authority to the County Administrator to determine, all procedures appropriate to the
establishment of a system of issuing uncertificated debt.

(4) Bonds issued pursuant to this chapter may be sold at either public or private sale, upon such terms, conditions and regulations
as the county government may prescribe; provided, that the county government may authorize the County Administrator to sell such
bonds at public or private sale upon such terms, conditions and regulations as it may provide.

(5) The county government may pledge the full faith and credit of the County to secure the payment of the principal, interest and
premium, if any, on any debt incurred pursuant to this chapter and/or may pledge any other security therefor. With respect to any
debt to which the County’s full faith and credit is pledged, the authorizing ordinance and the debt instruments issued shall contain the
declaration that the principal, interest and premium, if any, are to be paid by ad valorem taxes on all real property subject to taxation by the County without limitation as to rate or amount and that the full faith and credit of the County are pledged for payment. The county government shall annually levy and collect a tax ad valorem upon all property taxable by the County sufficient to pay the principal of and interest on each bond or note secured by the County’s pledge of its full faith and credit as such principal and interest become due; provided, however, such tax may be reduced by the amount of other moneys appropriated and actually available for such purpose or provided for by local or special assessments or local service taxes.

(6) The outstanding general obligation bonded indebtedness of Sussex County secured by the full faith and credit of the County may not exceed 12 percent of the assessed valuation of all real property subject to taxation within the County. The outstanding bonded indebtedness of the County not secured by the County’s full faith and credit is without limitation as to amount.

(7) The proceeds from the sale of bonds and notes issued under this chapter shall be used only for the object or purpose or objects or purposes specified in the ordinance authorizing such bonds or notes for the payment of the principal of and interest on temporary loans made in anticipation of the sale of such bonds or notes. If for any reason any part of such proceeds is not applied to or is not necessary for such purposes, such unexpended part of such proceeds shall be applied to the payment of the principal of or interest on such bonds or notes no later than the earliest date on which such bonds or notes may be called for redemption without premium, or shall be applied as set forth in such ordinance or resolution, or a subsequent ordinance or resolution of the County.

(8) All bonds, notes or other evidences of indebtedness issued pursuant to this chapter shall recite that they are issued for a purpose or purposes as specified in the authorizing ordinance or resolution and that they are issued pursuant to the terms of the Constitution and laws of this State and the County. Upon the sale and delivery of any such bonds, notes or other evidences of indebtedness against payment, such recitals shall be conclusive as to the right, power and authority of the County to issue the same and of the legality, validity and enforceability of the obligation of the County to pay principal and interest on the same. In case any county official whose signature or a facsimile thereof shall appear on any such bonds, notes or other evidences of indebtedness shall cease to be such officer before the delivery of such obligation, or in case the seal of the County which appears on any such obligation shall change before the delivery of such obligation, such signature, seal or facsimile thereof shall nevertheless be valid and sufficient for all purposes as if such officer had remained in office and as if such seal had not changed. The legality, validity and enforceability of such bonds, notes or other evidences of indebtedness shall never be questioned in any court of law or equity by the County or any person after the issuance, execution and delivery against payment for the same. All such bonds, notes and other evidences of indebtedness are hereby declared to have all the qualities and incidents of negotiable instruments under the Commercial Code of this State.

(9) Notwithstanding any limitations herein to the contrary, the county government may borrow in the anticipation of the collection of taxes or any other revenues budgeted for any purposes for which taxes are levied.

Subchapter II

§ 8131 Definitions [For application of this section, see 81 Del. Laws, c. 314, § 2].

As used in this subchapter:

(1) “Income” means all income from whatever source derived including realized capital gains and, in their entirety, pension, annuity, retirement, and Social Security benefits. For any tax year for which an exemption is claimed, income” is determined to be equal in amount to the income received during the pretax year.
(2) “Pretax year” means the calendar year immediately preceding the “tax year.”

(3) “Resident” means one legally domiciled within the State for a period of 10 years immediately preceding October of the pretax year.

a. Mere seasonal or temporary residence within the State, of whatever duration, does not constitute domicile within the State for the purposes of this subchapter. Absence from this State for a period of 12 months is prima facie evidence of abandonment of domicile in this State. The burden of establishing legal domicile within the State is on the claimant.

b. For claimants establishing legal domicile in this State after December 31, 2018, only claimants who, as of June 30 immediately prior to the beginning of the county fiscal year, have been legally domiciled within the State for a period of at least 10 consecutive years are eligible to receive a credit.

(4) “Tax year” means the calendar year in which the county real estate tax is due and payable.

§ 8132 Qualifications and amount of exemption.

(a) Every person, a resident of this State of the age of 65 or more years, having an income not in excess of $3,000 per year and residing in a dwelling house owned by the person which is a constituent part of the person’s real property, shall be entitled, on proper claim being made therefor, to exemption from taxation on such real property to an assessed valuation not exceeding $5,000 in the aggregate, except that:

(1) No such exemption shall be in addition to any other exemption to which said person may be entitled; and

(2) No such exemption shall be permitted where said person’s spouse lives in said dwelling house and has an income in excess of $3,000 per year.

(b) Nothing in this subchapter shall be construed to apply to property taxes levied within and by a municipality.

(c) Nothing in this subchapter shall be construed to apply to ditch taxes and sewer taxes.

§ 8133 Application for exemption.

(a) No exemption from taxation on the valuation of real property as provided in this subchapter shall be allowed except on written application therefor, which application shall be on a form prescribed by the governing bodies of the respective counties and provided for the use of the claimants under this subchapter by the governing body of the taxing district in which such claim is to be filed.

(b) An application for exemption under this subchapter shall be filed with the assessor of the taxing district by a date determined by the taxing district, which shall not be earlier than 45 days prior to the last date of the pretax year; provided, however, that unless the income of the applicant has changed to exceed the $3,000 allowed, or unless the applicant no longer owns the dwelling which is a constituent part of the applicant’s real property, or unless the applicant’s spouse has income exceeding the $3,000 maximum, annual renewal shall not be required to qualify under this subchapter.

§ 8134 Contents of application.

Every fact essential to support a claim for exemption under this subchapter shall exist on September 1 of the pretax year. Every application by a claimant therefor shall establish that the applicant was, on September 1 of the pretax year:

(1) A resident of this State for the period required;

(2) Of the age of 65 or more years;

(3) The owner of a dwelling house which is a constituent part of the real property for which such exemption is claimed;

(4) Residing in said dwelling house.

Such applicant shall also establish that his or her income for the yearly period as provided by this subchapter did not exceed $3,000, and that his or her spouse, if living in said dwelling house, does not have an income in excess of $3,000.

§ 8135 Allowance of exemption.

If an application is approved by the assessor, the assessor shall allow an exemption from taxation against the assessed valuation of the real property assessed to the claimant in the amount of the claim approved by the assessor.

§ 8136 Continuance of exemption.

Any assessor may, at any time, require the filing of a new application or such proof as the assessor shall deem necessary to establish the right of a claimant to continued exemption. A claimant shall inform the assessor of any change in the assessor’s status or property which may affect the assessor’s right to continuance of exemption.
§ 8137 Tenants in common or joint tenants.
(a) Where title to property on which an exemption is claimed is held by claimant and another or others, either as tenants in common or as joint tenants, claimant shall not be allowed an exemption against the claimant’s interest in said property in excess of the assessed valuation of the claimant’s proportionate share in said property, which proportionate share, for the purposes of this subchapter, shall be deemed to be equal to that of each of the other tenants, unless it is shown that the interests in question are not equal, in which event claimant’s proportionate share shall be as shown.
(b) Nothing in this subchapter shall preclude more than 1 tenant, whether title be held in common or joint tenancy, from claiming exemption against the property so held, but no more than the equivalent of 1 full exemption in regard to such property shall be allowed in any year, and in any case in which the claimants cannot agree as to the apportionment thereof, the exemption shall be apportioned between or among them in proportion to their interest. Property held by husband and wife, as tenants by the entirety, shall be deemed wholly owned by each tenant, but not more than 1 exemption in regard to such property shall be allowed in any year.
(c) Right to claim exemption under this subchapter shall extend to property the title to which is held by a partnership to the extent of the claimant’s interest as a partner therein, and by a guardian, trustee, committee, conservator or other fiduciary for any person who would otherwise be entitled to claim exemption under this subchapter, but not to property the title to which is held by a corporation.

§ 8138 Rules and regulations.
The Department of Finance of New Castle County or Board of Assessments for Kent County or Board of Assessments for Sussex County may promulgate such rules and regulations and prescribe such forms as they shall deem necessary to implement this subchapter. They may, in their discretion, eliminate the necessity for sworn application, in which event all declarations by the claimant shall be considered as if made under oath and the claimants, as to false declarations, shall be subject to the penalties as provided by law for perjury.

§ 8139 Oaths.
Each assessor and collector and his or her duly designated assistants may take and administer the oath, where required, on any claim for exemption under this subchapter and no charge shall be made for the taking of any affidavit or the preparation of any form required by this subchapter.

§ 8140 Appeals.
An aggrieved taxpayer may appeal from the disposition of an exemption claim under this subchapter in the same manner as is provided for appeals from assessments generally.

§ 8141 Exemption from property taxes on real estate in Kent County.
The provisions of this chapter notwithstanding, the Kent County Levy Court shall by ordinance provide for the exemption of real property owned by citizens over age 65 from real estate taxes to such degree and in such manner as it determines will best promote the public welfare; provided, however, that any such ordinance adopted shall include language substantially similar to that of § 8133(b) of this title.

The board of assessment, or any member thereof, may personally inspect each tract, or parcel of real estate, and shall report in writing to the board its or that board member’s opinion as to its value. If it shall appear that any property as returned by the owner or as listed on the books is not sufficiently valued, the board of assessment shall give notice thereof to the owner or person making such return and valuation, and shall fix a day, not less than 10 days after the date of the notice, for a hearing and determination. The powers granted in this section may be exercised by the Department of Finance in Sussex County, the Department of Finance in Kent County and the Department of Land Use in New Castle County.

§ 8318 Adjustment of assessment inequalities between districts.

If any taxable shall make complaint to a board of assessment that the real estate in any election or representative district, as compared with other such districts, is not assessed in a fair and equitable manner, the board, or some member thereof, shall visit personally the district, and inspect personally the properties, the assessment of which is complained of, thereby to equalize and make perfect the assessments.

§ 8319 Reports from those owning or controlling assessable property; procedure; failure to report; penalty.

(a) Each board of assessment may notify in writing any person who owns property liable to assessment, and every person having the care, management or control of real property liable to assessment, to deliver to the board within 30 days after such notice a particular account of the real property owned by him or her, and of property which is in his or her care, management or control, together with the correct name of such owner and his or her place of residence, with the parcels of real estate separated and identified and such other information as may be required by the board. Such return by the owner or agent in respect to real estate shall be made in the same manner in every year if required by the board. Accompanying such written notices shall be a form of schedule for the making of proper returns.

(b) Each board shall have full power and authority to compel any other or further return as occasion may require for the purpose of making additions, corrections or alterations to the assessment lists.

(d) The board may stay a prosecution for any violation of this section, upon the making and filing of a proper return and the payment of a sum of money not exceeding $10 for the use of the county by the person liable, to be fixed by the board, and the costs of prosecution, if any. A copy of this section shall accompany all written notices under this section.

(e) The forms and schedules for the return of taxable property, provided for herein, shall have appended thereto a form of certificate to be signed by the person making the return, or in case of a firm, association of persons, or corporation, by a member of such firm or association of persons, or by an officer of the corporation duly authorized so to act, that the return as made is a true, full and complete list of all real property liable to assessment and taxation and that the return fairly and truly describes the property and truly represents its true condition. The fact that an individual’s name is signed on a certification attached to a corporate report shall be prima facie evidence that such individual is authorized to certify the report on behalf of the corporation; however, the official title or position of the individual signing the corporate report shall be designated.

(f) Nothing in this section shall be construed to apply to a licensed real estate agent having the care, management or control of, for sale or for rent, property of another in respect to such property.

In computing such anticipated yearly gross sales for land under 10 acres in such use, the maximum amount computed from future sales of forestry products shall be not more than $2,000 annually.

In applying these criteria, and in determining whether the minimum acreage requirements are met, all contiguous parcels of land held by identical owners in identical proportions of ownership and in identical legal form of title, shall be considered as a single unit.

(9 Del. C. 1953, § 8331; 56 Del. Laws, c. 373, § 1; 64 Del. Laws, c. 127, § 2; 64 Del. Laws, c. 267, § 2; 65 Del. Laws, c. 65, § 1; 70 Del. Laws, c. 286, § 1.)

Land which is actively devoted to agricultural, horticultural or forest use shall be eligible for valuation, assessment and taxation as provided in this section when it meets the following qualifications:

(1) It has been so devoted for at least the 2 successive years immediately preceding the tax year for which valuation under this section is requested;
§ 8335 Assessment procedures.

(a) The assessor in valuing land which qualifies as land actively devoted to agricultural, horticultural or forestry use under the tests prescribed by this section, and as to which the owner thereof has made timely application for valuation, assessment and taxation under this section for the tax year in issue, shall consider only those indicia of value of such land as established by the State Farmland Evaluation Advisory Committee.

(b) In determining the total area of land actively devoted to agricultural, horticultural or forest use there shall be included the area of all land under barns, sheds, silos, cribs, greenhouses and like structures, lakes, dams, ponds, streams, irrigation ditches and like facilities, but land under, and such additional land as may be actually used in connection with the farmhouse, shall be excluded in determining such total area.

(c) All structures which are located on land in agricultural, horticultural or forest use and the farmhouse and the land on which the farmhouse is located, together with the additional land used in connection therewith, shall be valued, assessed and taxed by the same standards, methods and procedures as other taxable structures and other land in the taxing district.

(d) When land in agricultural use and being valued, assessed and taxed under the provisions of this chapter, is applied to a use other than agriculture, it shall be subject to additional taxes, hereinafter referred to as roll-back taxes, in an amount equal to the difference, if any, between the taxes paid or payable on the basis of the valuation and the assessment authorized hereunder and the taxes that would have been paid or payable had the land been valued, assessed and taxed as other land in the taxing district, in the current tax year immediately preceding in which the land was valued, assessed and taxed hereunder.

(2) The area of such land:

(a) Is not less than 10 acres in such use, and the gross sales of agricultural, horticultural or forestry products produced thereon together with any agricultural program payments and sales of commodities received under government entitlement programs have averaged at least $1,000 per year within a 2-year period of time immediately preceding the tax year in issue, or there is clear evidence of anticipated yearly gross sales and such payments amounting to at least $1,000 per year, within a 2-year period of time; or

(b) Is less than 10 acres in such use and the gross sales of agricultural, horticultural or forestry products produced thereon together with any agricultural program payments and sales of commodities received under government entitlement programs shall have averaged at least $10,000 per year within a 2-year period of time immediately preceding the tax year in issue, or there is clear evidence of anticipated yearly gross sales and such payments amounting to at least $10,000 per year within a 2-year period of time.

In computing such anticipated yearly gross sales for land under 10 acres in such use, the maximum amount computed from future sales of forestry products shall not be more than $2,000 annually.

In applying these criteria, and in determining whether the minimum acreage requirements are met, all contiguous parcels of land held by identical owners in identical proportions of ownership and in identical legal form of title, shall be considered as a single unit.

(3) Application by the owner of such land for valuation under this section is submitted on or before February 1 of the year immediately preceding the tax year to the assessor of the taxing district in which such land is situated on the form prescribed by the State Farmland Evaluation Advisory Committee together with evidence in writing of the required sales, payments and anticipated sales and payments.

(9 Del. C. 1953, § 8331A; 56 Del. Laws, c. 373, § 1; 64 Del. Laws, c. 127, §§ 3, 4; 64 Del. Laws, c. 267, § 3; 65 Del. Laws, c. 65, § 2; 70 Del. Laws, c. 286, § 2.)

§ 8335 Assessment procedures.

(a) The assessor in valuing land which qualifies as land actively devoted to agricultural, horticultural or forestry use under the tests prescribed by this section, and as to which the owner thereof has made timely application for valuation, assessment and taxation under this section for the tax year in issue, shall consider only those indicia of value of such land as established by the State Farmland Evaluation Advisory Committee.

(b) In determining the total area of land actively devoted to agricultural, horticultural or forest use there shall be included the area of all land under barns, sheds, silos, cribs, greenhouses and like structures, lakes, dams, ponds, streams, irrigation ditches and like facilities, but land under, and such additional land as may be actually used in connection with the farmhouse, shall be excluded in determining such total area.

(c) All structures which are located on land in agricultural, horticultural or forest use and the farmhouse and the land on which the farmhouse is located, together with the additional land used in connection therewith, shall be valued, assessed and taxed by the same standards, methods and procedures as other taxable structures and other land in the taxing district.

(d) When land in agricultural use and being valued, assessed and taxed under the provisions of this chapter, is applied to a use other than agriculture, it shall be subject to additional taxes, hereinafter referred to as roll-back taxes, in an amount equal to the difference, if any, between the taxes paid or payable on the basis of the valuation and the assessment authorized hereunder and the taxes that would have been paid or payable had the land been valued, assessed and taxed as other land in the taxing district, in the current tax year immediately preceding in which the land was valued, assessed and taxed hereunder.

(1) If in the tax year in which a change in use of land occurs the land was not valued, assessed and taxed under this chapter, then such land shall be subject to roll-back taxes in the following manner. If the change of the use of land occurs prior to January 1, 1996, then such land shall be subject to roll-back taxes for the 5 tax years immediately preceding in which the land was valued, assessed and taxed hereunder. If the change in use of land occurs between January 1, 1996, and December 31, 1996, then such land shall be subject to roll-back taxes for the 6 tax years immediately preceding in which the land was valued, assessed and taxed hereunder. If the change in use of land occurs between January 1, 1997, and December 31, 1997, then such land shall be subject to roll-back taxes for the 7 tax years immediately preceding in which the land was valued, assessed and taxed hereunder. If the change in use of land occurs between January 1, 1998, and December 31, 1998, then such land shall be subject to roll-back taxes for the 8 tax years immediately preceding in which the land was valued, assessed and taxed hereunder. If the change in use of land occurs between January 1, 1999, and December 31, 1999, then such land shall be subject to roll-back taxes for the 9 tax years immediately preceding in which the land was valued, assessed and taxed hereunder. If the change in use of land occurs on January 1, 2000, or thereafter, then such land shall be subject to roll-back taxes for the 10 tax years immediately preceding in which the land was valued, assessed and taxed hereunder.

(2) In determining the amounts of the roll-back taxes chargeable on land which has undergone a change in use, the assessor shall for each of the roll-back tax years involved, ascertain:

a. The full and fair value of such land under the valuation standard applicable to other land in the taxing district;

b. The amount of the additional assessment on the land for the particular tax year by deducting the amount of the actual assessment on the land for that year from the amount of the land assessment determined by the assessing authority; and

c. The amount of the roll-back tax for that tax year by multiplying the amount of the additional assessment determined under paragraph (d)(2)b. of this section by the general property tax rate of the taxing district applicable for that tax year.
§ 8336 Annual review.

(a) Eligibility of land for valuation, assessment and taxation under this section shall be determined for each tax year separately. Application shall be submitted by the owner to the assessor of the taxing district in which such land is situated on or before February 1 of the year immediately preceding the tax year for which such valuation, assessment and taxation are sought; provided however, that unless the eligibility of land under this section changes, those applications which have met the provisions to qualify under this chapter shall be automatically renewed without the owner having to apply annually. With respect to new applications, eligibility of the land for valuation, assessment and taxation under this section shall be conditioned upon advance execution by the landowner of a certification, in recordable form, as provided by the Delaware Agricultural Lands Preservation Foundation, which certification indicates that a roll-back tax is due and payable to the school districts and the Foundation under the provisions of § 8335(d) of this title at such time that the land is subjected to an agricultural use, and that a failure to pay such roll-back tax shall become payable when the land is applied to a use other than agricultural, horticultural or forestry. The terms “applied to a use other than agriculture” and “change in use” for purposes of this subsection shall include any of the following:

a. The actual use of the land for an activity other than agricultural, horticultural or forestry;

b. The rezoning of the land to a nonagricultural category;

c. The approval of a site plan or issuance of a certificate of occupancy which allows for a nonagricultural usage; and

d. The loss of eligibility for valuation under §§ 8330-8337 of this title.

(b) (1) If the eligibility of land under this section changes the owner shall on or before February 1, of the following year in which the eligibility of the land changes, notify the assessing authority in the taxing district, in writing, of the change in land use.

(2) Any owner who fails to properly notify the assessing authority in the taxing district of the change in land use shall be assessed a penalty for such failure in an amount of 20% of the rollback taxes recoverable against the property, which penalty shall be collected by the taxing district.

(3) Roll-back taxes as provided herein shall become payable when the land is applied to a use other than agricultural, horticultural or forestry. The terms “applied to a use other than agriculture” and “change in use” for purposes of this subsection shall include any of the following:

a. The actual use of the land for an activity other than agricultural, horticultural or forestry;

b. The rezoning of the land to a nonagricultural category;

c. The approval of a site plan or issuance of a certificate of occupancy which allows for a nonagricultural usage; and

d. The loss of eligibility for valuation under §§ 8330-8337 of this title.

(4) Notwithstanding anything in this chapter to the contrary, whenever land in agricultural use is applied to a use other than agriculture, and such land is but a portion of a larger tract of land, the remainder of which continues in agricultural use, roll-back taxes as provided herein shall become payable only with respect to the portion of the land which is applied to a use other than agricultural, and the remainder of the land which continues in agricultural use shall remain eligible for valuation under §§ 8330-8337 of this title, provided the criteria for land use set forth under § 8333 of this title continue to be satisfied. The owner of the land which continues in agricultural use shall not be required to apply for eligibility for valuation, and the burden for establishing ineligibility shall rest with the assessing authority.

(5) Roll-back taxes hereunder shall be paid within 90 days of their due date, and payment thereafter shall include a penalty of 6 percent of the amount due for the first month thereafter, and 1 percent of the amount due for each consecutive month until payment is made. The amount due for roll-back tax shall become a lien on the land which was subject to a change in use or applied to a use other than agriculture as of the due date. The school tax component of the roll-back tax shall be paid to the respective school districts which established the tax rates applicable to the lands through a payment first to the appropriate county receiver of taxes, treasurer or director of finance, who collects school taxes. The balance of the roll-back tax shall, when collected by the appropriate county receiver of taxes, treasurer or director of finance, be paid to the Delaware Agricultural Lands Preservation Foundation; provided, however, that 7 1/2 percent of such balance shall be withheld and paid to the county as a charge for administration. For purposes of this paragraph, the due date shall be the earlier of the date following conversion under paragraph (d)(3) of this section which is established by the respective counties for annual taxes or the date indicated by the county in any special billing for roll-back taxes.

(6) When land in agricultural use and being valued, assessed and taxed under the provisions of this chapter, is acquired for public use by State agencies, whether by condemnation, gift or purchase, and is then applied to a use other than agriculture, that portion of the land which is applied to such other use shall be subject to a payment by the agency in lieu of roll-back taxes, to be paid to the Delaware Agricultural Lands Preservation Foundation. The amount of this payment in lieu shall be determined as if it were the roll-back tax chargeable under this section for the tax year in which the land was acquired by the agency, or the tax year in which the land is applied to such other use, whichever is greater, after first deducting the school tax component of the roll-back tax chargeable for that year. This payment shall be made directly by the agency to the Foundation, after obtaining the assessment information from the appropriate county receiver of taxes, treasurer or director of finance, and shall not be subject to any charge for administration by the county. In all other respects, the land so acquired for such public use shall not be assessed or charged for roll-back or other property taxes by any county, school district or other political subdivision.

§ 8336 Annual review.

(a) Eligibility of land for valuation, assessment and taxation under this section shall be determined for each tax year separately. Application shall be submitted by the owner to the assessor of the taxing district in which such land is situated on or before February 1 of the year immediately preceding the tax year for which such valuation, assessment and taxation are sought; provided however, that unless the eligibility of land under this section changes, those applications which have met the provisions to qualify under this chapter shall be automatically renewed without the owner having to apply annually. With respect to new applications, eligibility of the land for valuation, assessment and taxation under this section shall be conditioned upon advance execution by the landowner of a certification, in recordable form, as provided by the Delaware Agricultural Lands Preservation Foundation, which certification indicates that a roll-back tax is due and payable to the school districts and the Foundation under the provisions of § 8335(d) of this title at such time that the land is subjected to a change in use or applied to a use other than agricultural, horticultural or forestry, as such terms are defined, and that a failure to pay the roll-back tax when due results in the imposition of a lien on the land for nonpayment.

(b) (1) If the eligibility of land under this section changes the owner shall on or before February 1, of the following year in which the eligibility of the land changes, notify the assessing authority in the taxing district, in writing, of the change in land use.

(2) Any owner who fails to properly notify the assessing authority in the taxing district of the change in land use shall be assessed a penalty for such failure in an amount of 20% of the rollback taxes recoverable against the property, which penalty shall be collected by the taxing district.

No more than 2 members of the Committee shall be of the same political party. Each member shall be a citizen of this State and shall be appointed for a term of 3 years beginning on the 1st day of July in the year of appointment. Vacancies for any cause other than the expiration of term shall be filled by the Governor for the unexpired term.

(b) The Committee shall meet from time to time on the call of the Dean of the College of Agricultural Sciences and annually determine and publish a range of values for each of the several classifications of land in agricultural, horticultural or forest use in the various areas of the State. The primary objective of the Committee shall be the determination of the ranges in fair value of such land based upon its productive capabilities when devoted to agricultural, horticultural or forest uses. In making these annual determinations of value, the Committee shall consider available evidence of agricultural, horticultural or forest capability derived from the soil survey and such other evidence of value of land devoted exclusively to agricultural, horticultural or forest uses as it may in its judgment deem pertinent. On or before February 1 of each year, the Committee shall make these ranges of fair value available to the assessing authority in each of the taxing districts in which land in agricultural, horticultural and forest use is located. The Committee shall review at least every 2 years the formula, method or system being utilized to determine the ranges of fair values for agricultural, horticultural and forestry land and make such changes and revisions as are required to insure that the objectives of this section are met. The formula used by the Committee shall be based on not less than the preceding 20 years of land values.

If service, as in other civil actions or actions of debt, be had upon any 1 of several owners of real estate upon which taxes are levied, service need not be had upon the other owner or owners of the real estate, if a copy of the writ is left with the tenant in possession or posted upon the premises 6 days before the return of the process. In such an action, it shall be sufficient to set forth that the action is to recover a specified sum of money being a tax assessed against property owned by the defendant in whole or in part, together with such description of the property, as will be sufficient to identify the same and the year for which the taxes were levied.

(b) A right of appeal shall be the same as in other civil actions.

(c) In case any defendant is a nonresident or a corporation not organized under the laws of this State, proceedings may be had in the Superior Court for the county by attachment. The writ of attachment shall be framed, directed, executed and returned and like proceedings had as in other cases of foreign attachment in this State, except that the Office of Finance shall only be required to make and file with the Prothonotary an affidavit stating that the defendant resides out of the State or is a corporation not existing under the laws of the State (as the case may be), and that the defendant or it is justly indebted for taxes in the sum of . . . . . dollars.

§ 8709 Actions for recovery in New Castle County — Judgments; execution.

If judgment be rendered in favor of the Office of Finance in an action under § 8708 of this title, an execution shall issue against the real or personal estate of the defendant. No execution against the real estate shall issue except out of the Superior Court. Where such judgment is recovered before the Court of Common Pleas or before a justice of the peace and it is the desire of the Office of Finance to proceed against the real estate, the Office of Finance shall take a transcript of the judgment from the Court of Common Pleas or justice of the peace and cause the same to be entered in the Superior Court in and for New Castle County. When such transcripts are entered, the subsequent proceedings shall be the same as upon other judgments. The lien of the judgment shall relate back and take effect from July 1 of the year for which the taxes upon which the judgment was recovered were levied.

§ 8710 Actions for recovery in Kent and Sussex Counties; judgments; execution.

(a) At any time after the delivery of the duplicates and warrants and without notice to the taxable, the tax collecting authority may institute suit before any justice of the peace of this State in any of the counties in the State for the recovery of any tax due and unpaid, and,
in an action of debt, may recover judgment against any taxable, and upon such judgment may sue out writs of execution as in case of other judgments recovered before a justice of the peace. The action shall be brought in the name of “................. Receiver of Taxes and County Treasurer for ................. County.” In Sussex County, the action should be brought in the name “................. Director of Finance for Sussex County.”

(b) In Sussex County execution shall be and constitute a lien upon all the personal property of the taxable within the County of Sussex which, by virtue of the execution, shall be levied upon within 30 days after the issuance thereof, and such lien shall have preference and priority to all other liens on the personal property created or suffered by the taxable, although such other lien or liens be of a date prior to the time of the attachment of such lien for taxes.

§ 8711 Attachment of wages.

(a) Any tax collecting authority may at any time notify in writing the person or corporation by whom any taxable is employed that the tax of the employee is due, delinquent and unpaid, and thereupon the employer shall deduct from the wages, or from any sum due such employee, the amount of the tax due from such employee, and charge the same against the employee. If such employer refuses or neglects to comply with the provisions of this section within 3 months from the time of receiving such notice, the employer shall be personally liable for the tax of such person as to whom notice has been given. The amount of the tax may be recovered from such employer by the tax collecting authority in an action of debt before any justice of the peace.

(b) When the amount of such tax is held by any employer under the provisions of this section, the employer shall pay the same to the tax collecting authority within 30 days thereafter. A copy of this section shall accompany all written notices to employers.

§ 8721 Monition method established.

In addition to all existing methods and authority for the collection of taxes due to the tax collecting authority, or former County Tax Collectors, or former Receivers of Taxes and County Treasurers of New Castle or Sussex Counties, the monition method and authority is established.

§ 8722 Praecipe; judgment; monition.

(a) The tax collecting authority may file a praecipe in the office of the prothonotary of the Superior Court in and for the county where the property is located.

(b) The praecipe shall contain the name of the person against whom the taxes sought to be collected were assessed, a copy of the bill or bills showing the amount of taxes due, and the property against which the taxes were assessed. The description of the property, as the same appears upon the assessment rolls of the county where the property is located, shall be a sufficient identification and description of the property. Thereupon the prothonotary shall make a record of the same on a special judgment docket of the Superior Court against the property mentioned or described in the praecipe which record shall consist of the following:

1. The name of the person in whose name the assessment was made;
2. The description of the property as the same shall appear upon the assessment rolls;
3. The year or years for which the taxes are due and payable;
4. The date of the filing of such praecipe;
5. The amount of the judgment, the same being the amount set forth in the praecipe.

Such judgment shall be indexed in the judgment docket itself under the hundred in which the property is located as the location appears upon the assessment rolls so prepared, and under the hundred by communities where the name of the community appears upon the assessment rolls so prepared, and by referring to the page in the judgment docket whereon the record shall appear.

(c) Thereafter upon a praecipe for monition filed in the office of the prothonotary by the tax collecting authority, a monition shall be issued by the prothonotary to the sheriff of the county where the property is located, which monition shall briefly state the amount of the judgment for the taxes due and the years thereof, including accrued penalty thereon, together with a brief description of the property upon which the taxes are a lien. A description of the property as it appears upon the assessment rolls shall be sufficient.

(d) The tax collecting authority for New Castle, Kent and Sussex Counties may initiate and complete the monitions process against any property designated by the authority as having an unknown owner for a continuous period in excess of 5 years. Notwithstanding that an
investigation of chain of title to such property has not been performed, and notwithstanding any provision of this chapter to the contrary, the taxing authority shall be exempted from any obligation expressed therein that cannot be satisfied due to the absence of a known owner, including but not limited to notification of sale to the record owner and provision of copies of bills showing amounts due.

§ 8723 Form of monition.

The monition shall be in substantially the following form:
